Filing Description:

We respectfully submit a revision to our independent Private Passenger Auto program, which results in a rate level increase 1.7%. The details of and support for the change are outlined in the attached Filing Memorandum and supporting exhibits.

The rate level changes contained in this filing specifically consider the expected effect that any prior changes in policy language will have on our future underwriting experience. The changes detailed in this filing reflect our best efforts to

recognize our actuarially suggested income needs and have premiums that are as competitive as possible.

We do not rely solely on rate activity to achieve our objective of continued financial stability. We also concentrate on continued improvements in the way we service the business we write. These improvements range from internal expense controls to ongoing enhancements in the loss settlement process. We also invest and participate in many loss prevention and control activities. Attached is an exhibit that outlines some of these activities.

Dear Alexa Grissom,

Comments:

Response 1

Comments: In response to Jeff Clinch's conversation with Alexa Grissom, we are providing the following additional information regarding our automobile rate filing. The Accident Record Rating Plan considers an accident chargeable if payments totaling \$750 or more are made under property damage liability coverage and collision coverage combined. Accidents are not chargeable if the driver involved in the accident was less than 50% at-fault. We believe this complies with Arkansas Code Ann. 23-79-152.

Sincerely,

Steve Harr

IMPORTANT NOTE REGARDING THE RATE MANUAL

State Farm no longer produces a paper copy of our Auto Rate Manual for mass distribution. Instead, rates and rules are now made available electronically online to our agents and State Farm associates.

However, in order to meet the submission requirements for this filing we have produced a paper copy of the rate and rule content from our online rate manual for your review.

Please note that the only changes to existing rates and/or rules are those outlined in the Filing Memorandum included with the filing and the Summary of Changes included with the enclosed rate manual.

For convenience, we are providing a complete copy of the manual. As such, the enclosed will replace your previous copy of the manual in its entirety.

- A. These rules may also apply in the order listed:
Rule 102; Rule 801C; Rule 851
- B. The limits for which factors are shown or those equivalent to the bodily injury liability limits of the policy are the only available limits. For available limits other than those for which factors are provided, charge the premium for the next higher limit. The policy must then provide the limits corresponding to the premium charged. For limits higher than \$1,000,000/\$1,000,000 bodily injury and \$1,000,000 property damage, refer to Company for acceptance.
- C. COV U is available at limits which shall not exceed the limits provided under the policy for automobile bodily injury liability insurance.
- D. COV U1 is available at limits which shall not exceed the limits provided under the policy for automobile property damage liability insurance.
- E. COV W is available only in conjunction with COV U and only at limits that are equal to the limits chosen for COV U. In addition, the chosen limits shall not exceed the limits provided under the policy for automobile bodily injury liability coverage.

Increase the IRG 18 factor by 4% for each \$5,000, or fraction thereof, by which the MSRP exceeds \$80,000. For example, the IRG factor for an IRG 25 vehicle (MSRP between \$110,001 and \$115,000) is computed as 7 (the difference between 25 and 18) multiplied by 4%, resulting in 0.28. Add one (1.28) and multiply by the IRG 18 factor, rounding to the nearest penny.

SFM and SFF&C Renewal or Transfer of Coverage Only

- Notes:**
- A. Use the MSRP of the body and the chassis to determine the IRG.
 - B. Full Comprehensive is not available on the following:
 1. Tank trucks used for hauling flammable liquids other than fuel oil (deductible forms of comprehensive coverage may be written on trucks so used at 150% of the commercial premiums otherwise applicable).
 2. Trucks used to haul sand, gravel, coal and other loose mineral products.

Note: Increase the IRG 9 premium by 12% for each \$5,000, or fraction thereof, by which the MSRP exceeds \$34,000. For example, the premium for an IRG 11 bus (MSRP between \$39,001 and \$44,000) is computed as 2 (the difference between 11 and 9) multiplied by 12%, resulting in 0.24. Add one (1.24) and multiply by the IRG 9 premium, rounding to the nearest dollar.

REPOSSESSED AUTOMOBILES--FINANCE COMPANIES AND BANKS (SFM Only)

Automobile finance companies and banks may be insured for the repossession, recovery, and use of financed automobiles in connection with their resale.

Exceptions—

- i. This rule does not apply to automobiles repossessed, owned, or operated by finance companies and banks and used in the business of the insured or for pleasure purposes. Such automobiles shall be insured in the regular manner.
- ii. This rule does not apply to a finance company owned and operated by an automobile sales agency.

The premium for bodily injury and property damage liability limits of \$25,000/\$50,000/\$25,000 shall be determined as follows:

1. The semiannual rate per car repossessed shall be 25 cents.
2. The advance premium shall be determined by applying the rate per car repossessed to the estimated number of automobiles repossessed.
3. The premium shall be determined by multiplying the total number of cars repossessed during the policy period by the rate per car.
4. Except for adjusting for bodily injury and property damage liability increased limits, no other premium adjustments shall apply.
5. The minimum premium shall be \$25.00 regardless of limits.
6. Any other coverage required by law will be provided at no additional charge.

COMPANY CAR FLEETS AND AUTOMOBILE SCHEDULE RATING PLAN (SFM Only)

A company car fleet is defined as any number of self-propelled vehicles owned by or under the direct control of State Farm Insurance Companies. All such policies containing the same expiration date and coverage limits shall be combined for the purposes of experience rating under Rule 851—Experience Rating Plan.

All such fleets are eligible for a rate modification reflecting specific characteristics of the fleet, in accordance with the “Automobile Schedule Rating Table,” to the extent that such characteristics are not reflected in any experience modification otherwise applicable.

The modification shall apply to the total premium for all coverages.

The maximum modification shall be 25%.

MULTIPLE AUTOMOBILES DISCOUNT

The bodily injury and property damage liability, medical payments, comprehensive, and collision coverage premiums applicable to a private passenger automobile are reduced when two or more private passenger automobiles, used principally by persons residing in the same household, are insured with State Farm Mutual Automobile Insurance Company or State Farm Fire and Casualty Company. The automobiles must be owned by one or more individuals in the household who are related by blood, marriage, or adoption. An automobile whose use, sale, or replacement is controlled by an individual shall be considered as owned by that individual.

These factors also apply if the automobiles are jointly owned by two unrelated residents and both are designated as named insureds on the policies insuring the cars they jointly own.

This discount also applies to an owned private passenger automobile if the insured has a motor home rated under the provisions of Rule 401—Motor Homes, Truck or Van Campers, and meets the above requirements. This reduction is reflected in the appropriate Class Rating Factor for the various discount combinations.

Note—An automobile which is ordinarily not readily available for use by the insured or by other residents of the same household shall not qualify for the discount afforded by this section; neither shall such an automobile qualify another automobile for such discount.

Exception—The following vehicles are not eligible for the Multiple Automobiles Discount, nor are they counted, except for motor homes, in determining the applicability of the Multiple Automobiles Discount:

- i. Motor homes as defined in Rule 401(A)—Motor Homes, Truck or Van Campers (Recreational Use)
- ii. Vehicles insured under Rule 404—Motorcycles, Motorscooters, and Motorized Bicycles
- iii. Automobiles insured under Rule 406—Antique and Classic Automobiles and Replicas
- iv. Automobiles insured under Rule 410—Driver Training Automobiles
- v. Automobiles insured under Rule 411—Funeral Directors' Automobiles
- vi. Automobiles insured under Rule 709—Automobiles Leased To United States Government Agencies
- vii. Fleets insured under Rule 851—Experience Rating Plan (SFM Only)
- viii. Vehicles insured under Rule 901—Recreational Vehicles (SFM Only)

DRIVER TRAINING DISCOUNT

The bodily injury and property damage liability, medical payments, comprehensive, and collision coverage premiums applicable to a private passenger automobile are reduced for risks classified with first digit class code of 4, 5, 7, 8, or 9 and second digit class code of 1, 2, B, C, D, K, P, or Q. Evidence must be presented that each owner or driver, other than a married female, who is under 21 years of age, and who is a resident in the same household as the applicant, or who customarily drives the automobile, has successfully completed an acceptable driver education course. The minimum requirements of an "acceptable" driver education course are that it:

1. be conducted by an instructor who is licensed or certified to conduct such a course; and,
2. include classroom instruction in basic traffic and safety rules, plus driving experience under actual road and traffic conditions or in a mechanical device simulating such conditions;

however, in the event the State requirements for such a course are more stringent than the requirements above, the State requirements shall be the minimum.

This reduction is reflected in the appropriate Class Rating Factor for the various discount combinations.

Exception—The following vehicles are not eligible for the Driver Training Discount:

- i. Motor homes as defined in Rule 401(A)—Motor Homes, Truck or Van Campers (Recreational Use)
- ii. Vehicles insured under Rule 404—Motorcycles, Motorscooters, and Motorized Bicycles
- iii. Automobiles insured under Rule 406—Antique and Classic Automobiles and Replicas
- iv. Automobiles insured under Rule 410—Driver Training Automobiles
- v. Automobiles insured under Rule 411—Funeral Directors' Automobiles
- vi. Automobiles insured under Rule 709—Automobiles Leased To United States Government Agencies

GOOD STUDENT DISCOUNT

The bodily injury and property damage liability, medical payments, comprehensive, and collision coverage premiums applicable to a private passenger automobile are reduced for risks classified with first digit class code of 4, 5, 7, 8, or 9, except classes 8L and 8M, provided:

1. all male and unmarried female drivers under 25 years of age, whose use of the automobile was considered in determining the applicable classification code, are:
 - a. full-time students in high school; or,
 - b. enrolled as full-time students in academic courses in a college or university; and,
2. the scholastic records for the immediately preceding school semester, or comparable segment, show that each was a full-time student (see Note 1 for home study students) and:
 - a. ranked scholastically among the upper 20% of their class; or,
 - b. in schools designating grades by letter (such as A, B, C, D and F), had a grade average of B or its equivalent (see Note 2); or,
 - c. in schools where numbers are used to designate grade "points" (such as 4, 3, 2 and 1), had an average of at least three points for all subjects combined, or its equivalent; or,
 - d. in schools that maintain a "Dean's List", "Honor Roll", or comparable listing for scholastic achievement, was included in such a list; or,
3. has graduated from a college or university and has a cumulative scholastic record meeting the scholastic requirements of section 2 of this rule. The Company must be furnished a copy of the appropriate documents or a statement certified by a responsible official of the school indicating attainment of at least one of the above scholastic requirements. Except for persons who qualify under section 3 of this rule, similar statements are to be furnished to the Company each 12 months, subsequently. Drivers currently receiving the Good Student Discount may have the discount continued after completion of the driver's undergraduate work provided the driver:
 - a. graduated from a four year college; or,
 - b. attended college on a full-time basis for at least two consecutive years and had a scholastic record meeting the above requirements during the last two of these years; and,

continues to be the controlling factor in the classification of the automobile.

The Good Student Discount terminates when the driver reaches age 25 or is rated as Class 1.

This reduction is reflected in the appropriate Class Rating Factor for the various discount combinations.

Notes—

1. Students who are enrolled in a home study program must satisfy the scholastic requirement by submitting evidence that they ranked in the upper 20% on one of the following national standardized tests, administered within the past twelve months:
 - PSAT (Preliminary Scholastic Aptitude Test)
 - PLAN (Preliminary American College Test)
 - SAT-I (Scholastic Aptitude Test-I)
 - ACT (American College Test)
 - TAP (Tests of Achievement and Proficiency)
 - California Achievement Test

Similar evidence of ranking must be supplied to the Company each subsequent 12 months.

