Dear Margaret Carvalho,

It would be extremely helpful in the review of future submissions if the exact name of the form/rider were contained in the Form Name field under the Form Schedule tab. This would greatly expedite the review of your filing. Thank you so much for your consideration

Objection 1

- Policy Form, 12P-LH-IHCB (Form)
- Certificate Form, 12C-LH-IHCB (Form)

Comment:

Please note that, although rehab facilities are licensed as hospitals in Arkansas, they are included in the definition of "convalescent nursing homes" (skilled nursing facilities) according to RR 18 Sec. 5C. Many insureds believe they will be covered by an in-hospital benefit if they are confined in a rehab facility, especially when the rehab is located within a hospital. We request you clarify that rehabilitation facilities are not considered hospitals, if that is the case. We believe this will make the terms of the rider clear to our consumers.

Objection 2

- Policy Form, 12P-LH-SHC (Form)
- Certificate Form, 12C-LH-SHC (Form)

Comment: This objection is similar to that of the In-Hospital Care Benefit Riders.

In the case of these riders, an insured may believe that time spent in a rehab facility is part of his/her hospital stay. If, for example, an insured is confined to a hospital for 3 days, then moved to a rehab facility for 4 days, he/she may not meet your requirement for a [7-day] hospital stay and would not qualify for the benefits of this rider. We request you clarify that rehabilitation facilities are not considered hospitals, if that is the case. We believe this will make the terms of the rider clear to our consumers.

A.C.A. 23-79-109(1)-(5) sets forth the procedure by which filings may be deemed approved upon the expiration of certain time periods with no affirmative action by the commissioner. If the commissioner determines that additional information is needed to make a decision regarding approval, such request for information will be made to the company. The filing will not be considered complete until said additional information is received. The time periods set forth in this statute will not begin to run until the filing is complete.

Section 1. Purpose

The purpose of this rule is to implement Ark. Code Ann. §23-85-105, §23-76-125, and §23-74-401, et seq., so as to provide reasonable standardization and simplification of terms and coverages of individual accident and health insurance policies, individual subscriber contracts of hospital, medical and dental service corporations and health maintenance organizations and certificates of fraternal benefit societies in order to facilitate public understanding and comparison and to eliminate provisions contained in individual accident and health insurance policies and individual subscriber contracts of hospital, medical, and dental service corporations, and health maintenance organizations and certificates of fraternal benefit societies, all of which are hereinafter referred to as "Policy" or "Policies", which may be misleading or confusing in connection either with the purchase of such coverages or with settlement of claims and to provide for full disclosure in the sale of such coverages.

Section 2. Authority

This rule is issued pursuant to the authority vested in the Insurance Commissioner under Ark. Code Ann. §23-61-108, §23-85-105, §23-76-125, §23-74-401, et seq., and 25-15-201, et seq.

Section 3. Applicability and Scope

This rule shall apply to all Policies delivered or issued for delivery in this State on or after the effective date hereof, except it shall not apply to individual policies or contracts issued pursuant to a conversion privilege under a policy or contract of group or individual insurance when such group or individual policy or contract includes provisions which are inconsistent with the requirements of this rule, nor to policies being issued to employees or members as additions to franchise plans in existence on the effective date of this rule. This rule does not apply to Individual Credit Accident and Health Policies nor to Medicare Supplement Policies.

Section 4. Effective Date: July 1, 2003

The provisions of this rule shall become applicable on and after March 1, 2003; and all persons to whom this Rule applies shall have six (6) months from the effective date of this Rule to comply with the requirements thereof.

Section 5. Definitions

Except as provided hereafter, no Policy or Policies delivered or issued for delivery to any person in this State shall contain definitions respecting the matters set forth below unless such definitions comply with the requirements of this section.

A. "One period of confinement" means consecutive days of in-hospital service received as an in-patient, or successive confinements when discharge from and readmission to the hospital occurs within a period of time not more than ninety (90) days.

B. "Hospital" may be defined in relation to its status, facilities and available services or to reflect its accreditations by the Joint Commission on Accreditation of Hospitals.

(1) The definition of the term "hospital" shall not be more restrictive than one requiring that the hospital:

(a) be an institution operated pursuant to law; and

(b) be primarily and continuously engaged in providing or operating, either on its premises or in facilities available to the hospital on a prearranged basis and under the supervision of a staff of duly licensed physicians, medical, diagnostic and major surgical facilities for the medical care and treatment of sick or injured persons on an in-patient basis for which a charge is made; and

(c) provide 24 hour nursing service by or under the supervision of registered graduate professional nurses (RNs).

