Filing Description:
 Form Numbers Form Title
 Amend 1231 Computations Amendment

In preparation for the 2013 NAIC Standard Valuation and Nonforfeiture Law change, the above form and associated actuarial memoranda are submitted for review and approval.

The purpose of the filing is to change the language regarding the valuation rate as well as change the Nonforfeiture rate stated within the Nonforfeiture provision of the policies. This is the only change being made to the forms. A redlined version of the change is being provided under the supporting documentation tab for convenience in review.

When approved, the revised form will replace amendment forms 8086 Amend and 8093 Amend approved January 7, 2009 under SEFL-125977914.

**Computations
Amendment**

The section entitled "COMPUTATIONS" is hereby deleted in its entirety and the following language substituted in its place:

COMPUTATIONS

All guaranteed **cash values**, "OPTIONS WHEN THE POLICY STOPS", **paid-up additions**, and **reserves** in this policy are figured:

- on the '2001 Commissioners Standard Ordinary Mortality Table', with
- interest at 4.0%, except interest for **reserves** is at 3.5%; and
- at the age of the insured on the birth date before the **policy date**; with
- premiums paid annually;
- death **benefits** paid immediately.

All of the values are the same or more than the minimums set by the law of the state where issued. We have filed a detailed statement about this with the Insurance Department. It shows the figures and methods used.

This amendment does not change any of the terms of the policy except as stated in this amendment.

This amendment is attached to and forming a part of Policy No. [0123456789].
