IUL04 AR -- Flexible Premium Adjustable Life Insurance Policy with an Index Account Option
IUL05 AR -- Flexible Premium Adjustable Life Insurance Policy with an Index Account Option
BIR07 -- Base Insured Rider
AIR13 -- Additional Insured Rider

Dear Sir/Madam:

We have enclosed the individual flexible premium adjustable life insurance policies and individual insurance riders indicated above. These are new forms and are not intended to replace any forms previously approved by your Department. These forms have been submitted in the final printed form in which they will be distributed to policy owners. These forms are subject to only minor modifications in paper size and stock, ink, border, company logo, company address, adaptation to computer printing and officers' signatures. These forms are also being submitted for our sister companies:

Monumental Life Insurance Company under SERFF Tracking Number AEGB-127135521
Stonebridge Life Insurance Company under SERFF Tracking Number AEGB-127135524
Western Reserve Life Assurance Co. of Ohio under SERFF Tracking Number AEGB-127135523

Flexible Premium Adjustable Life Insurance Policy with an Index Account Option IUL04 AR: This policy has a built-in index feature that allows the owner to allocate net premiums to either a basic interest account or an index account (initially, the S&P 500® Index). The owner elects the allocation percentage(s) on the application for insurance. Interest on the basic interest account segments is credited at rates we declare, but will never be less than 2%. Excess index interest may be credited on premiums allocated to the index account based on any annual growth (excluding dividend income), but will never be less than 1%. The annual growth in the index account will be limited to a cap, which we declare on an annual basis for each segment. We may add additional index accounts in the future. Premiums are flexible and are payable while the policy remains in force.

Flexible Premium Adjustable Life Insurance Policy with an Index Account Option IUL05 AR: This policy is identical to policy IUL04 AR, except that the index account is based on a combination of the S&P 500® Index, the EURO STOXX 50® and the Hang Seng Index.

Base Insured Rider BIR07 AR: If the owner elects this rider, we will pay an additional death benefit for the person who is insured under the policy if he/she dies while the rider is in effect. This rider will be available for issue ages 18-85 and terminates at age 100. The owner may exchange the rider, without evidence of insurability, for a new policy on the base insured's life at any time prior to the base insured's 86th birthday.

Additional Insured Rider AIR13 AR: If the owner elects this rider, we will pay a death benefit for each additional person who is insured under the rider if he/she dies while the rider is in effect. This rider will be available for issue ages 18-85 and will terminate at age 100. The owner may exchange the rider, without evidence of insurability, for a new policy on an additional insured's life at any time prior to that additional insured's 86th birthday.

We intend to market these forms to the general public.

These policies are being declared as "illustratable" and each policy will include a custom illustration when it is issued.

We intend to use the following applications with these policies:

Application for Insurance L 114 1207 AR approved 01/07/08 under SERFF Tracking Number AEGB-125397619
Supplemental Life Application SAIUL1208T approved 06/04/09 under SERFF Tracking Number AEGB-125986267

Thank you in advance for your time and attention.

Sincerely,

TRANSAMERICA LIFE INSURANCE COMPANY

10 DAY RIGHT TO CANCEL - You may cancel this policy by delivering or mailing a Written Request to us or to the agent from whom it was purchased. You must return the policy to us or the agent before midnight of the 10th day after the day you receive it (or such longer period as may be required by applicable law in the state where the policy is delivered or issued for delivery). Your Written Request given by mail and return of the policy by mail are effective on being postmarked, properly addressed and postage prepaid. We must return all payments made for this policy, including any fees or charges, and less any Loan Balance and withdrawals, within 30 days after we receive notice of cancellation and the returned policy.

If you are terminating or borrowing from another life insurance policy owned by you in connection with your purchase of this policy, then this policy may be considered a replacement policy. If this policy is a replacement policy, your right to cancel is extended to midnight of the 30th day after the day you receive it (or such longer period as may be required by applicable law in the state where the policy is delivered or issued for delivery).

Flexible Premium Adjustable Life Insurance
With an Index Account Option
Flexible Premiums Payable Until the Insured's Age 121
Death Benefit Payable at Death of Insured
Nonparticipating - No Dividends

WHILE POLICY VALUES MAY BE AFFECTED BY AN EXTERNAL INDEX OR INDEXES, THIS POLICY DOES NOT DIRECTLY PARTICIPATE IN ANY STOCK OR EQUITY INVESTMENT.

THIS POLICY PROVIDES INSURANCE BEYOND AGE 100. THE INTERNAL REVENUE SERVICE HAS NOT ISSUED ANY OFFICIAL GUIDELINES REGARDING QUALIFICATION AS LIFE INSURANCE BEYOND AGE 100. THIS POLICY MAY NOT QUALIFY AS LIFE INSURANCE BEYOND AGE 100 AND MAY BE SUBJECT TO ADVERSE TAX CONSEQUENCES. CONSULT YOUR TAX ADVISOR REGARDING ANY POSSIBLE TAX CONSEQUENCES.

This policy is a legal contract between you and the Company.

READ YOUR POLICY CAREFULLY

DEFINITIONS

Account Option An account to which you may allocate Net Premiums and/or Transfers. The Account Options are the Basic Interest Account and the Index Account(s).

Age A person's age in years on his or her last birthday, unless otherwise specified. For purposes of this policy, the Insured's Age changes on each Policy Anniversary.

Basic Interest Account An Account Option for which the interest will be based on rates declared by us. The Basic Interest Account is comprised of Basic Interest Account Segments. The value of the Basic Interest Account is the sum of the values of those Segments plus any amount(s) pending application to a Basic Interest Account Segment.

Beginning Date The first Monthly Policy Date for a Segment. The Beginning Date is reset on the Segment's Ending Date.

Beneficiary A person designated to receive all or a portion of the death benefit on the death of the Insured. You may name both a Primary and Contingent Beneficiary. A Primary or Contingent Beneficiary named on the application may be changed as provided in this policy.

Cap The maximum Index Change that can be used to determine the Excess Index Interest credited to an Index Account Segment. Each Index Account Segment may have a different Cap. Caps are declared by us at our discretion.

Cash Surrender Value The amount available upon surrender of this policy. The Cash Surrender Value equals the Policy Value less any surrender charge and less any Loan Balance.

Current Interest Rate The rate at which interest will be credited to a Basic Interest Account Segment. Current Interest Rates are declared by us at our discretion. Different Current Interest Rates may apply to different Basic Interest Account Segments.

Date of Issue The date this policy is prepared in our office. The Date of Issue is shown in the Policy Data. The Date of Issue may or may not be the same as the Policy Date.

Ending Date The date used to determine the ending value of a Segment. The Ending Date for a Segment is the last Monthly Policy Date in its Segment Period and is the same date as the next Beginning Date. The Ending Date is reset at that time for the next Segment.

Excess Index Interest Any interest credited to an Index Account Segment in excess of interest credited at the Index Account Guaranteed Minimum Interest Rate. Any Excess Index Interest for a Segment will only be credited as of that Segment's Ending Date.

Face Amount An amount used in determining the amount of this policy's death benefit. The initial Face Amount is shown in the Policy Data. The actual amount we pay on the death of the Insured may be affected by tax law requirements and may be adjusted as described in this policy.

Index A securities index designated by us for use in calculating Excess Index Interest. The current value of each Index is available by contacting us at our Administrative Office.

Index Account An Account Option for which any interest in excess of the minimum guaranteed rate will be based in part on changes in the values of published Indexes. A list of all of the Index Accounts in this policy on the Policy Date is shown in the Policy Data. We may discontinue existing Index Accounts or make other Index Accounts available in the future.

Index Account Monthly Charge A charge we deduct from each Index Account on each Monthly Policy Date up to the Insured's Age 121.

Index Change The percentage change in the applicable Index Values from an Index Account Segment's Beginning Date to its Ending Date, adjusted as set forth in the Calculating the Index Change provision. The Index Change will be used to determine the Excess Index Interest, if any. The Index Change may be determined differently for different Index Accounts.

Index Value The value of an Index as stated by its publisher.

In Force Insurance coverage is in effect and has not terminated.

Insured The person whose life is insured under this policy. The Insured is identified in the Policy Data.

Lapse Termination of this policy at the end of a grace period due to insufficient Cash Surrender Value.

Loan Balance The sum of any unpaid policy loans and loan interest. We will deduct any Loan Balance from any amounts payable by us under this policy.

Loan Reserve The portion of the Policy Value transferred from the Account Options when you borrow from this policy. The Loan Reserve is credited with interest separately from the Account Options.

Minimum Monthly No Lapse Premium The amount you must pay to keep the No Lapse Guarantee in effect. This amount is shown in the Table of Minimum Monthly No Lapse Premiums in the Policy Data. The Minimum Monthly No Lapse Premium may be changed as provided in this policy.

Monthly Policy Date The day of each month coinciding with the Policy Date. If there is no day in a calendar month that coincides with the Policy Date, the Monthly Policy Date for that month will be the first day of the following month.

Monthly Deduction A charge we deduct from the Policy Value on each Monthly Policy Date up to the Insured's Age 121.

Net Premium Any premium you pay minus the Premium Expense Charge.

Policy Anniversary The same day and month as the Policy Date for each year this policy remains In Force.

Policy Date The date coverage is effective under this policy. We will use the Policy Date to determine the Monthly Policy Dates, Policy Months, Policy Years and Policy Anniversaries. The Policy Date is shown in the Policy Data.

Policy Month The one-month period beginning on each Monthly Policy Date.

Policy Value The sum of the values of the Account Options, plus the amount of the Loan Reserve, if any.

Policy Year	The 12-month period directly preceding a Policy Anniversary.
Qualified Additional Benefits	Specific benefits defined as such in Section 7702 of the Internal Revenue Code.
Reinstate	To restore coverage after this policy has Lapsed, in accordance with the Reinstatement provision.
Rider	An attachment to this policy that provides an additional benefit.
Segment	A component of the Basic Interest Account or of an Index Account. Net Premiums and Transfers are applied to Segments. Each Segment is assigned a number corresponding to the Policy Month in which it is created.
Segment Period	The number of Policy Months from a Segment's Beginning Date to its Ending Date. The Segment Period may be different for each Account Option. The listing of Index Accounts in the Policy Data shows the length of their respective Segment Periods.
Transfer	Movement of part or all of the value of a Segment to or from another Account Option.
Written Request	A signed request in a form satisfactory to us that is received at our Administrative Office.
You and **your**	The owner of this policy. The owner as of the Date of Issue is shown in the Policy Data. Ownership may be transferred as provided in this policy. Following a transfer of ownership, you and your will refer to the new owner.

OWNERSHIP

Owner of the Policy	The owner may exercise all rights under this policy during the Insured's lifetime, including the right to transfer ownership subject to applicable law and regulation. If ownership is shared by more than one person, all such persons must act together to exercise a right. Unless otherwise specified, if a co-owner dies during the Insured's lifetime, the co-owner's interest in this policy will pass to the remaining co-owners. If the owner or all co-owners die during the Insured's lifetime, ownership will pass to the contingent owner, if one has been named; otherwise, ownership will pass to the owner's estate. You may change the owner by filing a Written Request with us. We will not be bound by any change of ownership until we record it in our records. Unless otherwise specified by you, the change will then take effect as of the date the change is signed by you, subject to any payments made or actions taken by us prior to our recording of the change.
Assignment of the Policy	You may assign this policy by filing a Written Request with us. We will not be bound by any assignment until we record it in our records. Unless otherwise specified by you, the assignment will then take effect on the date the assignment is signed by you, subject to any payments made or actions taken by us prior to our recording of the assignment. We assume no responsibility for the validity or effect of any assignment of this policy or of any interest in it. Any death benefit which becomes payable to an assignee will be payable in a single sum and will be subject to proof of the assignee's interest and the extent of the assignment.

Policy Statements

We will send you a statement at least once a year without charge showing the following information about this policy:

1. The beginning and ending dates of the current statement period.
2. The Policy Value, if any, at the beginning of the current statement period and at the end of the current statement period.
3. The amounts that have been credited or debited to the Policy Value during the current statement period, including the type for each.
4. The death benefit at the end of the current statement period.
5. The policy's Cash Surrender Value, if any, at the end of the current statement period.
6. The amount of any Loan Balance at the end of the current statement period.
7. The Monthly Deduction and Index Account Monthly Charge as of the statement date.
8. If applicable, a notice that, assuming guaranteed interest and guaranteed charges, the policy's Cash Surrender Value will not maintain insurance In Force until the end of the next statement period unless further premium payments are made.

Illustrations

Upon Written Request at any time after the first Policy Year, we will send you an illustration of this policy's benefits and values. There will be no charge for the first such illustration in a Policy Year. We reserve the right to charge a $25 fee for any illustration after the first in any Policy Year.

THE BENEFICIARY

Who Receives the Death Benefit

When the death benefit is payable under this policy, we will pay it to the Primary Beneficiary named by you in accordance with this policy. If no Primary Beneficiary has been designated, or if the interest of all designated Primary Beneficiaries has ended before we make payment of the death benefit, we will pay the death benefit to the Contingent Beneficiary, if one has been named. If the interest of all designated Primary and Contingent Beneficiaries has ended before we make payment of the death benefit, we will pay the death benefit to you. If you are not living at the time, we will pay the death benefit to the executor or administrator of your estate.

Unless you specify otherwise, the following will apply:

1. If any Beneficiary dies before the Insured, at the same time as the Insured, or within 30 days after the Insured, that Beneficiary's interest in the death benefit will end, except as to any death benefits we have already paid to that Beneficiary.
2. If a Beneficiary is a partnership, we will pay the death benefit to the partnership as it existed when the Insured died.

How to Change a Beneficiary

You may name or change a Primary or Contingent Beneficiary while the Insured is living by sending us a Written Request. The change will not be effective until we record it in our records. Even if the Insured is not living when we record the change, the change will take effect as of the date it was signed. However, any benefits we pay before we record the change will not be subject to the change.

A Beneficiary designated irrevocably may not be changed without the written consent of that Beneficiary.

THE DEATH BENEFIT

The amount of the death benefit is determined in part by which Death Benefit Option is in effect. The Policy Data shows which Death Benefit Option (Level or Increasing) is in effect as of the Policy Date.

Amount of the Death Benefit

If the Level option is in effect, the death benefit is the greatest of:

1. The Face Amount; or
2. The death benefit determined by the method described below that corresponds to the Life Insurance Compliance Test shown in the Policy Data:
   a) Guideline Premium Test: The appropriate Death Benefit Factor multiplied by the Policy Value; or
   b) Cash Value Accumulation Test: The appropriate Death Benefit Factor multiplied by the difference between the Policy Value and any applicable Net Single Premiums for Riders (which are Qualified Additional Benefits), as shown in the Policy Data; or
3. The minimum amount required for this policy to qualify as a life insurance contract under Section 7702 of the Internal Revenue Code.

If the Increasing option is in effect, the death benefit is the greatest of:

1. The Face Amount plus the Policy Value; or
2. The death benefit determined by the method described below that corresponds to the Life Insurance Compliance Test shown in the Policy Data:
   a) Guideline Premium Test: The appropriate Death Benefit Factor multiplied by the Policy Value; or
   b) Cash Value Accumulation Test: The appropriate Death Benefit Factor multiplied by the difference between the Policy Value and any applicable Net Single Premiums for Riders (which are Qualified Additional Benefits), as shown in the Policy Data; or
3. The minimum amount required for this policy to qualify as a life insurance contract under Section 7702 of the Internal Revenue Code.

The "appropriate Death Benefit Factor" means the Death Benefit Factor as shown in the Policy Data for the Insured's Age as of his or her death.

The death benefit after the Insured's Age 121 will be at least the Policy Value minus any Loan Balance.

The amount of the death benefit may be affected by the Misstatement of Age or Sex in the Application provision of this policy.

Change of Death Benefit Option

After the third Policy Anniversary and before the Insured's Age 95, you may request a change of the Death Benefit Option. You may change the Death Benefit Option no more than once during any Policy Year. The change will go into effect on the Monthly Policy Date on or following the date we approve the request. If you change from the Level option to the Increasing option, the Face Amount will be decreased by the Policy Value as of the date of the change. However, no change will be allowed if the resulting Face Amount would be less than the Minimum Face Amount shown in the Policy Data. If you change from the Increasing option to the Level option, the Face Amount will be increased by the amount of the Policy Value as of the date of the change.

Change in Face Amount

The Initial Face Amount for this policy is shown in the Policy Data. You may request an increase or decrease in the Face Amount by sending a Written Request to our Administrative Office. However, you may not change the Face Amount more than once during any Policy Year. Any change in the Face Amount will take effect on the first Monthly Policy Date following our approval of your request. If you request a change in the Face Amount and if the change is approved by us, we will notify you when the change has been made.

Increasing the Face Amount

You may request an increase in the Face Amount after the first Policy Anniversary. A new application will be required. The minimum increase is $25,000. Any increase will be subject to our underwriting requirements as well as to this policy's Incontestability and Suicide provisions.

