the Fixed Account Minimum Interest Rate will be redetermined on an annual basis and we may impose a limit on transfers from the 1-Year Fixed Account Option each Contract Year. Included are the pages that will be substituted for pages with sex-distinct provisions when unisex language and values are appropriate due to the Contract issued being subject to the Norris decision.

The application to be used with this contract is new and the form VDA 630 04/10 is included with this filing for your approval. The application contains fraud language that is specific to individual states. The language is clearly identified as to those states.

A readability certification has not been included with this submission as these forms as they are regulated as a security by the Securities and Exchange Commission and are not subject to readability requirements. These forms will be issued by Jackson National Life Insurance Company, and will be marketed to the general public by appropriately licensed registered representatives through broker/dealers and financial institutions. The issue ages for the contract are 0 to 90.

This contract offers its Owner two major categories of contract investment options to allocate funds: Investment Divisions of the Separate Account and Fixed Account Options.

The three main changes to this contract are as follows:

- The Fixed Account Minimum Interest Rate will be redetermined each October and will take effect the following year on the Contracts Redetermination Date. The calculation of this redetermination is outlined in the Statement of Actuarial Basis.
- The Company may impose a limitation on transfers from the 1-Year Fixed Account Option, so that transfers from the 1-Year Fixed Account Option in any Contract Year may not exceed a maximum amount, which is equal to:
 1. 1/3 of the Contract Value in the 1-Year Fixed Account Option as of the most recent Contract Anniversary, in the first Contract Year that this restriction is imposed or if in the prior Contract Year this restriction was imposed and the maximum amount was not transferred from the 1-Year Fixed Account Option;
 2. 1/2 of the Contract Value in the 1-Year Fixed Account Option as of the most recent Contract Anniversary, if in the prior Contract Year this restriction was imposed and the maximum amount was transferred from the 1-Year Fixed Account Option;
 3. the remaining Contract Value in the 1-Year Fixed Account Option, if in both of the two prior Contract Years this restriction was imposed and the maximum amount was transferred from the 1-Year Fixed Account Option.
- For Owner's who have reached the attained age of 86 or greater, upon a partial or full withdrawal the withdrawal charge percentage will be the lesser of the Withdrawal Charge Percentage or the Maximum Withdrawal Charge Percentage listed on the Contract Data Page.

Dear Lynda Neese,

This will acknowledge receipt of the captioned filing.

Objection 1

No Objections

Comment: Ark. Code Ann. 23-79-138 requires that a Consumer Information Notice accompany every policy. Regulation 49 requires that a Life and Health guaranty notice be given to each policy owner. You may satisfy these requirements by including copies of the notices with your filing or certifying that you are in compliance.

Filings of variable contracts must be accompanied by a certification that Regulation 33, in particular Articles, VI, VII, IX and XI, has been reviewed and that the company is in compliance. Although Regulation 33 is specifically addressed to variable life, many of the same concerns affect variable annuities and the regulation should be satisfied in as far as it applies to annuities.

Please feel free to contact me if you have questions.

Sincerely,

Linda Bird

The amount of Annual Contract Maintenance Charge may be reduced when sales of the Contract are made to a trustee, employer, or similar entity pursuant to an employee-sponsored retirement plan or when sales are made in a similar arrangement where offering the Contract to a group of individuals or certain individual(s) results in savings of administration expenses. The entitlement of such reduction in Annual Contract Maintenance Charge will be determined by the Company.

GENERAL PROVISIONS (CONT'D)

CONFORMITY WITH LAWS. This Contract will be interpreted under the law of the state in which it is issued and any applicable federal laws. Any provision that is in conflict with the law of such state or any federal law is amended to conform to the minimum requirements of such law.

CONTESTABILITY. The Company will not contest this Contract from its Issue Date, as shown on the Contract Data Page.

DEFERMENT OF PAYMENTS. The Company may defer payment from a Fixed Account Option for a period not exceeding six (6) months. Deferral for the six (6) month period will be made only if We make a written request and receive written approval from the regulatory official of the Issue State. Subject to state requirements, interest will be credited during such deferred period.

ENTIRE CONTRACT. The Contract, and any attached Company forms, endorsements and amendments together make up the entire Contract.

INCORRECT AGE OR SEX. If the age or sex of the Owner or Annuitant is incorrect, the payments will be those that the Premiums paid would have purchased at the correct age and sex. Any underpayments will be adjusted immediately by the Company. Overpayments will be deducted from future payments.

MODIFICATION OF CONTRACT. Any change or waiver of the provisions of this Contract must be in writing and signed by the President, a Vice President, the Secretary or Assistant Secretary of the Company. Any request or notice must be sent to the Service Center, unless the Company advises You otherwise. You are responsible for promptly notifying the Company of any address change.

GENERAL PROVISIONS (CONT'D)

SUBSTITUTION OF INVESTMENT DIVISION(S). The Company may substitute any Underlying Mutual Fund(s) with another Underlying Mutual Fund without Your consent. Substitution would occur if the Company determines that the use of certain Underlying Mutual Fund(s) is no longer possible or if the Company determines it is no longer appropriate for the purposes of the Contract. No substitution will be made without notice to You. Changes of Underlying Mutual Fund(s) are subject to the federal securities laws and, if required, the laws of the state where the Contract was issued for delivery. Should a substitution, addition, or deletion occur, You will be allowed to select from the then current Investment Divisions and substitution may be made with respect to both existing Contract Value in that Investment Division(s) and the allocation of future Premiums.

SUSPENSION OF PAYMENTS. The Company may suspend or postpone any transfers or payments to or from the Investment Divisions if any of the following occur:

1. The New York Stock Exchange is closed;
2. Trading on the New York Stock Exchange is restricted;
3. An emergency exists such that it is not reasonably practical to dispose of securities in the Separate Account or to determine the value of its assets; or
4. The Securities and Exchange Commission, by order, so permits for the protection of Contract Owners.

The applicable rules and regulations of the Securities and Exchange Commission will govern whether conditions described in 2. and/or 3. exist.

TAXES. The Company may deduct from the Contract Value any premium taxes or other taxes payable to a state or other government entity because of this Contract. Should the Company advance any amount so due, the Company is not waiving any right to collect such amount at a later date. The Company will deduct any withholding taxes required by applicable law as a result of any withdrawals or amounts payable from this Contract.

TRANSFER. The conditions for transfer between Contract Options are explained in the Contract Data Page. The Company reserves the right to restrict the number, means and frequency of transfers per year that may be requested by the Owner.