2. If the system of grading by letter is not susceptible to averaging no grade shall be below "B" or its equivalent.

Exception—The following vehicles are not eligible for the Good Student Discount:

- i. Motor homes as defined in Rule 401(A)—Motor Homes, Truck or Van Campers (Recreational Use)
- ii. Vehicles insured under Rule 404—Motorcycles, Motorscooters, and Motorized Bicycles
- iii. Automobiles insured under Rule 406—Antique and Classic Automobiles and Replicas

STEER CLEAR® SAFE DRIVER DISCOUNT

The bodily injury and property damage liability, medical payments, comprehensive, and collision coverage premiums applicable to a private passenger automobile are reduced for risks classified with first digit class code of 4, 5, 7, 8, or 9. In order to initially qualify for this discount, the following requirements must be met:

1. All male and unmarried female drivers under 25 years of age who are assigned to the automobile must:
 - a. have no at-fault accidents or moving violations in the three year period prior to the time the discount is initially applied, and
 - b. have completed the State Farm Steer Clear program.
2. All private passenger automobiles in the household must be insured with State Farm Mutual Automobile Insurance Company or State Farm Fire and Casualty Company (however, none can be written under an assigned risk plan).

The discount shall continue so long as the qualifying operator(s) continues to have no violations and no at-fault accidents. The occurrence of a violation or an at-fault accident by this operator(s) results in the loss of the discount. Additional drivers who are later assigned to the automobile must meet the initial qualifications in order for the Steer Clear Safe Driver Discount to continue.

An operator who initially qualifies for the discount prior to age 21 must complete the second education program before age 21 in order to continue the discount. The discount terminates when the operator reaches 25 years of age or is rated as Class 1.

This reduction is reflected in the appropriate Class Rating Factor for the various discount combinations.

Arkansas
State Farm Mutual Automobile Insurance Co., State Farm Fire and Casualty Co.

Notes—

- a. An at-fault accident is one that results in damage to any property. In the State Farm Fire and Casualty Company, an at-fault accident involving death or bodily injury subject to the New Business Rating provision of the Standard Tier Automobile Rating rule shall also prevent a driver from qualifying for this discount. An accident shall not be considered at-fault if the Company is furnished sufficient evidence that the driver involved in the accident was less than 50% at fault.
- b. For new business to qualify, acceptable verification of prior accident-free history will be required.
- c. Drivers who initially qualify for the discount prior to age 21 are not required to complete the second education program if they turn 21 within 1 year of initial qualification.

Exception—The following vehicles are not eligible for the Steer Clear Safe Driver Discount:

- i. Motor homes as defined in Rule 401(A)—Motor Homes, Truck or Van Campers (Recreational Use)
 - ii. Vehicles insured under Rule 404—Motorcycles, Motorscooters, and Motorized Bicycles
 - iii. Automobiles insured under Rule 406—Antique and Classic Automobiles and Replicas

ACCIDENT RECORD RATING PLAN (ARRP) (SFM Only)

The base premiums for the bodily injury and property damage liability, medical payments, and collision coverages, applicable to a private passenger automobile shall be subject to surcharges determined in accordance with the following provisions:

A. New Business Rating

A 10% surcharge shall apply if, in the three year period prior to the date of application, there are any chargeable accidents. The surcharge shall apply for a period of not more than three years, but it will not apply to any policy period that begins more than three years from the date of the accident.

An accident shall be considered chargeable if it resulted in damage to any property in the amount of \$750 or more. However, an accident shall not be considered chargeable if the applicant provides sufficient evidence that the driver involved in the accident was less than 50% at fault.

B. Subsequent Rating

1. Chargeable Accidents

An accident shall be chargeable as of the date the Company has recorded payments totaling \$750 or more (for accidents occurring on or after April 1, 1999) under property damage liability coverage and collision coverage combined. In the event of a multiple vehicle accident, property damage liability payment must be present for a claim to be considered chargeable.

An accident shall not be considered chargeable if the Company is furnished sufficient evidence that the driver involved in the accident was less than 50% at fault.

Note—Accidents occurring prior to April 1, 1999, are considered chargeable as of the date the Company has recorded payments totaling \$400 or more under property damage liability coverage or, in the event of a one car collision, under collision coverage.

2. Premium Surcharge

The surcharge applicable during a policy period is determined by totaling the separate charges for the individual accidents which became chargeable during the three year period ending two months prior to the current expiration date.

3. Accident Charges

The charge for a specific accident shall be:

- i. 10% if there were no other chargeable accidents during the three years preceding the date this accident became chargeable;
- ii. 30% if there was only one other chargeable accident during this period and its charge was 10%;
- iii. 50% in all other instances.

Except as set forth in the Miscellaneous Provisions section of this rule, the accident charge shall apply to the policy providing the coverage under which the claim payment has been made and each charge shall apply for a period of three years from the renewal date on which it was originally applied.

Arkansas
State Farm Mutual Automobile Insurance Co., State Farm Fire and Casualty Co.

C. Miscellaneous Provisions

1. The percentage(s) of accident surcharge shall be unaffected by changes requiring a policy transfer or by changes in the territory, use, or driver classification of the policy.
2. If the Company is furnished evidence during the three year period subsequent to the date the accident became chargeable, that the driver involved in the chargeable accident will no longer be a resident of the named insured's household, or will not be a driver of the automobile insured under the policy, then that accident will no longer be used in determining the current accident charge or accident-free discount on the policy. However, if the driver continues to be insured with the Company on another policy, the accident will be considered in the rating of that policy.
3. For initial rating under the New Business provisions of this rule, operators will be assigned to the automobile they most frequently operate and the accident record for each automobile will be thus determined. If a new driver is added after the policy has been initially written, that driver's prior record will be considered in the subsequent rating of the automobile.
4. If the driver involved in a chargeable accident is currently an assigned driver of an automobile insured in State Farm Fire and Casualty Company, that accident shall not be used in determining the current accident surcharge, but shall be reflected in that person's driving record for the purpose of determining the Driver Record Charges on the State Farm Fire and Casualty Company policy.
5. If a driver is involved in a chargeable accident while driving an automobile insured with State Farm Fire and Casualty Company, and is not an assigned driver of an automobile insured in State Farm Fire and Casualty Company, that accident will be considered in determining the current accident surcharge applicable to the automobile insured in State Farm Mutual Automobile Insurance Company which is most frequently driven by that driver.
6. A driver previously insured in State Farm Fire and Casualty Company and now being insured in State Farm Mutual Automobile Insurance Company shall be considered as renewal business subject to the provisions of this rule, provided the effective date of the insurance coverage is within three years of the termination date in the State Farm Fire and Casualty Company.

D. Accident-Free Discount

The base premiums for the bodily injury and property damage liability, medical payments, and collision coverages, applicable to a private passenger automobile shall be reduced by 15% if the policy has been in force with the State Farm Mutual Automobile Insurance Company for at least three years and there have been no chargeable accidents during the three year period ending two months prior to the current expiration date.

This discount increases to:

- 20% if the policy has been in force for six years,
- 25% if the policy has been in force for ten years,

and there have been no chargeable accidents during these time periods.

Note—The time in force provision shall include the time an insured was rated continuously at the 3-Star Discount rate level in State Farm Fire and Casualty Company immediately prior to transferring to State Farm Mutual Automobile Insurance Company.

This discount applies so long as the policy remains in force and there are no chargeable accidents. If there has been a chargeable accident and the policy has been in force for at least nine years and there have been no chargeable accidents during the nine years preceding the date the accident becomes chargeable, the discount will continue. Otherwise, the occurrence of a chargeable accident results in the loss of the discount; however, the normal charge for that accident will be:

- waived if the discount being received was 20% or 25%,
- reduced to 5% if the discount was 15%,

so long as there are no other chargeable accidents during the three year experience period.

A chargeable accident which occurs within nine years of one that was forgiven will be subject to the latter provisions.

E. Reinstatements

1. A reinstated policy shall be subject to the New Business provisions of this rule, except that the developed accident surcharge percentages shall be no lower than that which would have been applicable had the policy remained in force.
2. Any accident-free discount applicable at the time of expiration or cancellation will be applied, provided the reinstatement occurs within five years and there have been no accidents during this period which the Company determines to have been the fault of the owner or operator of the automobile being insured. This provision does not apply if the applicant has been insured in the State Farm Fire and Casualty Company during all or part of the intervening time.

F. Exception—The following vehicles are not eligible for the Accident Record Rating Plan (ARRP):

- i. Motor homes as defined in Rule 401(A)—Motor Homes, Truck or Van Campers (Recreational Use)
- ii. Trailers insured under Rule 402—Trailers Designed for Use with Private Passenger Automobiles
- iii. Vehicles insured under Rule 404—Motorcycles, Motorscooters, and Motorized Bicycles
- iv. Automobiles insured under Rule 406—Antique and Classic Automobiles and Replicas
- v. Automobiles insured under Rule 410—Driver Training Automobiles
- vi. Automobiles insured under Rule 411—Funeral Directors' Automobiles
- vii. Automobiles insured under Rule 709—Automobiles Leased To United States Government Agencies
- viii. Fleets insured under Rule 851—Experience Rating Plan (SFM Only)
- ix. Vehicles insured under Rule 901—Recreational Vehicles (SFM Only)

STANDARD TIER AUTOMOBILE RATING (STAR) PLAN (SFF&C Only)

A. Driver Record Charges

The base premiums for the bodily injury and property damage liability, medical payments, and collision coverages, applicable to a private passenger automobile shall be adjusted for the individual driving records of the operators assigned to the vehicle, in accordance with the following provisions. If more than one driver is assigned to the vehicle, the Driver Record Charges for each driver are added together and applied to the base premiums.

The Driver Record Charges for each individual driver are based upon the Driver Record Level and the following table:

Driver Record Level	Driver Record Charge
1	+0%
2	+0%
3	+0%
4	+15%
5	+50%
6	+60%
7	+70%
8	+90%
9	+110%
10	+140%*

*Plus 50% for each additional level above 10

B. Driver Record Levels

New Business Rating—Each new operator's Driver Record Level is based upon their accidents and violations during the three-year period ending on the effective date of the initial policy period. If there were no chargeable accidents or violations during the three-year period, the Driver Record Level shall be Level 1. Otherwise, the Driver Record Level is increased by 3 for each chargeable accident, by 2 for each minor violation, and by 5 for each major violation.

Subsequent Renewal Rating—Each assigned operator's Driver Record Level is based upon the accidents and violations which became chargeable during the three-year experience period ending on the effective date of the policy period. If there were no chargeable accidents or violations during the three-year experience period, the Driver Record Level shall be Level 1.

The Driver Record Level adjustment for each chargeable accident will be:

- +3 levels during the first year after it was first considered, and
- +2 levels during the second year, and
- +1 level during the third year.

The Driver Record Level adjustment for each chargeable minor violation will be:

- +2 levels during the first year after it was first considered, and
- +1 level during the second year, and
- +0 levels during the third year.

The Driver Record Level adjustment for each chargeable major violation will be:

- +5 levels during the first year after it was first considered, and
- +4 levels during the second year, and
- +3 levels during the third year.

Arkansas
State Farm Mutual Automobile Insurance Co., State Farm Fire and Casualty Co.

C. At-Fault and Chargeable Accidents

1. New Business Rating

- **At-Fault Accidents**—Subject to the exceptions below, an accident shall be considered at-fault if it resulted in death or bodily injury or damage to any property.
- **Chargeable Accidents**—An at-fault accident shall be considered chargeable if it resulted in death or bodily injury or in damage to any property in the amount of \$750 or more (\$400 or more for accidents which occurred prior to April 1, 1999).

Exceptions—An accident shall not be considered at-fault, nor chargeable, if the applicant demonstrates:

- that it was caused by contact with birds, animals, missiles, or falling objects; or,
- that the operator involved in the accident was:
 - a. lawfully parked; or,
 - b. reimbursed by, or on behalf of, a person responsible for the accident or has judgment against such person; or,
 - c. struck in the rear by another vehicle and has not been convicted of a moving traffic violation in connection with the accident; or,
 - d. hit by a “hit-and-run” driver if the accident is reported to the proper authorities within 24 hours; or,
 - e. not convicted of a moving traffic violation in connection with the accident, but the operator of the other automobile involved in the accident was convicted of a moving traffic violation; or,
 - f. operating a vehicle of a type not eligible for rating under this rule.