The Face Amount increase will have its own Monthly Cost of Insurance Rates, Monthly Expense Charge Per Thousand rates, and surrender charges. We will notify you of the Monthly Expense Charge Per Thousand rates and surrender charges at the time of the increase in the Face Amount.

Decreasing the Face Amount

You may request a decrease in the Face Amount after the third Policy Anniversary. You may not decrease the Face Amount below the Minimum Face Amount shown in the Policy Data. Reductions in the Face Amount will be applied in the following order:

1. To the most recent increase in the Face Amount.
2. To the next most recent increase and then to each preceding increase in the Face Amount.
3. To the Initial Face Amount or the current Face Amount, if less.

We may require a Face Amount decrease to be at least $25,000. Until the later of the end of the Surrender Charge Period or the Policy Anniversary at the Insured's Age 65, we may limit decreases to no more than 20% of the Face Amount prior to the decrease.

No surrender charge is taken when a Face Amount decrease occurs, and the full surrender charge remains in effect until surrender of this policy.

After the decrease, the Monthly Cost of Insurance Rates and Monthly Expense Charge Per Thousand rates will be based on the new Face Amount of this policy. These rates may be higher than the rates at which this policy was originally issued.

Tax Qualification

This policy is intended to qualify under Section 7702 of the Internal Revenue Code as a life insurance contract for federal tax purposes. The death benefit under this policy is intended to qualify for the federal income tax exclusion. The provisions of this policy (including any Rider or endorsement) will be interpreted to ensure tax qualification, regardless of any language in this policy to the contrary.

To the extent that the death benefit is increased to maintain this policy's qualification as a life insurance contract, appropriate adjustments will be made in any Monthly Deductions and Policy Value as of that time, retroactively or otherwise, that are consistent with such an increase. Retroactive adjustments to the Monthly Deduction may be made by deducting them from any death benefit payable. Prospective adjustments will be reflected in the Monthly Deduction.

PAYMENT OF THE DEATH BENEFIT

Proof of Death

We will pay any benefit payable because of death when we receive due proof that the Insured's death occurred while this policy was In Force. The proof must be sent to us at our Administrative Office. We will send appropriate forms to the Beneficiary upon request. Any of our agents will help the Beneficiary fill out the forms without charge.

Adjustments to the Death Benefit

We will reduce the death benefit by any Loan Balance and by any amount necessary to provide insurance to the date of the Insured's death occurring during a grace period. If the Policy Value is negative, we will also deduct the lesser of the amount necessary to raise the Policy Value to zero or the amount necessary to ensure the No Lapse Guarantee remains in effect. We will add to the death benefit any amount payable under any attached Rider, subject to its terms. We will also add to the death benefit the portion of any Monthly Deduction and Index Account Monthly Charge we have taken for the time between the date of the Insured's death and the next Monthly Policy Date.

We will refund any premiums we receive after the Insured's death. However, except as outlined in the Premium Limitations provision, we will not refund any premiums we receive prior to the Insured's death regardless of timing or amount of the premiums.

Interest from Date of Death

We will pay interest on the death benefit under this policy after we receive due proof of the Insured's death. We will pay interest on the death benefit from the date of death to the date of payment. The annual interest rate will be at least 1%.

We will pay additional interest at a rate of 10% annually, beginning with the date that is 31 calendar days from the latest of items 1, 2 and 3 below to the date payment is made:

1. The date we receive due proof of the Insured's death.
2. The date we receive sufficient information to determine our liability, the extent of our liability and the appropriate payee legally entitled to the death benefit.
3. The date that legal impediments to payment of the death benefit that depend on the action of parties other than us are resolved and sufficient evidence is provided to us. Legal impediments include, but are not limited to:
   a) The establishment of guardianships and conservatorships;
   b) The appointment and qualification of trustees, executors and administrators; and
   c) The submission of information required to satisfy state and federal reporting requirements.

If the death benefit includes a refund of premiums received by us after the Insured's death and we do not refund those premiums within 30 days after we receive due proof of the Insured's death, we will pay interest on such refund from the date of death to the date of payment. The interest rate will be determined by us, but will never be less than 1%.

PREMIUMS

Premiums

Premiums for this policy are flexible. Subject to the requirements below, you may pay any amount at any time. If you do not pay sufficient premiums, this policy will Lapse.

The Initial Premium shown in the Policy Data is payable on or before the Policy Date. Subsequent premiums should be sent to our Administrative Office or as otherwise instructed by us. We will give you a receipt if you ask for one.

You may pay premiums at any time while the Insured is living and prior to the Insured's Age 121. Each premium must be at least $25 and may not exceed the limits described in the Premium Limitations provision below.

No further premium payments will be accepted after the Insured's Age 121, except for amounts paid within a grace period that are required to keep this policy In Force.

Planned Premiums

The amount and frequency of the Planned Premiums are shown in the Policy Data.

Premium Limitations

We reserve the right to refund any premium payment in excess of the Planned Premiums shown in the Policy Data if the total premium paid during that Policy Year:

1. Increases the difference between the death benefit and the Policy Value; or
2. Is more than $20 per $1,000 of Face Amount and more than three times the total of the Monthly Deductions for the last Policy Year.

We also reserve the right to refund any premiums that exceed the Planned Premiums shown in the Policy Data by more than $25,000 in any 12-month period.

We will not refund any amount if doing so would cause the Cash Surrender Value to become negative before the next Policy Anniversary.

Excess Premiums

If the premiums paid during a Policy Year exceed the limit on premiums allowed into the policy under Section 7702 of the Internal Revenue Code, and regulations thereunder, for this policy to qualify as a life insurance contract for federal income tax purposes, we will withdraw from the policy the excess amount of premiums paid into the policy (together with earnings credited to such excess by us). We will withdraw and refund to you this excess premium (and earnings) within 60 days after the end of that Policy Year. The excess premiums and earnings will not be refunded to the extent:

1. They are necessary to continue the policy through the end of that Policy Year; and
2. The Cash Surrender Value at the end of that Policy Year did not exceed zero.

A premium refund (but not including any earnings thereon) may also be required as a result of a decrease in the Face Amount or other change in the benefits or terms of the policy which may lower the limit on premium amount allowable into this policy for federal income tax purposes.

We will apply any premium refund amount to any Loan Balance before refunding any excess to you.

The amount refundable will not exceed the Cash Surrender Value of the policy. If the entire Cash Surrender Value is refunded, we will treat the transaction as a surrender of this policy for its Cash Surrender Value.

LAPSE AND REINSTATEMENT

Continuation of Insurance

If you stop paying premiums, we will continue this policy at the same Face Amount and with any additional benefits provided by Rider, subject to the Grace Period and No Lapse Guarantee provisions.

Grace Period

On each Monthly Policy Date, we will determine whether the Cash Surrender Value is sufficient to prevent this policy from Lapsing.

1. Prior to the Insured's Age 121, the Cash Surrender Value is sufficient if it is more than the total Monthly Deduction and Index Account Monthly Charge due, plus any loan interest due not paid in cash.
2. Beginning at the Insured's Age 121, the Cash Surrender Value is sufficient if it is more than any loan interest due that has not been paid in cash.

If the Cash Surrender Value is insufficient, we will allow a 61 day grace period in which you may pay an amount sufficient to prevent this policy from Lapsing. We will mail a grace period notice to your last known address and to any assignee as shown in our records at least 30 days prior to termination of coverage. The grace period notice will also show the minimum payment required to prevent the policy from Lapsing. You will have the entire grace period within which to remit payment. Any payments sent by U.S. mail must be postmarked within the grace period. If the Insured dies during the grace period before you have paid the required amount, we will deduct the amount required to provide insurance to the date of the Insured's death from the death benefit payable under this policy.

This policy will remain In Force during the grace period. If the minimum amount due is not postmarked within the grace period, this policy will Lapse at the end of the 61 days and all coverage under this policy and any Riders will terminate. If there is any Cash Surrender Value remaining at the end of the grace period, we will refund it to you, unless you have elected the Reduced Paid-Up Nonforfeiture Option.

During the grace period, we will not charge interest on the amount due.

No Lapse Guarantee

This policy has a No Lapse Guarantee. If certain conditions are met, the No Lapse Guarantee will be in effect and this policy will not enter a grace period even if the Cash Surrender Value is insufficient. The conditions are:

1. The sum of the premiums that we have accepted (less any Loan Balance and withdrawals) must be greater than or equal to the sum of all Minimum Monthly No Lapse Premiums to that date; and
2. The No Lapse Ending Date must not have passed.

The Minimum Monthly No Lapse Premiums in effect on the Policy Date are shown in the Policy Data, but they may be increased or decreased as explained below.

Whether or not the No Lapse Guarantee is in effect, this policy will not enter a grace period if the Cash Surrender Value is sufficient to pay Monthly Deductions and Index Account Monthly Charges as they come due.

While the No Lapse Guarantee is in effect and preventing this policy from entering a grace period, we will continue to deduct Monthly Deductions and Index Account Monthly Charges as they come due.

Negative Policy Values

As a result of Monthly Deductions and Index Account Monthly Charges, the Policy Value may become negative during a grace period or prior to the No Lapse Ending Date. No interest will be credited while the Policy Value is negative. Any negative values must be repaid by you on the No Lapse Ending Date or this policy will enter the grace period and may Lapse.

Changes to the Minimum Monthly No Lapse Premium

The Minimum Monthly No Lapse Premium will increase for each Policy Month following the date of an increase in the Face Amount, or when a Rider is added or increased. It will decrease for each Policy Month following the date of a decrease in the Face Amount or when a Rider is decreased or discontinued. We will notify you of the new Minimum Monthly No Lapse Premium. The No Lapse Ending Date will not be extended for any change to this policy.

Reinstatement

If this policy Lapses, you may Reinstate it as provided in this section. You may not Reinstate this policy if it has been surrendered for its Cash Surrender Value. Any Reinstatement must be made during the lifetime of the Insured and within three years from the Lapse date. Before we Reinstate this policy, we will require all of the following:

1. Your Written Request to Reinstate this policy.
2. The Insured's written consent to Reinstatement.
3. Evidence of insurability satisfactory to us that the Insured continues to qualify for the same Class of Risk and any substandard rating upon which we based the issuance of this policy.
4. Payment of the following:
   a) Prior to the No Lapse Ending Date, the lesser of: (i) the total Minimum Monthly No Lapse Premiums from issue through the Policy Month of Lapse; plus two Policy Months of Minimum Monthly No Lapse Premiums; minus any premiums already paid net of any withdrawals and Loan Balance; or (ii) an amount sufficient to provide a Net Premium equal to one Monthly Deduction and Index Account Monthly Charge due at the time of termination; plus two Monthly Deductions and Index Account Monthly Charges due in advance at the time of Reinstatement; plus an amount sufficient to increase the Policy Value above the surrender charge.
   b) After the No Lapse Ending Date: an amount sufficient to provide a Net Premium equal to one Monthly Deduction and Index Account Monthly Charge due at the time of termination; plus two Monthly Deductions and Index Account Monthly Charges due in advance at the time of Reinstatement; plus an amount sufficient to increase the Policy Value above the surrender charge.

The date of Reinstatement will be the Monthly Policy Date on or following the date the application for Reinstatement is approved by us, so long as the Insured is still living. If all the conditions for Reinstatement are satisfied, this policy will be placed In Force again on the following basis:

1. The Policy Value of the Reinstated policy will be equal to the Policy Value at the time of Lapse; minus any outstanding Loan Balance as of that date; plus the Net Premium you pay at Reinstatement; minus any Monthly Deductions and Index Account Monthly Charges due at the time of Lapse; minus one Monthly Deduction and Index Account Monthly Charge as of the date of Reinstatement.
2. The surrender charge applicable at Reinstatement will be equal to what it was at Lapse, and the Surrender Charge Period will be extended by the length of time between Lapse and Reinstatement.
3. The cost of insurance rates will be based on the Insured's Age at Reinstatement, determined as of the last Policy Anniversary.

4. The duration of the Monthly Expense Charge Per Thousand will be extended by the length of time between Lapse and Reinstatement.
5. Any Loan Balance as of the date of termination will not be Reinstated.
6. Amounts paid at the time of Reinstatement will be applied as new premiums in accordance with your most recent premium allocation instructions.
7. The No Lapse Guarantee will be available if this policy is Reinstated before the No Lapse Ending Date. The No Lapse Ending Date will not be extended by the length of time between Lapse and Reinstatement.
8. Any Riders may be Reinstated subject to their terms.

POLICY VALUES

Policy Value

The Policy Value is the sum of the Basic Interest Account value and the Index Account value(s), plus the amount of the Loan Reserve, if any. On the Policy Date, each Account Option's value is equal to the portion of the Net Premium allocated to that Account Option minus the portion of the first Monthly Deduction and any Index Account Monthly Charge removed from that Account Option. Thereafter, each Account Option's value will be determined as described below.

Net Premiums

A Net Premium is any premium received minus the Premium Expense Charge. We may increase or decrease the Premium Expense Charge, but we will never charge more than the Guaranteed Maximum Premium Expense Charge shown in the Policy Data. Any change in the Premium Expense Charge will be applied uniformly to all policies with the same Face Amount, Age, sex and Class of Risk that have been in effect for the same length of time.

Value of the Basic Interest Account

The Basic Interest Account's value is equal to the sum of the values of the Basic Interest Account Segments, plus any amounts pending application to one of those Segments.

Net Premiums and loan repayments allocated to the Basic Interest Account after a Monthly Policy Date are credited with interest at the applicable Current Interest Rate until the next Monthly Policy Date. At that time, they are placed in a Basic Interest Account Segment corresponding to that Monthly Policy Date, along with any Transfers made to the Basic Interest Account.

We calculate the value of each Basic Interest Account Segment as follows as of each Monthly Policy Date:

1. The value, if any, of the Segment as of the preceding Monthly Policy Date; plus
2. Any portion of a Net Premium or loan repayment that was received since the preceding Monthly Policy Date and is being applied to the Segment as of the current Monthly Policy Date, together with any interest earned thereon; plus
3. Any Transfers being made to that Basic Interest Account Segment as of the current Monthly Policy Date; plus
4. Interest earned on the Segment since the preceding Monthly Policy Date at the Current Interest Rate; minus
5. Any Transfers from the Segment occurring as of the current Monthly Policy Date; minus
6. Any portion(s) of withdrawals or loans taken from the Segment since the preceding Monthly Policy Date; minus
7. The portion of any Monthly Deduction taken from the Segment for the current Monthly Policy Date.

Value(s) of the Index Account(s)

An Index Account's value is equal to the sum of the values of the Index Account's Segments plus any amounts pending application to one of those Segments.

Net Premiums and loan repayments allocated to an Index Account after a Monthly Policy Date are credited with interest at the Index Account Guaranteed Minimum Interest Rate shown in the Policy Data until the next Monthly Policy Date. At that time, they are placed in an Index Account Segment corresponding to that Monthly Policy Date, along with any Transfers made to that Index Account.

We calculate the value of each Index Account Segment as follows as of each Monthly Policy Date:

1. The value, if any, of the Segment as of the preceding Monthly Policy Date; plus
2. Any portion of a Net Premium or loan repayment that was received since the preceding Monthly Policy Date and is being applied to the Segment as of the current Monthly Policy Date, together with any interest earned thereon; plus
3. Any Transfers being made to that Index Account Segment as of the current Monthly Policy Date; plus
4. Interest earned on the Segment since the preceding Monthly Policy Date at the Index Account Guaranteed Minimum Interest Rate; plus
5. Excess Index Interest, if any, credited to the Segment as of the Monthly Policy Date if it is the Segment's Ending Date; minus
6. Any Transfers from the Segment occurring as of the current Monthly Policy Date; minus
7. Any portion(s) of withdrawals or loans taken from the Segment since the preceding Monthly Policy Date; minus
8. The portion of the Index Account Monthly Charge taken from the Segment for the current Monthly Policy Date; minus
9. The portion of any Monthly Deduction taken from the Segment for the current Monthly Policy Date.

ACCOUNT OPTION PROVISIONS

Allocation of Premium Payments

A Net Premium will be allocated to the Basic Interest Account and/or the Index Account(s) on the day the premium is received at our Administrative Office. We will allocate Net Premiums to the Account Options specified by you. Allocations of Net Premiums must total 100% and no fractional percentages will be permitted. Prior to the end of any Policy Month, you may elect to change the allocation of Net Premiums for the following Policy Months. Your request for change must be received in our Administrative Office prior to the first day of the Policy Month for which the change is to become effective. Changes may not be made more than once per Policy Month.

Net Premium allocations are only applied to Account Option Segments on Monthly Policy Dates. Allocations of Net Premiums received on other dates will be credited with interest until the next Monthly Policy Date as set forth in the Policy Values section of this policy.