Your ability to make transfers is subject to modification if the Company determines, at the Company's sole discretion, that the exercise by one or more owners is, or would be, to the disadvantage of other owners. Restrictions may be applied in any manner reasonably designed to prevent any use of the transfer provision which is considered by the Company to be to the disadvantage of other owners. A modification regarding Your ability to make transfers to or from one or more of the Contract Options could include, but not be limited to:

GENERAL PROVISIONS (CONT'D)

1. The requirement of a minimum time period between each transfer;
2. Limiting transfer requests of an agent acting on behalf of one or more owners or under a power of attorney on behalf of one or more owners;
3. Limiting the dollar amount that may be transferred at any one time;
4. A restriction that transfers from the 1-Year Fixed Account Option in any Contract Year may not exceed the maximum amount, which is equal to:
 - a. 1/3 of the Contract Value in the 1-Year Fixed Account Option as of the most recent Contract Anniversary, in the first Contract Year that this restriction is in effect or if in the prior Contract Year this restriction was in effect and the maximum amount was not transferred from the 1-Year Fixed Account Option;
 - b. 1/2 of the Contract Value in the 1-Year Fixed Account Option as of the most recent Contract Anniversary, if in the prior Contract Year this restriction was in effect and the maximum amount was transferred from the 1-Year Fixed Account Option but in the second prior Contract Year either the restriction was not in effect or the maximum amount was not transferred;
 - c. the remaining Contract Value in the 1-Year Fixed Account Option, if in both of the two prior Contract Years this restriction was in effect and the maximum amount was transferred from the 1-Year Fixed Account Option.If this restriction is imposed, the Company may limit Your ability to transfer into or allocate new Premium to the 1-Year Fixed Account Option in any Contract Year You make a transfer from the 1-Year Fixed Account Option. If this restriction is imposed, the Company may limit Your ability to transfer from the 1-Year Fixed Account Option in any Contract Year You make a transfer into or allocate new Premium to the 1-Year Fixed Account Option. If this restriction is imposed, the Company may require any transfers from the 1-Year Fixed Account Option to occur at least twelve (12) months after the last transfer from the 1-Year Fixed Account Option in the previous Contract Year. If this restriction is imposed, systematic investment programs may be excluded; transfers under such programs do not count against the maximum amount, and the Contract Value under such programs is excluded from the determination of the maximum amount.
5. A systematic transfer program in the event that a restriction on transfers from the Fixed Account Option(s) is imposed.

The Company may provide systematic investment programs that allow You to transfer funds among the Investment Divisions and the Fixed Account Options. These programs may include dollar cost averaging, portfolio rebalancing, and the automatic monthly transfer of earnings from the 1-Year Fixed Account Option and/or money market Investment Division to other Investment Divisions or Fixed Account Options. You may contact the Company's Service Center, and the Company will furnish all necessary forms to request these programs. The Company makes no guarantee that these programs will result in a profit or protect against loss in a declining market. The Company may restrict Your participation in these programs if You allocate funds to a Fixed Account Option.

In order to participate in a dollar cost averaging program or automatic transfer of earnings program, the Separate Account Contract Value plus the Fixed Account Contract Value must be at least [\$15,000]. The Company may waive this requirement at its discretion. For a dollar cost averaging program, You may authorize the automatic transfer of a fixed dollar amount or selected percentage of the value of a Source Option, periodically to one or more Designated Option(s). The intervals between transfers may be monthly, quarterly, semi-annually or annually.

GENERAL PROVISIONS (CONT'D)

Additionally, the Company may offer Owners selecting dollar cost averaging an enhanced interest rate(s) on Premium allocated to the 1-Year Fixed Account Option (Source Option) provided all amounts in the Source Option are transferred to the Designated Option(s) within a specific duration determined by the Company. The duration and interest rates are available from the Service Center upon request. Each month, the Company will transfer a predetermined amount from the Source Option. Upon the Owner's cancellation of this program, the Company will transfer the Source Option balance, including any interest, into the Designated Option(s) selected by the Owner.

ACCUMULATION PROVISIONS

An Owner may not allocate Contract Values to more than [eighteen] Contract Options at any one time. The Company may waive this restriction at its discretion.

SEPARATE ACCOUNT. The Separate Account consists of assets the Company has set aside and has kept separate from the rest of the Company's general account assets and those of its other segregated asset accounts. These assets are not chargeable with liabilities arising out of any other business the Company may conduct. All the income, gains, and losses resulting from these assets are credited to or charged against the contracts supported by the Separate Account, and not against any other contracts the Company may issue. The assets of the Separate Account will be available to cover the liabilities of the Company's general account only to the extent that the assets of the Separate Account exceed the liabilities of the Separate Account arising under the Contracts supported by the Separate Account. The Separate Account consists of several Investment Divisions. The assets of the Separate Account shall be valued at least as often as any benefits of this Contract, but in no event will such valuation be less frequently than monthly.

Accumulation Units. The Separate Account Contract Value will go up or down depending on the performance of the Investment Divisions. In order to monitor the Separate Account Contract Value during the accumulation phase, the Company uses a unit of measure called an Accumulation Unit. The value of an Accumulation Unit may go up or down from Business Day to Business Day. Adjustments to the Contract Value, such as withdrawals, transfers, and charges, result in the redemption of Accumulation Units. However, these adjustments do not affect the value of the Accumulation Units.

When You make an allocation to the Investment Divisions, the Company credits Your Contract with Accumulation Units. The number of Accumulation Units credited is determined by dividing the amount allocated to any Investment Division by the Accumulation Unit Value for that Investment Division at the close of the Business Day when the allocation is made.

Accumulation Unit Value. The Company determines the value of an Accumulation Unit for each of the Investment Divisions. This is done by:

1. Determining the total amount of money invested in the particular Investment Division;
2. Subtracting from that amount any Mortality and Expense Charge, Administration Charge, and any other charge for optional benefits and taxes;
3. Dividing the remainder by the number of outstanding Accumulation Units.

FIXED ACCOUNT. For any amounts allocated to the Fixed Account, the Owner will select the duration of the Fixed Account Option from those made available by the Company. Such amounts will earn interest at the Current Interest Rate for the chosen duration, compounded annually during the entire Fixed Account Option period. Subsequent Base Interest Rates may be higher or lower than the Base Interest Rates previously declared by the Company.

You may allocate Premiums, or make transfers from the Investment Divisions, to the Fixed Account Options at any time prior to the Income Date, subject to the provisions of this Contract. However, no Fixed Account Option period other than one year may be chosen which extends beyond the Income Date. Withdrawals from a Fixed Account Option may take place 30 days following the end of the corresponding Fixed Account Option period without being subject to an Excess Interest Adjustment.