The term “convicted” includes a plea of guilty or forfeiture of bond.

2. Subsequent Rating

An accident shall be considered at-fault as of the date the Company has recorded any payments under property damage liability or collision coverage. In the event of a multiple vehicle accident, property damage liability payment must be present for a claim to be considered at-fault.

An at-fault accident shall be considered chargeable as of the date the Company has recorded payments totaling \$750 or more (for accidents which occurred on or after April 1, 1999) under property damage liability coverage and collision coverage combined.

Notes—

1. For both New Business and Subsequent Rating, an accident shall not be considered at-fault, nor chargeable, if the Company is furnished sufficient evidence that the driver involved in the accident was less than 50% at fault.
2. For Subsequent Rating, accidents which occurred prior to April 1, 1999, are considered chargeable as of the date the Company has recorded payments totaling \$400 or more under property damage liability coverage or, in the event of a one car collision, under collision coverage.

D. Minor Violations

Minor violations include traffic law offenses for speeding, stop sign and traffic signal infractions, improper turns, failure to yield right of way, and similar offenses.

A minor violation shall not be counted as a separate incident if it occurred in connection with a chargeable accident.

If any violation is subsequently dismissed, it will no longer be considered a chargeable violation.

E. Major Violations

For purposes of this rule, major violations include:

1. Driving a motor vehicle under the influence of intoxicants or drugs, or having a driver's license suspended or revoked due to refusing to submit to a test for such substances.
2. Manslaughter (whether or not “voluntary”), reckless homicide or assault arising out of the use of a motor vehicle.
3. Reckless driving, or using a vehicle in the commission of a felony or any other crime punishable as a felony.
4. Failure to stop and report or identify oneself when involved in a motor vehicle accident, or fleeing a law enforcement official.
5. Operating a motor vehicle without a valid driver's license or during a period of revocation or suspension of a motor vehicle registration or operator's license.
6. Operating a motor vehicle without the owner's authority.
7. Racing or engaging in a highway speed contest.
8. Lending a registration or operator's license to another person.

F. Other Provisions

1. Base Rates

Each vehicle is rated with the 3-Star Discount, the 2-Star Discount, or the 1-Star rates. The 1-Star rates are the base rates and are used if the vehicle does not qualify for the 3-Star Discount nor the 2-Star Discount.

3-Star Discount

In order for the insured vehicle to initially qualify for the 3-Star Discount, all other listed requirements for the 2-Star Discount must be satisfied, and the vehicle must also satisfy the following conditions:

- a. All drivers assigned to the insured vehicle must have no accidents that became chargeable and no minor violations during the applicable three-year experience period and no major violations during the five-year period.
- b. All drivers assigned to the insured vehicle must have no non-chargeable at-fault accidents during the applicable three-year experience period.
- c. If the insured vehicle (or the vehicle it replaced) or any other vehicle in the household was previously rated with the 1-Star Rates, because it was driven without liability insurance in violation of any financial responsibility or compulsory insurance requirement, the insured vehicle will not qualify for the 3-Star Discount until that vehicle has not been driven without liability insurance for two years.
- d. If the insured vehicle does not have at least one assigned driver who has been licensed in the United States or Canada for at least three years, there must be another vehicle in the household which is already rated with the 3-Star Discount. Furthermore, the other household vehicle must have at least one driver assigned who has been licensed in the United States or Canada for at least three years.

The 3-Star Discount will continue to apply, so long as there are no assigned drivers with any chargeable accidents or minor violations during the applicable three-year experience period or any major violations during the five-year period. If the 3-Star Discount is lost due to a chargeable accident or violation, in order to re-qualify the vehicle must again meet the requirements listed above.

2-Star Discount

The 2-Star Discount applies if the insured vehicle does not qualify for the 3-Star Discount and the insured vehicle (or the vehicle it replaced) has not been driven without liability insurance in violation of any financial responsibility or compulsory insurance requirement during the past 12 months.

For vehicles which did not qualify for the 2-Star Discount as new business because they were driven without liability insurance, the 1-Star Rates will apply for a period of one year from the effective date of coverage for that vehicle. After that, the 2-Star Discount will apply for at least one year.

1-Star Rates

The 1-Star Rate applies if the insured vehicle does not qualify for the 3-Star Discount nor the 2-Star Discount as new business.

2. For purposes of determining a Driver Record Charge, drivers are assigned to the car they most frequently operate and in accordance with Rule 205—Classification of Private Passenger Type Automobiles. Each driver is assigned to only one vehicle. Drivers may not be moved from one vehicle to another for the purposes of affecting the total premium.
3. If no drivers are assigned to a vehicle, that vehicle shall be rated as if all of its operators were at Driver Record Level 1.
4. For existing business in force prior to January 1, 1999, minor violations that occurred prior to January 1, 1998 will not be considered in the determination of the Driver Record Level. However, all minor violations that occurred during the last three years, as well as all major violations that occurred during the last five years, will be considered in the qualification for the 3-Star discount.

G. Exception—The following vehicles are not eligible for the Standard Tier Automobile Rating (STAR) Plan:

- i. Motor homes as defined in Rule 401(A)—Motor Homes, Truck or Van Campers (Recreational Use)
- ii. Trailers insured under Rule 402—Trailers Designed for Use with Private Passenger Automobiles
- iii. Vehicles insured under Rule 404—Motorcycles, Motorscooters, and Motorized Bicycles
- iv. Automobiles insured under Rule 406—Antique and Classic Automobiles and Replicas
- v. Automobiles insured under Rule 410—Driver Training Automobiles
- vi. Automobiles insured under Rule 411—Funeral Directors' Automobiles
- vii. Automobiles insured under Rule 709—Automobiles Leased To United States Government Agencies

(version AR6.1)

GOOD DRIVING DISCOUNT (SFM Only)

A. Requirements

The base premiums for the bodily injury and property damage liability, medical payments, and collision coverages, applicable to a private passenger automobile are reduced by 10% if the following requirements are met:

1. New Business Policies—Each of the drivers in the household has had no moving violations and no at-fault accidents during the past three years.
2. Newly Acquired Added Car Policies (All other added car policies must meet the requirements for new business policies in A.1 of this rule.)
 - a. At least one car in the household is receiving the Good Driving Discount or an Accident-Free Discount.
 - b. Each of the drivers in the household has had no at-fault accidents during the past three years.
 - c. There are no added drivers within 60 days before or after the application.

Note—If any of the above requirements are not met for a newly acquired added car, the requirements for new business policies in A.1 of this rule must be met.

Arkansas
State Farm Mutual Automobile Insurance Co., State Farm Fire and Casualty Co.

B. Miscellaneous Provisions

1. The Good Driving Discount will continue to apply until the policy qualifies for the Accident-Free Discount, so long as the policy remains in force with no additional drivers and there are no chargeable accidents as defined in the Accident Record Rating rule. Additional drivers must also satisfy requirements A.1 above in order for the Good Driving Discount to continue.
2. If the Company is furnished evidence that the driver who prevented a Good Driving Discount from initially being applied (because of requirements A.1 or A.2.(b) above) is no longer a member of the named insured's household or will no longer be a driver of the car insured under the policy, then the discount may be added, if all of the requirements are met at the time the driver moves.
3. If a policy that has been in force for less than three years initially qualified for the Good Driving Discount, but the discount was subsequently removed due to a chargeable accident, the discount can be reapplied to the policy if the Company is furnished evidence that the driver involved in the chargeable accident will no longer be a resident of the named insured's household or will no longer be a driver of the car insured under the policy, provided there are no other chargeable accidents on the policy.

C. Definitions

1. **At-Fault Accident**—an at-fault accident is one that results in death or bodily injury or in damage to any property. An accident shall not be considered at-fault if the Company is furnished evidence that the driver involved in the accident was less than 50% at fault.
2. **Moving Violations**—include minor driving violations for speeding, stop sign and signal infractions, improper turns, failure to yield right of way, and similar offenses, as well as major driving violations.

D. Reinstatements

1. Policies which are reinstated within 39 days shall not be eligible for the Good Driving Discount unless the discount applied to the policy at the time of expiration or cancellation. In that case the discount will be applied, provided there have been no moving violations or at-fault accidents during this period.
2. Policies reinstated after 39 days shall be treated as New Business for purposes of the Good Driving Discount.

E. Exception—The following vehicles are not eligible for the Good Driving Discount:

- i. Motor homes as defined in Rule 401(A)—Motor Homes, Truck or Van Campers (Recreational Use)
- ii. Trailers insured under Rule 402—Trailers Designed for Use with Private Passenger Automobiles
- iii. Vehicles insured under Rule 404—Motorcycles, Motorscooters, and Motorized Bicycles
- iv. Automobiles insured under Rule 406—Antique and Classic Automobiles and Replicas
- v. Automobiles insured under Rule 410—Driver Training Automobiles
- vi. Automobiles insured under Rule 411—Funeral Directors' Automobiles
- vii. Automobiles insured under Rule 709—Automobiles Leased To United States Government Agencies
- viii. Fleets insured under Rule 851—Experience Rating Plan (SFM Only)
- ix. Vehicles insured under Rule 901—Recreational Vehicles (SFM Only)

(version CW3)

DEFENSIVE DRIVING COURSE DISCOUNT

Private passenger automobile base premiums for the bodily injury and property damage liability, medical payments, comprehensive, and collision coverages shall be reduced 5% when applicable to automobiles rated as Class 1, Class 2 or Class 6 where the principal operator is at least 55 years of age and:

1. The principal operator of the automobile has successfully completed an approved Motor Vehicle Accident Prevention course taught by an approved instructor for a minimum number of hours of actual classroom or field driving instruction as determined by the Department of Motor Vehicles (Office of Driver Services).
2. A certificate is presented to the Company signifying the above course was successfully completed within the three years prior to the inception or renewal date of the policy term to which this rule applies. Following this three year period, the course must be successfully repeated and evidence presented in order to again qualify for the discount.

If the operator is a principal operator of two or more qualifying vehicles insured with the State Farm Mutual Automobile Insurance Company or the State Farm Fire and Casualty Company, the discount shall apply to the vehicle most frequently operated by that operator.

If there is more than one principal operator of the vehicle, all must qualify for the discount to apply.

Exceptions—The following vehicles are not eligible for the Defensive Driving Course Discount:

- i. Motor homes as defined in Rule 401(A)—Motor Homes, Truck or Van Campers (Recreational Use)
- ii. Vehicles insured under Rule 404—Motorcycles, Motorscooters, and Motorized Bicycles
- iii. Automobiles insured under Rule 406—Antique and Classic Automobiles and Replicas
- iv. Automobiles insured under Rule 410—Driver Training Automobiles
- v. Automobiles insured under Rule 411—Funeral Directors' Automobiles
- vi. Automobiles insured under Rule 709—Automobiles Leased To United States Government Agencies
- vii. Fleets insured under Rule 851—Experience Rating Plan (SFM Only)

MULTIPLE LINE DISCOUNT

The base premiums for bodily injury and property damage liability, medical payments, comprehensive, and collision coverages, applicable to a private passenger automobile shall be reduced by the percentage shown below if the person(s) who is the named insured on the automobile policy is also the named insured or owner of another policy as follows:

Qualifier	Discount
An individual life insurance policy with a face value of less than \$125,000 (excluding all annuities, all tax qualified life insurance products, and paid-up life insurance with a face value of less than \$5,000)	5%
An individual life insurance policy with a face value of \$125,000 or greater (excluding all annuities and all tax qualified life insurance products)	5%
An individual health insurance policy (excluding Disability Income Payment Protection Plan, Individual Credit Disability Income, Short Term Hospital Surgical, and Medicare Part D Prescription Drug Plan)	5%
A manufactured home policy covering the named insured's principal residence	10%
A renter's policy covering the named insured's principal residence	10%
A manufactured home policy covering the named insured's principal residence plus a personal liability umbrella policy	15%
A renter's policy covering the named insured's principal residence plus a personal liability umbrella policy	15%
A condominium policy covering the named insured's principal residence	17%
A homeowner's policy covering the named insured's principal residence	17%
A farm/ranch policy covering the named insured's principal residence	17%
A condominium policy covering the named insured's principal residence plus a personal liability umbrella policy	22%
A homeowner's policy covering the named insured's principal residence plus a personal liability umbrella policy	22%
A farm/ranch policy covering the named insured's principal residence plus a personal liability umbrella policy	22%

Such additional policies must be written in one of the State Farm affiliated companies or by an insurer that has entered into a strategic alliance with a State Farm affiliated company. If the named insured qualifies for more than one of the discounts, only the largest discount applies.

