This submission represents a template for the output from an online computer program. The user selects a product. The program then populates the template with the fixed rates data and dca data if there is any available for that particular product.

In this submission:

- Bracketed items represent variables filled in based on the selected product and uploaded to the program on a monthly basis
 - **PRODUCTNAME** = the name of selected annuity
 - **EFFECTIVEDATE** = date fixed rates are available
 - **STARTDCAEFFECTIVEDATE** = starting date for dca rates
 - **ENDDCAEFFECTIVEDATE** = end date for dca rates

PRODDISC:

1 Interest rates are subject to change at any time.

2 All guarantee periods are not always available.

The 6 or 12-month Dollar Cost Averaging Program provides your clients the opportunity to ease into their variable subaccounts. This optional program, available at no additional cost, systemically transfers account values on a monthly basis from either a 6 or 12-month DCA Fixed Rate Program to your client's chosen variable subaccounts. Please note, the effective rate of return will be reduced because the fixed rate of interest we credit your client's Account Value is applied to declining balance, which is due to the transfer of Account Value to the subaccounts, applicable fees, and/or withdrawals.

This program may not be available in all states, at all broker/dealers, or with all optional benefits. Dollar Cost Averaging does not assure a profit or protect against a loss. All fixed allocations are subject to a Market Value Adjustment that may increase or decrease values if surrendered or transferred prior to the end of the stated Guarantee Period. Regularly scheduled transfers from a Dollar Cost Averaging program are not subject to a Market Value Adjustment, although any withdrawals from a Dollar Cost Averaging option outside the DCA program would be subject to a Market Value Adjustment.

3 May not be available with all firms and/or states.

All contracts may differ by state.

The 6-month Dollar Cost Averaging (DCA) rate applies to the first three to six months only, depending upon the transfer period chosen, and is provided as an incentive to purchase.

The rate applies to purchase payments for select new variable annuity contracts and additional purchase payments made to existing variable annuity contracts received between #DCADATE1# and #DCADATE2#.

Actual annual rates of return will be lower due to the declining value of the DCA account.

The 6-month DCA rates are offered at the sole discretion of Pruco Life Insurance Company.

DCA does not guarantee a profit, nor protect against a loss in a prolonged declining market environment.

Because DCA involves continuous investment regardless of fluctuating price levels, you should carefully consider your financial ability to continue investing through periods of low prices.

Any fixed interest rates paid are paid on declining balances.

The actual return of 0.00% on the funds in the DCA program may be significantly less than the stated rate due to the timing of transfers out of the program.

The expected actual return on investment received from the fixed account is the net of applicable fees and charges.

Because of the monthly transfers to clients' elected investment options, the stated interest rate is not earned on the entire amount allocated to dollar cost averaging and, therefore, the daily accrual and the effected yield will be affected.

The 6-month DCA account options are offered to clients at the time purchase payments are made. Funds are regularly transferred out of the 6-month DCA account into elected investment options. Transfer of funds from investment options into a 6-month DCA account is not permitted.

Market Value Adjustment

Market Value Adjustment (MVA) is an increase or decrease in the value of a contract when certain fixed guaranteed accounts are sold prior to the maturity date.

Should your client withdraw money prior to the end of the guarantee period, your client's contract value generally will be subject to an MVA.

This can increase or decrease contract value after the withdrawal, depending on the prevailing market interest rates.

See the chart above for the rates currently offered for each guarantee period.

Market Value Adjustment

Market Value Adjustment (MVA) is an increase or decrease in the value of a contract when certain fixed guaranteed accounts are sold prior to the maturity date.

All guarantees, including optional benefits, are backed by the claims-paying ability of the issuing company and do not apply to the underlying investment options. Guarantees do not apply to the safety of investment performance of the underlying subaccounts in the variable annuity.

The fixed rate option being offered is a fixed-option component of a variable annuity. To take advantage of these rates, your client will need to purchase a variable annuity.

Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force.

Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force. Your licensed financial professional can provide you with complete details.

Investors should consider the contract and the underlying portfolios' investment objectives, risks, charges, and expenses carefully before investing. This and other important information is contained in the prospectus, which can be obtained by contacting the National Sales Desk at 1-800-513-0805. Your clients should read the prospectus carefully before investing.

Please read the prospectus carefully before investing.

For contracts with credit we may offer lower interest rates for the fixed rate options than we offer for the contracts without credit. Withdrawal of taxable amounts may be subject to ordinary income tax, and prior to age 59 ½, may be subject to a 10% federal income tax penalty.