ACCUMULATION PROVISIONS (CONT'D)

If the Owner does not specify a Fixed Account Option at the time of renewal, the Company will select the same Fixed Account Option period as has just expired, so long as such Fixed Account Option period is available and does not extend beyond the Income Date. If such Fixed Account Option period does extend beyond the Income Date, the Company will choose the longest Fixed Account Option period that will not extend beyond such date. If a renewal occurs within one year of the Income Date, the Company will credit interest up to the Income Date at the then Current Interest Rate for the 1-Year Fixed Account Option. If the same Fixed Account Option period as had just expired is not available and such Fixed Account Option period does not extend beyond the Income Date, the Company will choose the next shortest Fixed Account Option period available.

Fixed Account Contract Value. The Fixed Account Contract Value under the Contract shall be the sum of all amounts allocated or transferred to the Fixed Account Options, reduced by any applicable taxes, plus all interest credited to the Fixed Account Options, adjusted for withdrawals (including any applicable charges and adjustments for such withdrawals), transfers and charges.

Excess Interest Adjustment. Except in the 30-day period following the end of a Fixed Account Option, any amount withdrawn, transferred, or annuitized from a Fixed Account Option will be subject to an Excess Interest Adjustment. If the Base Interest Rate available on a new Fixed Account Option at the time of withdrawal or transfer (see **J** below) is higher than the Base Interest Rate declared at allocation to a Fixed Account Option (see **I** below), a downward adjustment may apply, potentially reducing the amount withdrawn, transferred or annuitized. If the Base Interest Rate credited to a new Fixed Account Option at the time of withdrawal or transfer (see **J** below) is lower than the Base Interest Rate declared at the time of allocation to a Fixed Account Option (see **I** below), an upward adjustment may apply, potentially increasing the amount withdrawn, transferred or annuitized. The Excess Interest Adjustment will be calculated by multiplying the amount withdrawn, transferred or annuitized by the formula described below:

$$\frac{[1+\mathbf{I}]^{(m/12)}}{[1+\mathbf{J}+.005]^{(m/12)}} - 1$$

where:

- I** = The Base Interest Rate credited to the existing Fixed Account Option period.
- J** = The Base Interest Rate that would be credited, at the time of withdrawal, transfer, or annuitization to a new Fixed Account Option period of the same duration. When no Fixed Account Option period of the same duration is available, the rate will be established by linear interpolation.
- m** = The number of complete months remaining to the end of current Fixed Account Option period.

There will be no Excess Interest Adjustment when **J** is less than **I** by 0.5% or less.

ACCUMULATION PROVISIONS (CONT'D)

In addition, the Excess Interest Adjustment will not be applied to:

1. the payment of death benefit proceeds;
2. an Income Option that is life contingent or results in payments spread over at least five years;
3. amounts withdrawn for Contract charges;
4. amounts transferred or withdrawn from the 1-Year Fixed Account Option; or
5. amounts withdrawn under the Additional Free Withdrawal provision.

In no event will a total withdrawal from a Fixed Account Option be less than the Fixed Account Minimum Value.

Fixed Account Minimum Interest Rate. On the Issue Date, the Initial Fixed Account Minimum Interest Rate is shown on the Contract Data Page. On each subsequent Redetermination Date, the Fixed Account Minimum Interest Rate will be redetermined. The redetermined rate will apply for that Redetermination Period.

The Fixed Account Minimum Interest Rate will be equal to:

1. the average of all of the daily reported five-year Constant Maturity Treasury Rates during October of the previous year, rounded to the nearest 1/20th of a percent; less,
2. 1.25%.

The Fixed Account Minimum Interest Rate determined by this calculation may not be less than 1% nor greater than 3%.

The Company will send You an annual notice of the redetermined Fixed Account Minimum Interest Rate.

WITHDRAWAL PROVISIONS

At or before the Income Date, the Owner may withdraw all or part of the amounts under this Contract by informing the Company at the Service Center. For full withdrawal, this Contract, or a completed Lost Contract Affidavit, must be returned to the Service Center.

Premiums withdrawn from the Contract Value may be subject to a Withdrawal Charge. In addition to a Withdrawal Charge, a withdrawal from a Fixed Account Option may also incur an Excess Interest Adjustment.

Upon full withdrawal, the Owner will receive the Withdrawal Value. The Withdrawal Value will be based on values at the end of the Business Day on which the request for withdrawal is received at the Service Center in Good Order. **In no event shall the amount withdrawn, whether a full withdrawal or partial withdrawal, exceed the Withdrawal Value.**

Except in connection with a systematic withdrawal program, the minimum partial withdrawal amount is [\$500], or if less, the Owner's entire interest in the Investment Division or Fixed Account Option from which a withdrawal is requested.

The Owner's interest in the Investment Division or Fixed Account Option from which the withdrawal is requested must be at least [\$100] after the withdrawal is completed if anything is left in that Investment Division or Fixed Account Option.

Unless otherwise specified, the withdrawal will be made from each Investment Division and each Fixed Account Option in proportion to their current value. Withdrawals will be based on values at the end of the Business Day on which the request for withdrawal is received in Good Order at the Service Center.

The Company will waive the Withdrawal Charge on any withdrawal necessary to satisfy the minimum distribution requirements of the Internal Revenue Code. If You request an amount greater than the required minimum distribution for this Contract, the entire withdrawal will be subject to the Withdrawal Charge.

You may elect to take a systematic withdrawal by surrendering a specific sum or a certain percentage on a monthly, quarterly, semiannual or annual basis, subject to a [\$50] minimum withdrawal. Such withdrawals will be counted in determining the portion of the Contract Value taken as an Additional Free Withdrawal. Systematic withdrawals in excess of the Additional Free Withdrawal amount may be subject to a Withdrawal Charge and/or an Excess Interest Adjustment.

WITHDRAWAL PROVISIONS (CONT'D)

WITHDRAWAL CHARGE. A Withdrawal Charge may be imposed upon certain withdrawals and in the event of payments under an income option commencing during the first Contract Year. Withdrawal Charges will be calculated in accordance with the Withdrawal Charge schedule on the Contract Data Page. The Withdrawal Charge is equal to the Withdrawal Charge percentage applied to the portion of Remaining Premium withdrawn. The Withdrawal Charge will be taken from the Investment Divisions and the Fixed Account Options in the same proportion as the requested withdrawal.

The Withdrawal Charge will be deducted from the remaining Contract Value such that the actual reduction in Contract Value as a result of the withdrawal may be greater than the withdrawal amount requested and paid.