Exception—The following vehicles are not eligible for the Multiple Line Discount:

- i. Motor homes as defined in Rule 401(A)—Motor Homes, Truck or Van Campers (Recreational Use)
- ii. Vehicles insured under Rule 404—Motorcycles, Motorscooters, and Motorized Bicycles

CUSTOMER RATING INDEX (CRI)

The base premiums for the bodily injury and property damage liability, medical payments, comprehensive, and collision coverages, applicable to a private passenger automobile shall be adjusted by the CRI Factor in accordance with the following provisions:

A. New Business Rating

A New Business CRI will be used to determine the CRI Factor when a policy is initially written. The CRI initially assigned will continue to be used in determination of the CRI Factor until a Renewal CRI first applies.

B. Subsequent Rating

At each renewal, beginning two years from the new business effective date of the policy, a Renewal CRI will be used to determine the CRI Factor.

C. Factors

The CRI Factor is determined by the following formula: $1.003^{(1600 - \text{CRI})}$. The CRI Factor shall be rounded to 3 decimal places and is subject to a maximum factor of 1.992 and a minimum factor as outlined in the table below:

Arkansas
State Farm Mutual Automobile Insurance Co., State Farm Fire and Casualty Co.

SFM No Accident-Free Discount or Good Driving Discount	SFM Good Driving Discount	SFM 3-Year Accident-Free Discount	SFM 6-Year Accident-Free Discount	SFM 10-Year Accident-Free Discount	SFFC 1-STAR	SFFC 2-STAR	SFFC 3-STAR
0.710	0.710	0.740	0.770	0.800	0.710	0.710	0.710

D. Miscellaneous Provision

A policy transferring from State Farm Fire and Casualty Company to State Farm Mutual Automobile Insurance Company will use the CRI from the former company. The two year requirement from Section B. of this rule is applied from the new business effective date of the State Farm Fire and Casualty Company policy.

E. Reinstatements

Policies reinstating after 39 days shall be treated as New Business for purposes of CRI determination.

F. Exception—The following vehicles are not eligible for the Customer Rating Index (CRI):

- i. Motor homes as defined in Rule 401(A)—Motor Homes, Truck or Van Campers (Recreational Use)
- ii. Vehicles insured under Rule 404—Motorcycles, Motorscooters, and Motorized Bicycles

101. COVERAGES

The coverages to which the rates and rules of this manual apply are as described in the insuring agreements of the automobile policy form of the company underwriting the coverage and are subject to the policy exclusions and conditions and to any endorsements which may be attached to such policy.

(version CW1)

102. POLICY TERM

Unless otherwise indicated, manual premiums are for a six months policy term. (See Rule 105—Changes)

A policy term greater than that represented by the manual premium may not be written except under the following conditions when a policy term up to twice as long may be written:

1. When the insured is subject to a statutory or contractual requirement that coverage be written for a longer policy term, or
2. when the Company operating procedures authorize writing a longer policy term.

When a policy subject to one of the above conditions is written, the premiums applicable to each period or portion thereof comprising the extended policy term are determined from manual rules, classifications, and premiums in effect at the inception of the policy with each period independently classified and rated on the basis of factual information available at the beginning of the period, except that any surcharge developed under Rate Section Rules—Accident Record Rating or Standard Tier Automobile Rating Plan shall apply for the entire period of the policy.

If the insurance under an extended term policy is transferred to another policy, the new policy is subject to the manual rules, classifications, and premiums in effect at the time of transfer.

Post Dated Coverages—Provided at least one coverage of insurance is effective at the inception of the term shown in the policy period, a policy may be written to provide for a subsequent effective date for specified coverages.

The pro rata premium for the period of coverage is charged for post dated coverages.

(version CW1)

103. NO RULE

104. RENEWAL OF POLICY

Note—The exception to this rule does not apply to vehicles insured under Rule 851—Experience Rating Plan.

A policy may be renewed for a succeeding policy term. The renewal premium is due on or before the expiration of the current policy term.

Exception—Payment of the renewal premium may be satisfied by paying 50% of such premium plus a service charge of \$2.00 within the above allotted time and paying the remaining 50% of the renewal premium within sixty days after the renewal due date.

(version CW1)

105. CHANGES

Changes that affect the coverage provided by the policy, or the territory, use, description or rating classification of the risk, may require transfer of the insurance to a new policy or endorsement of the present policy.

If a different premium is required by the Company for the remainder of the current policy term, any additional premium or premium credit shall be computed pro rata.

(version CW1)

106. SUSPENSION OF COVERAGE, SEASONAL USE

Note—See Rule 901—Recreational Vehicles for special provisions applicable to such vehicles.

A. Suspension of Coverage

Coverage afforded under a policy insuring a motor vehicle may be suspended during the time the vehicle is withdrawn from service. The coverages suspended afford no protection under the policy during the period of suspension. The following rules govern suspensions:

1. Any coverage may be suspended unless it is required by statute to remain in force.
2. Coverage will be reinstated on the date designated by the insured. In the absence of such designation, coverages suspended for the winter season will be automatically reinstated the succeeding April 1.
3. Premium credits on suspended coverages will be computed pro rata for the period of suspension and
 - a. will be applied against the next renewal premium if other policy coverages remain in force, or
 - b. will be retained by the Company pending reinstatement of such coverages if no policy coverages remain in force. After six months, if the coverages have not been reinstated or a definite reinstatement date has not been established, the policy will be cancelled and the premium credits refunded.
4. Policies covering vehicles rated in accordance with the following rules may not be suspended unless the vehicle has been stolen, destroyed, or sold:
 - a. Section B. of this rule—Seasonally Used Farm Trucks.
 - b. Section A. of Rule 401—Motor Homes, Truck or Van Campers—Recreational Use.
 - c. Rule 406—Antique and Classic Automobiles and Replicas—Limited Use.

B. Seasonally Used Farm Trucks

Note—Policies covering vehicles rated in accordance with this section of the rule may not be suspended.

The premium for bodily injury and property damage liability, medical payments, and collision coverage on a commercial-rated farm truck insured under a fleet policy or as part of a multiple vehicle risk* and used only seasonally during the year shall be reduced to reflect such seasonal use. The reduced premium will be determined by multiplying the otherwise applicable premiums for these coverages by the pro rata factor corresponding to the annual use, subject to a minimum of 0.500. If the policy period is semiannual, the same factor, representing the annual use of the vehicle, applies to each period.

*Five or more self-propelled vehicles, other than motorcycles, recreational vehicles, limited use antique or classic automobiles, for the same named insured.

107. CANCELLATIONS

Note—If other rules in this manual contain cancellation provisions which are not compatible with this rule, this rule applies only to the extent that it does not conflict with such other rules.

The policy may be cancelled either by the Company or at the request of the insured in accordance with the cancellation provisions of the policy. Cancellation, whether by the Company or the policyholder, shall not affect any valid claim originating prior to the effective date of cancellation.

The return premium for any cancellation effective after the end of the initial policy period will be computed via the following pro rata table.

The return premium for any cancellation during the initial policy period will be computed using the short rate table, except the pro rata table shall be used when:

1. The named insured continues to carry other automobile insurance with this or an affiliated Company. **Important**—Notice must be given that such other insurance is carried.
2. The automobile is stolen, destroyed, junked or sold.
3. The policy is replaced by one issued by this or an affiliated Company and covering the same risk. If the new policy is issued to a new owner, unearned premium credit may be transferred to such new owner with the agreement of the insured.
4. The cancellation is due to the death of a named insured.
5. The Company initiated the cancellation.

The following tables are used to determine the portion of premium to be charged or retained. The computation assumes each month has 30 days, except when the cancellation is within 30 days of the beginning (or end) of the policy period in which case the exact number of days in force (or remaining in the term) are used.

108. REINSTATEMENTS

A policy which has expired or been terminated by cancellation may be reinstated by payment of the necessary premium and completion of any required forms if the risk is acceptable to the Company.

(version CW1)

109. NO RULE

110. FINANCIAL RESPONSIBILITY CERTIFICATION

The bodily injury and property damage liability premium for a risk on which a certificate of insurance is filed to comply with the requirements of an automobile financial responsibility law shall be surcharged in accordance with the following schedule:

- A. 50% Surcharge—If the certificate is required for a conviction or license suspension for
 - 1. driving a motor vehicle while intoxicated, or
 - 2. failing to stop and report when involved in an accident, or
 - 3. homicide or assault arising out of the operation of a motor vehicle.
- B. 25% Surcharge—If the certificate is required for a conviction or license suspension for
 - 1. driving a motor vehicle at an excessive rate of speed where an injury to person or damage to property actually results therefrom, or
 - 2. driving a motor vehicle in a reckless manner where an injury to person or damage to property actually results therefrom.
- C. 10% Surcharge—If the certificate is required for any other cause whatsoever.

OWNERS

The surcharge shall apply to the bodily injury and property damage liability premium for the highest rated car owned by the insured and insured in this Company.

NON-OWNERS

Named Non-Owner Policy—The surcharge for a policy written in accordance with this rule shall apply to the required bodily injury and property damage liability premium.

If an individual is required to file evidence of financial responsibility for owned automobiles and also for the operation of automobiles which are not owned, the surcharge shall apply only to the premium for the owned automobiles.

(version CW1)

111. MANUFACTURER'S SUGGESTED RETAIL PRICE (MSRP)

Where used in this manual, the term "MSRP" refers to the Manufacturer's Suggested Retail Price, exclusive of transportation charges and state or local taxes.

(version CW1)

112. AGE GROUP SYMBOLS

Age Groups change as of the first renewal on or after January 1st. An automobile purchased in the calendar year prior to the model year will remain in Age Group 1 for the balance of that year plus one full calendar year. If the model year cannot be readily determined, the year in which the vehicle was purchased new shall be considered the model year.

Age Group 1 represents vehicles of the current model year, Age Group 2 represents vehicles of the first preceding model year, Age Group 3 represents vehicles of the second preceding model year, etc. In addition, where X represents the oldest age group for which rates are available, Age Group X also represents vehicles of the Xth preceding and older model years.

201. PRIVATE PASSENGER AUTOMOBILE DEFINED

For classification and rating purposes, a private passenger automobile is defined as:

- A. an automobile of the private passenger type, including a station wagon; or
- B. a utility vehicle (i.e. pickup, van, or sport wagon/sport utility vehicle); and

used for personal pleasure, family and business use.

Exceptions—The following are not included in this definition:

- i. an automobile used for renting or livery work or for carrying passengers for a consideration unless so provided by other rules in this manual; or
- ii. a motorcycle, motorscooter, snowmobile, or other off-road vehicle; or
- iii. utility vehicle:
 - a. with a Gross Vehicle Weight (GVW) of more than 10,000 lbs. (or if GVW is not available, a load capacity of more than one ton) that is used in a business other than farming; or
 - b. that is used for the delivery or transporting of goods and materials, or has been structurally altered for business purposes, unless such use or alteration is incidental to the insured's occupation in the installation, maintenance or repair of furnishings or equipment; or
 - c. that is used for wholesale or retail delivery.

Note—Trucks that are specifically designed and primarily used to tow recreational trailers, but not meeting the above definition of a private passenger automobile, shall be classified and rated as private passenger provided the vehicle is not used for commercial or business purposes.
(version CW2)

202. NO RULE

203. NO RULE

204. DEFINITIONS AND INTERPRETATIONS

Note—See Classification Exceptions.