(2) The definition of the term "hospital" may state that such term shall not be inclusive of:

(a) convalescent homes, convalescent, rest or nursing facilities; or

(b) facilities primarily affording custodial, educational or rehabilitative care; or

(c) facilities for the aged, drug addicts or alcoholics; or

(d) any military or veterans hospital or soldiers home or any hospital contracted for or operated by any national government or agency thereof for the treatment of members or ex-members of the armed forces, except for services rendered on an emergency basis where a legal liability exists for charges made to the individual for such services; or

(e) any facility, contracted for or operated by any state, county or local government, or any agency thereof in which the insured is furnished services for which, in the absence of insurance, he would not be required to pay.

C. "Convalescent Nursing Home", "Extended Care Facility", "Skilled Nursing Facility", or substantially similar terms, may be defined in relation to its status, facilities, and available services. Rehabilitative facilities are licensed as hospitals in Arkansas but shall be included in the definition of convalescent nursing homes for the purposes of this rule.

(1) A definition of such home or facility shall not be more restrictive than one requiring that it:

- (a) be operated pursuant to law;
- (b) be approved for Payment of Medicare benefits or be qualified to receive such approval, if so requested;
- (c) be primarily engaged in providing, in addition to room and board accommodations, skilled nursing care under the supervision of a duly licensed physician;
- (d) provide continuous 24 hours a day nursing service by or under the supervision of a registered graduate professional nurse (R.N.) for at least 8 hours per day and a registered graduate professional nurse (R.N.) or licensed practical nurse (L.P.N.) for the remaining 16 hours; and
- (e) maintains a daily medical record of each patient.

(2) The definition of such home or facility may provide that such term shall not be inclusive of:

- (a) any home, facility or part thereof used primarily for rest;
- (b) a home or facility for the aged or for the care of drug addicts or alcoholics; or
- (c) a home or facility primarily used for the care and treatment of mental diseases, or disorders, or custodial or educational care.

D. "Accident", "Accidental Injury", "Accidental Means", may be defined to employ "result" language and shall not include words which establish an accidental means test or use words such as "external, violent, visible wounds" or similar words of description or characterization.

The definition shall not be more restrictive than the following: Injury or injuries, for which benefits are provided, means accidental bodily injury sustained by the insured person which is the direct cause, independent of disease or bodily infirmity or any other cause and occurs while the insurance is in force.

Such definition may provide that injuries shall not include injuries for which benefits are provided under worker's compensation, employer's liability or similar law, motor vehicle no-fault plan, unless prohibited by law, or injuries occurring while the insured person is engaged in any activity pertaining to any trade, business, employment, or occupation for wage or profit.

Note: The first party coverage which was prescribed for use in automobile liability policies issued in Arkansas effective July 1, 1974, is not a motor vehicle no-fault plan under which benefits may be excluded under this Section.

E. "Sickness" shall not be defined to be more restrictive than the following: Sickness means sickness or disease of an insured person which first manifests itself after the effective date of insurance and while

the insurance is in force. A definition of sickness may provide for a probationary period which will not exceed thirty (30) days from the effective date of the coverage of the insured person. The definition may be further modified to exclude sickness or disease for which benefits are provided under any worker's compensation, occupational disease, employer's liability or similar law.

F. "Pre-existing condition" shall not be defined to be more restrictive than the following: Pre-existing condition means the existence of symptoms which would cause an ordinarily prudent person to seek diagnosis, care or treatment within a five (5) year period preceding the effective date of the coverage of the insured person or a condition for which medical advice or treatment was recommended by a physician or received from a physician within a five (5) year period preceding the effective date of the coverage of the insured person.

G. "Physician" may be defined by including, such words as "duly qualified physician" or "duly licensed physician". The use of such terms requires an insurer to recognize and to accept, to the extent of its obligation under the contract, all providers of medical care and treatment when such services are within the scope of the provider's licensed authority and are provided pursuant to applicable laws.

H. "Nurses" may be defined so that the description of nurse is restricted to a type of nurse, such as a registered graduate professional nurse (R.N.), a licensed practical nurse (L.P.N.), or a licensed psychiatric technician nurse (L.P.T.N.). If the words "nurse", "trained nurse", or "registered nurse" are used without specific instruction, then the use of such terms requires the insurer to recognize the services of any individual who qualifies under such terminology in accordance with the applicable statutes or administrative rules of the licensing or registry board of the state.

