Filing Description:

The Endorsement and corresponding rate change submission referenced above are provided to the Department on behalf of RiverSource Life Insurance Company (“RiverSource”). A letter from RiverSource authorizing Milliman to conduct this filing is included with this submission.

Enclosed is a copy of Endorsement form 132166. Form 132166 is designed to change any reference to attained insurance age 100 to attained insurance age 120; change the determination of the Insured's age from an age last birthday basis to an age nearest birthday basis; state that although no-lapse cost of insurance rates may be reduced more than once in the future, they will never increase above the new rate; and, update the methodology for calculating the premium load in the no lapse value account. Form 132166 will modify form 134581-AR, which was approved by the Department on 09-27-2006 (State Tracking # 33766, SERFF Tracking # SERT-6T4KZ6939). Please note that form 134581-AR was originally filed and approved with the 2001 CSO Tables.

Due to the changes outlined above, revisions were made to the base policy's guaranteed and current cost of insurance rates, surrender charges, along with the charges in the no-lapse value account. Once approved, these changes will be applicable to new policy issues.

Included with this submission are an actuarial memorandum, rate tables, and sample Policy Data pages. The Policy Data pages are provided for informational purposes only. No Policy Data language has been changed, and they reflect only the impact of the changes filed with this submission.

This submission contains no unusual or controversial items from the standpoint of normal company or industry standards. Your prompt review and approval of this submission will be greatly appreciated.

# Endorsement

This endorsement is made a part of the policy to which it is attached. It changes certain terms of this policy.

I. All references in the policy to "**youngest insured's attained insurance age 100 anniversary**" are changed to read "**youngest insured's attained insurance age 120 anniversary**": However, this change does not apply to the provision entitled **Disclosure** in the **DEATH BENEFITS** section of the policy:

II. The provision entitled **No-Lapse Premium Expense Charge** in the **PREMIUMS** section of the policy is changed to read as follows:

The level no-lapse premium expense charge, as shown under Policy Data, applies to all premium paid into the policy. The level no-lapse premium expense charge will be applied to the lesser of (a) or (b) where:

(a) is the current premium payment; and
(b) is the cumulative no-lapse expense premium since issue, less premium paid to date that was previously subject to the level no-lapse premium expense charge.

The excess no-lapse premium expense charge, as shown under Policy Data, will be applied to the current premium payment less the amount of the current premium which was subject to the level no-lapse premium expense charge determined above.

The cumulative no-lapse expense premium is the no-lapse expense premium, as shown under Policy Data, times the number of years since the policy date, including the current year.

An additional no-lapse expense premium will be added if the specified amount is increased or riders are added. A pro rata amount equal to the number of full months from the date of change to the next policy anniversary divided by twelve times the additional no-lapse expense premium will be added to the cumulative no-lapse expense premium at the date of the change. The full amount of the additional no-lapse expense premium will be added to the cumulative no-lapse expense premium on each policy anniversary thereafter.

III. In the provision entitled **No-Lapse Cost of Insurance** in the **PREMIUMS** section of the policy, the following paragraph is added:

We reserve the right to reduce the no-lapse cost of insurance rates from the no-lapse cost of insurance rates shown under Policy Data. If the no-lapse cost of insurance rates are reduced from the no-lapse cost of insurance rates shown under Policy Data, the no-lapse cost of insurance rates may be reduced again, but will never increase. Any change will apply to all individuals of the same risk classification as the insured and will be determined by us based on our expectations of future investment earnings, mortality, persistency, expenses, reinsurance costs, reserve assumptions, state tax assumptions, and/or federal income tax assumptions.

IV. In the **Percentage of Policy Value Table** in the **DEATH BENEFITS** section of the policy, the last entry of "**95-100**" is changed to read "**95-120**":

This endorsement is issued as of the policy date of this policy.

**RiverSource Life Insurance Company**

**Secretary**

For insured with a Super-Preferred Non-Tobacco, Preferred Non-Tobacco, or Standard Non-Tobacco risk class, the above Non-Tobacco rates will apply. For Insureds with a Preferred Tobacco or Standard Tobacco risk class, the above Tobacco rates will apply. For insureds with a risk clasification other than the five classes listed in the prior two sentences (substandard), the guaranteed annual cost of insurance rates are calculated by multiplying the above annual by the Special Class Risk factor.

**Arkansas Compliance Certification**

Company: RiverSource Life Insurance Company

Forms: 132166 **ENDORSEMENT**

On behalf of IDS Life Insurance Company (Company) I certify the following requirements have been reviewed and the form and Company practices are in compliance with the following.

**1. Ark. Code Ann. 23-79-138 Information to accompany policies**

An information notice including; (1) the complete address and telephone number of the policyholder's service office of the company, (2) the name, address, and telephone number of the agent soliciting the policy, if applicable, and (3) the address and telephone number of the Arkansas State Insurance Department is provided to the policy owner.

**2. Regulation 49 Life and Disability Guaranty Fund Notices**

The Company provides a Life and Health Guaranty Notice to each policy owner.

**3. Regulation 19 Unfair Sex Discrimination in the Sale of Insurance**

The Company certifies it meets the provisions of this rule as well as all applicable requirements of the Department.

The table above is based on the "2000 Individual Annuitant Mortality Table A" at 2.00% with 100% Projection Scale G. Settlement rates for any year, age, or any combination of year, age and sex not shown above, will be calculated on the same basis as those rates shown in the table above. We will furnish such rates upon request.