The following words and phrases are defined for use in the private passenger automobile classification rules.

Age—The procedures below apply to determine the driver's age for use in calculating private passenger premiums. The driver whose age should be determined is the driver whose use was considered in determining the applicable classification code in accordance with Rule 205—Classification of Private Passenger Type Automobiles.

- a. To rate the policy for the upcoming term, use the driver's age as of the effective date of the policy.
- b. For newly added drivers, use the driver's age as of the effective date the driver was added to the policy.
- c. If the driver's age at the beginning of the policy term is greater than or equal to 25, the age and associated class code will be used for the entire policy term.
- d. If the driver's age at the beginning of the policy term is less than 25, the age will be recalculated on the driver's birthday and the associated class code will be determined. The pro rata premium will be recalculated for the remainder of the term using this age and class code.

Driving to and from work—When the average weekly use of the automobile (including its use in a car pool or other ride-sharing agreement):

- a. in driving to and from work, or
- b. in driving to and from school, or
- c. in driving part way to and from work or school,

is more than 30 miles, the automobile will be considered as used for "driving to and from work."

Estimated average total annual mileage—The exact mileage an automobile will be driven in any year cannot be forecast precisely. The miles an automobile will be driven will vary from year to year. Odometer readings, factual information secured from the applicant or the insured, and knowledge possessed by the agent or the Company should be pooled to arrive at the annual estimated mileage to be driven in the ensuing year. With respect to automobiles "used for business" the estimated annual mileage shall be the sum of "business use" and "pleasure" mileage.

Farm automobile—Farm automobile means an automobile:

- a. principally garaged on a farm or ranch,
- b. that is not ordinarily used in going to and from work, other than farming or ranching, and
- c. is not used in any occupation other than farming or ranching.

An automobile owned by a farm or ranch employee, other than an employee in a supervisory position, and used primarily for pleasure shall not be considered a "farm automobile."

Subject to the definition of "driving to and from work" use of an automobile for driving to and from school shall be considered as used for "driving to and from work."

Married—For classification purposes, an individual is considered married if living together with his or her spouse or if a widow or widower. Single persons shall be classified as married if they have custody of a minor child residing in their household. A married couple temporarily living apart for reasons of health, occupation, military service or similar circumstance shall be considered as living together.

Military service—An individual under 25 years of age in military service shall not be considered an operator of the automobile if located far enough from home so that he or she is only "at home" for short leaves.

Occasional operator—For the purposes of determining if private passenger automobile class 4 or 8 applies, an occasional operator is:

- a. an unmarried individual,
- b. under 21 years of age,
- c. whose operation of the car constitutes less than 25% of its time or mileage use, and
- d. the operator does not own the car.

Arkansas
State Farm Mutual Automobile Insurance Co., State Farm Fire and Casualty Co.

Principal operator—A principal operator is an individual whose operation of the automobile constitutes 50% or more of its time or mileage.

Notes regarding cars with more than one operator:

1. Each individual who does not qualify as a principal operator as defined above but whose aggregate operation of all private passenger automobiles in the household equals 50% or more of the total time or mileage use of one insured automobile is considered a principal operator for one such automobile.
2. If two or more unmarried males under 25 years of age (or two or more unmarried females under 25 years of age):
 - a. do not individually qualify as principal operators, but
 - b. their combined use of the automobile constitutes 50% or more of its total time or mileage use,then the automobile is considered as having a principal operator of the same age as the unmarried male (or female) under 25 years of age who is the most frequent operator.
3. If two or more unmarried males who are at least 25 years of age but under 30 years of age:
 - a. do not individually qualify as principal operators, but
 - b. their combined use of the automobile constitutes 50% or more of its total time or mileage use,then the automobile is considered as having a principal operator who is an unmarried male at least 25 years of age but under 30 years of age who is the most frequent operator.
4. If the combined use of the automobile by two or more unmarried males under 21 years of age (or two or more unmarried females under 21 years of age):
 - a. do not individually operate the auto at least 25% of the time, but
 - b. their combined use constitutes 25% or more of its total time or mileage use,then the automobile shall not be classified as having an occasional operator. The car shall be classified using the age of the most frequent operator.

Note—The above definitions are subject to classifications assigned under Rule 205—Classification of Private Passenger Type Automobiles which recognize the individual exposure of each operator.

Student away at school—For the purposes of private passenger automobile classification, a student away at school is:

- a. an individual under 25 years of age,
- b. who resides at school over 100 miles from home,
- c. who operates the car only while home during the school vacation or holiday periods.

This classification applies only if the car remains at home while the student is at school and the classification results in a lower premium than would otherwise be applicable.

Note—A son or daughter who resides away from home during both the school year and summer vacation but who operates the car when home on short infrequent visits shall be disregarded as an operator for the purpose of classifying the automobile.

Used for business—When 50% or more of the time or mileage use of the automobile is involved in the duties of the applicant's or any other regular operator's occupation, profession or business, other than in going to and from the principal place of occupation, profession or business, the vehicle will be considered as used for business purposes.

Vehicles owned or used by clergy in the performance of duties associated with their occupation shall not be considered as used for business.

If an automobile is used in the performance of the insured's duties as a federal government employee, refer to Rule 708—Federal Government Employee—Use of Private Passenger Automobile.

An automobile qualifying for "farm automobile" rates shall not be considered as used for business.
(version CW5)

205. CLASSIFICATION OF PRIVATE PASSENGER TYPE AUTOMOBILES

Note—See Classification Exceptions.

Subject to other rules of this manual which may provide a specific classification for automobiles as described in those rules, automobiles as defined in Rule 201—Private Passenger Automobile Defined shall be classified and rated in accordance with the classification plan set forth below.

Refer to Rule 204—Definitions and Interpretations for clarification of many of the words and phrases used in this rule.

This plan groups the various rating elements into broad classification categories such as **age, sex, and marital status of the operators of the automobile; use of the automobile; and estimated annual mileage driven.**

Notes—

1. An owner's or operator's actual age, sex, and marital status shall be used as controlling classification factors for not more than one automobile in the household which is insured in this Company or an affiliated Company. These factors shall be applied to the car which is most frequently operated by the individual unless he or she is the owner or principal operator of two or more cars, in which case the classification shall apply to the car having the highest total base premium. Such owners or operators shall be considered as qualifying for Class 1 for the purpose of classifying other automobiles in the household. However, Age Adjustment Factors will apply to all automobiles (Rule 210—Age Adjustment Factors For Private Passenger Type Automobiles).
Exceptions—Class 2 or 6 applies to all cars owned or operated by the named insured provided they otherwise qualify for the classification.
2. With the exception of drivers under the age of 25 at the beginning of the policy term, reclassification to a different class code or to a different age within a classification will be made at the first renewal following the driver's birthday.
3. If an automobile could be properly assigned to more than one of the driver classes, use the class code and age for the driver that produces the highest premium including any applicable discounts.

Arkansas
State Farm Mutual Automobile Insurance Co., State Farm Fire and Casualty Co.

**A. First Position of Class Code—Classification as to age, sex, or marital status of the operator—
 If there are no Unmarried Operators Under 25—**

Class 1—

The car is:

- principally operated by individuals under 50 years of age, and
- if they are male and unmarried are at least 30 years of age, and
- if they are male and married are at least 25 years of age.

Class 2—

The car is principally operated by individuals at least 75 years of age.

Class 3—

The car is principally operated by unmarried males 25 through 29 years of age.

Class 6—

The car is principally operated by individuals 50 through 74 years of age.

Class 7—

The car is operated by married males under 25 years of age.

If there are Unmarried Operators Under 25—

(Also see Section C—Student Away at School.)

Class 4—

The car is operated but not owned by an unmarried female under 21 years of age who meets the definition of occasional operator.

Class 5—

The car is owned or operated by:

- unmarried females between 21 and 24 years of age, or
- unmarried females under 21 years of age who do not meet the definition of occasional operator.

Class 8—

The car is operated but not owned by an unmarried male under 21 years of age who meets the definition of occasional operator.

Class 9—

The car is owned or operated by:

- unmarried males between 21 and 24 years of age, or
- unmarried males under 21 years of age who do not meet the definition of occasional operator.

B. Second Position of Class Code—

1. When used with first position of class code 1, 3, or 6—Classification as to use, mileage to and from work, and annual mileage:

	The estimated average total annual mileage the automobile is driven is	
	7500 Miles or Less	More Than 7500 Miles
The automobile is used for pleasure and in driving to and from work an average distance of not more than 30 miles per week and is not used for business	A	B
The automobile is not used for business but is used in driving to and from work an average distance of more than 30 miles but not more than 100 miles per week	C	D
The automobile is not used for business but is used in driving to and from work an average distance of more than 100 miles per week	E	F
The automobile is a farm automobile	J	K
	12,000 Miles or Less	More Than 12,000 Miles
The automobile is used for business purposes	G	H

2. When used with first position of class code 2—Classification as to use and age:

Age	Non-Farm*		Farm	
	Short	Long	Short	Long
75-79	1	2	J	K
80-84	3	4	P	Q
85-89	5	6	R	T
90 and Older	7	8	U	V

Short—The estimated average total annual mileage the automobile is driven is 7,500 miles or less.

Long—The estimated average total annual mileage the automobile is driven is more than 7,500 miles.

*Non-farm means the automobile is used for pleasure, to and from work, or business.

Arkansas
State Farm Mutual Automobile Insurance Co., State Farm Fire and Casualty Co.

3. When used with first position of class code 7—Classification as to use and age:

	The Married Male Operator Under 25 Years of Age is:				
	Under 17	17-18	19-20	21-22	23-24
Non-farm*	D	C	B	E	F
Farm	Q	P	K	R	X

*Non-farm means the automobile is used for pleasure, to and from work, or business.

4. When used with first position of class code 4 or 8—Classification as to use and age:

	The Unmarried Operator Under 21 Years of Age is:		
	Under 17	17-18	19-20
Non-farm*	D	C	B
Farm	Q	P	K

*Non-farm means the automobile is used for pleasure, to and from work, or business.

5. When used with first position of class code 5 or 9—Classification as to use and age:

	The Unmarried Operator Under 25 Years of Age is:			
	Under 17	17-18	19-20	21-24
Non-farm*	D	C	B	A
Farm	Q	P	K	J

*Non-farm means the automobile is used for pleasure, to and from work, or business.

C. Student Away At School—First and Second Positions of Class—

The car is owned or operated by an individual under 25 years of age who qualifies as a student away at school. First and second position of class:

	Under Age 21		21 to 24 Years of Age	
	Female	Male	Female	Male
Non-farm*	41	81	43	83
Farm	42	82	44	84

*Non-farm means the automobile is used for pleasure, to and from work, or business.

Note—Age Adjustment Factors do not apply (Rule 210—Age Adjustment Factors For Private Passenger Type Automobiles).

(version CW4)

**PRIVATE PASSENGER AUTOMOBILE CLASSIFICATION EXCEPTIONS
TO RULES 204 AND 205
RENEWAL AND TRANSFERS ONLY**

The following classifications apply to risks so classified prior to August 15, 2002 so long as they continue to be a rating factor for the classification and continue to meet the qualifications and conditions set forth below:

1. **Student Away at School**—An unmarried female under age 25 who attends school over 150 miles from home, but who operates the automobile occasionally while home during school vacation or holiday periods shall be considered as though married and Class 1 shall apply. **Note**—Age Adjustment Factors do not apply (Rule 210—Age Adjustment Factors For Private Passenger Type Automobiles).
2. **Class 6**—Spouses under age 50 who qualified for Class 6 under the following definition will continue to qualify for as long as they are married to the initial qualifying spouse.
The principal operator or spouse is 50 years of age or older and all unmarried operators in the insured's household:
 - a. are at least 25 years of age, or
 - b. seldom operate this car and are rated as principal operators of another car insured by State Farm.
3. **Occasional Operator Classes**—Risks classified under the following definitions will continue to be so classified until they no longer meet the requirements of this rule:
 - a. Class 4A (Non-farm) and 4J (Farm): The car is principally operated by individuals age 25 or over or any married female. In addition, the car is operated by an unmarried female 21 through 24 years of age:
 - whose operation of the car constitutes less than 25% of its time or mileage use, and
 - who does not own the car.
 - b. Class 8A (Non-farm) and 8J (Farm): The car is owned or principally operated by individuals age 25 or over, any female or married male under 25 years of age. In addition, the car is operated by an unmarried male 21 through 24 years of age:
 - whose operation of the car constitutes less than 25% of its time or mileage use, and
 - who does not own the car.