End of Segment Period

When an Index Account Segment reaches its Ending Date, we will renew it if the same Index Account and Segment Period are then available. You may elect instead to transfer any or all of the value of the Segment to another Account Option by sending us a request in a form satisfactory to us that we receive before the Ending Date.

If a Segment is renewed, a new Ending Date will be set and the Segment will retain its original number.

If the same Index Account and Segment Period are not available on the Ending Date and you have not given us valid instructions to transfer the value to another Account, we will transfer the value of the Segment that is ending to the Basic Interest Account.

Changes to Index Accounts or Segment Periods

The Index Accounts and Segment Periods available as of the Policy Date are shown in the Policy Data. We may add or delete Index Accounts or Segment Periods, and will notify you if that occurs.

Discontinuance of or Substantial Change to an Index

If an Index is discontinued or if the calculation of an Index is changed substantially, we may substitute a comparable Index subject to approval by the supervisory official of the jurisdiction in which the application for this policy was signed. Before the use of any substitute Index is used, we will notify you and any assignee of the substitution.

Transfers

You may transfer amounts between Account Options. There is no charge to process Transfers. You may not request more than one Transfer from the same Account Option in a Policy Month. A Transfer will be made to an Account Option's Segment that begins as of the next Monthly Policy Date following receipt of your request at our Administrative Office. Transfers may not be made between Segments of the same Account Option.

A Transfer from the Basic Interest Account is only allowed as of a Monthly Policy Date. The requested amount will be transferred from the highest numbered Segment first, and then from the next highest numbered Segment(s), to the extent of their respective values.

A Transfer from an Index Account Segment is only allowed as of that Segment's Ending Date.

INTEREST

Interest Credited to the Basic Interest Account

Each Basic Interest Account Segment will accumulate interest from its Beginning Date to its Ending Date at the Current Interest Rate in effect on the date the Segment is created or renewed. Interest is credited using the effective annual interest rate method. We set Current Interest Rates from time to time at our discretion and different rates may apply to different Segments. Each Basic Interest Account Segment will have its interest calculated separately from other Basic Interest Account Segments. The Current Interest Rate is declared by us at our discretion and is not based on any Index. The Current Interest Rate will never be less than the Basic Interest Account Guaranteed Minimum Interest Rate shown in the Policy Data. You will only be informed in writing of the Current Interest Rate for each Basic Interest Account Segment when you receive a policy statement. At any other time, you may contact our Administrative Office to obtain information on the Current Interest Rates in effect for this policy.

Interest Credited to the Index Account(s)

Each Index Account Segment will accumulate interest from its Beginning Date to its Ending Date at the Index Account Guaranteed Minimum Interest Rate shown in the Policy Data. Interest is credited using the effective annual interest rate method.

A Segment may also be credited with Excess Index Interest as of its Ending Date. For the purpose of calculating a death benefit, surrender, loan, or withdrawal as of a date before the Segment's Ending Date, the Segment's value will only include interest at the Index Account Guaranteed Minimum Interest Rate.

Excess Index Interest for an Index Account Segment as of its Ending Date is calculated as follows:

(A multiplied by B) minus C where:

A is the Index Change

B is the Segment's adjusted beginning value

C is any interest previously credited to the Segment during the Segment Period at the Index Account Guaranteed Minimum Interest Rate

We determine the Segment's adjusted beginning value by starting with any value renewing from a prior Segment Period, after we have applied any Excess Index Interest for that period and deducted any Transfers from the Segment occurring at that time. Then we add any Net Premiums, loan repayments and Transfers applied to the Segment on its Beginning Date. Finally, we subtract the following activity occurring in the Segment during the Segment Period:

1. Any amounts deducted on account of withdrawals;
2. Any amounts transferred on account of policy loans;
3. One half of the amounts taken for Monthly Deductions; and
4. One half of the amounts taken for Index Account Monthly Charges.

The Excess Index Interest credited to an Index Account Segment will never be less than zero.

CALCULATING THE INDEX CHANGE

[S&P 500® Index Account] (24)

The Index Change for a Segment of the [S&P 500® Index Account] (24) is calculated using the changes in the Index Values of the [Standard & Poor's 500® Composite Stock Price Index ("S&P 500®")] (24). We use published values that are based on price changes of the underlying securities, excluding the effect of dividends.

For each Segment, we determine the Index Values as of the Beginning and Ending Dates. If the [S&P 500®] (24) is published for the applicable date, we use the value for that date. Otherwise, we use the next published value.

The Index Change for a Segment is the percentage change in value of the [S&P 500®] (24) from the Beginning Date to the Ending Date. This change may be positive or negative, but it will be adjusted so that it will neither exceed the Cap nor be less than 0%.

Cap

A Cap will be declared for each Index Account Segment on or before its Beginning Date and each renewal thereof. The Cap will never be less than the Basic Interest Account Current Interest Rate as of the Beginning Date and as of each renewal. The Cap may change upon the renewal of a Segment and may differ between Index Accounts and between Segments of each Index Account. Once a Cap is declared for an Index Account Segment, it applies until its next Ending Date. We set each Cap at our discretion and you will only be informed in writing of the current Caps when you receive your annual policy statement. At any other time, you may contact our Administrative Office to obtain information on the Caps in effect for this policy.

CHARGES

As of the Policy Date and each Monthly Policy Date thereafter, a Monthly Deduction will be deducted from the Policy Value. We will also deduct an Index Account Monthly Charge based on the values in the Index Account(s).

Monthly Deduction

The Monthly Deduction will be taken on a pro-rata basis from the Basic Interest Account and the Index Account(s), based on the value of each as of that Monthly Policy Date. Within each Account Option, the pro-rata portion of the Monthly Deduction will be deducted from the highest numbered Segment first, and then from the next highest numbered Segment(s) to the extent of their respective values. Each Monthly Deduction consists of:

1. The Monthly Cost of Insurance; plus
2. The Monthly Policy Fee; plus
3. Any charge for additional benefits provided by any Riders; plus
4. The Monthly Expense Charge.

There will be no Monthly Deductions beginning at the Insured's Age 121.

Monthly Cost of Insurance

The Monthly Cost of Insurance as of each Monthly Policy Date is determined as follows:

1. Determine the amount at risk by subtracting the Policy Value from the amount of the death benefit.
2. Divide the amount at risk by 1,000.
3. Allocate the result as set forth below and multiply each resulting element by the appropriate Monthly Cost of Insurance Rate to arrive at the Monthly Cost of Insurance.

Allocating the Amount at Risk

In determining the amount at risk and the appropriate Monthly Cost of Insurance Rates, we first apply the Policy Value to the Initial Face Amount. If the Policy Value exceeds the Initial Face Amount, we will then apply the remaining Policy Value to any increases in the Face Amount in the order of their occurrence. Any remaining Policy Value will then be applied to any additional death benefit caused by the application of the Death Benefit Factor.

Monthly Cost of Insurance Rates

To determine the appropriate Monthly Cost of Insurance Rates, we will use our current Monthly Cost of Insurance Rate tables in effect for this policy using the Face Amount and the Insured's Age, sex, Class of Risk, and any substandard rating (as shown in the Policy Data) and the length of time since the Policy Date or the date of any increase in Face Amount. Different Monthly Cost of Insurance Rates may apply to increases in the Face Amount following the Policy Date and any additional death benefit caused by the application of the Death Benefit Factor. Monthly Cost of Insurance Rates may be changed by us from time to time. A change in the Monthly Cost of Insurance Rates will apply to all persons of the same Face Amount, Age, sex, Class of Risk and any substandard rating whose policies or increases in the Face Amount have been in effect for the same length of time. The rates will not exceed those shown in the Table of Guaranteed Maximum Monthly Cost of Insurance Rates using the Insured's Age, sex and Class of Risk, adjusted for any rating.

Juvenile Class of Risk

If an Insured is age 0-17 on the Policy Date, the Class of Risk will be "Juvenile" and the Guaranteed Maximum Cost of Insurance Rates will be the composite rates in the 2001 Commissioners Standard Ordinary Mortality Table. We will notify you 60 days prior to the Insured's attained Age 18 that the Insured is eligible for reclassification to an adult Non-Tobacco Class of Risk upon proper evidence of insurability. If you do not respond to our notification, or if the Insured does not qualify for reclassification as a Non-Tobacco user, the Guaranteed Maximum Cost of Insurance Rates will continue to be the composite rates in the 2001 Commissioners Standard Ordinary Mortality Table.

Monthly Policy Fee

The Monthly Policy Fee is determined by us. We may increase or decrease the Monthly Policy Fee from time to time, but we will never charge in excess of the Guaranteed Maximum Monthly Policy Fee shown in the Policy Data. Any change in the Monthly Policy Fee will be applied uniformly to all policies with the same Face Amount, Age, sex and Class of Risk that have been in effect for the same length of time.

Monthly Expense Charge

The Monthly Expense Charge is equal to the Face Amount divided by 1,000, then multiplied by the applicable Monthly Expense Charge Per Thousand.

We determine the rate of the Monthly Expense Charge Per Thousand and may change it from time to time, but we will never charge in excess of the applicable Guaranteed Maximum Monthly Expense Charge Per Thousand. The Monthly Expense Charge Per Thousand applicable to an increase in the Face Amount may be different from the Monthly Expense Charge Per Thousand on the initial Face Amount. The Guaranteed Maximum Monthly Expense Charge Per Thousand in effect on the Policy Date is shown in the Policy Data. Any change in the Monthly Expense Charge Per Thousand will be applied uniformly to all policies or Face Amount increases with the same Face Amount, Age, sex and Class of Risk that have been in effect for the same length of time.

Index Account Monthly Charge

On each Monthly Policy Date, we deduct the Index Account Monthly Charge from each Index Account. This charge is a percentage of the Index Account's value on that date, after premiums, transfers, withdrawals and loans are processed on that date. The Index Account Monthly Charge may be different for different Index Accounts. Within each Index Account, the Index Account Monthly Charge will be deducted from the highest numbered Segment first, and then from the next highest numbered Segment(s) to the extent of their respective values.

We determine the rate of the Index Account Monthly Charge and may change it from time to time, but we will never charge more than the applicable Guaranteed Maximum Index Account Monthly Charge. The Guaranteed Maximum Index Account Monthly Charge for the Index Account(s) that are available on the Policy Date is shown in the Policy Data.

There will be no Index Account Monthly Charge beginning at the Insured's Age 121.

Changes in Rates or Charges

Any changes to the rates or charges will be based on our expectations as to future cost factors. Such cost factors may include, but are not limited to: mortality, expenses, interest, persistency, reinsurance costs, and any applicable federal, state and local taxes. We will not change these rates or charges to recoup any prior losses.

POLICY LOANS

Policy Loans

At any time after the period stated on the front page of this policy during which you may cancel this policy, you may request a policy loan. The loan date will be the date we process the loan request. The loan will be secured by that portion of the Policy Value equal to the amount of the loan. Any Loan Balance will be deducted from any amounts payable by us under this policy. The minimum policy loan amount is $500.

When a loan is made, an amount equal to the loan will be transferred from the Account Options to the Loan Reserve. We will credit the amount in the Loan Reserve with interest at an effective annual interest rate equal to the rate shown in the Policy Data. You may specify the Account Option(s) from which the amount of the loan will be transferred. If the values of the specified Account Option(s) are insufficient or no Account Option is specified, the amount of the loan will be transferred on a pro-rata basis according to the Policy Value in each remaining Account Option. Under each Account Option, the amount will be transferred from the highest numbered Segment first, and then from the next highest numbered Segment(s), to the extent of their respective values.

Maximum Policy Loan

The maximum amount you may borrow is the Policy Value as of the date of the loan request, minus:

1. Any existing Loan Balance;
2. Interest on the new Loan Balance to the end of the Policy Year; and
3. The amount of the surrender charge that would apply on a surrender of the policy for its Cash Surrender Value or two Monthly Deductions, whichever is greater.

Repayment of Loans

You may repay any part of any Loan Balance at any time while this policy is In Force.

If you wish to make a loan repayment, you must tell us that the payment you send us is for that purpose. Unless your payment is clearly marked as a loan repayment, we will assume it is a premium payment unless it is received after the Insured's Age 121.

You may specify the Account Option(s) to which the loan repayment will be applied. If no Account Option is specified, the loan repayment will be applied in accordance with your most recent premium allocation instructions.

Interest on Loans

We will charge you interest on each loan at a rate declared by us from time to time. This rate may vary, but it will never be more than the maximum loan interest rate shown in the Policy Data. We may apply different loan interest rates to different parts of the loan.

Interest is due on each loan each year on the Policy Anniversary. If you do not pay the interest when it is due, the interest on the Loan Balance will be treated as an additional loan at the applicable interest rate.

Preferred Loans

After the tenth Policy Year, certain loans will be classified as preferred loans. The interest rate that we charge on preferred loans will not exceed the maximum preferred loan interest rate shown in the Policy Data.

We determine the amount eligible for a preferred loan by subtracting the total premiums paid, withdrawals and the Loan Balance from the Policy Value. After the Policy Anniversary at the Insured's Age 121, all loans will be considered preferred loans.

WITHDRAWALS

You may withdraw a portion of the Policy Value during the lifetime of the Insured, including after the Insured's Age 121, by making a Written Request. The minimum withdrawal amount is $500. The maximum withdrawal amount is the Cash Surrender Value minus $500. The Policy Value will be reduced by the withdrawal amount and we will also deduct a Withdrawal Processing Fee as shown in the Policy Data. No surrender charge is taken when a withdrawal occurs, and the full surrender charge will remain in effect until surrender of this policy.

Allocation

You may specify in your request the Account Options from which the withdrawal should be made. If no Account Option is specified, the withdrawal amount and the fee will be withdrawn on a pro-rata basis according to the portion of the Policy Value in each Account Option. Under each Account Option, the withdrawal amount and fee will be withdrawn from the highest numbered Segment first, and then from the next highest numbered Segment(s).

Face Amount Reduction

If the Death Benefit Option is Level, then the Face Amount will be reduced by the amount of the withdrawal requested. However, no withdrawal will be allowed if the resulting Face Amount would be less than the Minimum Face Amount shown in the Policy Data.

Reductions in the Face Amount due to any withdrawals will be applied in the following order:

1. To the most recent increase in the Face Amount.
2. To the next most recent increase and then to each preceding increase in the Face Amount.
3. To the Initial Face Amount or the current Face Amount, if less.

NONFORFEITURE OPTIONS

Cash Surrender

You may surrender this policy for its Cash Surrender Value at any time upon Written Request. The surrender will take effect on the date we receive the Written Request. If you exercise this option, this policy and all attached Riders will terminate. We will charge a surrender charge if the policy is surrendered during the Surrender Charge Period shown in the Policy Data.

The surrender charge will be equal to A times B, divided by C, where:

A is the surrender charge shown in the Policy Data for the Policy Year in which the surrender occurs

B is the Initial Face Amount

C is 1,000

If an increase in the Face Amount is requested and approved, additional surrender charges will apply to this policy. We will notify you of the additional surrender charges at the time of the increase in the Face Amount.

If you request a surrender under this provision within 30 days after a Policy Anniversary, the Cash Surrender Value will not be less than the Cash Surrender Value on that anniversary, less any loans and withdrawals (including withdrawal fees) made after the Policy Anniversary.

Reduced Paid-Up Insurance

If the Cash Surrender Value is at least $500, you may purchase reduced paid-up insurance instead of surrendering the policy. Under this option, we will use the Cash Surrender Value to provide nonparticipating paid-up endowment at age 120 insurance, payable under the same conditions as this policy. We will determine the amount of the reduced paid-up insurance using the net single premium rate for the Insured's Age for an amount equal to or less than the current Face Amount of this policy. If there is any Cash Surrender Value remaining after the paid-up endowment insurance becomes effective, the excess will be returned to you.

In order to exercise this option, you must send us a Written Request. We must receive the request within 60 days of the date you signed it and while this option is in effect.

If the paid-up endowment insurance is surrendered for its cash surrender value within 30 days after an anniversary of the paid-up endowment insurance, its cash surrender value will be equal to the cash surrender value on that anniversary. Its cash surrender value will be determined by multiplying the endowment at age 120 net single premium at the Insured's Age by the amount of reduced paid-up insurance.

Basis Used For Calculation

The values and benefits of this policy are not less than the minimum values and benefits required by the jurisdiction in which the application for this policy was signed.

Calculation of minimum cash values and nonforfeiture benefits are based on the 2001 CSO Ultimate Mortality Table, composite at all durations for Issue Ages 0-17 and smoker/non-smoker distinct for Issue Ages 18-85, sex-distinct, age last birthday. Deaths are assumed to occur at the end of the Policy Year.

As required, we have filed the method we used to compute minimum cash values and nonforfeiture benefits with the supervisory official of the jurisdiction in which the application for this policy was signed.

GENERAL PROVISIONS

This Policy is Our Contract with You

This policy is issued in consideration of the application and the payment of premiums as provided in this policy.

