jurisdiction, and has been removed from the attached application.

This application contains no unusual or controversial elements. This application will be used in the individual life insurance market by our licensed independent agents. To the best of our knowledge and belief, this filing is complete and complies with the insurance laws and regulation of your jurisdiction.

AAR5099 (10/10) description

This form is an individual life insurance application that will be used to apply for previously approved individual whole life policies and riders. All previously approved associated forms are described in detail in an attachment provided under the Supporting Documentation tab. The previously approved policy forms are not marketed with an illustration.

This application was revised to update the health questions, as well as to accommodate our electronic initiatives in taking this application for life insurance. There are three electronic application processing methods.

METHOD 1

At the request of the applicant, the agent will contact the applicant by telephone. At the outset, the applicant will be advised that the telephone application will be recorded. The applicant must voice his/her agreement that: 1) a telephone application for a life insurance policy with Americo Financial Life and Annuity Insurance company is being completed; 2) by agreeing to the completion of the telephone application process, his/her signature will be applied to the application documents and will be binding as if he/she had signed each document by a traditional handwritten method; and, 3) he/she is agreeing to proceed with the telephone application process.

The agent will follow a prescribed script of questions, which tracks the language of the approved application. The applicant's responses will be entered electronically by the agent through the Company's secure website and populated to applicable blanks on the captioned application form. A copy of the recording of the telephone application must be received in our Home Office before the policy will be issued.

At the end of the telephone call the applicant is transferred to a recording of the following disclosures: Authorization & Acknowledgment, Conditional Receipt, Information Practices Notice, Accelerated Benefit Disclosure (if applicable), and Replacement Notice (if applicable).

Within 24 business hours of completing an application, the Company will mail, to the proposed insured, paper copies of the aforementioned disclosures.

METHOD 2

The agent meets with the client in person. The applicant's responses will be entered electronically, by the agent,

through the Company's secure website and populated to applicable blanks on the captured application form.

Once the application data has been entered, the agent uses an e-mail delivery system to send the completed application to the appropriate parties for signature. Each party (Owner, Insured, Payor, Agent) responds to the received e-mail by logging into a secure website where they will review the completed application in PDF form and electronically apply their signatures while in the presence of the agent or at a later time using any internet service.

Once the Owner, Insured, and Payor have electronically signed the application, the agent completes the process by applying his/her signature.

METHOD 3

The agent will contact the applicant by telephone, and the agent completes the application interview over the telephone. The call is not recorded. The applicant's responses will be entered electronically by the agent through the Company's secure website and populated to applicable blanks on the captioned application form.

Once the application data has been entered, the agent uses a secure e-mail delivery system to send the completed application to the appropriate parties for signature. Each party (Owner, Insured, Payor, Agent) responds to the received e-mail by logging into a secure website where they will review the completed application in PDF form and electronically apply their signatures.

Once the Owner, Insured, and Payor have electronically signed the application, the agent completes the process by applying his/her signature.

The following is true for all three methods:

The respective name of the Proposed Insured, the Owner, the Payor, and the Agent, as applicable, followed by the words "Signed by Voice Signature" will overprint on the signature lines of the application. The completed application will be attached to the policy at issue. Applicable signatures on all application documents will be affixed by voice signature.

The security measures in place to protect customer privacy are: agents will be required to authenticate with Americo's extranet by entering a unique user name and password. The extranet site uses a Secured Socket Layer (SSL) encryption certificate. All data collected and transferred to Americo will be SSL encrypted and stored in database files on the Company's main data repository. The voice signature is stored in a .WAV file format and placed in the Company's repository. A Corporate firewall protects these files from external threats and the files are secured by access groups. Only the employees who have a valid business need, as approved by management, have access to these files.

Upon receipt of the policy, the Owner has a 20-day free look period (30 days in the case of replacement), pursuant to the terms of the policy, to review coverage and return the policy for a full refund of premium if he/she decides not to accept the policy.

The applicant can end the telephone application at any time during the process.