206. CLASSIFICATION OF UTILITY VEHICLES

Note—Utility Vehicles not included in the definition of a private passenger automobile under Rule 201—Private Passenger Automobile Defined are subject to classification and rating under the Commercial Automobile Rules.

A utility vehicle as described in Rule 201—Private Passenger Automobile Defined shall be classified and rated as follows:

- A. If the vehicle is used for business and in a manner essential to the performance of the insured's occupation—Code and classify in accordance with the following:

- No unmarried male operator under 25 years of age – Code 1L
- Unmarried male operator under 25 years of age* – Code 8L

Note—Merely driving to and from work is not considered as “essential to the performance of the insured's occupation.” If a private passenger type automobile could be used as readily as a utility vehicle, Part C of this rule applies. For example, a pickup or van used by a salesperson not involved primarily with delivery is subject to Part C.

- B. If the vehicle is principally garaged on a farm and used mostly by the insured in the operation or maintenance of farm premises—Code and classify in accordance with the following:

- No unmarried male operator under 25 years of age – Code 1M
- Unmarried male operator under 25 years of age* – Code 8M

- C. If the vehicle is used for other purposes, code and classify as a private passenger vehicle in accord with Rule 205—Classification of Private Passenger Type Automobiles.

Note—For model years 1980 and prior pickups, the applicable IRG number for physical damage coverage shall be two less than that otherwise applicable.

*If under Rule 205—Classification of Private Passenger Type Automobiles a numeric code of 8 or 9 is assigned to another automobile in the household because of such operator, that operator shall be considered as being at least 25 years of age for the purposes of Part A or B of this rule.

Note—Age Adjustment Factors do not apply (Rule 210—Age Adjustment Factors For Private Passenger Type Automobiles).
(version NF.CW2)

207. AUTOMOBILES 1970 AND PRIOR MODEL YEARS

The following rating procedures apply when insuring 1970 and prior model year private passenger automobiles. Private passenger premium determination procedures for the appropriate classifications are applicable to all coverages. For the rating of physical damage coverages, determine the base premiums for the applicable model year using the Insurance Rating Group specified below.

Note—The current value is the value of vehicle at time of initial rating or latest subsequent renewal of coverage under this rule.

1. 1970 and Prior Model Year Avanti, Corvette, Lotus and TVR Models

Above \$50,000 increase IRG 25 by one for each additional \$5,000 (or fraction) of value.

(version CW1)

208. CUSTOMIZED PANEL AND VAN TYPE VEHICLES

Customized sport vans and utility vans which are classified as:

- a. utility vehicles and owned by individuals, or
- b. private passenger automobiles (irrespective of ownership),

shall be rated for physical damage coverages by increasing the otherwise applicable insurance rating group number by one for each \$2,000 of customization or fraction thereof, in excess of \$1,000.

Note—1970 and prior model year customized panel and van type vehicles shall be rated under Rule 207—Automobiles 1970 and Prior Model Years. For purposes of this rule, customization refers to interior or exterior alteration designed to personalize or better facilitate use of the vehicle for non-business purposes and specifically includes elaborate interior furnishings and exterior paint, glass and body modifications. Customization, however, does not include equipment commonly installed on these vehicles such as heater, air conditioning, tires, customary music options, power steering and power brakes, nor modifications designed to increase the usefulness of the vehicle for business purposes.

(version CW1)

209. MODEL YEAR RATING

The following procedures apply to determine the comprehensive and collision coverages model year factors for private passenger automobiles and motorcycles:

1. Factors for the next subsequent model year shall be increased 5% above the factors for the current model year and rounded to the nearest hundredth, unless shown otherwise in the Private Passenger Model Year Factors Table.
2. Effective October 1 of each calendar year, the factors for vehicles of the 14th preceding and earlier model years shall be adjusted to equal the factors for the 13th preceding model year.

For Example—During the calendar year 2006, the factors for 2007 models will be 5% greater than the factors for the 2006 models and, effective October 1, 2006, the factors for the 1993 and prior models will be the same as the factors for the 1994 models.

Note—The model year of the vehicle is the year assigned to the vehicle by the automobile manufacturer. For structurally altered or rebuilt vehicles, the model year of the chassis will determine the model year of the vehicle.

(version CW1)

210. AGE ADJUSTMENT FACTORS FOR PRIVATE PASSENGER TYPE AUTOMOBILES

Age Adjustment Factors using the age as determined in Rule 204—Definitions and Interpretations apply to automobiles as defined in Rule 201—Private Passenger Automobile Defined and Rule 401—Motor Homes, Truck or Van Campers except as noted below. For the noted exceptions, the Age Adjustment Factor will be 0.00:

1. Private passenger automobiles classified with the Student Away at School classifications as defined in Rule 204—Definitions and Interpretations and Rule 205—Classification of Private Passenger Type Automobiles
2. Vehicles classified as Utility Vehicles under Rule 206—Classification of Utility Vehicles
3. Automobiles insured under Rule 406—Antique and Classic Automobiles and Replicas
4. Automobiles insured under Rule 410—Driver Training Automobiles
5. Automobiles insured under Rule 411—Funeral Directors' Automobiles
6. Automobiles insured under Rule 709—Automobiles Leased To United States Government Agencies

See the Rate Section for factors. To determine the premium, the Age Adjustment Factor is added to the private passenger classification factor with applicable discounts.

301. COMMERCIAL AUTOMOBILE DEFINED

For classification and rating purposes a commercial automobile is generally defined as a motor vehicle of the truck type. Specific commercial vehicle types are defined and classified elsewhere in this section under Rules 305—Classification as to Use; 306—Truckers; and 307—Tractors, Trailers and Semitrailers.

Exceptions—The following are not included in this definition:

- i. An automobile used for public or livery conveyance or for carrying passengers for a consideration; or
- ii. a utility vehicle as defined in Rule 201—Private Passenger Automobile Defined.

(version CW1)

302. NO RULE

303. WEIGHT CLASSIFICATION

Unless otherwise specified trucks are classified according to gross vehicle weight (GVW) or gross combined weight (GCW) as follows:*

Weight Class	GVW OR GCW
Light (L)	0 - 10,000 lbs.
Medium (M)	10,001 - 20,000 lbs.
Heavy (H)	Over 20,000 lbs.

*If GVW (or GCW) is not available, determine the weight classification from the following table:

Weight Class	Manufacturer's Load or Tank Capacity
Light (L)	not over 1 1/2 tons or 450 gallons
Medium (M)	over 1 1/2 tons or 450 gallons but not over 3 1/2 tons or 1000 gallons
Heavy (H)	over 3 1/2 tons or 1000 gallons

(version CW1)

304. NO RULE

305. CLASSIFICATION AS TO USE

The bodily injury and property damage liability, medical payments, comprehensive, and collision coverage premiums for commercial automobiles designated as class 3, 4 or 5 in the Commercial Automobile Classification Table, but excluding class 5 Farm Trucks and Truckers as defined in Rule 306—Truckers, shall be surcharged as follows when the operation of such automobiles is regularly or frequently beyond a 50-mile radius of the place where principally garaged.

Over 50 miles but not over 200 miles: 25%

If operated over 100 miles, submit to the Company for consideration.

COMMERCIAL AUTO CLASSIFICATION TABLE

Notes—

1. If premiums are not published for a class designated in this table (for example class 3), the Company will, upon request, quote such premiums subject to other instructions which may govern eligibility or the authority to bind coverage.
2. If a use is marked by an asterisk (*) instead of a class number, a vehicle so used is generally ineligible for insurance; except that such a vehicle may be considered for insurance if it is a part of an automobile fleet which is otherwise eligible and acceptable for rating under Rule 801—Fleet Rating Plan.
3. Commercial automobiles which have only incidental use in connection with the insured's business or occupation, such as the service, repair or maintenance of equipment used in the business, shall be classified and rated according to such incidental use and not necessarily at the same classification which is indicated in the classification table for trucks used in the business operations.
4. Retail operations are those activities which deal primarily with sales or deliveries to individuals and individual households. Wholesale operations are those which deal primarily with other businesses.

306. TRUCKERS

A "trucker" is a person, firm or corporation that undertakes to haul or transport goods, material or commodities for another. If the risk is engaged in hauling goods for another, the fact that it may call itself a contractor of some type does not remove the risk from the truckers classification.

A. **Local Trucker**—A trucker whose operations are described and limited as follows:

- The customary use of the commercial automobiles is confined to the area within a 50-mile radius from the place of principal garaging of such automobiles.
- The automobiles are used only occasionally for trips to locations beyond a 50-mile radius from the place of principal garaging of such automobiles.
- The trucker does not advertise or solicit the hauling of goods, materials or commodities to a location beyond a 50-mile radius from the place of principal garaging of such automobiles.

These are rated as class 3 for the highest rated territory within a radius of 50 miles of the place of principal garaging of such automobiles.

Exceptions—

- A "local trucker" who regularly operates over a route no portion of which includes the highest rated territory within 50 miles of the place of principal garaging of the commercial automobiles may be insured at the rates for the highest rated territory in which such automobiles are used or garaged.
- If all of the commercial automobiles owned or operated by a "local trucker" are used EXCLUSIVELY FOR ONE CONCERN, such automobiles shall be rated at the classifications applicable to such concern provided the policy stipulates that ALL such owned automobiles are and will be used during the entire policy period in hauling for such concern only. Otherwise, all automobiles must be rated at class 3 rates.

B. **Long-Haul Trucker**—A trucker whose operations are not limited and cannot properly be described in accordance with the above description of operations of a "local trucker". Such risks must be referred to the Company for acceptance and rating.

(version CW1)

307. TRACTORS, TRAILERS AND SEMITRAILERS

A. Bodily Injury and Property Damage Liability and Medical Payments

1. A tractor is an automotive vehicle without a load-carrying body used as a motive unit for the locomotion of trailers, semitrailers, implements and machinery.
 - a. **Tractors of the truck type** are equipped with a coupling device for trailers or semitrailers and are commonly used for rapid transit on streets and highways. The premium for a truck-type tractor shall be the same as for a truck with a load capacity equal to the load capacity of the largest semitrailer or trailer towed.
 - b. **Tractors which are not of the truck type** are powerful, slow-moving vehicles sometimes equipped with caterpillar treads. Such tractors are commonly used for towing or propelling implements, machinery, trailers or wagons. Tractors of this type are classified in accordance with Rule 305—Classification as to Use and rated as “light” commercial automobiles.
Refer to the Company for the rating of these types of vehicles which are **not** licensed/registered for use on public roads.
Note—Coverage applies on these vehicles while agricultural or other implements are attached thereto, but coverage does not extend to the operation of such implements.
2. A trailer is a vehicle (usually with two axles) not equipped with automotive power, constructed for attachment to another vehicle, usually an automotive vehicle, by means of a short tongue or hitch.
3. A semitrailer is a trailer (usually with one axle) for attachment to a tractor or to a truck without a body. If the insured has a dolly for the purpose of converting a semitrailer into a trailer, such a semitrailer shall be rated as a trailer.

