On behalf of the above captioned company this filing introduces a policy form (3) product to our dwelling fire program. A concurrent forms filing is being made to your department detailing the coverages associated with this new form.

As this is a new form to this program there is no rate impact associated with this product introduction. We will not forcibly be converting existing customers to this product. Rather, agents will be afforded the opportunity to re-write existing dwelling form (1) and (2) policyholders should they so choose.

The EC Dwelling policy form relativities are derived from the current Insurance Services Office program:

Extended Coverages - Building Territories All

Non-Seasonal 1.80

Seasonal 2.10

All remaining rating attributes (i.e. loss costs, policy amount relativities, etc.) remain consistent with our dwelling fire program that is presently on file with your department. We are enclosing a current version of our product guide that incorporates Special Form (3) references.

We look forward to your acknowledgment of this filing. If you have any questions or require any additional information, please feel free to call me at the number provided below.

Sincerely,

Jon Snyder

All remaining rating attributes (i.e. loss costs, policy amount relativities, etc.) remain consistent with our dwelling fire program that is presently on file with your department. We are enclosing a current version of our product guide that incorporates Special Form (3) references.