This policy, any amendment(s) or endorsement(s), and a copy of the application(s) and any questionnaires for issuance or Reinstatement of the policy attached to it contain the entire contract between you and us. Any statements made in such application(s), questionnaires or any amendments either by you or by the Insured will, in the absence of fraud, be considered representations and not warranties. Also, any written statement made either by you or by the Insured will not be used to void this policy nor defend against a claim under this policy unless the statement is contained in the application(s), questionnaires or any amendments thereto.

We reserve the right to add future Riders or endorsements to this policy, except where prohibited by law.

Incontestability

We cannot contest this policy, except for fraud or non-payment of premium, after it has been In Force during the lifetime of the Insured for two years after the later of:

1. The Date of Issue; and
2. The effective date of Reinstatement of this policy.

If this policy is Reinstated, the original contestability period will continue to apply. In addition, a new two year contestability period will apply from the date of Reinstatement with respect to statements made in the application for Reinstatement.

If the Face Amount of this policy is increased, a new two year contestability period will apply from the date of each increase with respect to statements made in the application for that increase, but only for the amount of the increase.

The Insured, the owner and the Beneficiary are obligated to cooperate in any contestability investigation that we may conduct, including supplying us with necessary authorizations for medical and other information.

Riders

Riders, if any, are listed in the Policy Data. Any Rider will become a part of this policy and will be subject to all of the terms and conditions of this policy, unless we state otherwise in the Rider. In a Rider:

1. References to Policy Specifications mean the Policy Data;
2. References to this policy's Specified Amount mean the Face Amount;
3. References to this policy's Cash Value mean the Policy Value.

Amount Payable Is Limited in the Event of Suicide

If the Insured, whether sane or insane, dies by suicide within two years from the Date of Issue, our liability will be limited to an amount equal to the premiums paid for this policy, less any Loan Balance and any withdrawals during such period.

If the Insured, whether sane or insane, dies by suicide within two years from the effective date of any increase in the Face Amount, our liability for the amount of increase will be limited to the Monthly Deductions for the increase.

Misstatement of Age or Sex in the Application

If the date of birth and/or sex of the Insured has been misstated on the application and we discover this while the Insured is still living, we may recalculate and revise the Policy Value to the amount it would have been at the Insured's correct Age and/or sex. If we discover a misstatement of the Insured's date of birth and/or sex after the Insured's death or if the revised Policy Value would result in the termination of this policy, we will adjust the death benefit instead. The adjusted death benefit will be the amount which would have been purchased at the Insured's correct Age and/or sex by the most recent Monthly Deduction using the correct Monthly Cost of Insurance Rates. If the misstatement is discovered while the Insured is still living, future Monthly Deductions and Minimum Monthly No Lapse Premiums will be adjusted for the Insured's correct Age and/or sex.

Payment of Cash Values and Loans

We may delay paying you the Cash Surrender Value of this policy or any requested withdrawal for up to six months after we receive your request. We may delay making a loan to you for up to six months after we receive your request. We will not delay any loan made to pay premiums due us on any policy.

Who Can Make Changes in the Policy

No change or waiver of any of the provisions of this policy will be valid unless made in writing by us and signed by an officer of the Company. Any change or waiver must be signed by our President or a Vice President together with our Secretary. No agent or other person has the authority to change or waive any provision of this policy.

Termination of Insurance

This policy will terminate and all benefits under it will cease on the earliest of the following:

1. The date this policy Lapses;
2. The date we receive your Written Request to surrender or terminate; or
3. The date of the Insured's death.

Our acceptance of a premium for any period after the date of termination of this policy will create no liability by us with respect to this policy, nor will it constitute a waiver of the termination. Any premium paid for this policy following its termination will be refunded.

No Dividends are Payable

This is nonparticipating insurance. It does not participate in our profits or surplus. We do not distribute past surplus or recover past losses by changing the rates or charges.

Your Rights

During the Insured's lifetime and unless otherwise provided in this policy, you have the exclusive right to assign this policy and to exercise every right, privilege and option this policy grants or that we allow.

To exercise any of these rights, or to apply for the death benefits or any benefits under this policy, communicate with our nearest representative or directly with our Administrative Office. Contact your agent if you desire additional services or information. Please notify us promptly of any change of address.

SETTLEMENT PROVISIONS

Lump Sum Payment

When the death benefit is payable, we will pay it in a lump sum, unless a settlement option is elected.

Settlement Options

During the Insured's lifetime, you may request that we pay the death benefit under one of the following settlement options. We will also use any other method of payment that is agreeable to you and us. After the Insured's death, a Beneficiary may elect to receive such Beneficiary's share of the death benefit under a settlement option. However, you may provide that the Beneficiary will not be permitted to change the settlement option you have selected. If a settlement option is requested, we will prepare an agreement to be signed which will state the terms and conditions under which the payments will be made. This agreement will include a statement regarding the withdrawal value, if any, and to whom any remaining proceeds will be paid following the death of the person receiving the payments.

Annuity

We will use the benefit as a single premium to buy an annuity. The annuity may be payable to one or two payees. It may be payable for a guaranteed period, or for life with or without a guaranteed period as long as we agree to it. The annuity payment will not be less than what our newly issued immediate annuity contracts with the same features are then paying.

Benefit Deposited With Interest

We will hold the benefit on deposit with us and it will earn interest. Such interest will be at a rate declared by us from time to time, but not less than an annual interest rate of 1%, and may differ from the rate we pay under other options. We will pay the earned interest monthly, quarterly, semi-annually or annually, as requested. The payee may withdraw part or all of the benefit and earned interest at any time.

Conditions

Settlements of less than $10,000 will be paid in a lump sum and may not be applied under any settlement option. We may change the payment frequency if payments under an option become less than $100.

A corporation may receive payments under a life income option only if the payments are based on the life of the surviving spouse or dependent of the Insured.

Payments Exempt from the Claims of Creditors

To the extent permitted by law:

1. No payment of the death benefit or interest we make will be subject to the claims of any creditor; and
2. If you provide that the option selected cannot be changed after the Insured's death, the payments will not be subject to the debts or contracts of the person receiving the payments.

[ ] [President]

10 DAY RIGHT TO CANCEL - You may cancel this policy by delivering or mailing a Written Request to us or to the agent from whom it was purchased. You must return the policy to us or the agent before midnight of the 10th day after the day you receive it (or such longer period as may be required by applicable law in the state where the policy is delivered or issued for delivery). Your Written Request given by mail and return of the policy by mail are effective on being postmarked, properly addressed and postage prepaid. We must return all payments made for this policy, including any fees or charges, and less any Loan Balance and withdrawals, within 30 days after we receive notice of cancellation and the returned policy.

If you are terminating or borrowing from another life insurance policy owned by you in connection with your purchase of this policy, then this policy may be considered a replacement policy. If this policy is a replacement policy, your right to cancel is extended to midnight of the 30th day after the day you receive it (or such longer period as may be required by applicable law in the state where the policy is delivered or issued for delivery).

NOTES AND FOOTNOTES

PREMIUMS MAY BE PAID UNTIL AGE 121. IT IS POSSIBLE THAT COVERAGE WILL TERMINATE WHERE EITHER NO PREMIUMS ARE PAID FOLLOWING PAYMENT OF THE INITIAL PREMIUM OR SUBSEQUENT PREMIUMS ARE INSUFFICIENT TO CONTINUE COVERAGE. CHANGES IN THE INTEREST CREDITED TO THIS POLICY OR CHANGES IN THE POLICY CHARGES COULD ALSO AFFECT YOUR COVERAGE.

THE TAX STATUS OF THIS POLICY MAY CHANGE. WE URGE YOU TO CONSULT YOUR PERSONAL TAX ADVISOR EACH YEAR REGARDING MATTERS OF POSSIBLE TAXATION.

*THE CHARGES IN THE FIRST MONTHLY DEDUCTION/CHARGE COLUMN ARE ONLY APPLICABLE FOR THE FIRST MONTHLY DEDUCTION TAKEN ON THE POLICY DATE. FOR MONTHLY DEDUCTIONS TAKEN AFTER THE POLICY DATE, PLEASE REFER TO THE POLICY AND RIDER FORMS.

NO APPLICABLE RIDERS ELECTED AS OF THE POLICY DATE (22)

THE NET SINGLE PREMIUM FOR RIDERS IS BASED ON THE RIDER INSURED'S SEX, CLASS OF RISK, ANY SUBSTANDARD RATING, RIDER BENEFIT AMOUNTS AND AGE AT THE BEGINNING OF EACH POLICY YEAR FOR RIDERS THAT ARE QUALIFIED ADDITIONAL BENEFITS. THE NET SINGLE PREMIUM FOR RIDERS IS USED IN CALCULATING THE DEATH BENEFIT AS SHOWN IN THE AMOUNT OF THE DEATH BENEFIT PROVISION.

THIS PAGE IS INTENTIONALLY LEFT BLANK

INDEX LICENSE DISCLOSURES (23)

[The Global Index Account is based on three indexes: the S&P 500® Index, EURO STOXX 50®, and the Hang Seng Index.

DEFINITIONS

Account Option An account to which you may allocate Net Premiums and/or Transfers. The Account Options are the Basic Interest Account and the Index Account(s).

Age A person's age in years on his or her last birthday, unless otherwise specified. For purposes of this policy, the Insured's Age changes on each Policy Anniversary.

Basic Interest Account An Account Option for which the interest will be based on rates declared by us. The Basic Interest Account is comprised of Basic Interest Account Segments. The value of the Basic Interest Account is the sum of the values of those Segments plus any amount(s) pending application to a Basic Interest Account Segment.

Beginning Date The first Monthly Policy Date for a Segment. The Beginning Date is reset on the Segment's Ending Date.

Beneficiary A person designated to receive all or a portion of the death benefit on the death of the Insured. You may name both a Primary and Contingent Beneficiary. A Primary or Contingent Beneficiary named on the application may be changed as provided in this policy.

Cap The maximum Index Change that can be used to determine the Excess Index Interest credited to an Index Account Segment. Each Index Account Segment may have a different Cap. Caps are declared by us at our discretion.

Cash Surrender Value The amount available upon surrender of this policy. The Cash Surrender Value equals the Policy Value less any surrender charge and less any Loan Balance.

Current Interest Rate The rate at which interest will be credited to a Basic Interest Account Segment. Current Interest Rates are declared by us at our discretion. Different Current Interest Rates may apply to different Basic Interest Account Segments.

Date of Issue The date this policy is prepared in our office. The Date of Issue is shown in the Policy Data. The Date of Issue may or may not be the same as the Policy Date.

Ending Date The date used to determine the ending value of a Segment. The Ending Date for a Segment is the last Monthly Policy Date in its Segment Period and is the same date as the next Beginning Date. The Ending Date is reset at that time for the next Segment.

Excess Index Interest Any interest credited to an Index Account Segment in excess of interest credited at the Index Account Guaranteed Minimum Interest Rate. Any Excess Index Interest for a Segment will only be credited as of that Segment's Ending Date.

Face Amount An amount used in determining the amount of this policy's death benefit. The initial Face Amount is shown in the Policy Data. The actual amount we pay on the death of the Insured may be affected by tax law requirements and may be adjusted as described in this policy.

Index A securities index designated by us for use in calculating Excess Index Interest. The current value of each Index is available by contacting us at our Administrative Office.

Index Account An Account Option for which any interest in excess of the minimum guaranteed rate will be based in part on changes in the values of published Indexes. A list of all of the Index Accounts in this policy on the Policy Date is shown in the Policy Data. We may discontinue existing Index Accounts or make other Index Accounts available in the future.

Index Account Monthly Charge A charge we deduct from each Index Account on each Monthly Policy Date up to the Insured's Age 121.

Index Change The percentage change in the applicable Index Values from an Index Account Segment's Beginning Date to its Ending Date, adjusted as set forth in the Calculating the Index Change provision. The Index Change will be used to determine the Excess Index Interest, if any. The Index Change may be determined differently for different Index Accounts.

Index Value The value of an Index as stated by its publisher.

In Force Insurance coverage is in effect and has not terminated.

Insured The person whose life is insured under this policy. The Insured is identified in the Policy Data.

Lapse Termination of this policy at the end of a grace period due to insufficient Cash Surrender Value.

Loan Balance The sum of any unpaid policy loans and loan interest. We will deduct any Loan Balance from any amounts payable by us under this policy.

Loan Reserve The portion of the Policy Value transferred from the Account Options when you borrow from this policy. The Loan Reserve is credited with interest separately from the Account Options.

Minimum Monthly No Lapse Premium The amount you must pay to keep the No Lapse Guarantee in effect. This amount is shown in the Table of Minimum Monthly No Lapse Premiums in the Policy Data. The Minimum Monthly No Lapse Premium may be changed as provided in this policy.

Monthly Policy Date The day of each month coinciding with the Policy Date. If there is no day in a calendar month that coincides with the Policy Date, the Monthly Policy Date for that month will be the first day of the following month.

Monthly Deduction A charge we deduct from the Policy Value on each Monthly Policy Date up to the Insured's Age 121.

Net Premium Any premium you pay minus the Premium Expense Charge.

Policy Anniversary The same day and month as the Policy Date for each year this policy remains In Force.

Policy Date The date coverage is effective under this policy. We will use the Policy Date to determine the Monthly Policy Dates, Policy Months, Policy Years and Policy Anniversaries. The Policy Date is shown in the Policy Data.

Policy Month The one-month period beginning on each Monthly Policy Date.

Policy Value The sum of the values of the Account Options, plus the amount of the Loan Reserve, if any.

Policy Year	The 12-month period directly preceding a Policy Anniversary.
Qualified Additional Benefits	Specific benefits defined as such in Section 7702 of the Internal Revenue Code.
Reinstate	To restore coverage after this policy has Lapsed, in accordance with the Reinstatement provision.
Rider	An attachment to this policy that provides an additional benefit.
Segment	A component of the Basic Interest Account or of an Index Account. Net Premiums and Transfers are applied to Segments. Each Segment is assigned a number corresponding to the Policy Month in which it is created.
Segment Period	The number of Policy Months from a Segment's Beginning Date to its Ending Date. The Segment Period may be different for each Account Option. The listing of Index Accounts in the Policy Data shows the length of their respective Segment Periods.
Transfer	Movement of part or all of the value of a Segment to or from another Account Option.
Written Request	A signed request in a form satisfactory to us that is received at our Administrative Office.
You and **your**	The owner of this policy. The owner as of the Date of Issue is shown in the Policy Data. Ownership may be transferred as provided in this policy. Following a transfer of ownership, you and your will refer to the new owner.

OWNERSHIP

Owner of the Policy	The owner may exercise all rights under this policy during the Insured's lifetime, including the right to transfer ownership subject to applicable law and regulation. If ownership is shared by more than one person, all such persons must act together to exercise a right. Unless otherwise specified, if a co-owner dies during the Insured's lifetime, the co-owner's interest in this policy will pass to the remaining co-owners. If the owner or all co-owners die during the Insured's lifetime, ownership will pass to the contingent owner, if one has been named; otherwise, ownership will pass to the owner's estate. You may change the owner by filing a Written Request with us. We will not be bound by any change of ownership until we record it in our records. Unless otherwise specified by you, the change will then take effect as of the date the change is signed by you, subject to any payments made or actions taken by us prior to our recording of the change.
Assignment of the Policy	You may assign this policy by filing a Written Request with us. We will not be bound by any assignment until we record it in our records. Unless otherwise specified by you, the assignment will then take effect on the date the assignment is signed by you, subject to any payments made or actions taken by us prior to our recording of the assignment. We assume no responsibility for the validity or effect of any assignment of this policy or of any interest in it. Any death benefit which becomes payable to an assignee will be payable in a single sum and will be subject to proof of the assignee's interest and the extent of the assignment.

Policy Statements

We will send you a statement at least once a year without charge showing the following information about this policy:

1. The beginning and ending dates of the current statement period.
2. The Policy Value, if any, at the beginning of the current statement period and at the end of the current statement period.
3. The amounts that have been credited or debited to the Policy Value during the current statement period, including the type for each.
4. The death benefit at the end of the current statement period.
5. The policy's Cash Surrender Value, if any, at the end of the current statement period.
6. The amount of any Loan Balance at the end of the current statement period.
7. The Monthly Deduction and Index Account Monthly Charge as of the statement date.
8. If applicable, a notice that, assuming guaranteed interest and guaranteed charges, the policy's Cash Surrender Value will not maintain insurance In Force until the end of the next statement period unless further premium payments are made.

Illustrations

Upon Written Request at any time after the first Policy Year, we will send you an illustration of this policy's benefits and values. There will be no charge for the first such illustration in a Policy Year. We reserve the right to charge a $25 fee for any illustration after the first in any Policy Year.

THE BENEFICIARY

Who Receives the Death Benefit

When the death benefit is payable under this policy, we will pay it to the Primary Beneficiary named by you in accordance with this policy. If no Primary Beneficiary has been designated, or if the interest of all designated Primary Beneficiaries has ended before we make payment of the death benefit, we will pay the death benefit to the Contingent Beneficiary, if one has been named. If the interest of all designated Primary and Contingent Beneficiaries has ended before we make payment of the death benefit, we will pay the death benefit to you. If you are not living at the time, we will pay the death benefit to the executor or administrator of your estate.