TRAILER AND SEMITRAILER PREMIUM TABLE

Bodily injury and property damage liability and medical payments coverages on a truck or tractor may be extended to each trailer and semitrailer towed by such unit at the percentages given in the following table:

Over-all length of trailer	Load Capacity of trailer	Premium*
15 feet or less and	3 ½ tons or less	10% of premium for truck of trailer's load capacity
Over 15 feet or	Over 3 ½ tons	25% of heavy truck premium

***Note**—These percentages are applied at the same coverage limits of the truck or tractor that primarily pulls the described trailer.

Exception—The above coverages are extended without charge to trailers and semitrailers attached to farm trucks and tractors.

B. Physical Damage Coverages

Subject to other manual rules, tractors, trailers and semitrailers may be insured for the same physical damage coverages as available to regular commercial automobiles. The commercial automobile premium schedules apply. Each trailer or semitrailer, including its body, shall be rated separately from the motive unit and from any other trailer or semitrailer. If a deductible form of collision or comprehensive is written, the amount deductible shall apply separately to each unit.

(version CW2)

308. NO RULE

Arkansas
State Farm Mutual Automobile Insurance Co., State Farm Fire and Casualty Co.

401. MOTOR HOMES, TRUCK OR VAN CAMPERS

A **Motor Home** is an owned, self-propelled vehicle which is permanently equipped for use as living quarters.

A **Truck or Van Camper** is an owned, utility vehicle of the pickup or van type on or into which a portable camper unit or similar detachable living quarters has been mounted or installed. Canopy-covered pickup trucks will not be considered as truck campers unless also equipped with sleeping and cooking facilities.

A. Recreational Use

Note—Policies covering vehicles rated in accordance with this section of the rule may not be suspended.

If the vehicle is principally used as a recreational vehicle it may be insured for coverages available on private passenger automobiles. The policy term shall be twelve months. Unless otherwise indicated, Rate Section Rules do not apply. However, these vehicles do serve to qualify an insured private passenger automobile for the multiple automobile discount under the provisions of the Multiple Automobiles Discount Rule. Age Adjustment Factors do apply (Rule 210—Age Adjustment Factors For Private Passenger Type Automobiles). Refer to Rate Section for determining premiums.

Exception—the vehicle shall be rated under the provisions of Section B if the insured does not have a private passenger automobile (as defined in Rule 201—Private Passenger Automobile Defined) insured with either the State Farm Mutual Automobile Insurance Company or the State Farm Fire and Casualty Company.

B. Other

1. A motor home shall be insured as a private passenger type automobile and be subject to all rules applicable to such vehicles including application of premium adjustments shown in the Rate Section Rules when:
 - the motor home is principally used as a private passenger type automobile for pleasure and business purposes including driving to and from work or school, and only occasionally used as a motor home for recreational travel and camping purposes, or
 - the motor home is not eligible for Recreational Use rates due to the exception in Section A.The policy term shall be six months.
2. A truck or van camper shall be rated in accordance with its normal usage when recreational use is incidental to its regular use. The policy term shall be six months. The physical damage coverages may be extended to the camper unit at the premiums shown in the Rate Section for camper units.

C. Rental Provisions

1. The non-owned car provisions of a policy insuring a private passenger automobile apply to a rented motor home or truck/van camper. If, as a condition for renting a motor home or truck/van camper, higher limits of bodily injury and property damage liability and medical payments coverages or lower physical damage deductibles are required, the necessary coverages may be extended by endorsement for an additional premium payment, subject to such limits or deductibles being written by the Company. Refer to Extension of Coverages for daily and minimum premiums.
2. Coverage on an owned insured motor home, truck camper, van camper or camper unit may be extended by endorsement to apply while it is rented to others. The additional premium for this extension of the insured's coverage for a motor home, truck camper or van camper shall be at the rate of \$6.00 a day with a minimum of \$10.00 for each rental period. Camper units shall be at the rate of \$1.00 a day with a minimum of \$5.00 for each rental period.

402. TRAILERS DESIGNED FOR USE WITH PRIVATE PASSENGER AUTOMOBILES

Note—Trailers used solely for camping and other recreational purposes are subject to Rule 901—Recreational Vehicles.

- A. Bodily Injury and Property Damage Liability and Medical Payments Coverages**—The bodily injury and property damage liability and medical payments coverages afforded on an owned private passenger or utility type automobile (as defined in Rule 201—Private Passenger Automobile Defined) are extended without additional charge to a trailer designed for use with such automobile provided it is not:
 1. a passenger trailer,
 2. a trailer used for business purposes with another type of automobile, or
 3. a trailer used as premises for office, store, or display purposes.
- B. Physical Damage Coverages**—Physical damage coverages may be written on owned trailers qualifying for extended coverage under this rule.
- C. Emergency Road Service Coverage**—For emergency road service coverage on trailers see Rule 604—Emergency Road Service Coverage.
- D.** See the Rate Section for premium determination of applicable coverages. A policy written for a short term (less than six months) is subject to a minimum premium equal to one-third of the semiannual premium.

(version CW1)

403. AMPHIBIOUS, DUNE BUGGY, AND RELATED SELF-PROPELLED VEHICLES

Amphibious vehicles, dune buggies, and related miscellaneous vehicles (including all-terrain vehicles, golfmobiles, and snowmobiles) which are licensed/registered for use on public roads shall be classified and rated according to such use. Vehicles designed for off-road use and not licensed/registered for use on public roads are subject to Rule 901—Recreational Vehicles.

(version CW1)

404. MOTORCYCLES, MOTORSCOOTERS, AND MOTORIZED BICYCLES

Note—Motorcycles and motorscooters not designed and not licensed/registered for use on public roads are rated under Rule 901—Recreational Vehicles.

The following are insurable under this rule:

1. Factory-built motorcycles and motorscooters designed or licensed/registered for use on public roads.
2. Factory-built motorized bicycles (mopeds) regardless of use or licensing/registration requirements.

Such vehicles (hereafter referred to as motorcycles) may be insured for the coverages and at the premiums shown in the Rate Section. Unless otherwise indicated, premium adjustment rules in the Rate Section Rules shall not apply.

A youthful motorcycle owner or principal operator qualifies for the reduced Youthful Rates shown on the rate page if he or she is rated as a youthful operator on an automobile insured with either the State Farm Mutual Automobile Insurance Company or the State Farm Fire and Casualty Company. A person designated as the youthful owner or principal operator of one insured motorcycle shall be considered as an adult operator of any other motorcycle owned or operated. A youthful owner or principal operator who turns 25 during the policy term will be rated as an adult on his or her 25th birthday and the pro rata premium will be recalculated for the remainder of the policy term.

(version S.CW2)

405. NO RULE

406. ANTIQUE AND CLASSIC AUTOMOBILES AND REPLICAS—LIMITED USE

Note—Policies covering vehicles rated in accordance with this rule may not be suspended.

Vehicles of the type described below which are used on a very limited basis, such as exhibitions, club activities, parades, or similar functions of public interest, shall be rated in accordance with this rule. Vehicles which are regularly used for personal, pleasure, and business purposes shall be classified and rated in accordance with the regular rules and rates applying to the type of vehicle insured.

A Classic Automobile is a motor vehicle which is ten or more years old and which because of limited production or exceptionally fine workmanship is a rarity or of historic interest and which has been restored, maintained, or preserved by classic automobile hobbyists. If the vehicle is 25 or more years old, rate as an antique.

An Antique Automobile is a motor vehicle which is 25 or more years old and which has been restored, maintained, or preserved by antique automobile hobbyists.

A Replica is a reproduction of an antique or classic automobile. If the vehicle is 25 or more years old, rate as an antique.

Age of the vehicle shall be determined as of the first renewal on or after January 1st of each calendar year.

Refer to the Rate Section for premium determination. Unless otherwise indicated, Rate Section Rules do not apply.

Age Adjustment Factors do not apply (Rule 210—Age Adjustment Factors For Private Passenger Type Automobiles).

(version S.CW2)

407. VOLUNTEER FIRE DEPARTMENT AUTOMOBILES

A motor vehicle equipped for fire fighting and used to service a municipality of not more than 5,000 population or a single fire district within which there is no municipality of more than 5,000 population may be written at light class 4 commercial premiums.

(version CW1)

408. SCHOOL BUSESSES

Note—School busses qualifying for insurance under this rule shall be written in the State Farm Mutual Automobile Insurance Company.

A school bus is a bus-type motor vehicle* used for the transportation of persons in connection with

1. school attendance, and
2. school activities.

*A private passenger type automobile used exclusively as a school bus shall be classified and rated as a school bus. (See Rule 705—Transportation of School Children, Church Groups, Friends, Neighbors or Fellow Employees—Private Passenger Automobiles for a private passenger automobile used to transport school children in addition to its use for personal pleasure and business).

School busses may be insured for the coverages indicated in the Rate Section. A single multi-bus annual term policy shall be issued covering all busses being insured by the school or school district. School busses shall be individually rated for coverage according to class and seating capacity as follows:

Class 1: School busses used in accordance with this rule for a school term of 200 or less school days.

Class 2: School busses used in accordance with this rule for a school term of more than 200 school days.

Seating Capacity—If seating capacity has not been established it is determined as follows:

If the length of the seating space excluding the driver's seat is 22" or less, the seating capacity is 1; if more than 22" but not more than 38", the seating capacity is 2. Each additional 15" or fraction thereof shall be considered an additional seat.

Coverage on a regularly used school bus is extended to a temporary substitute school bus while such regularly used school bus is withdrawn from service for a short time.

Coverage for other school bus uses may be provided for an additional charge as follows:

A. Approved Other Use Coverage

A school bus policy issued to a school or school district may be used to insure busses used in connection with activities sponsored by church, civic, charitable, fraternal or welfare organizations. Such other use of a school bus must be approved by the school board, principal or other authorized person of the school or school district. A premium applying to the policy rather than to each school bus individually shall be charged based on the total other use mileage of all busses insured under the policy. Refer to the Rate Section for the determination of such premium.

B. Use of a Spare or Substitute School Bus

An owned school bus, held in reserve for use as a temporary replacement of a regularly used school bus while such school bus is withdrawn from service, may be insured for school use other than as a temporary substitute school bus provided such use is not regular nor frequent.

Refer to the Rate Section for premium determination.

(version CW1P)

409. CHURCH BUSESSES

Note—Church busses qualifying for insurance under this rule shall be written in the State Farm Mutual Automobile Insurance Company. For rules applicable to busses which are used as school busses as well as for church bus use, refer to Rule 408—School Busses.

A church bus is a bus-type motor vehicle* used to transport persons to and from services and other church related activities.

*A private passenger type automobile used exclusively as a church bus shall be classified and rated as a church bus. (See Rule 705—Transportation of School Children, Church Groups, Friends, Neighbors or Fellow Employees—Private Passenger Automobiles for a private passenger automobile used to transport church groups in addition to its use for personal pleasure and business).

Coverages available to school busses are available to church busses. The policy term shall be six months. A single multi-bus policy shall be issued covering all busses being insured by the church. Refer to the Rate Section for premium determination.

(version CW1)

410. DRIVER TRAINING AUTOMOBILES

A. School Driver Training Course Automobiles

Note—Vehicles insured under this section shall be written in the State Farm Mutual Automobile Insurance Company. Private passenger automobiles owned by, or leased or loaned to, a school board that are equipped with dual control brakes and used in a driver training course for students and for other purposes shall be rated at the private passenger 1H classification for all coverages. Automobiles that are not equipped with dual control brakes are ineligible. If use of the automobile is restricted to driver training purposes, subtract 0.35 from the otherwise applicable class 1H rating factor before applying it to the base premiums of the coverages involved.

A motorized scooter, motorized bicycle or motorcycle owned by, leased or loaned to a school board for exclusive use in a driver training course for students may be insured at the adult motorcycle classification for the coverages shown in the Rate Section.

B. Driver Training School Automobiles

Note—Vehicles insured under this section shall be written in the State Farm Fire and Casualty Company.

Private passenger automobiles owned by automobile driver training schools that are equipped with dual control brakes and used for driver training purposes may be insured at the private passenger 1H classification. Ineligible for STAR Plan Rates for all coverages, except that Car Rental and Travel Expenses—Coverage R1 is not available. Automobiles that are not equipped with dual control brakes are ineligible.