The benefit payment obligations arising under the annuity contract guarantees, rider guarantees, or optional benefits and any fixed account crediting rates or annuity payout rates are backed by the claims-paying ability of the issuing insurance company. Those payments and the responsibility to make them are not the obligations of the third party broker/dealer from which this annuity is purchased or any of its affiliates. They are also not obligations of any affiliates of the issuing insurance company. None of them guarantees the claims-paying ability of the issuing insurance company.

The fixed option being offered is a fixed-option component of a variable annuity. To take advantage of these fixed rates, your client will need to purchase a variable annuity.

The fixed option being offered is a fixed-option component of a variable annuity. To take advantage of these fixed rates, you will need to purchase a variable annuity.

Your needs and suitability of annuity products and benefits should be carefully considered before investing.

Withdrawals and distributions of taxable amounts are subject to ordinary income tax and, if made prior to age 59 ½, may be subject to an additional 10% federal income tax penalty.

Variable annuities are issued by the Pruco Life Insurance Company, Newark, NJ and distributed by Prudential Annuities Distributors, Inc., Shelton, CT. Both are Prudential Financial companies and each is solely responsible for its own financial conditions and contractual obligations. Prudential Annuities is a business unit of Prudential Financial, Inc.

Prudential Premier Retirement X Series is issued on P-X/IND(2/10) et al or a state variation thereof.
CDSC is assessed on withdrawals in excess of free withdrawal amounts. See prospectus for details.

Prudential Annuities, Prudential, the Prudential logo and the Rock symbol are service marks of Prudential Financial, Inc. and its related entities.

For contracts with credit we may offer lower interest rates for the fixed rate options than we offer for the contracts without credit. Withdrawal of taxable amounts may be subject to ordinary income tax, and prior to age 59 ½, may be subject to a 10% federal income tax penalty.

The benefit payment obligations arising under the annuity contract guarantees, rider guarantees, or optional benefits and any fixed account crediting rates or annuity payout rates are backed by the claims-paying ability of the issuing insurance company. Those payments and the responsibility to make them are not the obligations of the third party.

broker/dealer from which this annuity is purchased or any of its affiliates. They are also not obligations of any affiliates of the issuing insurance company. None of them guarantees the claims-paying ability of the issuing insurance company.

The fixed option being offered is a fixed-option component of a variable annuity. To take advantage of these fixed rates, your client will need to purchase a variable annuity.

The fixed option being offered is a fixed-option component of a variable annuity. To take advantage of these fixed rates, you will need to purchase a variable annuity.

Your needs and suitability of annuity products and benefits should be carefully considered before investing.

Withdrawals and distributions of taxable amounts are subject to ordinary income tax and, if made prior to age 59 ½, may be subject to an additional 10% federal income tax penalty.

Variable annuities are issued by the Pruco Life Insurance Company, Newark, NJ and distributed by Prudential Annuities Distributors, Inc., Shelton, CT. Both are Prudential Financial companies and each is solely responsible for its own financial conditions and contractual obligations. Prudential Annuities is a business unit of Prudential Financial, Inc. Prudential Premier Retirement C Series is issued on P-CR/IND(2/10) et al or a state variation thereof.

Prudential Annuities, Prudential, the Prudential logo and the Rock symbol are service marks of Prudential Financial, Inc. and its related entities.

ENDDCAEFFECTIVEDATE: 05/31/11
PRODDISC:

1 Interest rates are subject to change at any time.

2 All guarantee periods are not always available.

The 6 or 12-month Dollar Cost Averaging Program provides your clients the opportunity to ease into their variable subaccounts. This optional program, available at no additional cost, systemically transfers account values on a monthly basis from either a 6 or 12-month DCA Fixed Rate Program to your client's chosen variable subaccounts. Please note, the effective rate of return will be reduced because the fixed rate of interest we credit your client's Account Value is applied to declining balance, which is due to the transfer of Account Value to the subaccounts, applicable fees, and/or withdrawals.

This program may not be available in all states, at all broker/dealers, or with all optional benefits. Dollar Cost Averaging does not assure a profit or protect against a loss. All fixed allocations are subject to a Market Value Adjustment that may increase or decrease values if surrendered or transferred prior to the end of the stated Guarantee Period. Regularly scheduled transfers from a Dollar Cost Averaging program are not subject to a Market Value Adjustment, although any withdrawals from a Dollar Cost Averaging option outside the DCA program would be subject to a Market Value Adjustment.

3 May not be available with all firms and/or states.

All contracts may differ by state.

The 6-month Dollar Cost Averaging (DCA) rate applies to the first three to six months only, depending upon the transfer period chosen, and is provided as an incentive to purchase. The rate applies to purchase payments for select new variable annuity contracts and additional purchase payments made to existing variable annuity contracts received between #DCADATE1# and #DCADATE2#.