Unless you specify otherwise, the following will apply:

1. If any Beneficiary dies before the Insured, at the same time as the Insured, or within 30 days after the Insured, that Beneficiary's interest in the death benefit will end, except as to any death benefits we have already paid to that Beneficiary.
2. If a Beneficiary is a partnership, we will pay the death benefit to the partnership as it existed when the Insured died.

How to Change a Beneficiary

You may name or change a Primary or Contingent Beneficiary while the Insured is living by sending us a Written Request. The change will not be effective until we record it in our records. Even if the Insured is not living when we record the change, the change will take effect as of the date it was signed. However, any benefits we pay before we record the change will not be subject to the change.

A Beneficiary designated irrevocably may not be changed without the written consent of that Beneficiary.

THE DEATH BENEFIT

The amount of the death benefit is determined in part by which Death Benefit Option is in effect. The Policy Data shows which Death Benefit Option (Level or Increasing) is in effect as of the Policy Date.

Amount of the Death Benefit

If the Level option is in effect, the death benefit is the greatest of:

1. The Face Amount; or
2. The death benefit determined by the method described below that corresponds to the Life Insurance Compliance Test shown in the Policy Data:
   a) Guideline Premium Test: The appropriate Death Benefit Factor multiplied by the Policy Value; or
   b) Cash Value Accumulation Test: The appropriate Death Benefit Factor multiplied by the difference between the Policy Value and any applicable Net Single Premiums for Riders (which are Qualified Additional Benefits), as shown in the Policy Data; or
3. The minimum amount required for this policy to qualify as a life insurance contract under Section 7702 of the Internal Revenue Code.

If the Increasing option is in effect, the death benefit is the greatest of:

1. The Face Amount plus the Policy Value; or
2. The death benefit determined by the method described below that corresponds to the Life Insurance Compliance Test shown in the Policy Data:
   a) Guideline Premium Test: The appropriate Death Benefit Factor multiplied by the Policy Value; or
   b) Cash Value Accumulation Test: The appropriate Death Benefit Factor multiplied by the difference between the Policy Value and any applicable Net Single Premiums for Riders (which are Qualified Additional Benefits), as shown in the Policy Data; or
3. The minimum amount required for this policy to qualify as a life insurance contract under Section 7702 of the Internal Revenue Code.

The "appropriate Death Benefit Factor" means the Death Benefit Factor as shown in the Policy Data for the Insured's Age as of his or her death.

The death benefit after the Insured's Age 121 will be at least the Policy Value minus any Loan Balance.

The amount of the death benefit may be affected by the Misstatement of Age or Sex in the Application provision of this policy.

Change of Death Benefit Option

After the third Policy Anniversary and before the Insured's Age 95, you may request a change of the Death Benefit Option. You may change the Death Benefit Option no more than once during any Policy Year. The change will go into effect on the Monthly Policy Date on or following the date we approve the request. If you change from the Level option to the Increasing option, the Face Amount will be decreased by the Policy Value as of the date of the change. However, no change will be allowed if the resulting Face Amount would be less than the Minimum Face Amount shown in the Policy Data. If you change from the Increasing option to the Level option, the Face Amount will be increased by the amount of the Policy Value as of the date of the change.

Change in Face Amount

The Initial Face Amount for this policy is shown in the Policy Data. You may request an increase or decrease in the Face Amount by sending a Written Request to our Administrative Office. However, you may not change the Face Amount more than once during any Policy Year. Any change in the Face Amount will take effect on the first Monthly Policy Date following our approval of your request. If you request a change in the Face Amount and if the change is approved by us, we will notify you when the change has been made.

Increasing the Face Amount

You may request an increase in the Face Amount after the first Policy Anniversary. A new application will be required. The minimum increase is $25,000. Any increase will be subject to our underwriting requirements as well as to this policy's Incontestability and Suicide provisions.

The Face Amount increase will have its own Monthly Cost of Insurance Rates, Monthly Expense Charge Per Thousand rates, and surrender charges. We will notify you of the Monthly Expense Charge Per Thousand rates and surrender charges at the time of the increase in the Face Amount.

Decreasing the Face Amount

You may request a decrease in the Face Amount after the third Policy Anniversary. You may not decrease the Face Amount below the Minimum Face Amount shown in the Policy Data. Reductions in the Face Amount will be applied in the following order:

1. To the most recent increase in the Face Amount.
2. To the next most recent increase and then to each preceding increase in the Face Amount.
3. To the Initial Face Amount or the current Face Amount, if less.

We may require a Face Amount decrease to be at least $25,000. Until the later of the end of the Surrender Charge Period or the Policy Anniversary at the Insured's Age 65, we may limit decreases to no more than 20% of the Face Amount prior to the decrease.

No surrender charge is taken when a Face Amount decrease occurs, and the full surrender charge remains in effect until surrender of this policy.

After the decrease, the Monthly Cost of Insurance Rates and Monthly Expense Charge Per Thousand rates will be based on the new Face Amount of this policy. These rates may be higher than the rates at which this policy was originally issued.

Tax Qualification

This policy is intended to qualify under Section 7702 of the Internal Revenue Code as a life insurance contract for federal tax purposes. The death benefit under this policy is intended to qualify for the federal income tax exclusion. The provisions of this policy (including any Rider or endorsement) will be interpreted to ensure tax qualification, regardless of any language in this policy to the contrary.

To the extent that the death benefit is increased to maintain this policy's qualification as a life insurance contract, appropriate adjustments will be made in any Monthly Deductions and Policy Value as of that time, retroactively or otherwise, that are consistent with such an increase. Retroactive adjustments to the Monthly Deduction may be made by deducting them from any death benefit payable. Prospective adjustments will be reflected in the Monthly Deduction.

PAYMENT OF THE DEATH BENEFIT

Proof of Death

We will pay any benefit payable because of death when we receive due proof that the Insured's death occurred while this policy was In Force. The proof must be sent to us at our Administrative Office. We will send appropriate forms to the Beneficiary upon request. Any of our agents will help the Beneficiary fill out the forms without charge.

Adjustments to the Death Benefit

We will reduce the death benefit by any Loan Balance and by any amount necessary to provide insurance to the date of the Insured's death occurring during a grace period. If the Policy Value is negative, we will also deduct the lesser of the amount necessary to raise the Policy Value to zero or the amount necessary to ensure the No Lapse Guarantee remains in effect. We will add to the death benefit any amount payable under any attached Rider, subject to its terms. We will also add to the death benefit the portion of any Monthly Deduction and Index Account Monthly Charge we have taken for the time between the date of the Insured's death and the next Monthly Policy Date.

We will refund any premiums we receive after the Insured's death. However, except as outlined in the Premium Limitations provision, we will not refund any premiums we receive prior to the Insured's death regardless of timing or amount of the premiums.

Interest from Date of Death

We will pay interest on the death benefit under this policy after we receive due proof of the Insured's death. We will pay interest on the death benefit from the date of death to the date of payment. The annual interest rate will be at least 1%.

We will pay additional interest at a rate of 10% annually, beginning with the date that is 31 calendar days from the latest of items 1, 2 and 3 below to the date payment is made:

1. The date we receive due proof of the Insured's death.
2. The date we receive sufficient information to determine our liability, the extent of our liability and the appropriate payee legally entitled to the death benefit.
3. The date that legal impediments to payment of the death benefit that depend on the action of parties other than us are resolved and sufficient evidence is provided to us. Legal impediments include, but are not limited to:
   a) The establishment of guardianships and conservatorships;
   b) The appointment and qualification of trustees, executors and administrators; and
   c) The submission of information required to satisfy state and federal reporting requirements.

If the death benefit includes a refund of premiums received by us after the Insured's death and we do not refund those premiums within 30 days after we receive due proof of the Insured's death, we will pay interest on such refund from the date of death to the date of payment. The interest rate will be determined by us, but will never be less than 1%.

PREMIUMS

Premiums

Premiums for this policy are flexible. Subject to the requirements below, you may pay any amount at any time. If you do not pay sufficient premiums, this policy will Lapse.

The Initial Premium shown in the Policy Data is payable on or before the Policy Date. Subsequent premiums should be sent to our Administrative Office or as otherwise instructed by us. We will give you a receipt if you ask for one.

You may pay premiums at any time while the Insured is living and prior to the Insured's Age 121. Each premium must be at least $25 and may not exceed the limits described in the Premium Limitations provision below.

No further premium payments will be accepted after the Insured's Age 121, except for amounts paid within a grace period that are required to keep this policy In Force.

Planned Premiums

The amount and frequency of the Planned Premiums are shown in the Policy Data.

Premium Limitations

We reserve the right to refund any premium payment in excess of the Planned Premiums shown in the Policy Data if the total premium paid during that Policy Year:

1. Increases the difference between the death benefit and the Policy Value; or
2. Is more than $20 per $1,000 of Face Amount and more than three times the total of the Monthly Deductions for the last Policy Year.

We also reserve the right to refund any premiums that exceed the Planned Premiums shown in the Policy Data by more than $25,000 in any 12-month period.

We will not refund any amount if doing so would cause the Cash Surrender Value to become negative before the next Policy Anniversary.

Excess Premiums

If the premiums paid during a Policy Year exceed the limit on premiums allowed into the policy under Section 7702 of the Internal Revenue Code, and regulations thereunder, for this policy to qualify as a life insurance contract for federal income tax purposes, we will withdraw from the policy the excess amount of premiums paid into the policy (together with earnings credited to such excess by us). We will withdraw and refund to you this excess premium (and earnings) within 60 days after the end of that Policy Year. The excess premiums and earnings will not be refunded to the extent:

1. They are necessary to continue the policy through the end of that Policy Year; and
2. The Cash Surrender Value at the end of that Policy Year did not exceed zero.

A premium refund (but not including any earnings thereon) may also be required as a result of a decrease in the Face Amount or other change in the benefits or terms of the policy which may lower the limit on premium amount allowable into this policy for federal income tax purposes.

We will apply any premium refund amount to any Loan Balance before refunding any excess to you.

The amount refundable will not exceed the Cash Surrender Value of the policy. If the entire Cash Surrender Value is refunded, we will treat the transaction as a surrender of this policy for its Cash Surrender Value.

LAPSE AND REINSTATEMENT

Continuation of Insurance

If you stop paying premiums, we will continue this policy at the same Face Amount and with any additional benefits provided by Rider, subject to the Grace Period and No Lapse Guarantee provisions.

Grace Period

On each Monthly Policy Date, we will determine whether the Cash Surrender Value is sufficient to prevent this policy from Lapsing.

1. Prior to the Insured's Age 121, the Cash Surrender Value is sufficient if it is more than the total Monthly Deduction and Index Account Monthly Charge due, plus any loan interest due not paid in cash.
2. Beginning at the Insured's Age 121, the Cash Surrender Value is sufficient if it is more than any loan interest due that has not been paid in cash.

If the Cash Surrender Value is insufficient, we will allow a 61 day grace period in which you may pay an amount sufficient to prevent this policy from Lapsing. We will mail a grace period notice to your last known address and to any assignee as shown in our records at least 30 days prior to termination of coverage. The grace period notice will also show the minimum payment required to prevent the policy from Lapsing. You will have the entire grace period within which to remit payment. Any payments sent by U.S. mail must be postmarked within the grace period. If the Insured dies during the grace period before you have paid the required amount, we will deduct the amount required to provide insurance to the date of the Insured's death from the death benefit payable under this policy.

This policy will remain In Force during the grace period. If the minimum amount due is not postmarked within the grace period, this policy will Lapse at the end of the 61 days and all coverage under this policy and any Riders will terminate. If there is any Cash Surrender Value remaining at the end of the grace period, we will refund it to you, unless you have elected the Reduced Paid-Up Nonforfeiture Option.

During the grace period, we will not charge interest on the amount due.

No Lapse Guarantee

This policy has a No Lapse Guarantee. If certain conditions are met, the No Lapse Guarantee will be in effect and this policy will not enter a grace period even if the Cash Surrender Value is insufficient. The conditions are:

1. The sum of the premiums that we have accepted (less any Loan Balance and withdrawals) must be greater than or equal to the sum of all Minimum Monthly No Lapse Premiums to that date; and
2. The No Lapse Ending Date must not have passed.

The Minimum Monthly No Lapse Premiums in effect on the Policy Date are shown in the Policy Data, but they may be increased or decreased as explained below.

Whether or not the No Lapse Guarantee is in effect, this policy will not enter a grace period if the Cash Surrender Value is sufficient to pay Monthly Deductions and Index Account Monthly Charges as they come due.

While the No Lapse Guarantee is in effect and preventing this policy from entering a grace period, we will continue to deduct Monthly Deductions and Index Account Monthly Charges as they come due.

Negative Policy Values

As a result of Monthly Deductions and Index Account Monthly Charges, the Policy Value may become negative during a grace period or prior to the No Lapse Ending Date. No interest will be credited while the Policy Value is negative. Any negative values must be repaid by you on the No Lapse Ending Date or this policy will enter the grace period and may Lapse.

Changes to the Minimum Monthly No Lapse Premium

The Minimum Monthly No Lapse Premium will increase for each Policy Month following the date of an increase in the Face Amount, or when a Rider is added or increased. It will decrease for each Policy Month following the date of a decrease in the Face Amount or when a Rider is decreased or discontinued. We will notify you of the new Minimum Monthly No Lapse Premium. The No Lapse Ending Date will not be extended for any change to this policy.

Reinstatement

If this policy Lapses, you may Reinstate it as provided in this section. You may not Reinstate this policy if it has been surrendered for its Cash Surrender Value. Any Reinstatement must be made during the lifetime of the Insured and within three years from the Lapse date. Before we Reinstate this policy, we will require all of the following:

1. Your Written Request to Reinstate this policy.
2. The Insured's written consent to Reinstatement.
3. Evidence of insurability satisfactory to us that the Insured continues to qualify for the same Class of Risk and any substandard rating upon which we based the issuance of this policy.
4. Payment of the following:
   a) Prior to the No Lapse Ending Date, the lesser of: (i) the total Minimum Monthly No Lapse Premiums from issue through the Policy Month of Lapse; plus two Policy Months of Minimum Monthly No Lapse Premiums; minus any premiums already paid net of any withdrawals and Loan Balance; or (ii) an amount sufficient to provide a Net Premium equal to one Monthly Deduction and Index Account Monthly Charge due at the time of termination; plus two Monthly Deductions and Index Account Monthly Charges due in advance at the time of Reinstatement; plus an amount sufficient to increase the Policy Value above the surrender charge.
   b) After the No Lapse Ending Date: an amount sufficient to provide a Net Premium equal to one Monthly Deduction and Index Account Monthly Charge due at the time of termination; plus two Monthly Deductions and Index Account Monthly Charges due in advance at the time of Reinstatement; plus an amount sufficient to increase the Policy Value above the surrender charge.

The date of Reinstatement will be the Monthly Policy Date on or following the date the application for Reinstatement is approved by us, so long as the Insured is still living. If all the conditions for Reinstatement are satisfied, this policy will be placed In Force again on the following basis:

1. The Policy Value of the Reinstated policy will be equal to the Policy Value at the time of Lapse; minus any outstanding Loan Balance as of that date; plus the Net Premium you pay at Reinstatement; minus any Monthly Deductions and Index Account Monthly Charges due at the time of Lapse; minus one Monthly Deduction and Index Account Monthly Charge as of the date of Reinstatement.
2. The surrender charge applicable at Reinstatement will be equal to what it was at Lapse, and the Surrender Charge Period will be extended by the length of time between Lapse and Reinstatement.
3. The cost of insurance rates will be based on the Insured's Age at Reinstatement, determined as of the last Policy Anniversary.

4. The duration of the Monthly Expense Charge Per Thousand will be extended by the length of time between Lapse and Reinstatement.
5. Any Loan Balance as of the date of termination will not be Reinstated.
6. Amounts paid at the time of Reinstatement will be applied as new premiums in accordance with your most recent premium allocation instructions.
7. The No Lapse Guarantee will be available if this policy is Reinstated before the No Lapse Ending Date. The No Lapse Ending Date will not be extended by the length of time between Lapse and Reinstatement.
8. Any Riders may be Reinstated subject to their terms.

POLICY VALUES

Policy Value

The Policy Value is the sum of the Basic Interest Account value and the Index Account value(s), plus the amount of the Loan Reserve, if any. On the Policy Date, each Account Option's value is equal to the portion of the Net Premium allocated to that Account Option minus the portion of the first Monthly Deduction and any Index Account Monthly Charge removed from that Account Option. Thereafter, each Account Option's value will be determined as described below.

