ARKANSAS

FILING MEMORANDUM

The attached manual pages reflect a rate and rule revision for the personal automobile program for the state of Arkansas. The overall rate level effect of the proposed changes is 0.0%. The proposed changes are discussed below:

1. We are adopting new Countrywide General Rules. The new set of General Rules revises the rounding in our rate calculations to the penny and revises the SDIP points assigned for various violations including: Driving over 100 miles per hour from 2 points to 4 points, Failure to stop for a school bus from 1 point to 4 points, Lending a license or registration from 4 points to 6 points, Operating a vehicle without permission from 1 point to 6 points, and Driving without a valid license from 6 points to 4 points. In addition, the rule for model years prior to 1976, as well as the rule for symbols greater than 26 have been revised as displayed on rate pages AR-R-5. These changes are expected to have minimal rate impact on policyholders.

   As a result of introducing the new General Rules, the Arkansas state exception pages and rate pages have been reformatted. The proposed changes are mostly cosmetic in nature other than those outlined in the paragraph above. They will provide for a more transparent structure and ease the revision process, while allowing us to maintain a singular set of General Rules for current as well as future products. All rates have been removed from the General Rules and State Exception Pages and added to the State Rate Pages. The proposed General Rules, State Exception Pages and State Rate Pages are attached. No changes have been made to the class, tier model, or territory pages.

2. We are submitting a complete Rate and Rule Manual reflecting the Company name change from Birmingham Fire Insurance Company of Pittsburgh, PA to AIG Casualty Company. The only changes to the manual are those discussed above.

These revisions are proposed to be effective for all policies written on or after January 28, 2008. In conjunction with our 60 day renewal cycle, this will affect all Renewal policies with an effective date on or after March 28, 2008.

4. CLASSIFICATIONS

This rule does not apply to risks rated in accordance with the Miscellaneous Types Rule unless otherwise specified.

A. AUTOS are classified as follows:

1. Primary Classification

   a. Classify the AUTO according to the age, sex and marital status of the operators, the use of the AUTO, annual mileage of the AUTO and the eligibility of YOUTHFUL OPERATORS for the Driver Training and/or Good Student classes, and

   b. For all tiers, determine the Primary Classification factors based on tier assignment from the Primary Rating Factor tables in the State Class Plan Pages. For tiers 10-59, adjust the Primary Rating Factor by the Graded Discount Factor.

2. Secondary Classification

   a. Determine if the AUTO is:

      (1) A single car, or
      (2) Part of a multi-car risk

   b. Refer to the Safe Driver Insurance Plan to classify operators according to the provisions of the Plan.

   c. Determine the appropriate Secondary Class Plan Factor based on the accident and conviction points and number of vehicles on the policy. For tiers 10-59, adjust the Secondary Class Plan Factor by the Secondary Graded Discount Factor indicated from the pages.

3. Classification Changes

   Compute premium adjustments on a pro rata basis when changes in Primary and Secondary Rating Classifications are made. This includes the addition or deletion of an operator during the policy term.

EXCEPTIONS:

1. A policy shall not be changed mid-term because of the attained age of an operator of the AUTO.

2. A policy shall not be changed mid-term to affect a change in surcharge points due to an accident or violation in the current term.

3. A policy shall not be changed mid-term solely due to a change in symbol.