"Total Disability"

(1) A general definition of total disability shall not be more restrictive than one requiring the individual to be totally disabled from engaging in any employment or occupation for which he is or becomes qualified by reason of education, training or experience and not in fact engaged in any employment or occupation for wage or profit.

(2) Total disability may be defined in relation to the inability of the person to perform duties but shall not be based solely upon an individual's inability to: (a) Perform "any occupation whatsoever", "any occupational duty", or "any and every duty of his occupation", or (b) Engage in any training or rehabilitation program.

(3) An insurer may specify the requirement of the complete inability of the person to perform all of the substantial and material duties of ones regular occupation or words of similar import. An insurer may require care by a physician (other than the insured or a member of the insured's immediate family).

J. "Partial Disability" may be defined in relation to the individual's inability to perform one or more but not all of the "major", "important", or "essential" duties of employment or occupation or may be related to a "percentage" of the time worked or to a "specified number of hours" or to "compensation". Where a Policy provides total disability benefits and partial disability benefits, only one elimination period may be required.

K. "Residual Disability" may be defined in relation to the individual's reduction in earnings and may be related either to the inability to perform some part of the "major", "important", or "essential duties" of employment or occupation, or to the inability to perform all usual business duties for as long as is usually required. A Policy which provides for residual disability benefits may require a qualification period, during which the insured must be continuously totally disabled before residual disability benefits are

payable. The qualification period for residual benefits may be longer than the elimination period for total disability. In lieu of the term "residual disability", the insurer may use "proportionate disability", or other terms of similar import which in the opinion of the Commissioner adequately and fairly describes the benefit.

L. "Medicare" may be substantially defined as "The Health Insurance for the Aged Act, Title XVIII of the Social Security Amendments of 1965 as Then Constituted or Later Amended", or "Title I, Part I of Public Laws 89-97, as Enacted by the Eighty-Ninth Congress of the United States of America and popularly known as the Health Insurance for the Aged Act", as then constituted and any later amendments or substitutes thereof or words of similar import.

M. "Mental or Nervous Disorders" shall not be defined more restrictively than a definition including neurosis, psychoneurosis, psychopathy, psychosis, or mental or emotional disease or disorder of any kind.

Section 6. Prohibited Policy Provisions

A. Except as provided in Section 5(E), no Policy shall contain provisions establishing a probationary or waiting period during which no coverage is provided under the policy subject to the further exception that a policy may specify a probationary or waiting period not to exceed six (6) months for specified diseases or conditions and losses resulting therefrom for hernia, disorder of reproduction organs, varicose veins, adenoids, appendix and tonsils. However, the permissible six (6) months exception shall not be applicable where such specified diseases or conditions are treated on an emergency basis. Accident policies shall not contain probationary or waiting periods.

B. No Policy or rider for additional coverage may be issued as a dividend unless an equivalent cash payment is offered to the policyholder as an alternative to such dividend policy or rider. No such dividend policy or rider shall be issued for an initial term of less than six (6) months.

The initial renewal subsequent to the issuance of any Policy or rider as a dividend shall clearly disclose that the policyholder is renewing the coverage that was provided as a dividend for the previous term and that such renewal is optional with the policyholder.

C. No Policy shall exclude coverage for a loss due to a pre-existing condition for a period greater than twelve (12) months following policy issue where the application for such insurance does not seek disclosure of prior illness, disease or physical conditions or prior medical care and treatment and such pre-existing condition is not specifically excluded by the terms of the Policy.

D. A disability income policy may contain a "return of premium" or "cash value benefit" so long as: (1) such return of premium or cash value benefit is not reduced by an amount greater than the aggregate of any claims paid under the Policy; (2) the insurer demonstrates that the reserve basis for such Policies is adequate; and (3) the Policy guarantees that it is renewable. Insurers may also issue a Return of Premium on Cancer, Specified Disease, and Long Term Care policies. No other Policy shall provide a return of premium or cash value benefit, except return of unearned premium upon termination or suspension of coverage, retroactive waiver of premium paid during disability, payment of dividends on participating policies, or experience rating refunds.

E. Policies providing hospital confinement indemnity coverage shall not contain provisions excluding or reducing coverage, because of confinement in a hospital contracted for or operated by the federal, state, county or local government.