Net Premiums

A Net Premium is any premium received minus the Premium Expense Charge. We may increase or decrease the Premium Expense Charge, but we will never charge more than the Guaranteed Maximum Premium Expense Charge shown in the Policy Data. Any change in the Premium Expense Charge will be applied uniformly to all policies with the same Face Amount, Age, sex and Class of Risk that have been in effect for the same length of time.

Value of the Basic Interest Account

The Basic Interest Account's value is equal to the sum of the values of the Basic Interest Account Segments, plus any amounts pending application to one of those Segments.

Net Premiums and loan repayments allocated to the Basic Interest Account after a Monthly Policy Date are credited with interest at the applicable Current Interest Rate until the next Monthly Policy Date. At that time, they are placed in a Basic Interest Account Segment corresponding to that Monthly Policy Date, along with any Transfers made to the Basic Interest Account.

We calculate the value of each Basic Interest Account Segment as follows as of each Monthly Policy Date:

1. The value, if any, of the Segment as of the preceding Monthly Policy Date; plus
2. Any portion of a Net Premium or loan repayment that was received since the preceding Monthly Policy Date and is being applied to the Segment as of the current Monthly Policy Date, together with any interest earned thereon; plus
3. Any Transfers being made to that Basic Interest Account Segment as of the current Monthly Policy Date; plus
4. Interest earned on the Segment since the preceding Monthly Policy Date at the Current Interest Rate; minus
5. Any Transfers from the Segment occurring as of the current Monthly Policy Date; minus
6. Any portion(s) of withdrawals or loans taken from the Segment since the preceding Monthly Policy Date; minus
7. The portion of any Monthly Deduction taken from the Segment for the current Monthly Policy Date.

Value(s) of the Index Account(s)

An Index Account's value is equal to the sum of the values of the Index Account's Segments plus any amounts pending application to one of those Segments.

Net Premiums and loan repayments allocated to an Index Account after a Monthly Policy Date are credited with interest at the Index Account Guaranteed Minimum Interest Rate shown in the Policy Data until the next Monthly Policy Date. At that time, they are placed in an Index Account Segment corresponding to that Monthly Policy Date, along with any Transfers made to that Index Account.

We calculate the value of each Index Account Segment as follows as of each Monthly Policy Date:

1. The value, if any, of the Segment as of the preceding Monthly Policy Date; plus
2. Any portion of a Net Premium or loan repayment that was received since the preceding Monthly Policy Date and is being applied to the Segment as of the current Monthly Policy Date, together with any interest earned thereon; plus
3. Any Transfers being made to that Index Account Segment as of the current Monthly Policy Date; plus
4. Interest earned on the Segment since the preceding Monthly Policy Date at the Index Account Guaranteed Minimum Interest Rate; plus
5. Excess Index Interest, if any, credited to the Segment as of the Monthly Policy Date if it is the Segment's Ending Date; minus
6. Any Transfers from the Segment occurring as of the current Monthly Policy Date; minus
7. Any portion(s) of withdrawals or loans taken from the Segment since the preceding Monthly Policy Date; minus
8. The portion of the Index Account Monthly Charge taken from the Segment for the current Monthly Policy Date; minus
9. The portion of any Monthly Deduction taken from the Segment for the current Monthly Policy Date.

ACCOUNT OPTION PROVISIONS

Allocation of Premium Payments

A Net Premium will be allocated to the Basic Interest Account and/or the Index Account(s) on the day the premium is received at our Administrative Office. We will allocate Net Premiums to the Account Options specified by you. Allocations of Net Premiums must total 100% and no fractional percentages will be permitted. Prior to the end of any Policy Month, you may elect to change the allocation of Net Premiums for the following Policy Months. Your request for change must be received in our Administrative Office prior to the first day of the Policy Month for which the change is to become effective. Changes may not be made more than once per Policy Month.

Net Premium allocations are only applied to Account Option Segments on Monthly Policy Dates. Allocations of Net Premiums received on other dates will be credited with interest until the next Monthly Policy Date as set forth in the Policy Values section of this policy.

End of Segment Period

When an Index Account Segment reaches its Ending Date, we will renew it if the same Index Account and Segment Period are then available. You may elect instead to transfer any or all of the value of the Segment to another Account Option by sending us a request in a form satisfactory to us that we receive before the Ending Date.

If a Segment is renewed, a new Ending Date will be set and the Segment will retain its original number.

If the same Index Account and Segment Period are not available on the Ending Date and you have not given us valid instructions to transfer the value to another Account, we will transfer the value of the Segment that is ending to the Basic Interest Account.

Changes to Index Accounts or Segment Periods

The Index Accounts and Segment Periods available as of the Policy Date are shown in the Policy Data. We may add or delete Index Accounts or Segment Periods, and will notify you if that occurs.

Discontinuance of or Substantial Change to an Index

If an Index is discontinued or if the calculation of an Index is changed substantially, we may substitute a comparable Index subject to approval by the supervisory official of the jurisdiction in which the application for this policy was signed. Before the use of any substitute Index is used, we will notify you and any assignee of the substitution.

Transfers

You may transfer amounts between Account Options. There is no charge to process Transfers. You may not request more than one Transfer from the same Account Option in a Policy Month. A Transfer will be made to an Account Option's Segment that begins as of the next Monthly Policy Date following receipt of your request at our Administrative Office. Transfers may not be made between Segments of the same Account Option.

A Transfer from the Basic Interest Account is only allowed as of a Monthly Policy Date. The requested amount will be transferred from the highest numbered Segment first, and then from the next highest numbered Segment(s), to the extent of their respective values.

A Transfer from an Index Account Segment is only allowed as of that Segment's Ending Date.

INTEREST

Interest Credited to the Basic Interest Account

Each Basic Interest Account Segment will accumulate interest from its Beginning Date to its Ending Date at the Current Interest Rate in effect on the date the Segment is created or renewed. Interest is credited using the effective annual interest rate method. We set Current Interest Rates from time to time at our discretion and different rates may apply to different Segments. Each Basic Interest Account Segment will have its interest calculated separately from other Basic Interest Account Segments. The Current Interest Rate is declared by us at our discretion and is not based on any Index. The Current Interest Rate will never be less than the Basic Interest Account Guaranteed Minimum Interest Rate shown in the Policy Data. You will only be informed in writing of the Current Interest Rate for each Basic Interest Account Segment when you receive a policy statement. At any other time, you may contact our Administrative Office to obtain information on the Current Interest Rates in effect for this policy.

Interest Credited to the Index Account(s)

Each Index Account Segment will accumulate interest from its Beginning Date to its Ending Date at the Index Account Guaranteed Minimum Interest Rate shown in the Policy Data. Interest is credited using the effective annual interest rate method.

A Segment may also be credited with Excess Index Interest as of its Ending Date. For the purpose of calculating a death benefit, surrender, loan, or withdrawal as of a date before the Segment's Ending Date, the Segment's value will only include interest at the Index Account Guaranteed Minimum Interest Rate.

Excess Index Interest for an Index Account Segment as of its Ending Date is calculated as follows:

(A multiplied by B) minus C where:

A is the Index Change

B is the Segment's adjusted beginning value

C is any interest previously credited to the Segment during the Segment Period at the Index Account Guaranteed Minimum Interest Rate

We determine the Segment's adjusted beginning value by starting with any value renewing from a prior Segment Period, after we have applied any Excess Index Interest for that period and deducted any Transfers from the Segment occurring at that time. Then we add any Net Premiums, loan repayments and Transfers applied to the Segment on its Beginning Date. Finally, we subtract the following activity occurring in the Segment during the Segment Period:

1. Any amounts deducted on account of withdrawals;
2. Any amounts transferred on account of policy loans;
3. One half of the amounts taken for Monthly Deductions; and
4. One half of the amounts taken for Index Account Monthly Charges.

The Excess Index Interest credited to an Index Account Segment will never be less than zero.

CALCULATING THE INDEX CHANGE

[**Global Index Account**] (24)

The Index Change for a Segment of the [Global Index Account] (24) is calculated using the changes in the Index Values of the [Standard & Poor's 500® Composite Stock Price Index ("S&P 500®")] (24), the [EURO STOXX 50®] (24) and the [Hang Seng Index] (24). For each Index, we use published values that are based on price changes of the underlying securities, excluding the effect of dividends.

For each Segment, we determine the Index Values for each of these Indexes as of the Beginning and Ending Dates. If the [S&P 500®] (24) is published for the applicable date, we use the value for that date. Otherwise, we use the next published value. For each of the [EURO STOXX 50®] (24) and the [Hang Seng Index] (24), we use the value that is published on the next day after the applicable date on which both that Index and the [S&P 500®] (24) are published.

The values we use are based on the following currencies:

[S&P 500®: United States Dollars] (24)
[EURO STOXX 50®: Euros] (24)
[Hang Seng Index: Hong Kong Dollars] (24)

The Index Change for a Segment is calculated as follows:

50% of A plus 30% of B plus 20% of C

Where:

A is the percentage change in value of the [S&P 500®] (24) or [EURO STOXX 50®] (24), whichever is more favorable to you.

B is the percentage change in value of the [S&P 500®] (24) or [EURO STOXX 50®] (24), whichever is less favorable to you.

C is the percentage change in value of the [Hang Seng Index] (24).

The A, B and C components may be positive or negative, but the Index Change for a [Global Index Account] (24) Segment is adjusted so that it will neither exceed the Cap nor be less than 0%.

Cap

A Cap will be declared for each Index Account Segment on or before its Beginning Date and each renewal thereof. The Cap will never be less than the Basic Interest Account Current Interest Rate as of the Beginning Date and as of each renewal. The Cap may change upon the renewal of a Segment and may differ between Index Accounts and between Segments of each Index Account. Once a Cap is declared for an Index Account Segment, it applies until its next Ending Date. We set each Cap at our discretion and you will only be informed in writing of the current Caps when you receive your annual policy statement. At any other time, you may contact our Administrative Office to obtain information on the Caps in effect for this policy.

CHARGES

As of the Policy Date and each Monthly Policy Date thereafter, a Monthly Deduction will be deducted from the Policy Value. We will also deduct an Index Account Monthly Charge based on the values in the Index Account(s).

Monthly Deduction

The Monthly Deduction will be taken on a pro-rata basis from the Basic Interest Account and the Index Account(s), based on the value of each as of that Monthly Policy Date. Within each Account Option, the pro-rata portion of the Monthly Deduction will be deducted from the highest numbered Segment first, and then from the next highest numbered Segment(s) to the extent of their respective values. Each Monthly Deduction consists of:

1. The Monthly Cost of Insurance; plus
2. The Monthly Policy Fee; plus
3. Any charge for additional benefits provided by any Riders; plus
4. The Monthly Expense Charge.

There will be no Monthly Deductions beginning at the Insured's Age 121.

Monthly Cost of Insurance

The Monthly Cost of Insurance as of each Monthly Policy Date is determined as follows:

1. Determine the amount at risk by subtracting the Policy Value from the amount of the death benefit.
2. Divide the amount at risk by 1,000.
3. Allocate the result as set forth below and multiply each resulting element by the appropriate Monthly Cost of Insurance Rate to arrive at the Monthly Cost of Insurance.

Allocating the Amount at Risk

In determining the amount at risk and the appropriate Monthly Cost of Insurance Rates, we first apply the Policy Value to the Initial Face Amount. If the Policy Value exceeds the Initial Face Amount, we will then apply the remaining Policy Value to any increases in the Face Amount in the order of their occurrence. Any remaining Policy Value will then be applied to any additional death benefit caused by the application of the Death Benefit Factor.

Monthly Cost of Insurance Rates

To determine the appropriate Monthly Cost of Insurance Rates, we will use our current Monthly Cost of Insurance Rate tables in effect for this policy using the Face Amount and the Insured's Age, sex, Class of Risk, and any substandard rating (as shown in the Policy Data) and the length of time since the Policy Date or the date of any increase in Face Amount. Different Monthly Cost of Insurance Rates may apply to increases in the Face Amount following the Policy Date and any additional death benefit caused by the application of the Death Benefit Factor. Monthly Cost of Insurance Rates may be changed by us from time to time. A change in the Monthly Cost of Insurance Rates will apply to all persons of the same Face Amount, Age, sex, Class of Risk and any substandard rating whose policies or increases in the Face Amount have been in effect for the same length of time. The rates will not exceed those shown in the Table of Guaranteed Maximum Monthly Cost of Insurance Rates using the Insured's Age, sex and Class of Risk, adjusted for any rating.

Juvenile Class of Risk

If an Insured is age 0-17 on the Policy Date, the Class of Risk will be "Juvenile" and the Guaranteed Maximum Cost of Insurance Rates will be the composite rates in the 2001 Commissioners Standard Ordinary Mortality Table. We will notify you 60 days prior to the Insured's attained Age 18 that the Insured is eligible for reclassification to an adult Non-Tobacco Class of Risk upon proper evidence of insurability. If you do not respond to our notification, or if the Insured does not qualify for reclassification as a Non-Tobacco user, the Guaranteed Maximum Cost of Insurance Rates will continue to be the composite rates in the 2001 Commissioners Standard Ordinary Mortality Table.

Monthly Policy Fee

The Monthly Policy Fee is determined by us. We may increase or decrease the Monthly Policy Fee from time to time, but we will never charge in excess of the Guaranteed Maximum Monthly Policy Fee shown in the Policy Data. Any change in the Monthly Policy Fee will be applied uniformly to all policies with the same Face Amount, Age, sex and Class of Risk that have been in effect for the same length of time.

Monthly Expense Charge

The Monthly Expense Charge is equal to the Face Amount divided by 1,000, then multiplied by the applicable Monthly Expense Charge Per Thousand.

We determine the rate of the Monthly Expense Charge Per Thousand and may change it from time to time, but we will never charge in excess of the applicable Guaranteed Maximum Monthly Expense Charge Per Thousand. The Monthly Expense Charge Per Thousand applicable to an increase in the Face Amount may be different from the Monthly Expense Charge Per Thousand on the initial Face Amount. The Guaranteed Maximum Monthly Expense Charge Per Thousand in effect on the Policy Date is shown in the Policy Data. Any change in the Monthly Expense Charge Per Thousand will be applied uniformly to all policies or Face Amount increases with the same Face Amount, Age, sex and Class of Risk that have been in effect for the same length of time.

Index Account Monthly Charge

On each Monthly Policy Date, we deduct the Index Account Monthly Charge from each Index Account. This charge is a percentage of the Index Account's value on that date, after premiums, transfers, withdrawals and loans are processed on that date. The Index Account Monthly Charge may be different for different Index Accounts. Within each Index Account, the Index Account Monthly Charge will be deducted from the highest numbered Segment first, and then from the next highest numbered Segment(s) to the extent of their respective values.

We determine the rate of the Index Account Monthly Charge and may change it from time to time, but we will never charge more than the applicable Guaranteed Maximum Index Account Monthly Charge. The Guaranteed Maximum Index Account Monthly Charge for the Index Account(s) that are available on the Policy Date is shown in the Policy Data.

There will be no Index Account Monthly Charge beginning at the Insured's Age 121.

Changes in Rates or Charges

Any changes to the rates or charges will be based on our expectations as to future cost factors. Such cost factors may include, but are not limited to: mortality, expenses, interest, persistency, reinsurance costs, and any applicable federal, state and local taxes. We will not change these rates or charges to recoup any prior losses.

POLICY LOANS

Policy Loans

At any time after the period stated on the front page of this policy during which you may cancel this policy, you may request a policy loan. The loan date will be the date we process the loan request. The loan will be secured by that portion of the Policy Value equal to the amount of the loan. Any Loan Balance will be deducted from any amounts payable by us under this policy. The minimum policy loan amount is $500.

When a loan is made, an amount equal to the loan will be transferred from the Account Options to the Loan Reserve. We will credit the amount in the Loan Reserve with interest at an effective annual interest rate equal to the rate shown in the Policy Data. You may specify the Account Option(s) from which the amount of the loan will be transferred. If the values of the specified Account Option(s) are insufficient or no Account Option is specified, the amount of the loan will be transferred on a pro-rata basis according to the Policy Value in each remaining Account Option. Under each Account Option, the amount will be transferred from the highest numbered Segment first, and then from the next highest numbered Segment(s), to the extent of their respective values.

Maximum Policy Loan

The maximum amount you may borrow is the Policy Value as of the date of the loan request, minus:

1. Any existing Loan Balance;
2. Interest on the new Loan Balance to the end of the Policy Year; and
3. The amount of the surrender charge that would apply on a surrender of the policy for its Cash Surrender Value or two Monthly Deductions, whichever is greater.

Repayment of Loans

You may repay any part of any Loan Balance at any time while this policy is In Force.

If you wish to make a loan repayment, you must tell us that the payment you send us is for that purpose. Unless your payment is clearly marked as a loan repayment, we will assume it is a premium payment unless it is received after the Insured's Age 121.

You may specify the Account Option(s) to which the loan repayment will be applied. If no Account Option is specified, the loan repayment will be applied in accordance with your most recent premium allocation instructions.