For purposes of determining the Withdrawal Charge, earnings are defined as the excess of the Contract Value over the sum of Remaining Premiums. Withdrawals will be allocated first to earnings, if any (which may be withdrawn free of any Withdrawal Charge), and second to Remaining Premium on a first-in, first-out basis so that all withdrawals will be allocated to Remaining Premium to which the lowest (if any) Withdrawal Charges apply.

ADDITIONAL FREE WITHDRAWAL. During a Contract Year, You may make partial withdrawals from the Contract without the Withdrawal Charge and Excess Interest Adjustment being applied. This Additional Free Withdrawal is equal to:

1. 10% of Premium that remains subject to Withdrawal Charges and that has not been previously withdrawn (this can be utilized once or in segments throughout the Contract Year); less,
2. earnings, as defined in the Withdrawal Charge provision.

Any amount to satisfy the minimum required distribution would reduce the amount available under Your Additional Free Withdrawal.

In no event shall the Additional Free Withdrawal exceed the Withdrawal Value.

Withdrawal Charges and Excess Interest Adjustments are waived on amounts withdrawn that are less than or equal to the Additional Free Withdrawal. Although Additional Free Withdrawals reduce Contract Value in either the Investment Division and/or the Fixed Account Option, they do not reduce Remaining Premium. As a result, You will not receive the benefit of an Additional Free Withdrawal if You take a full withdrawal. Withdrawals during the Contract Year in excess of the Additional Free Withdrawal may be subject to a Withdrawal Charge, as well as any applicable Excess Interest Adjustment.

WAIVER OF THE WITHDRAWAL CHARGE DUE TO TERMINAL ILLNESS. If the Owner incurs a Terminal Illness while the Contract's Withdrawal Charge would normally apply, the Company will waive the Withdrawal Charge on the amount the Owner requests withdrawn from the Contract under this provision. The Excess Interest Adjustment may apply. The amount You request withdrawn from the Contract under this provision will not reduce Remaining Premium.

You can withdraw an amount without a Withdrawal Charge pursuant to this benefit only once, regardless of the subsequent occurrence of the same condition or the occurrence of a different condition. You are not eligible for this waiver if You have a Terminal Illness on the Issue Date of the Contract.

WITHDRAWAL PROVISIONS (CONT'D)

The amount withdrawn pursuant to this provision shall be requested by the Owner up to 100% of the Contract Value. The amount withdrawn pursuant to this provision shall not exceed [\$250,000] and will be taken from the Separate Account Contract Value and the Fixed Account Contract Value as stated in the Withdrawal Provisions of this Contract. A withdrawal from the Fixed Account Option(s) may be subject to an Excess Interest Adjustment. This may mean an increase or decrease in the amount of Your benefit.

Claim Requirements. Written proof of the Owner's Terminal Illness must be received in Good Order at the Service Center before a Terminal Illness benefit payment will be considered. Written proof includes a properly completed Company claim form, Your signed medical records release, and a Physician's statement of condition satisfactory to the Company. The Company reserves the right to request additional medical information from any Physician or institution which may have provided treatment for the Terminal Illness. The Company may require, at its expense, an additional examination by a Physician of its choice. If there is a discrepancy between medical opinions, the opinion of the Company's Physician will govern, unless state law requires otherwise.

For the purpose of this Terminal Illness Benefit, Physician's statement means a written statement, acceptable to the Company, signed by a Physician which:

1. gives the Physician's diagnosis of the Owner's noncorrectable medical condition; and
2. states with reasonable medical certainty, that the noncorrectable medical condition will result in the death of the Owner within twelve (12) months or less from the date of the Physician's statement.

This statement will take into consideration the ordinary and reasonable medical care, advice and treatment available in the same or similar communities.

Written notice and proof of claim must be submitted to the Service Center any time after the date the Owner develops a Terminal Illness. Contact the Service Center for details on how to apply for benefits under this provision.

A PAYMENT UNDER THIS PROVISION MAY BE TAXABLE. AS WITH ALL TAX MATTERS, YOU ARE ENCOURAGED TO SEEK LEGAL AND/OR TAX ADVICE.

WAIVER OF WITHDRAWAL CHARGE FOR SPECIFIED CONDITIONS. If the Owner incurs one of the Specified Conditions, as set out below, while the Contract's Withdrawal Charge would normally apply, the Company will waive the Withdrawal Charge on the amount the Owner requests withdrawn from the Contract under this provision. The Excess Interest Adjustment may apply. The amount You request withdrawn from the Contract under this provision will not reduce Remaining Premium.

You can withdraw an amount without a Withdrawal Charge pursuant to this benefit only once, regardless of the subsequent occurrence of the same condition or the occurrence of a different condition. You are not eligible for this waiver if You have or have had one of these Specified Conditions on the Issue Date of the Contract.

The term Alzheimer's disease does not include neuroses or psychotic illness.

In the case of Joint Owners, this benefit applies to each of them up to 12 1/2% of the Contract Value. The amount withdrawn will be taken from the Separate Account Contract Value and the Fixed Account Contract Value as stated in the Withdrawal Provisions of this Contract. A withdrawal from the Fixed Account Option(s) may be subject to an Excess Interest Adjustment. This may mean an increase or decrease in the amount of Your benefit.

WITHDRAWAL PROVISIONS (CONT'D)

Claim Requirements. Written proof of the Owner's Specified Condition must be received in Good Order by the Company at its Service Center before a Specified Condition benefit will be considered. Written proof includes a properly completed Company claim form, Your signed medical records release, and a Physician's statement of condition satisfactory to the Company. A PAYMENT UNDER THIS PROVISION MAY BE TAXABLE. AS WITH ALL TAX MATTERS, YOU ARE ENCOURAGED TO SEEK LEGAL AND/OR TAX ADVICE.

WAIVER OF WITHDRAWAL CHARGE FOR EXTENDED CARE. If You are confined as an inpatient to a Nursing Home or Hospital for ninety (90) consecutive days, a period during which the Withdrawal Charge otherwise would normally apply, the Company will waive the Withdrawal Charge on any amounts You request withdrawn from the Contract under this provision. The Excess Interest Adjustment may apply. The amount(s) You request withdrawn from the Contract under this provision will not reduce Remaining Premium.

You may exercise this provision only once, regardless of the subsequent occurrence of the same condition or the occurrence of a different condition. Once Your eligibility has been established, You may request one withdrawal or multiple withdrawals subject to the maximum allowed. You are not eligible for this waiver if:

1. You are confined to a Nursing Home or Hospital during the thirty-day (30) period following the Issue Date, unless such confinement is not related to a subsequent confinement for which You request the waiver; or,
2. You are no longer confined to a Nursing Home or Hospital.

