4. TABLE OF PREMIUMS AND DEATH BENEFITS

Insured: [John Doe]
Issue Age and Sex: [35] [M]
Premium Class: [Standard, No Nicotine Use]

This table shows the least amount of time your policy will stay in effect based on these specific

Assumptions:

- in each policy year you timely pay the total premiums shown in the table for that policy year;
- we receive any 1035 premium in the first policy year, and receive all other premiums in the policy month in which the illustration for this policy shows their payment. (Note: these premiums comprise the amounts shown in the Total Premiums Paid in Policy Year column of the table);
- you do not take any withdrawals or any policy loans other than any loan transferred to this policy as part of a 1035 Exchange;
- you do not change the Initial Specified Amount; and
- you do not add any Rider that has an additional charge or change any Rider such that the charge for it increases.

The Death Benefits shown in this table reflect any loan amount transferred to this policy as part of a 1035 Exchange.

4. TABLE OF PREMIUMS AND DEATH BENEFITS (Cont'd)

This table shows how long your policy will stay in effect based on the specific **Assumptions** described on page 5. If actual experience differs from these **Assumptions**, the length of coverage may differ from this table. The death benefits are shown as of the beginning of a Policy Year. If the table shows a death benefit at age 121, the policy will remain in effect for the life of the Insured from that point forward.