Interest on Loans

We will charge you interest on each loan at a rate declared by us from time to time. This rate may vary, but it will never be more than the maximum loan interest rate shown in the Policy Data. We may apply different loan interest rates to different parts of the loan.

Interest is due on each loan each year on the Policy Anniversary. If you do not pay the interest when it is due, the interest on the Loan Balance will be treated as an additional loan at the applicable interest rate.

Preferred Loans

After the tenth Policy Year, certain loans will be classified as preferred loans. The interest rate that we charge on preferred loans will not exceed the maximum preferred loan interest rate shown in the Policy Data.

We determine the amount eligible for a preferred loan by subtracting the total premiums paid, withdrawals and the Loan Balance from the Policy Value. After the Policy Anniversary at the Insured's Age 121, all loans will be considered preferred loans.

WITHDRAWALS

You may withdraw a portion of the Policy Value during the lifetime of the Insured, including after the Insured's Age 121, by making a Written Request. The minimum withdrawal amount is $500. The maximum withdrawal amount is the Cash Surrender Value minus $500. The Policy Value will be reduced by the withdrawal amount and we will also deduct a Withdrawal Processing Fee as shown in the Policy Data. No surrender charge is taken when a withdrawal occurs, and the full surrender charge will remain in effect until surrender of this policy.

Allocation

You may specify in your request the Account Options from which the withdrawal should be made. If no Account Option is specified, the withdrawal amount and the fee will be withdrawn on a pro-rata basis according to the portion of the Policy Value in each Account Option. Under each Account Option, the withdrawal amount and fee will be withdrawn from the highest numbered Segment first, and then from the next highest numbered Segment(s).

Face Amount Reduction

If the Death Benefit Option is Level, then the Face Amount will be reduced by the amount of the withdrawal requested. However, no withdrawal will be allowed if the resulting Face Amount would be less than the Minimum Face Amount shown in the Policy Data.

Reductions in the Face Amount due to any withdrawals will be applied in the following order:

1. To the most recent increase in the Face Amount.
2. To the next most recent increase and then to each preceding increase in the Face Amount.
3. To the Initial Face Amount or the current Face Amount, if less.

NONFORFEITURE OPTIONS

Cash Surrender

You may surrender this policy for its Cash Surrender Value at any time upon Written Request. The surrender will take effect on the date we receive the Written Request. If you exercise this option, this policy and all attached Riders will terminate. We will charge a surrender charge if the policy is surrendered during the Surrender Charge Period shown in the Policy Data.

The surrender charge will be equal to A times B, divided by C, where:

A is the surrender charge shown in the Policy Data for the Policy Year in which the surrender occurs

B is the Initial Face Amount

C is 1,000

If an increase in the Face Amount is requested and approved, additional surrender charges will apply to this policy. We will notify you of the additional surrender charges at the time of the increase in the Face Amount.

If you request a surrender under this provision within 30 days after a Policy Anniversary, the Cash Surrender Value will not be less than the Cash Surrender Value on that anniversary, less any loans and withdrawals (including withdrawal fees) made after the Policy Anniversary.

Reduced Paid-Up Insurance

If the Cash Surrender Value is at least $500, you may purchase reduced paid-up insurance instead of surrendering the policy. Under this option, we will use the Cash Surrender Value to provide nonparticipating paid-up endowment at age 120 insurance, payable under the same conditions as this policy. We will determine the amount of the reduced paid-up insurance using the net single premium rate for the Insured's Age for an amount equal to or less than the current Face Amount of this policy. If there is any Cash Surrender Value remaining after the paid-up endowment insurance becomes effective, the excess will be returned to you.

In order to exercise this option, you must send us a Written Request. We must receive the request within 60 days of the date you signed it and while this option is in effect.

If the paid-up endowment insurance is surrendered for its cash surrender value within 30 days after an anniversary of the paid-up endowment insurance, its cash surrender value will be equal to the cash surrender value on that anniversary. Its cash surrender value will be determined by multiplying the endowment at age 120 net single premium at the Insured's Age by the amount of reduced paid-up insurance.

Basis Used For Calculation

The values and benefits of this policy are not less than the minimum values and benefits required by the jurisdiction in which the application for this policy was signed.

Calculation of minimum cash values and nonforfeiture benefits are based on the 2001 CSO Ultimate Mortality Table, composite at all durations for Issue Ages 0-17 and smoker/non-smoker distinct for Issue Ages 18-85, sex-distinct, age last birthday. Deaths are assumed to occur at the end of the Policy Year.

As required, we have filed the method we used to compute minimum cash values and nonforfeiture benefits with the supervisory official of the jurisdiction in which the application for this policy was signed.

GENERAL PROVISIONS

This Policy is Our Contract with You

This policy is issued in consideration of the application and the payment of premiums as provided in this policy.

This policy, any amendment(s) or endorsement(s), and a copy of the application(s) and any questionnaires for issuance or Reinstatement of the policy attached to it contain the entire contract between you and us. Any statements made in such application(s), questionnaires or any amendments either by you or by the Insured will, in the absence of fraud, be considered representations and not warranties. Also, any written statement made either by you or by the Insured will not be used to void this policy nor defend against a claim under this policy unless the statement is contained in the application(s), questionnaires or any amendments thereto.

We reserve the right to add future Riders or endorsements to this policy, except where prohibited by law.

Incontestability

We cannot contest this policy, except for fraud or non-payment of premium, after it has been In Force during the lifetime of the Insured for two years after the later of:

1. The Date of Issue; and
2. The effective date of Reinstatement of this policy.

If this policy is Reinstated, the original contestability period will continue to apply. In addition, a new two year contestability period will apply from the date of Reinstatement with respect to statements made in the application for Reinstatement.

If the Face Amount of this policy is increased, a new two year contestability period will apply from the date of each increase with respect to statements made in the application for that increase, but only for the amount of the increase.

The Insured, the owner and the Beneficiary are obligated to cooperate in any contestability investigation that we may conduct, including supplying us with necessary authorizations for medical and other information.

Riders

Riders, if any, are listed in the Policy Data. Any Rider will become a part of this policy and will be subject to all of the terms and conditions of this policy, unless we state otherwise in the Rider. In a Rider:

1. References to Policy Specifications mean the Policy Data;
2. References to this policy's Specified Amount mean the Face Amount;
3. References to this policy's Cash Value mean the Policy Value.

Amount Payable Is Limited in the Event of Suicide

If the Insured, whether sane or insane, dies by suicide within two years from the Date of Issue, our liability will be limited to an amount equal to the premiums paid for this policy, less any Loan Balance and any withdrawals during such period.

If the Insured, whether sane or insane, dies by suicide within two years from the effective date of any increase in the Face Amount, our liability for the amount of increase will be limited to the Monthly Deductions for the increase.

Misstatement of Age or Sex in the Application

If the date of birth and/or sex of the Insured has been misstated on the application and we discover this while the Insured is still living, we may recalculate and revise the Policy Value to the amount it would have been at the Insured's correct Age and/or sex. If we discover a misstatement of the Insured's date of birth and/or sex after the Insured's death or if the revised Policy Value would result in the termination of this policy, we will adjust the death benefit instead. The adjusted death benefit will be the amount which would have been purchased at the Insured's correct Age and/or sex by the most recent Monthly Deduction using the correct Monthly Cost of Insurance Rates. If the misstatement is discovered while the Insured is still living, future Monthly Deductions and Minimum Monthly No Lapse Premiums will be adjusted for the Insured's correct Age and/or sex.

Payment of Cash Values and Loans

We may delay paying you the Cash Surrender Value of this policy or any requested withdrawal for up to six months after we receive your request. We may delay making a loan to you for up to six months after we receive your request. We will not delay any loan made to pay premiums due us on any policy.

Who Can Make Changes in the Policy

No change or waiver of any of the provisions of this policy will be valid unless made in writing by us and signed by an officer of the Company. Any change or waiver must be signed by our President or a Vice President together with our Secretary. No agent or other person has the authority to change or waive any provision of this policy.

Termination of Insurance

This policy will terminate and all benefits under it will cease on the earliest of the following:

1. The date this policy Lapses;
2. The date we receive your Written Request to surrender or terminate; or
3. The date of the Insured's death.

Our acceptance of a premium for any period after the date of termination of this policy will create no liability by us with respect to this policy, nor will it constitute a waiver of the termination. Any premium paid for this policy following its termination will be refunded.

No Dividends are Payable

This is nonparticipating insurance. It does not participate in our profits or surplus. We do not distribute past surplus or recover past losses by changing the rates or charges.

Your Rights

During the Insured's lifetime and unless otherwise provided in this policy, you have the exclusive right to assign this policy and to exercise every right, privilege and option this policy grants or that we allow.

To exercise any of these rights, or to apply for the death benefits or any benefits under this policy, communicate with our nearest representative or directly with our Administrative Office. Contact your agent if you desire additional services or information. Please notify us promptly of any change of address.

SETTLEMENT PROVISIONS

Lump Sum Payment

When the death benefit is payable, we will pay it in a lump sum, unless a settlement option is elected.

Settlement Options

During the Insured's lifetime, you may request that we pay the death benefit under one of the following settlement options. We will also use any other method of payment that is agreeable to you and us. After the Insured's death, a Beneficiary may elect to receive such Beneficiary's share of the death benefit under a settlement option. However, you may provide that the Beneficiary will not be permitted to change the settlement option you have selected. If a settlement option is requested, we will prepare an agreement to be signed which will state the terms and conditions under which the payments will be made. This agreement will include a statement regarding the withdrawal value, if any, and to whom any remaining proceeds will be paid following the death of the person receiving the payments.

Annuity

We will use the benefit as a single premium to buy an annuity. The annuity may be payable to one or two payees. It may be payable for a guaranteed period, or for life with or without a guaranteed period as long as we agree to it. The annuity payment will not be less than what our newly issued immediate annuity contracts with the same features are then paying.

Benefit Deposited With Interest

We will hold the benefit on deposit with us and it will earn interest. Such interest will be at a rate declared by us from time to time, but not less than an annual interest rate of 1%, and may differ from the rate we pay under other options. We will pay the earned interest monthly, quarterly, semi-annually or annually, as requested. The payee may withdraw part or all of the benefit and earned interest at any time.

Conditions

Settlements of less than $10,000 will be paid in a lump sum and may not be applied under any settlement option. We may change the payment frequency if payments under an option become less than $100.

A corporation may receive payments under a life income option only if the payments are based on the life of the surviving spouse or dependent of the Insured.

Payments Exempt from the Claims of Creditors

To the extent permitted by law:

1. No payment of the death benefit or interest we make will be subject to the claims of any creditor; and
2. If you provide that the option selected cannot be changed after the Insured's death, the payments will not be subject to the debts or contracts of the person receiving the payments.

(Referred to as the Company, we, our or us)

ADDITIONAL INSURED RIDER

We have issued this rider as a part of the policy to which it is attached. Except as otherwise specifically set forth below, it is subject to all of the terms of the policy.

Rider Benefit

If an Additional Insured dies while insured under this rider, we will pay the rider death benefit as set forth below. The rider death benefit for each Additional Insured is the amount shown for that Additional Insured in the Policy Data. If coverage for an Additional Insured is added or changed after the Date of Issue of the policy, the rider death benefit will be the amount we confirm to you in writing. Payments are subject to the provisions of the policy and this rider.

Payment of Proceeds

Any proceeds payable on the death of an Additional Insured will be paid to the beneficiary you named for that Additional Insured. If you do not name a beneficiary, any proceeds will be payable as set forth in the application for this rider. You may designate a different beneficiary for this rider at any time by:

1. Naming the beneficiary in accordance with the How to Change a Beneficiary provision of the policy; and
2. Specifically stating that the beneficiary designation is applicable to insurance provided under this rider.

Any proceeds may be applied under the Settlement Provisions of the policy.

Definitions

Additional Insured refers separately to each person named as an Additional Insured in the Policy Data. If coverage for an Additional Insured is added after the Date of Issue of the policy, "Additional Insured" will also include anyone so identified by us in writing.

Age has the meaning described in the policy. For purposes of this rider, the Age of an Additional Insured changes on each Policy Anniversary.

Insured means the Insured under the policy to which this rider is attached.

Conversion

While this rider is in effect, you may convert the coverage on an Additional Insured to a new policy of permanent insurance we make available at that time for such purpose. You may convert the coverage on an Additional Insured at any time prior to the Additional Insured's 86th birthday. You must send us a Written Request for the conversion. The following will apply:

1. The face amount of each new policy may not exceed the rider death benefit for that Additional Insured as of the date of the conversion.
2. The face amount of each new policy may not be less than our published minimum for the plan selected. There will always be a plan available in an amount to which you may convert.
3. Each new policy will be effective on the date of conversion. You will be the owner of the new policy unless you request otherwise. If you are not living at the time of conversion, the Additional Insured will be the owner.

4. Premiums for the new policy will be based on the same Class of Risk as this rider (or for a similar Class of Risk, if the same Class of Risk is not available on the new policy), and the Additional Insured's age and sex as of the date of the new policy.
5. The initial premium for the new policy must be received at our Administrative Office within 31 days of receipt of the conversion application. If the initial premium is not received within that period, the conversion application will be cancelled and coverage under this rider will continue unless it has otherwise been terminated.
6. Even if premiums for this rider are being waived under a waiver provision rider attached to the policy at the time of conversion, the premiums under the new policy will not be waived.
7. The new policy will be dated as of the date of the conversion. Coverage under this rider will terminate when coverage under the new policy begins.
8. If coverage under this rider is converted in accordance with these conditions, no evidence of insurability will be required and the incontestability and suicide periods for the new policy will be measured from the later of the Coverage Date or the date of any reinstatement of the new policy.

Death of Insured

If the Insured dies while this rider is in effect and prior to the Additional Insured's 86th birthday, you (or each respective Additional Insured, if you are the Insured) may convert the coverage under this rider in accordance with the Conversion provision. Application for such conversion must be made within 45 days of the death of the Insured. There will be no coverage on an Additional Insured until the conversion application is submitted and the initial premium for the new policy is paid.

Termination

This rider will terminate on the earliest of the following dates or events:

1. The death of the Insured;
2. The Policy Anniversary at the Insured's Age 121;
3. The death of the last surviving Additional Insured;
4. The next Monthly Policy Date following the date you request termination of this rider;
5. The date the policy Lapses;
6. The date the policy is surrendered or continued under any nonforfeiture option; or
7. The date the policy terminates.

Insurance on an Additional Insured will automatically terminate on the earlier of such Additional Insured's Age 100 or when all coverage for that Additional Insured is converted.

Reinstatement

If the policy is Reinstated, you may reinstate this rider and any rider death benefit that was in effect when the policy Lapsed. Insurance for an Additional Insured may be reinstated only if we have received:

1. The Additional Insured's written consent to reinstatement; and
2. Evidence of insurability sufficient to satisfy us that the Additional Insured continues to qualify for the same Class of Risk and any substandard rating upon which we based the issuance of that coverage.

Consideration

We issue coverage on each Additional Insured in consideration of the application and payment of the first monthly charge for such coverage.

Monthly Charges for this Rider

While this rider is in effect, we will take monthly charges for this rider from the Policy Value of the policy to which this rider is attached. Monthly charges apply separately for each Additional Insured. The monthly charges consist of the Cost of Insurance Charge and the Monthly Expense Charge.

Cost of Insurance Charge

The monthly Cost of Insurance Charge for each Additional Insured equals the rider Cost of Insurance Rate for that Additional Insured multiplied by the rider death benefit divided by 1,000. To determine the rider Cost of Insurance rate, we will use the current Cost of Insurance Rate tables in effect for this rider using the Additional Insured's Age, sex, Class of Risk, any substandard rating and the number of years that have elapsed since the Coverage Date (rounding up in the case of partial years).

The Guaranteed Maximum Monthly Cost of Insurance Rates are shown in the policy to which this rider is attached. We may use rider Cost of Insurance Rates lower than the Guaranteed Maximum Monthly Cost of Insurance Rates, but will never charge rates in excess of the Guaranteed Maximum Monthly Cost of Insurance Rates. We may change the rider Cost of Insurance Rates from time to time. Any change to the rider Cost of Insurance Rates will be applied uniformly to all persons of the same Age, sex, Class of Risk and any substandard rating whose coverage has been in effect for the same length of time. The Guaranteed Maximum Monthly Cost of Insurance Rate is based on the Additional Insured's Age, sex and Class of Risk, adjusted for any rating.

Monthly Expense Charge

For each Additional Insured, we will take a Monthly Expense Charge each month. The Monthly Expense Charge for each Additional Insured equals the rider death benefit divided by 1,000, then multiplied by the Monthly Expense Per Thousand for that Additional Insured.