WITHDRAWAL PROVISIONS (CONT'D)

Confinement to the Nursing Home or Hospital must be prescribed by a Physician and be medically necessary, meaning the confinement is appropriate and consistent with the diagnosis in accordance with accepted standards of practice, and which could not have been omitted without adversely affecting the confined Owner's condition.

Withdrawals made pursuant to this provision shall be up to 100% of the Contract Value. The amount(s) withdrawn pursuant to this provision shall not exceed [\$250,000] and will be taken from the Separate Account Contract Value and the Fixed Account Contract Value as stated in the Withdrawal Provisions of this Contract. A withdrawal from the Fixed Account Option(s) may be subject to an Excess Interest Adjustment. This may mean an increase or decrease in the amount of Your benefit.

Claim Requirements. Written notice and proof of claim of the Owner's confinement must be submitted to the Company at its Service Center 90 days after the date the Owner becomes confined to a Nursing Home or Hospital before a waiver will be considered pursuant to this provision. Written proof includes: (1) a properly completed Company claim form; (2) Your signed medical records release; and (3) a Physician's statement of condition satisfactory to the Company. The Company reserves the right to request additional medical information from any Physician, Hospital or Nursing Home. The Company may require, at its expense, an additional examination by a Physician of its choice. If there is a discrepancy between medical opinions, the opinion of the Company's Physician will govern, unless state law requires otherwise.

A PAYMENT UNDER THIS PROVISION MAY BE TAXABLE. AS WITH ALL TAX MATTERS, YOU ARE ENCOURAGED TO SEEK LEGAL AND/OR TAX ADVICE.

DEATH BENEFIT PROVISIONS

DEATH OF OWNER BEFORE THE INCOME DATE. Upon the Owner's death, or the death of any Joint Owner, before the Income Date, the death benefit will be paid to the Beneficiary(ies) designated by the Owner. Upon the death of a Joint Owner, the surviving Joint Owner, if any, will be treated as the primary Beneficiary. Any other beneficiary designation on record at the Service Center at the time of death will be treated as a contingent Beneficiary.

- **DEATH BENEFIT AMOUNT BEFORE THE INCOME DATE.** The death benefit is equal to the greater of:
 1. the current Contract Value; or
 2. all Premiums (net of any applicable premium tax) paid into the Contract, less any withdrawals and any applicable Contract charges assessed and adjustments to such withdrawals incurred since the issuance of the Contract.

All adjustments will occur at the time of the withdrawal or Premium payment. All adjustments for amounts withdrawn will reduce the death benefit in the same proportion that the Contract Value was reduced on the date of such withdrawal.

The death benefit amount will be determined as of the end of the Business Day when due proof of the Owner's death satisfactory to the Company and an election as to the type of death benefit option is received by the Company at its Service Center in Good Order.

From the time of death of the Owner until the death benefit amount is determined, any amount allocated to an Investment Division will be subject to investment risk. This investment risk is borne by the Beneficiary(ies).

- **DEATH BENEFIT OPTIONS BEFORE INCOME DATE.** In the event of the Owner's death or the death of a Joint Owner before the Income Date, a Beneficiary must request that the death benefit be paid under one of the death benefit options below unless the Owner did so previously. The following are the available death benefit options:
 1. Option 1 - single lump-sum payment of the death benefit; or
 2. Option 2 - payment of the entire death benefit within five years of the date of the death of the Owner or any Joint Owner; or
 3. Option 3 - payment of the death benefit under an income option over the lifetime of the Beneficiary or over a period not extending beyond the life expectancy of the Beneficiary, with distribution beginning within one year of the date of the death of the Owner or Joint Owner.

Any portion of the death benefit not applied under Option 3 within one year of the date of the Owner's death must be distributed within five years of the date of the Owner's death.

If a single lump-sum payment is requested, the amount will be paid within seven days of receipt of proof of death and the election in Good Order at the Service Center, unless either the Suspension of Payments or Deferral of Payments under the General Provisions is in effect.

DEATH BENEFIT PROVISIONS (CONT'D)

Payment to the Beneficiary, other than in a single lump-sum, may only be elected during the 60-day period beginning with the date of receipt of proof of death in Good Order by the Service Center.

Spousal Continuation Option. If the Joint Owner, if any, or the Beneficiary is the spouse of the deceased Owner, he or she may elect to continue the Contract in his or her own name, at the current Contract Value, and exercise all the Owner's rights under the Contract in lieu of taking the death benefit as a lump-sum payment.

Special Spousal Continuation Option. In lieu of taking the death benefit as a lump-sum payment or continuing the Contract at the then current Contract Value, if the Beneficiary is the spouse of the Contract Owner, he or she may elect to continue the Contract at an adjusted Contract Value as described below. The spouse will then exercise all the Contract Owner's rights under the Contract. The date that the Company receives the spouse's written request to continue the Contract, under this Special Spousal Continuation Option, and proof of the death of the Contract Owner in Good Order will be referred to as the Continuation Date.

The Contract Value for the continuing Contract will be adjusted so that it will equal the amount of the death benefit that would have been payable as a lump-sum payment at Your death. If the Contract Value on the Continuation Date is less than the death benefit, an amount will be added to the Contract Value to make up the difference. This amount is referred to as the Continuation Adjustment. The Continuation Adjustment will be allocated among the Contract Options in accordance with the current instructions for the Contract, subject to any minimum allocation restrictions unless the Company receives other allocation instructions with the Special Spousal Continuation Option election. Withdrawal Charges will continue with the same schedule as prior to the initial Owner's death. However, no Withdrawal Charge schedule will apply to the Continuation Adjustment.

For purposes of determining future death benefits under the continuing Contract, the Contract Value following the application of any Continuation Adjustment will be considered as the initial Premium of the continuing Contract. Any future death benefit, including an enhanced death benefit, if any, will be determined on that basis and will use the age of the surviving spouse on the Continuation Date.

This Special Spousal Continuation Option can only be exercised one time under this Contract, but may not be available if the Owner elected to pre-select the death benefit option. Any benefit available under this Special Spousal Continuation Option will end upon the change of ownership or assignment of the Contract.

Pre-selected Death Benefit Option Election. Prior to the Income Date, the Owner may designate the option under which the death benefit will be paid. This designation of the death benefit option must be given in a form acceptable to the Company, and will take effect only after being recorded by the Company.