F. No Policy shall limit or exclude coverage by type of illness, accident, treatment or medical condition, except as follows:

- (1) pre-existing conditions or diseases, except for congenital anomalies of a covered dependent child;
- (2) mental or emotional disorders, alcoholism and drug addiction;
- (3) pregnancy, except for complications of pregnancy, other than for Policies defined in Section 7(F) of this rule;
- (4) illness, treatment or medical condition arising out of:
 - (i) war or act of war (whether declared or undeclared); participation in a felony, riot or insurrections; service in the armed forces or unites auxiliary thereto;
 - (ii) suicide (sane or insane), attempted suicide or intentionally self-inflicted injury;
 - (iii) aviation, except as a fare paying passenger on a scheduled aircraft;
 - (iv) interscholastic sports, with respect to short-term nonrenewable policies.
- (5) cosmetic surgery, except that "cosmetic surgery" shall not include reconstructive surgery when such service is incidental to trauma, infection or other diseases of the involved part, and reconstructive surgery because of congenital disease or anomaly of a covered dependent child which has resulted in a functional defect;
- (6) treatment provided in a government hospital, except as provided in Section 5(B)(2)(d) or 5(B)(2)(e); benefits provided under Medicare or other government program (except Medicaid), any state or federal worker's compensation, employer's liability or occupational disease law, or any motor vehicle no-fault law; services rendered by employees of hospitals, laboratories or other institutions; services performed by a member of the covered person's immediate family and any other services for which no charge is normally made in the absence of insurance;

[Note: The first party coverage which was prescribed for use in automobile liability policies issued in Arkansas effective July 1, 1974, is not a motor vehicle no-fault plan under which benefits may be excluded under this Section.]

[Note: Hospital confinement indemnity coverage shall be controlled by Section 6(E) and not 6(F).]

- (7) dental care or treatment; except that "dental care" or "treatment" shall not include reconstructive surgery when such service is incidental to trauma;
- (8) eye glasses, hearing aids and examination for the prescription or fitting thereof;
- (9) rest cures, custodial care, transportation and routine physical examinations; and
- (10) territorial limitations.

G. Provisions of this rule shall not impair or limit the use of waivers to exclude, limit or reduce coverage or benefits for specifically named or described pre-existing diseases, physical condition or extra hazardous activity. Where waivers are required as a condition of issuance, renewal or reinstatement, signed acceptance by the insured is required, unless on the initial issuance of the Policy the full text of the waiver is contained or referred to either on the first page or specification page.

Section 7. Disability Minimum Standards for Benefits

The following minimum standards for benefits are prescribed for the categories of coverage noted in the following subsections. No individual Policy shall be delivered or issued for delivery in this State which does not meet the required minimum standards for the specified categories unless the Commissioner finds that such policies or contracts are approvable as Limited Benefit Health Insurance and the Outline of Coverage complies with the appropriate outline in Section 9(J) of this rule.

Nothing in this section shall preclude the issuance of any Policy or contract combining two or more categories of coverage.

A. General Rules

(1) Each Policy shall contain on its face page the actual title or titles reflecting the categories contained in Section 7.

(2) A "noncancellable", "guaranteed renewable", or "noncancellable and guaranteed renewable" Policy shall not provide for termination of coverage of the spouse solely because of the occurrence of an event specified for termination of coverage of the insured, other than non-payment of premium. The Policy shall provide that in the event of the insured's death, the spouse of the insured, if covered under the Policy, shall become the insured.

(3) The terms "noncancellable", "guaranteed renewable", or "noncancellable and guaranteed renewable" shall not be used without further explanatory language in accordance with the disclosure requirements of Section 8(A)(1). The terms "noncancellable" or "noncancellable and guaranteed renewable" may be used only in a policy which the insured has the right to continue in force by the timely payment of premiums set forth in the Policy until the age of sixty-five (65) or to eligibility for Medicare, during which period the insurer has no right to make unilaterally any change in any provision of the Policy while the Policy is in force; provided, however, any accident and health Policy which provides for periodic payments, weekly or monthly, for a specified period during the continuance of disability resulting from accident or sickness may provide that the insured has the right to continue the Policy only to age sixty (60) if, at age sixty (60), the insured has the right to continue the Policy in force at least to age sixty-five (65) while actively or regularly employed. Except as provided above, the term "guaranteed renewable" may be used only in a Policy which the insured has the right to continue in force by the timely payment of premiums until the age of sixty-five (65) or to eligibility for Medicare, during which period the insurer has no right to make unilaterally any change in any provision of the Policy while the Policy is in force, except that the insurer may make changes in premium rates by classes; provided, however, any accident and health Policy which provides for periodic payments, weekly or monthly, for a specified period during the continuance of disability resulting from accident or sickness may provide that the insured has the right to continue the Policy only to age sixty (60) if, at age sixty (60), the insured has the right to continue the Policy in force at least to age sixty-five (65) while actively and regularly employed.