We determine the rate of the Monthly Expense Charge Per Thousand and may change it from time to time, but we will never charge in excess of the Guaranteed Maximum Monthly Expense Charge Per Thousand for each Additional Insured. The amount and duration of the Guaranteed Maximum Monthly Expense Charge Per Thousand in effect for each Additional Insured on the Policy Date is shown in the Policy Data. We will notify you of the amount and duration of the Guaranteed Maximum Monthly Expense Charge Per Thousand applicable to an increase in Additional Insured coverage or an Additional Insured added after the Policy Date. Any change to the Monthly Expense Charge Per Thousand will be applied uniformly to all Additional Insureds of the same Age, sex and Class of Risk whose coverage has been in effect for the same length of time.

Incontestability

The provisions of the policy relating to incontestability apply to this rider. However, if coverage for an Additional Insured is added after the Date of Issue of the policy, the contestable period will be measured from the later of the Coverage Date or the date this rider is reinstated.

If coverage for an Additional Insured is increased, a new two year contestability period will apply from the date of each increase with respect to statements made in the application for that increase, but only for the amount of the increase.

Suicide

If an Additional Insured, whether sane or insane, dies by suicide within two years from the later of the Coverage Date or the Date of Issue of the policy, our liability with respect to that Additional Insured will be limited to an amount equal to the total monthly charges taken for that Additional Insured under this rider. If this rider is reinstated, this section will be reinstated. A new two year period will apply beginning on the date of reinstatement. If an Additional Insured, whether sane or insane, dies by suicide within two years from the reinstatement date, our liability with respect to that Additional Insured will be limited to an amount equal to the monthly charges taken for that Additional Insured under this rider from the date of reinstatement.

If an Additional Insured, whether sane or insane, dies by suicide within two years from the effective date of any increase in coverage for that Additional Insured, our liability for the amount of increase will be limited to the total monthly charges taken for the increase.

No Dividends Are Payable

This rider does not participate in our profits or surplus.

Nonforfeiture Values

This rider does not have cash values or loan values.

Coverage Date

The Coverage Date will be the Policy Date, unless we inform you in writing of a different date.

Signed for us at our Administrative Office.

(Referred to as the Company, we, our or us)

BASE INSURED RIDER

We have issued this rider as a part of the policy to which it is attached. Except as otherwise specifically set forth below, it is subject to all of the terms of the policy.

Rider Benefit

If the Insured dies while insured under this rider, we will pay the rider death benefit as set forth below. The rider death benefit is the amount shown in the Policy Data. If coverage is added or changed after the Date of Issue of the policy, the rider death benefit will be the amount we confirm to you in writing. The rider death benefit is payable in addition to the death benefit payable under the policy. Payments are subject to the provisions of the policy and this rider.

Payment of Proceeds

Any proceeds payable under this rider will be paid to the Beneficiary under the policy. Any proceeds may be applied under the Settlement Provisions of the policy.

Definitions

Age has the meaning described in the policy. For purposes of this rider, the Age of the Insured changes on each Policy Anniversary.

Insured means the Insured under the policy to which this rider is attached.

Conversion

While this rider is in effect, you may convert it to a new policy of permanent insurance we make available at that time for such purpose. The conversion may be made at any time prior to the Insured's 86th birthday. You must send us a Written Request for the conversion. The following will apply:

1. The face amount of the new policy may not exceed the rider death benefit as of the date of the conversion.
2. The face amount of the new policy may not be less than our published minimum for the plan selected. There will always be a plan available in an amount to which you may convert.
3. The new policy will be effective on the date of conversion. You will be the owner of the new policy, unless you request otherwise.
4. Premiums for the new policy will be based on the same Class of Risk as this rider (or for a similar Class of Risk, if the same Class of Risk is not available on the new policy), and the Insured's age and sex as of the date of the new policy.
5. The initial premium for the new policy must be received at our Administrative Office within 31 days of receipt of the conversion application. If the initial premium is not received within that period, the conversion application will be cancelled and coverage under this rider will continue, unless it has otherwise been terminated.
6. Even if premiums for this rider are being waived under a waiver provision rider attached to the policy at the time of conversion, the premiums under the new policy will not be waived.
7. The new policy will be dated as of the date of the conversion. Coverage under this rider will terminate when coverage under the new policy begins.

8. If coverage under this rider is converted in accordance with these conditions, no evidence of insurability will be required and the incontestability and suicide periods for the new policy will be measured from the later of the Coverage Date or the date of any reinstatement of the new policy.

Termination

This rider will terminate on the earliest of the following dates or events:

1. The death of the Insured;
2. The Policy Anniversary at the Insured's Age 100;
3. The next Monthly Policy Date following the date you request termination of this rider;
4. The date the policy Lapses;
5. The date the policy is surrendered or continued under any nonforfeiture option;
6. The date the policy terminates; or
7. The date all coverage under this rider is converted.

Reinstatement

If the policy is Reinstated, you may reinstate this rider and any rider death benefit that was in effect when the policy Lapsed. Insurance may be reinstated only if we have received:

1. The Insured's written consent to reinstatement; and
2. Evidence of insurability sufficient to satisfy us that the Insured continues to qualify for the same Class of Risk and any substandard rating upon which we based the issuance of the coverage.

Consideration

We issue coverage under this rider in consideration of the application and payment of the first monthly charge for that coverage.

Monthly Charges for this Rider

While this rider is in effect, we will take monthly charges for this rider from the Policy Value of the policy to which this rider is attached. The first monthly charge for this rider is shown in the Policy Data if this rider is issued on the Date of Issue of the policy.

The monthly charge for this rider equals the rider Cost of Insurance Rate multiplied by the rider death benefit divided by 1,000. To determine the rider Cost of Insurance Rate, we will use the current Cost of Insurance Rate Tables in effect for this rider using the Insured's Age, sex, Class of Risk, any substandard rating and the number of years that have elapsed since the Coverage Date (rounding up in the case of partial years).

The Guaranteed Maximum Monthly Cost of Insurance Rates are shown in the policy to which this rider is attached. We may use rider Cost of Insurance Rates lower than the Guaranteed Maximum Cost of Insurance Rates but will never charge rates in excess of the Guaranteed Maximum Monthly Cost of Insurance Rates. We may change the rider Cost of Insurance Rates from time to time. Any change to the rider Cost of Insurance Rates will be applied uniformly to all persons of the same Age, sex, Class of Risk and any substandard rating whose coverage has been in effect for the same length of time. The Guaranteed Maximum Monthly Cost of Insurance Rate is based on the Insured's Age, sex and Class of Risk, adjusted for any rating.

Incontestability

The provisions of the policy relating to incontestability apply to this rider. However, if this rider is added after the Date of Issue of the policy, the contestable period will be measured from the later of the Coverage Date or the date this rider is reinstated.

If the rider death benefit is increased, a new two year contestability period will apply from the date of each increase with respect to statements made in the application for that increase, but only for the amount of the increase.

Suicide

If the Insured, whether sane or insane, dies by suicide within two years from the later of the Coverage Date or the Date of Issue of the policy, our liability will be limited to an amount equal to the total monthly charges taken for this rider. If this rider is reinstated, this section will be reinstated. A new two year period will apply beginning on the date of reinstatement. If the Insured, whether sane or insane, dies by suicide within two years from the reinstatement date, our liability will be limited to an amount equal to the monthly charges taken for this rider from the date of reinstatement.

If the Insured, whether sane or insane, dies by suicide within two years from the effective date of any increase in the rider death benefit, our liability for the amount of increase will be limited to the total monthly charges taken for the increase.

No Dividends Are Payable

This rider does not participate in our profits or surplus.

Nonforfeiture Values

This rider does not have cash values or loan values.

Coverage Date

The Coverage Date will be the Policy Date, unless we inform you in writing of a different date.

Signed for us at our Administrative Office.

SECTION 54. ILLUSTRATION CERTIFICATION (Universal Life only)

The box below MUST be checked if a signed illustration of the policy applied for is NOT enclosed with this application.

☐ The Applicant/Owner and the Licensed Agent certify that they have each read and agree with their respective statements below regarding the policy applied for:

Applicant's/Owner's statement: By signing this application, I, the Applicant/Owner acknowledge that I have NOT received an illustration of the policy applied for and understand that an illustration of the policy as issued will be provided no later than the policy delivery date. **Licensed Agent's statement:** By signing this application, I, the Licensed Agent certify that I have NOT provided an illustration of the policy as applied for. However, I will provide an illustration conforming to the policy as issued upon or prior to delivery of the policy.

ACKNOWLEDGMENT OF PROPOSED OWNER AND INSURED(S) –Each of the undersigned hereby certifies and represents as follows: The statements and answers given on this application are true and correct. I acknowledge and agree (A) that this application and any amendments shall be the basis for any insurance issued; (B) that the agent does not have the authority to waive any question on this application, to decide if insurance will be issued, or to modify any term or provision of any insurance which may be issued based on this application, only a writing signed by an officer of the Company can change the terms of this application or the terms of any insurance issued by the Company; (C) except as provided in the Conditional Receipt, if issued with the same proposed Insured(s) as on this application, no policy applied for shall take effect until after all of the following conditions have been met: 1) the minimum initial premium must be received by the Company; 2) the proposed Owner must have personally received and accepted the policy during the lifetime of all proposed Insured(s) and while all proposed Insured(s) are in good health; and 3) on the date of the later of either 1) or 2) above, all of the statements and answers given in this application must be true and complete, and the insurance will not take effect if the facts have changed. Unless otherwise stated the undersigned applicant is the premium payor and Owner of the policy applied for.

I authorize MIB Group, Inc. and its members or affiliates, my employer or former employer, any consumer reporting agency or governmental agency, medical provider, or any insurer or reinsurer to provide medical or personal information about me that is reasonably required for the purposes stated in this authorization to Transamerica Life Insurance Company, its administrators, representatives or its reinsurers. I understand the information obtained by use of the authorization will be used by Transamerica Life Insurance Company to determine eligibility for insurance, and eligibility for benefits under an existing policy. Any information obtained will not be released by Transamerica Life Insurance Company to any person or organization except to reinsurers, MIB Group, Inc. and its members or affiliates, or other persons or organizations performing business or legal services in connection with my application, claim or as may be otherwise lawfully required or as I may authorize. This authorization will expire 30 months from the date signed. A copy of this authorization shall be as valid as the original. Either my authorized representative or I may receive a copy of this authorization upon request.

The Company shall have sixty days from the date hereof within which to consider and act on this application and if within such period a policy has not been received by the applicant or if notice of approval or rejection has not been given, then this application shall be deemed to have been declined by the Company.

I acknowledge receipt of the (1) Notice to Persons Applying for Insurance Regarding Investigative Report, (2) MIB Group, Inc. Pre-Notification, (3) Notice of Insurance Information Practices, and (4) Disclosure for Accelerated Terminal Illness Benefit, if required. I understand that any omissions or misstatements in this application could cause an otherwise valid claim to be denied under any insurance issued from this application.

I also understand that I will not receive any insurance coverage for any money paid with this application unless a policy is issued except in accordance with the terms of the Conditional Receipt.

Please make checks payable to Transamerica Life Insurance Company. Do not make checks payable to the agent or leave the payee space blank on your check.

Amount paid with application: $ _____ **Best time for a personal history interview:** _____ **a.m./ p.m. Okay to contact at work?** ☐ **Yes** ☐ **No**

FRAUD WARNING: Any person who knowingly presents a false or fraudulent claim for payment of a loss or benefit or knowingly presents false information in an application for insurance is guilty of a crime and may be subject to fines and confinement in prison.

- Did you ask all questions on the application in the presence of all proposed Insureds, record the answers as given, and witness all signatures? ☐ Yes ☐ No
  If not, please provide details. _____
- Do you have any knowledge or reason to believe that the insurance applied for will replace or change any existing insurance or annuity? ☐ Yes ☐ No
  (If yes, submit the state required forms.)

CONDITIONAL RECEIPT

(Detach and leave with applicant only if money is submitted with application. **If within the past 12 months any proposed Insured has been treated for or experienced heart trouble, stroke or cancer, no payment may be accepted with the application.** Do not accept money unless all required signatures below are obtained.)

PLEASE READ THIS CAREFULLY

No coverage will become effective prior to the delivery of the policy applied for unless and until all conditions of this receipt have been fulfilled exactly. No agent or field representative is authorized to waive or modify any of the provisions of the Conditional Receipt.

Make all checks payable to the Company. Do not make checks payable to the agent or leave the payee blank or you may jeopardize the insurance for which you have applied.

Received from _____, the sum of $_____ for the insurance application dated _____, with _____ as the proposed Insured(s). The policy you applied for will not become effective unless and until a policy contract is delivered to you and all other conditions of coverage are met. However, subject to the conditions and limitations of this Receipt, conditional insurance under the terms of the policy applied for may become effective as of the later of (1) the date of application and (2) the date of the last medical examination, tests, and other screenings required by the Company, if any (the "Effective Date"). Such conditional insurance will take effect as of the Effective Date, so long as all of the following requirements are met:

1. Each person proposed to be insured is found to have been insurable as of the Effective Date, exactly as applied for in accordance with the Company's underwriting rules and standards, without any modifications as to plan, amount, or premium rate;
2. As of the Effective Date, all statements and answers given in the application must be true;
3. The payment made with the application must not be less than the full initial premium for the mode of payment chosen in the application, must be received at our Administrative Office within the lifetime of the proposed Insured to whom the conditional coverage would apply and, if in the form of check or draft, must be honored for payment;
4. All medical examinations, tests, and other screenings required of the proposed Insured by the Company are completed and the results received at our Administrative Office within 60 days of the date the application was completed; and
5. All parts of the application, any supplemental application, questionnaires, addendum and/or amendment to the application are signed and received at our Administrative Office.

Specimen

Any conditional coverage provided by this Receipt will terminate on the earliest of: (a) 60 days from the date the application was signed; (b) the date the Company either mails notice to the applicant of the rejection of the application and/or mails a refund of any amounts paid with the application; (c) when the insurance applied for goes into effect under the terms of the policy applied for; or (d) the date the Company offers to provide insurance on terms that differ from the insurance for which you have applied.

If one or more of this Receipt's conditions have not been met exactly, or if a proposed Insured dies by suicide, the Company will not be liable except to return any payment made with the application.

If the Company does not approve and accept the application for insurance within 60 days of the date you signed the application, the application will be deemed to be rejected by the Company and there will be no conditional insurance coverage. In that case, the Company's liability will be limited to returning any payment(s) you have made upon return of this Receipt to the Company.

The aggregate amount of conditional coverage provided under this Receipt, if any, and any other Conditional Receipt issued by the Company shall be limited to the lesser of the amount(s) applied for or $500,000 of life insurance. There is no conditional coverage for riders or any additional benefits, if any, for which you have applied.

Authorization (Signatures Required)
I certify that I have read and reviewed the Conditional Receipt and the acknowledgment of the applicant and proposed Insured in the application. The terms and conditions of the conditional receipt have been explained to me fully by the agent and I understand them.

NOTICE TO PERSONS APPLYING FOR INSURANCE
REGARDING INVESTIGATIVE REPORT

To proposed Insured: In connection with this application, an investigative consumer report may be prepared about you. Such reports are part of the process of evaluating risks for life and health insurance. Typically, this report will contain information about your character, general reputation, personal characteristics and mode of living. The information in the report may be obtained by talking with you or members of your family, business associates, financial sources, neighbors, and others you know. You may ask to be interviewed in connection with the preparation of any such report. Also, we may have the report updated if you apply for more coverage.

Upon your written request, we will let you know whether a report was prepared and we will give you the name, address, and telephone number of the agency preparing the report. By contacting that agency and providing proper identification, you may obtain a copy of the report.

MIB GROUP, INC. (MIB) PRE-NOTIFICATION

To proposed Insured: Information regarding your insurability will be treated as confidential. We or our reinsurer(s) may, however, make a brief report on this information to MIB Group, Inc., a non-profit membership organization of insurance companies that operates an information exchange on behalf of its members. If you apply to another MIB member company for life or health insurance coverage, or a claim for benefits is submitted to such a company, MIB may, upon request, supply such company with the information in its file.

Upon receipt of a request from you, MIB will arrange disclosure of any information it may have in your file. If you question the accuracy of information in MIB's file, you may contact MIB and seek a correction in accordance with the procedures set forth in the federal Fair Credit Reporting Act. The address of MIB's information office is: Post Office Box 105, Essex Station, Boston, Massachusetts 02122; and telephone number is 866-692-6901 (TTY 866-346-3642 for hearing impaired).

Specimen

NOTICE OF INSURANCE INFORMATION PRACTICES

To proposed Insured: Personal information may be collected from persons other than the individual proposed for coverage. Such information as well as other personal or privileged information subsequently collected by us or our agent may in certain circumstances be disclosed to third parties without authorization. Upon request, you have the right to access your personal information and ask for corrections. You may obtain a complete description of our Information Practices by writing to Transamerica Life Insurance Company, Attn: Director of Underwriting, [4333 Edgewood Road NE, Cedar Rapids, Iowa 52499].

PLEASE PROVIDE A COPY OF THIS NOTICE TO THE PROPOSED INSURED IF NOT A HOUSEHOLD MEMBER.