Actual annual rates of return will be lower due to the declining value of the DCA account. The 6-month DCA rates are offered at the sole discretion of Pruco Life Insurance Company.

DCA does not guarantee a profit, nor protect against a loss in a prolonged declining market environment.

Because DCA involves continuous investment regardless of fluctuating price levels, you should carefully consider your financial ability to continue investing through periods of low prices.

Any fixed interest rates paid are paid on declining balances.

The actual return of 0.00% on the funds in the DCA program may be significantly less than the stated rate due to the timing of transfers out of the program.

The expected actual return on investment received from the fixed account is the net of applicable fees and charges.

Because of the monthly transfers to clients' elected investment options, the stated interest rate is not earned on the entire amount allocated to dollar cost averaging and, therefore, the daily accrual and the effected yield will be affected.

The 6-month DCA account options are offered to clients at the time purchase payments are made. Funds are regularly transferred out of the 6-month DCA account into elected investment options. Transfer of funds from investment options into a 6-month DCA account is not permitted.

Market Value Adjustment

Market Value Adjustment (MVA) is an increase or decrease in the value of a contract when certain fixed guaranteed accounts are sold prior to the maturity date.

Should your client withdraw money prior to the end of the guarantee period, your client's contract value generally will be subject to an MVA.

This can increase or decrease contract value after the withdrawal, depending on the prevailing market interest rates.

See the chart above for the rates currently offered for each guarantee period.

Market Value Adjustment

Market Value Adjustment (MVA) is an increase or decrease in the value of a contract when certain fixed guaranteed accounts are sold prior to the maturity date.

All guarantees, including optional benefits, are backed by the claims-paying ability of the issuing company

and do not apply to the underlying investment options.

Guarantees do not apply to the safety of investment performance of the underlying subaccounts in the variable annuity.

The fixed rate option being offered is a fixed-option component of a variable annuity.

To take advantage of these rates, your client will need to purchase a variable annuity.

Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force.

The 6 or 12-month Dollar Cost Averaging Program provides your clients the opportunity to ease into their variable subaccounts. This optional program, available at no additional cost, systemically transfers account values on a monthly basis from either a 6 or 12-month DCA Fixed Rate Program to your client's chosen variable subaccounts. Please note, the effective rate of return will be reduced because the fixed rate of interest we credit your client's Account Value is applied to declining balance, which is due to the transfer of Account Value to the subaccounts, applicable fees, and/or withdrawals.

This program may not be available in all states, at all broker/dealers, or with all optional benefits. Dollar Cost Averaging does not assure a profit or protect against a loss. All fixed allocations are subject to a Market Value Adjustment that may increase or decrease values if surrendered or transferred prior to the end of the stated Guarantee Period. Regularly scheduled transfers from a Dollar Cost Averaging program are not subject to a Market Value Adjustment, although any withdrawals from a Dollar Cost Averaging option outside the DCA program would be subject to a Market Value Adjustment.

3 May not be available with all firms and/or states.

All contracts may differ by state.

The 6-month Dollar Cost Averaging (DCA) rate applies to the first three to six months only, depending upon the transfer period chosen, and is provided as an incentive to purchase. The rate applies to purchase payments for select new variable annuity contracts and additional purchase payments made to existing variable annuity contracts received between #DCADATE1# and #DCADATE2#.

Actual annual rates of return will be lower due to the declining value of the DCA account. The 6-month DCA rates are offered at the sole discretion of Prudential Annuities Life Assurance Corporation.

DCA does not guarantee a profit, nor protect against a loss in a prolonged declining market environment.

Because DCA involves continuous investment regardless of fluctuating price levels, you should carefully consider your financial ability to continue investing through periods of low prices. Any fixed interest rates paid are paid on declining balances.

The actual return of 0.00% on the funds in the DCA program may be significantly less than the stated rate due to the timing of transfers out of the program.

The expected actual return on investment received from the fixed account is the net of applicable fees and charges.

Because of the monthly transfers to clients' elected investment options, the stated interest rate is not earned on the entire amount allocated to dollar cost averaging and, therefore, the daily accrual and the effected yield will be affected.

The 6-month DCA account options are offered to clients at the time purchase payments are made. Funds are regularly transferred out of the 6-month DCA account into elected investment options. Transfer of funds from investment options into a 6-month DCA account is not permitted.

Fixed Allocations may not be available in all states, are subject to change, and may differ by state.

All guarantees, including optional benefits, are backed by the claims-paying ability of the issuing company

and do not apply to the underlying investment options.

Guarantees do not apply to the safety of investment performance of the underlying subaccounts in the variable annuity.