(4) In a family Policy covering both husband and wife, the age of the younger spouse must be used as the basis for meeting the age and durational requirements of the definitions of "noncancellable", or "guaranteed renewable". However, this requirement shall not prevent termination of coverage of the older spouse upon attainment of the stated age limit (e.g., age 65) so long as the Policy may be continued in force as to the younger spouse to the age or for the durational period as specified in said contract.

(5) When accidental death and dismemberment is part of the insurance coverage offered under the contract, the insured shall have the option to include all insureds under such coverage and not just the principal insured.

(6) If a Policy contains a status type military service exclusion or a provision which suspends coverage during military service, the Policy shall provide, upon receipt of written request, for refund of premiums as applicable to such person on a pro-rata basis.

(7) In the event the insurer cancels or refuses to renew, Policies providing pregnancy benefits shall provide for an extension of benefits as to pregnancy commencing while the Policy is in force and for which benefits would have been payable had the Policy remained in force.

(8) Policies providing convalescent or extended care benefits following hospitalization shall not condition such benefits upon admission to the convalescent or extended care facility within a period of less than fourteen (14) days after discharge from the hospital.

(9) Family coverage shall continue for any unmarried dependent child who is incapable of self sustaining employment due to mental retardation or physical handicap, on the date that such child's coverage would otherwise terminate under the Policy due to the attainment of a specified age limit (prior to the attainment of 19) for children and is chiefly dependent on the insured for support and maintenance. The coverage shall continue so long as the contract remains in force and so long as the dependent remains in such condition. Notice of such incapacity or dependency must be furnished to the insurer by the policyholder except in no event shall this notice requirement preclude eligible dependents under this regulation regardless of age.

(10) Any Policy coverage for the recipient in a transplant operation shall also provide reimbursement of any medical expenses of a live donor to the extent that benefits remain and are available under the recipient's Policy, after benefits for the recipient's own expenses have been paid.

(11) A Policy may contain a provision relating to recurrent disabilities provided; however, that no such provision shall specify that a recurrent disability be separated by a period greater than six (6) months.

(12) Accidental death and dismemberment benefits shall be payable if the loss occurs within ninety (90) days from the date of the accident, irrespective of total disability. However, no claim shall be denied wherein the insured with the use of extraordinary life support systems delays the loss for more than ninety (90) days from the date of the accident. Disability income benefits, if provided, shall not require the loss to commence less than thirty (30) days after the date of accident, nor shall any Policy which the insurer cancels or refuses to renew require that it be in force at the time disability commences if the accident occurred while the Policy was in force.

(13) Specific dismemberment benefits shall not be in lieu of other benefits unless the specific benefit equals or exceeds the other benefits.

(14) Any accident only Policy providing benefits which vary according to the type of accidental cause shall prominently set forth in the outline of coverage the circumstances under which benefits are payable which are lesser than the maximum amount payable under the Policy.

(15) Termination of the Policy shall be without prejudice to any continuous loss which commenced while the Policy was in force, but the extension of benefits beyond the period the Policy was

in force may be predicated upon the continuous total disability of the insured, limited to the duration of the Policy benefit period, if any, or payment of the maximum benefits.

(16) If, to prevent overinsurance, benefits are reduced due to the presence of Medicare, then benefits may be reduced for those insureds actually covered by Medicare. Benefits may not be reduced based solely on eligibility for Medicare.

"Basic Hospital Expense Coverage" is a Policy of accident and health insurance which provides coverage for a period of not less than thirty-one (31) days during any continuous hospital confinement for each person insured under the Policy, for expense incurred for necessary treatment and services rendered as a result of accident or sickness for at least the following:

Such provision shall be appropriately captioned and clearly state the duration, where limited, of renewability and the duration of the term of coverage for which the Policy is issued and for which it may be renewed.

(2) Except for riders or endorsements by which the insurer effectuates a request made in writing by the policyholder or exercises a specifically reserved right under the Policy, all riders or endorsements added to a Policy after the date of issue or at reinstatement or renewal which reduce or eliminate benefits or coverage in the Policy shall require signed acceptance by the policyholder. After date of Policy issue, any rider or endorsement which increases benefits or coverage with a concomitant increase in premium during the Policy term must be agreed to in writing signed by the insured, except if the increased benefits or coverage is required by law.