DEATH BENEFIT PROVISIONS (CONT'D)

The Owner may elect any death benefit option described in this Contract, or other death benefit option, as agreed upon by the Company at the time of election. Once elected, the designation can only be revoked or changed by the Owner in a form acceptable to the Company. Upon the death of the Owner, the Beneficiary may not revoke or modify the death benefit option elected, subject to the requirements of the Internal Revenue Code. However, at the time of the Owner's death, the Company reserves the right to change or modify the death benefit option if the death benefit option previously elected exceeds the life expectancy of the Beneficiary. If a Pre-selected Death Benefit Option Election is not made by the Owner prior to the Owner's death, the Beneficiary may request that the death benefit be paid under any of the death benefit options described in this Contract, or other death benefit option, as agreed upon by the Company at the time of request.

If this Pre-selected Death Benefit Option Election is in force at the time of the Owner's death, the payment of the death benefit may not be postponed, nor can the Contract be continued under any provisions of this Contract. These restrictions apply even if the Beneficiary is the spouse of the Owner, unless such restriction is prohibited by law.

DEATH OF OWNER AFTER THE INCOME DATE. If the Owner or any Joint Owner, who is not an Annuitant, dies after the Income Date, any remaining payments under the income option elected will continue at least as rapidly as under the method of distribution in effect at the Owner's death. Upon the Owner's death after the Income Date, the Beneficiary becomes the Owner.

DEATH OF ANNUITANT BEFORE INCOME DATE. Upon the death of an Annuitant who is not an Owner before the Income Date, the Contract remains in force and the Owner will become the Annuitant. The Owner may designate a new Annuitant, subject to the Company's administrative rules then in effect. However, if the Owner is not a natural person, the death of the primary Annuitant will be treated as the death of the Owner and a new Annuitant may not be designated.

DEATH OF ANNUITANT AFTER INCOME DATE. Upon the death of the Annuitant after the Income Date, the death benefit, if any, will be as specified in the income option elected. Death benefits will be paid at least as rapidly as under the method of distribution in effect at the Annuitant's death.

INCOME PROVISIONS

INCOME DATE. If no Income Date is selected, the Income Date will be the Latest Income Date. At any time at least seven days prior to the Income Date then indicated on the Company's records, the Owner may change the Income Date to any date later than the Income Date currently on record by written notice to the Service Center, subject to the Latest Income Date.

INCOME OPTIONS. The Owner, or any Beneficiary who is so entitled, may elect to receive a single lump-sum. However, a single lump-sum distribution may be deemed to be a withdrawal. Alternatively, an income option may be elected. The Owner may, upon prior written notice to the Company at its Service Center, elect an income option at any time prior to the Income Date or change an income option up to seven days before the Income Date. Unless otherwise designated, the Owner will be the payee.

If no other income option is elected, monthly annuity payments will be made in accordance with Option 3 below, a life annuity with [120]-month period certain. Payments will be made in monthly, quarterly, semiannual or annual installments as selected by the Owner. However, if the amount available to apply under an income option is less than [\$5,000], and state law permits, the Company has the right to make payments in one single lump-sum. In addition, if the first payment provided would be less than [\$50], and state law permits, the Company may require the frequency of payments be at quarterly, semiannual or annual intervals so as to result in an initial payment of at least [\$50].

NO WITHDRAWALS OF CONTRACT VALUE ARE PERMITTED DURING THE ANNUITY PERIOD FOR ANY INCOME OPTION UNDER WHICH PAYMENTS ARE BEING MADE PURSUANT TO LIFE CONTINGENCIES.

Upon written election filed with the Company at its Service Center, the Contract Value will be applied to provide one of the following income options. Withdrawal Charges will apply if the annuity payments begin within one year of the Issue Date. Any Excess Interest Adjustment will be waived if the Income Option selected is life contingent or results in payments spread over at least 5 years.

OPTION 1 - LIFE INCOME. An annuity payable monthly during the lifetime of the Annuitant. Under this income option, no further annuity payments are payable after the death of the Annuitant, and there is no provision for a death benefit payable to the Owner. Therefore, it is possible under Option 1 for the Owner to receive only one monthly annuity payment under this income option if the Annuitant has an early death.

OPTION 2 - JOINT AND SURVIVOR. An annuity payable monthly while both the Annuitant and a designated second person are living. Upon the death of either person, the monthly annuity payments will continue during the lifetime of the survivor at either the full amount previously payable or as a percentage (either one-half or two-thirds) of the full amount, as chosen at the time of election of the income option. If a reduced annuity payment to the survivor is desired, variable annuity payments will be determined using either one-half or two-thirds of the number of each type of Annuity Unit credited. Fixed annuity payments will be equal to either one-half or two-thirds of the fixed annuity payment payable during the joint life of the Annuitant and the designated second person.

INCOME PROVISIONS (CONT'D)

Annuity payments terminate automatically and immediately upon the death of the surviving person without regard to the number or total amount of payments received. There is no minimum number of fixed annuity payments, and it is possible to have only one monthly annuity payment if both the Annuitant and the designated second person die before the due date of the second payment.

OPTION 3 - LIFE ANNUITY WITH [120] OR [240] MONTHLY PERIODS GUARANTEED. An annuity payable monthly during the lifetime of the Annuitant with the guarantee that if, at the death of the Annuitant, payments have been made for fewer than the guaranteed [120] or [240] monthly periods, as elected, the balance of the guaranteed number of payments will continue to be made to the Owner as scheduled. In the event the Owner dies before the specified number of guaranteed payments has been made, the Beneficiary(ies) may elect to continue receiving the fixed and variable payments according to the terms of this Contract or may alternatively elect to receive the present value of any remaining guaranteed payments in a single lump-sum, the amount of which is calculated by the Company. The present value of any remaining guaranteed payments will be based on the total annuity payment as of the date of the calculation.

OPTION 4 - INCOME FOR A SPECIFIED PERIOD. Under this income option, the Owner can elect monthly payments for any number of years from [5] to [30]. This election must be made for full 12-month periods. In the event the Owner dies before the specified number of payments has been made, the Beneficiary(ies) may elect to continue receiving the fixed and variable payments according to the terms of this Contract or may alternatively elect to receive the present value of any remaining guaranteed payments in a single lump-sum, the amount of which is calculated by the Company. The present value of any remaining guaranteed payments will be based on the total annuity payment as of the date of the calculation.

ADDITIONAL OPTIONS. The Company may make other income options available including income options for longer periods.

FIXED ANNUITY PAYMENTS. To the extent a fixed income option has been elected, the Contract Value allocated to the fixed annuity payment option, less any applicable taxes and other Contract charges, shall be applied to the payment of the income option elected at annuity rates at least as great as the annuity rates based upon the Table of Income Options specified in the Contract.