The fixed rate option being offered is a fixed-option component of a variable annuity. To take advantage of these rates, your client will need to purchase a variable annuity.

Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force.

Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force. Your licensed financial professional can provide you with complete details.

Investors should consider the contract and the underlying portfolios' investment objectives, risks, charges, and expenses carefully before investing.

This and other important information is contained in the prospectus, which can be obtained by contacting the National Sales Desk at 1-800-513-0805. Your clients should read the prospectus carefully before investing.

1 Interest rates are subject to change at any time.

2 All guarantee periods are not always available.

The 6 or 12-month Dollar Cost Averaging Program provides your clients the opportunity to ease into their variable subaccounts. This optional program, available at no additional cost, systemically transfers account values on a monthly basis from either a 6 or 12-month DCA Fixed Rate Program to your client's chosen variable subaccounts. Please note, the effective rate of return will be reduced because the fixed rate of interest we credit your client's Account Value is applied to declining balance, which is due to the transfer of Account Value to the subaccounts, applicable fees, and/or withdrawals.

This program may not be available in all states, at all broker/dealers, or with all optional benefits. Dollar Cost Averaging does not assure a profit or protect against a loss. All fixed allocations are subject to a Market Value Adjustment that may increase or decrease values if surrendered or transferred prior to the end of the stated Guarantee Period. Regularly scheduled transfers from a Dollar Cost Averaging program are not subject to a Market Value Adjustment, although any withdrawals from a Dollar Cost Averaging option outside the DCA program would be subject to a Market Value Adjustment.

The 6-month DCA account options are offered to clients at the time purchase payments are made. Funds are regularly transferred out of the 6-month DCA account into elected investment options. Transfer of funds from investment options into a 6-month DCA account is not permitted.

All guarantees, including optional benefits, are backed by the claims-paying ability of the issuing company and do not apply to the underlying investment options. Guarantees do not apply to the safety of investment performance of the underlying subaccounts in the variable annuity.

The fixed rate option being offered is a fixed-option component of a variable annuity. To take advantage of these rates, your client will need to purchase a variable annuity.

Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force.

Regularly scheduled transfers from a Dollar Cost Averaging program are not subject to a Market Value Adjustment, although any withdrawals from a Dollar Cost Averaging option outside the DCA program would be subject to a Market Value Adjustment.

The 6-month DCA account options are offered to clients at the time purchase payments are made. Funds are regularly transferred out of the 6-month DCA account into elected investment options. Transfer of funds from investment options into a 6-month DCA account is not permitted.

All guarantees, including optional benefits, are backed by the claims-paying ability of the issuing company and do not apply to the underlying investment options. Guarantees do not apply to the safety of investment performance of the underlying subaccounts in the variable annuity.

The fixed rate option being offered is a fixed-option component of a variable annuity. To take advantage of these rates, your client will need to purchase a variable annuity.

Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force.

Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force. Your licensed financial professional can provide you with complete details.

Investors should consider the contract and the underlying portfolios' investment objectives, risks, charges, and expenses carefully before investing. This and other important information is contained in the prospectus, which can be obtained by contacting the National Sales Desk at 1-800-513-0805. Your clients should read the prospectus carefully before investing.

Investors should consider the contract and the underlying portfolios' investment objectives, risks, charges and expenses carefully before investing. The benefit payment obligations arising under the annuity contract guarantees, rider guarantees, or optional benefits and any fixed account crediting rates or annuity payout rates are backed by the claims-paying ability of the issuing insurance company. Those payments and the responsibility to make them are not the obligations of the third party broker/dealer from which this annuity is purchased or any of its affiliates. They are also not obligations of any affiliates of the issuing insurance company. None of them guarantees the claims-paying ability of the issuing insurance company.

The fixed option being offered is a fixed-option component of a variable annuity. To take advantage of these fixed rates, your client will need to purchase a variable annuity.

The fixed option being offered is a fixed-option component of a variable annuity. To take advantage of these fixed rates, you will need to purchase a variable annuity.

Withdrawals and distributions of taxable amounts are subject to ordinary income tax and, if made prior to age 59 ½, may be subject to an additional 10% federal income tax penalty.

Variable annuities are issued by Pruco Life Insurance Company (in New York, by Pruco Life Insurance Company of New Jersey), Newark, NJ and distributed by Prudential Annuities Distributors, Inc., Shelton, CT. All are Prudential Financial companies and each is solely responsible for its own financial condition and contractual obligations. Prudential Annuities is a business of Prudential Financial, Inc
Contract # BLX/CRT (03/06)-01 et al or a state variation thereof.

Prudential Annuities, Prudential, the Prudential logo and the Rock symbol are service marks of Prudential Financial, Inc. and its related entities.