(3) Where a separate additional premium is charged for benefits provided in connection with riders or endorsements, such premium charge shall be set forth in the Policy.

With respect to Policies issued pursuant to a direct response solicitation to persons eligible for Medicare by reason of age, the Policy shall have a notice prominently printed on the first page of the Policy or attached thereto stating in substance that the policyholder shall have the right to return the Policy within thirty (30) days of its delivery and to have the premium refunded if after examination of the Policy, the policyholder is not satisfied for any reason.

This policy IS NOT A MEDICARE SUPPLEMENT POLICY.

Section 9. Requirements for Replacement

A. Application forms shall include a question designed to elicit information as to whether the insurance to be issued is intended to replace any other disability insurance presently in force. A supplementary application or other form to be signed by the applicant containing such a question may be used.

B. Upon determining that a sale will involve replacement an insurer, other than a direct response insurer, or its agent shall furnish the applicant, prior to issuance or delivery of the Policy, the notice described in (C) below. One (1) copy of such notice shall be retained by the applicant and an additional copy signed by the applicant shall be retained by the insurer. A direct response insurer shall deliver to the applicant upon issuance of the Policy, the notice described in (D) below. In no event, however, will such a notice be required in the solicitation of the following types of Policies: accident only and single premium nonrenewable Policies.

C. The notice required by (B) above for an insurer, other than a direct response insurer, shall provide, in substantially the following form:

NOTICE TO APPLICANT REGARDING REPLACEMENT OF ACCIDENT AND HEALTH INSURANCE

According to (your application) (information you have furnished), you intend to lapse or otherwise terminate existing accident and health insurance and replace it with a policy to be issued by (insert company name) Insurance Company. For your own information and protection, you should be aware of and seriously consider certain factors which may affect the insurance protection available to you under the new policy.

(1) Health conditions which you may presently have, (pre-existing conditions) may not be immediately or fully covered under the new policy. This could result in denial or delay of a claim for benefits under the new policy, whereas a similar claim might have been payable under your present policy.

(2) You may wish to secure the advice of your present insurer or its agent regarding the proposed replacement of your present policy. This is not only your right, but it is also in your best interest to make sure you understand all the relevant factors involved in replacing your present coverage.

(3) If, after due consideration, you still wish to terminate your present policy and replace it with new coverage, be certain to truthfully and completely answer all questions on the application concerning your medical/health history. Failure to include all material medical information on an application may provide a basis for the company to deny any future claims and to refund your premium as though your policy had

never been in force. After the application has been completed and before you sign it, reread it carefully to be certain that all information has been properly recorded.

The above "Notice to Applicant" was delivered to me on:

(Date)

(Applicant's Signature)

D. The notice required by (B) above for a direct response insurer shall be as follows:

NOTICE TO APPLICANT REGARDING REPLACEMENT
OF ACCIDENT AND HEALTH INSURANCE

According to (your application) (information you have furnished), you intend to lapse or otherwise terminate existing ~~disability~~ **accident and health** insurance and replace it with the policy delivered herewith issued by (insert company name) Insurance Company. Your new policy provides ten (10) days within which you may decide without cost whether you desire to keep the policy. For your own information and protection you should be aware of and seriously consider factors which may affect the insurance protection available to you under the new policy.

- (1) Health conditions which you may presently have, (pre-existing conditions) may not be immediately or fully covered under the new policy. This could result in denial or delay of a claim for benefits under the new policy, whereas a similar claim might have been payable under your present policy.
- (2) You may wish to secure the advice of your present insurer or its agent regarding the proposed replacement of your present policy. This is not only your right, but it is also in your best interest to make sure you understand all the relevant factors involved in replacing your present coverage.
- (3) (To be included only if the application is attached to the Policy.) If, after due consideration, you still wish to terminate your present policy and replace it with new coverage, read the copy of the application attached to your new policy and be sure that all questions are answered fully and correctly. Omissions or misstatements in the application could cause an otherwise valid claim to be denied. Carefully check the application and write to (insert company name and address) within ten (10) days if any information is not correct and complete, or if any past medical history has been left out of the application.

Section 10. Severability

Any section or provision of this rule held by a court to be invalid or unconstitutional will not affect the validity of any other section or provision.