The appropriate rate must be determined by the sex (except where, as in the case of certain Qualified Plans and other employer-sponsored retirement plans, such classification is not permitted) and age of the Annuitant and designated second person, if any.

In no event will the fixed payments be changed once they begin.

VARIABLE ANNUITY PAYMENT. The initial variable annuity payment is determined by taking the Contract Value allocated to that Investment Division, less any applicable taxes and other Contract charges, and then applying it to the Table of Income Options specified in the Contract. The appropriate rate must be determined by the sex (except where, as in the case of certain Qualified Plans and other employer-sponsored retirement plans, such classification is not permitted) and age of the Annuitant and designated second person, if any.

INCOME PROVISIONS (CONT'D)

The first variable annuity payment is divided by the value of an Annuity Unit as of the Income Date to establish the number of Annuity Units representing each variable annuity payment. The number of Annuity Units determined for the first variable annuity payment remains constant for the second and subsequent variable annuity payments, assuming that no reallocation of Contract Values is made.

The amount of the second and each subsequent variable annuity payment is determined by multiplying the number of Annuity Units by the Annuity Unit Value as of the Business Day next preceding the date on which each payment is due.

ANNUITY UNIT VALUE. The initial value of an Annuity Unit of each Investment Division was set when the Investment Divisions were established. The value may increase or decrease from one Business Day to the next. The Table of Income Options contained in the Contract is based on the assumed net investment rates described in the Basis of Computation provision. If the actual net investment rate experienced by an Investment Division exceeds the assumed net investment rate, variable annuity payments will increase over time. Conversely, if the actual net investment rate is less than the assumed net investment rate, variable annuity payments will decrease over time. If the actual net investment rate equals the assumed net investment rate, the variable annuity payments will remain constant.

The value of a fixed number of Annuity Units will reflect the investment performance of the Investment Divisions, and the amount of each payment will vary accordingly.

For each Investment Division, the value of an Annuity Unit for any Business Day is determined by multiplying the Annuity Unit Value for the immediately preceding Business Day by the net investment factor for the Business Day for which the Annuity Unit Value is being calculated. The result is then multiplied by a second factor which offsets the effect of the assumed net investment rate. The net investment factor, which reflects changes in the net asset value of Investment Divisions, is determined by dividing 1. by 2., and then subtracting 3. from the result, where:

1. Is the net result of:
 - a. the net asset value of an Investment Division determined as of the end of the Business Day, plus
 - b. the per share amount of any dividend or other distribution declared by the Investment Division if the "ex-dividend" date occurs on the Business Day, plus or minus
 - c. a per share credit or charge with respect to any taxes paid or reserved for by the Company which are determined by the Company to be attributable to the operation of the Investment Division (no federal income taxes are applicable under present law);
2. Is the net asset value of the Investment Division determined as of the end of the preceding Business Day; and
3. Is the asset charge factor determined by the Company for the Business Day to reflect the applicable Mortality and Expense Charge, and the Administration Charge.

TERMINATION PROVISION

This Contract will terminate and all benefits under this Contract will cease on the earlier of:

1. the date of a full surrender;
2. the date the Contract Value falls to zero for any reason; or
3. the date upon which due proof of death of the Owner (or any Joint Owner) and an election of the type of payment to the Beneficiary(ies) is received at Our Service Center in Good Order.

BASIS OF COMPUTATION. [The actuarial basis for the Table of Income Options shall be the Annuity 2000 Mortality Table, with an assumed net investment rate of 1.5%, and a 2% expense load.] The interest rate used in the present value calculation referred to in Options 3 and 4 will be determined by the Company, but in no instance will it be greater than 1% higher than the rate used to calculate the initial payment. The differential in the interest rates is equivalent to a fee for the recalculation and commutation of the payments. The Table of Income Options does not include any applicable tax. The benefits of this Contract will not vary due to expense and/or mortality results.

GENERAL PROVISIONS (CONT'D)

BASIS OF COMPUTATION. [The actuarial basis for the Table of Income Options shall be the Annuity 2000 Mortality Table, with an assumed net investment rate of 1.5%, and a 2% expense load.] The interest rate used in the present value calculation referred to in Options 3 and 4 will be determined by the Company, but in no instance will it be greater than 1% higher than the rate used to calculate the initial payment. The differential in the interest rates is equivalent to a fee for the recalculation and commutation of the payments. The Table of Income Options does not include any applicable tax. The benefits of this Contract will not vary due to expense and/or mortality results.

Re: SERFF Tracking Number: Jack-1265304
State Tracking Number: 45322

Dear Ms. Bird:

I. Background and Overview

In accordance with your suggestion during our telephone conversation yesterday, this is in response to an Objection Letter issued by the Arkansas Insurance Department (the "Department") to Jackson National Life Insurance Company ("Jackson") with respect to certain deferred variable and fixed annuity contracts, Company Tracking Numbers VA610, VA620, VA630, and VA640 (the "Contracts").

Specifically, we are writing as counsel on behalf of Jackson concerning the following language that appears in the Objection Letter:

"Filings of variable contracts must be accompanied by a certification that Regulation 33, in particular Articles VI, VII, IX and XI, has been reviewed and that the company is in compliance. Although Regulation 33 is specifically addressed to variable life, many of the same concerns affect variable annuities and the regulation should be satisfied in as far as it applies to annuities."

Contrary to the above-quoted language, we respectfully submit that Variable Life Insurance Rule and Regulation 33 does not (and should not) apply to variable annuities at all. This is discussed further in part II. below.

JORDENBURT

Ms. Linda Bird

Page 2

Moreover, as we discussed, it appears that a number of other insurance companies have not been required to certify to compliance with Rule and Regulation 33 in the manner contemplated by the Objection Letter. In this connection, we have reviewed nine of the most recently-available filings relating to variable annuity contracts under "Life and Health Division—Filings Available for Viewing" on the Department's internet site. We understand that all of such filings that are available for viewing relate to contracts that have been approved for sale in Arkansas. In none of these filings that we reviewed, with the exception of one, did we find any certification for compliance with Rule and Regulation 33, although those filings did include certifications with respect to compliance with Rule and Regulation 6. With respect to the filing that referenced compliance with Rule and Regulation 33, the certification was limited to compliance with Article XI regarding agents' qualifications to sell "variable life insurance."

Questions of competitive fairness of course would arise if the Department were to follow any procedure whereby the Contracts are subject to requirements that are not applicable to other essentially similar variable annuities. If Rule and Regulation 33 were applied to the Contracts, Jackson (depending on how Rule and Regulation 33 were interpreted in this context) could be subject to burdens that have not been imposed on its competitors. (Some of the potential issues that Rule and Regulation 33 would raise in the variable annuity context are discussed in part II. below.) Accordingly, if the Department determines to impose additional requirements with respect to variable annuity contracts, it is essential that the Department do so in a manner that assures fundamental fairness among competitors.

In this connection, if the Department has changed its position on what certifications are required in the filing of variable annuity contracts, one would expect that change to be publicly announced. However, we have to date been unable locate any such announcement. If such an announcement had been made in advance, interested parties would have been able to comment on it prior to being required to comply with any change, and we believe that such comments could prove highly useful to the Department. Some of the reasons for not requiring a certification to compliance with Rule and Regulation 33 by filers of variable annuity contracts are included below.

II. Inapplicability of Rule and Regulation 33 to Variable Annuities

The language of Rule and Regulation 33 is entirely clear that it applies only to variable life insurance. In particular, for example, the introductory language at the beginning of each of Articles VI, VII, and IX makes specific reference to variable life insurance in a manner that precludes any interpretation that would make those Articles applicable to variable annuities. The same is true of both sections of Article XI (*i.e.*, Sections 1 and 2 thereof).

JORDENBURT

Ms. Linda Bird
April 13, 2010
Page 3

Article XIII, moreover, specifically states that Rule and Regulation 33 is intended “to replace any provisions of Rule and Regulation 6, ‘Variable Annuity Contracts’, as it may pertain to variable life insurance.” There is no suggestion that any portion of Rule and Regulation 33 applies to variable annuity contracts. Rather, Article XIII states: “The provisions of Rule and Regulation 6 that regulate variable annuities shall remain undisturbed by this regulation.”

In this connection, various of the requirements of Rule and Regulation 33 would be difficult or illogical to apply in the variable annuity context, to the extent that they are inconsistent with the current regulatory/disclosure regime that applies to those products. For example:

a. *Paragraph 7 of Article VII of Rule and Regulation 33* requires illustrations to be delivered to variable life purchasers at or prior to application. While delivery of such illustrations has long been standard industry practice in the variable life insurance arena, such illustrations are in most cases not used with respect to variable annuity products (including Jackson’s). The SEC, FINRA,¹ and insurance regulators, of course, have given extensive attention to the question of variable annuity illustrations and have not deemed such illustrations to be necessary as a general matter.

b. *Paragraph 4 of Article VII* requires that variable life purchasers receive a “statement of the charges levied against the separate account during the previous year.” Purchasers of the Contracts will receive (at or prior to application) the prospectus for the Contracts (the “Contract Prospectus”), which will contain extensive information about the amounts and rates of charges that the purchasers will directly or indirectly bear pursuant to the terms of the Contracts, and those are the only charges that could be said to be “levied against the separate account.” This is the type of disclosure about variable annuity charges that the SEC, FINRA, and insurance regulators have (based on extensive consideration of the subject) deemed to be sufficient as a general matter.

It would be highly problematic if paragraph 4 of Article VII were interpreted to require that, in addition to the foregoing disclosure about the amounts and rates of charges that a variable annuity purchaser will bear, the purchaser must also be provided with disclosure about the actual dollar amount of charges that were removed from the separate account during the previous year. It is not customary for variable annuity purchasers to be provided with this type of information (although it is available in the

¹ We mention the SEC and FINRA here and further below, in part because of the strong positions those bodies traditionally take in the protection of investors generally and, in particular, their longstanding attention to the types of variable insurance product disclosure issues that are addressed in Article VII. Moreover, the SEC, FINRA and insurance regulators have a long and commendable history of working to avoid taking contradictory positions on such matters.

Statement of Additional Information that is incorporated by reference into the Contract Prospectus and that purchasers are advised will be provided to them free of charge on request).

Moreover, disclosure of the dollar amount of charges deducted from the separate account during the previous year would not be meaningful to purchasers, because the rates of such charges that will actually apply to each purchaser depend heavily on the purchaser's particular circumstances, especially what optional benefit features the purchaser selects. Because modern variable annuity products involve such a wide variety of benefit options with their own distinct charge structures, purchasers would receive no benefit from any interpretation of paragraph 4 that required them to receive disclosure of dollar amounts of charges actually deducted from the separate account during the previous year. If anything, such disclosure would likely be confusing to purchasers, if not misleading.

c. *Paragraph 3 of Article VII* requires that prospective variable life purchasers receive "a statement of the net investment return of the separate account for each of the last ten years or such lesser period as the separate account has been in existence." The Contract Prospectus that purchasers receive contains extensive information about the changes in unit values of the separate account's investment divisions that are relevant to the Contracts over the time that such units have been in existence. This provides considerable information about separate account investment performance. In addition, purchasers receive extensive information about the investment performance of the underlying mutual funds in which the separate account investment divisions invest (which mutual fund performance, of course, forms the basis of the separate account's investment performance, including changes in unit values). Finally, information about the separate account's net investment performance for the most recent 5 years is set forth in the Statement of Additional Information which, as noted above, is available to purchasers and prospective purchasers free of charge on request.

It would not be helpful to investors to interpret Paragraph 3 of Article VII to require that they receive additional information about the separate account's net investment return. As noted under "b" above, under modern variable annuity contracts, the charges that apply to any one purchaser are likely to be so different from the charges that apply to other purchasers that information about a separate account's net investment return is of questionable value to purchasers and may, indeed, confuse or mislead some of them. For these and other reasons, the SEC, FINRA, and insurance regulators, having extensively considered questions of performance disclosure, have generally required only that variable annuity purchasers receive the type of information that Jackson provides, as discussed above.

JORDENBURT

Ms. Linda Bird

Page 5

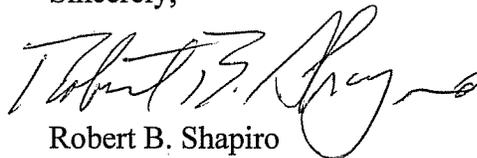

For these and other reasons, any attempt to apply Rule and Regulation 33 to variable annuities would give rise to numerous difficulties and questions, which underscores that Rule and Regulation 33 does not and should not apply to variable annuities.

III. Conclusion

Under the circumstance, we do not believe that the requirements of Rule and Regulation 33 apply or should be applied with respect to the Contracts. Accordingly, we respectfully request your reconsideration of the application of Rule and Regulation 33 to the Contracts.

Please contact me, or, in my absence, Thomas C. Lauerman (202) 965-8156, if you have any further question or require any additional information in this regard.

Sincerely,