Except for Passive Restraint Discount, Vehicle Safety Discount, and Liability Rating Group, Rate Section Rules do not apply to vehicles insured under Part A and B of this rule. Age Adjustment Factors do not apply (Rule 210—Age Adjustment Factors For Private Passenger Type Automobiles). (version S.AR3.1)

411. FUNERAL DIRECTORS' AUTOMOBILES

A. Private Passenger Type Automobiles

A private passenger type automobile used by a funeral director for personal and pleasure use as well as for carrying persons in funeral processions (to or from cemeteries or burial grounds), including other operations incidental to the insured's business, shall be written at the applicable private passenger automobile classification premiums for all coverages.

If use of the automobile is restricted to funeral purposes, coverage may be written at the private passenger 1A classification. Except for Passive Restraint Discount, Vehicle Safety Discount, and Liability Rating Group, Rate Section Rules do not apply. Age Adjustment Factors do not apply (Rule 210—Age Adjustment Factors For Private Passenger Type Automobiles). In the State Farm Fire and Casualty Company, Ineligible for STAR Plan Rates apply.

Automobiles that are used at any time for ambulance service are not eligible for coverage under this section of the rule.

B. Commercial Automobiles

A Hearse or Service Car is an automobile designed and used for the transportation of a corpse.

An Ambulance is an automobile which is subject to call for the transportation of ill or injured persons.

A Hearse—Ambulance is a hearse or service car which is also used as an ambulance.

Bodily Injury and Property Damage Liability—

Hearse or Service Car Not Normally Subject to or Available for Use as an Ambulance—Classify and rate as commercial light class 5.

Ambulance or Hearse—Ambulance

1. If ambulance use is primarily restricted to private individual calls only and the vehicle is not normally subject to police, fire department, rescue squad or other public agency use—Classify and rate as commercial light class 4.
2. Ambulances or Hearse—Ambulances which are not restricted to the extent required under 1 are ineligible except when written as a part of a fleet that includes other types of automobiles which are eligible. When so written classify and rate as commercial light class 3.

Other Automobiles Including Vehicles Used Primarily as Flower Cars—Classify and rate as commercial light class 5.

Medical Payments—

Medical Payments coverage may be written, but as respects the use of the automobile as an ambulance coverage will not apply to any ill or injured person entering into or occupying the ambulance because of such illness or injury. The commercial medical payments premium schedules apply.

Physical Damage Coverage—

Classify and rate as non-farm commercial automobiles.

413. KIT CARS AND REPLICA AUTOMOBILES—REGULAR USE

Kit cars are vehicles usually constructed of fiberglass and assembled on a chassis (or modified chassis) of another regular production car. A replica is a reproduction of an antique or classic automobile. Vehicles of this type which are regularly used for personal, pleasure, and business purposes shall be classified and rated in accordance with the regular rules and rates applying to the type of vehicle insured. The model year of the chassis will determine the model year of the vehicle.

Exception— Insurance Rating Group (IRG) assignments for regular use Kit Cars and Replicas will be determined according to the following table based on the original cost new of the vehicle to the initial retail purchaser.

Original Cost New	IRG	Original Cost New	IRG	Original Cost New	IRG
\$0-2,200	4	\$9,001-10,000	13	\$18,001-20,000	22
2,201-3,000	5	10,001-11,000	14	20,001-21,000	24
3,001-4,000	6	11,001-12,000	15	21,001-24,000	25
4,001-5,000	7	12,001-13,000	17	24,001-27,000	26
5,001-6,000	8	13,001-14,000	18	27,001-29,000	27
6,001-7,000	10	14,001-15,000	19	29,001-32,000	28
7,001-8,000	11	15,001-16,000	20	Over \$32,000 – Refer to Company	
8,001-9,000	12	16,001-18,000	21		

Note— Vehicles of the above type which have limited use or are designed for off-road use and not licensed/registered for use on public roads shall be classified and rated in accordance with the limited use or off-road vehicle rules and rates applying to the type of vehicle insured. See Rule 406—Antique and Classic Automobiles and Replicas—Limited Use or Rule 901—Recreational Vehicles.

501. USE OF NON-OWNED CARS (Limited Form)

If the insured automobile is rated as a private passenger automobile or as a commercial farm use automobile, the limited use of non-owned automobiles provisions of the policy apply to named insureds, the spouse of the first named insured, and resident relatives of the first named insured.

The bodily injury and property damage liability coverage afforded by such a policy may be extended to also cover the limited use of non-owned automobiles by additional persons who are resident relatives of named insureds other than the first named insured or who are joint owners or partners. The coverage also extends to the spouse of such additional person(s) who is a resident of his or her household. The named additional person and his or her resident spouse are afforded the same coverage as a named insured under the coverages specified in the endorsement. The premiums in the Rate Section for Use of Non-Owned Cars—Limited Form apply to each such additional person.

(version CW1P)

502. USE OF NON-OWNED CARS (Broad Form)

If the use of non-owned automobiles is not or cannot be insured under the limited use of non-owned automobiles provisions, a broad form of coverage may be written.

For broad form non-owned automobile insurance individuals are classified as follows:

Broad Form Non-Owner Classifications

Class A: Persons not subject to Class B, C or D.

Class B: Law enforcement personnel who require the use of a motor vehicle (other than a motor vehicle owned by the United States Government) when responding to emergencies which are normally associated with their duties.

Class C: Persons employed in the business of selling, repairing, servicing, storing or parking of automobiles other than such persons who are civilian employees of the government.

Class D: Persons who operate public livery conveyances, trucks that are frequently operated beyond a 50-mile radius of garage location, trucks used for hauling for hire, or any vehicle used for emergency purposes other than those within Class B or owned by the United States Government.

1. **Broad Form Endorsement of a Policy Insuring a Described Automobile**—The bodily injury and property damage liability coverage afforded under a policy insuring a described automobile may be extended to cover the regular or frequent use of non-owned automobiles by a named individual and spouse resident in the same household provided such individual is (a) the named insured, (b) a relative of the named insured and resident in the same household or (c) an employee of the named insured and an automobile described in the policy is furnished for the regular use of such employee.

Any medical payments coverage afforded under the policy must be extended to apply to the use of non-owned automobiles. The premiums in the Rate Section for Use of Non-Owned Cars—Broad Form apply to each named individual.

2. **Named Non-Owner Policy**—If a described automobile is not insured or if an individual is not eligible for broad form non-owner coverage under a policy insuring a described automobile, such coverage may be afforded an individual, their spouse, and relatives of either, residing in the same household by means of a named non-owner policy. Such a policy may be written for bodily injury and property damage liability, medical payments, and uninsured motor vehicle coverages.

Note—Additional coverages as specified in the Named Non-Owner Policy schedules in the Rate Section may be included in policies insuring Class A Persons.

The bodily injury and property damage liability and medical payments coverages premiums are determined in accordance with Named Non-Owner Policy Schedule I in the Rate Section except that Schedule II shall apply when the policy must be certified under the provisions of a financial responsibility law.

The premium for uninsured motor vehicle coverage is determined from the Rate Section.

(version CW1P)

503. EMPLOYERS' NON-OWNED CAR LIABILITY

Note—This rule applies in the State Farm Mutual Automobile Insurance Company only.

An employer's non-owned car liability policy, including medical payments coverage, may be written to insure an employer for the operation by employees in the business of such employer of automobiles not owned in whole or in part, nor hired or leased by, nor registered in the name of the employer. The premium is based on the number of employees that regularly operate such automobiles in the business of the named insured. Rates and minimum premium are set forth in the Rate Section.

No automobile is described in the policy.

(version AR1P.1)

504. HIRED CARS

Note—This rule applies in the State Farm Mutual Automobile Insurance Company only.

An automobile that is hired or leased on a long-term basis shall be insured by the lessee as an owned automobile and is not subject to the provisions of this rule.

A policy providing Employers' Non-Owned Car liability coverage may be endorsed to provide liability coverage for the operation of vehicles used under contract in behalf of, or loaned to, the named insured while such vehicles are engaged in the business of the insured. Such vehicles must not be owned or registered in the name of the insured, an executive officer or partner (if a firm), or an employee or agent of the named insured.

A policy providing Hired Car liability coverage may also be endorsed to provide physical damage (comprehensive and collision) coverage to hired vehicles of the private passenger type, in accordance with the provisions set forth in Rule 506—Use of Non-Owned Cars—Physical Damage.

Coverage(s) as stated above are available on the cost-of-hire basis and covers all eligible vehicles hired by the named insured or by any employee of the named insured.

Under the cost-of-hire rating, the total policy premium shall be determined as follows:

The insured shall maintain and submit to the Company upon request a chronological record for each business location showing:

1. the number and type of each automobile and trailer hired,
2. the names of the concerns or owners from whom the vehicles were hired,
3. the cost-of-hire by type of automobile and trailer, and
4. complete information as to any liability and physical damage insurance coverage carried for these vehicles by the owners of the vehicles or trailers.

The rates per \$100 cost-of-hire are set forth in the Rate Section.

Cost-of-hire is the total amount incurred over a twelve month period for the hire of automobiles and trailers (including wages of hired operators) but not including charges for services performed by motor carriers subject to the security requirements of any motor carrier law or ordinance.

The premium shall be determined by applying the rate per \$100 to the appropriate total twelve month cost-of-hire amount at each business location as estimated by the insured for the current policy term.

The cost-of-hire amount shall be subject to adjustment by audit upon request of the Company.

The total premium for Employers' Non-Owned Car and Hired Car liability coverage and the total premium for the associated physical damage coverage are subject to the minimum premiums specified in the Rate Section.

(version PD-CW1P)

505. USE OF NON-OWNED RECREATIONAL TRAVEL AND CAMPING VEHICLES AND TRAILERS—Extension of Coverage

A policy insuring an owned private passenger automobile may be endorsed to provide for the extension of additional coverage to a rented camper unit, or travel/camping trailer beyond that provided by the policy for non-owned automobiles.

Subject to an additional premium, policy coverages may be extended to a rented trailer or camper unit by endorsement to provide for:

1. physical damage coverage in excess of the \$2,500 policy limits,
2. emergency road service coverage, and
3. lower physical damage deductibles if such deductible is required as a condition for renting and such deductible is being offered by the Company.

Note that the policy limits for bodily injury and property damage liability and medical payments coverages offered on the owned automobile are extended to the rented trailer or camper without additional charge.

Any insurance extended to a rented camper unit or travel/camping trailer shall be excess over other collectible insurance and is subject to a further provision that the underlying policy will remain in force for the entire period specified in the endorsement.

Refer to the Rate Section for rates and minimum premiums.

(version CW1)

506. USE OF NON-OWNED CARS—PHYSICAL DAMAGE COVERAGE

- A. A policy insuring a private passenger automobile for bodily injury and property damage liability coverage may be endorsed to provide additional physical damage (comprehensive and collision) coverage for the use of non-owned cars by a named individual and resident spouse provided such individual is the named insured or a relative of the named insured and resident in the same household. This endorsement will extend the comprehensive and collision coverage of a policy insuring a described private passenger automobile to non-owned cars. If the policy does not provide comprehensive or collision coverage, physical damage coverage is provided to non-owned cars subject to a deductible of \$250 and a limit of \$30,000.

This endorsement does not extend coverage to non-owned cars which are owned by the named insured's employer or those that are used (i) by persons while employed in the business of selling, repairing, servicing, storing, or parking of automobiles, or (ii) by persons while employed in public or private delivery or transportation.

- B. A policy providing Hired Car liability coverage may be endorsed to provide physical damage (comprehensive and collision) coverage to vehicles of the private passenger type, as defined in Rule 201—Private Passenger Automobile Defined, but excluding any utility vehicle with a Gross Vehicle Weight of more than 10,000 pounds, and to commercial vehicles of the pickup, panel or van body type with a Gross Vehicle Weight of not more than 10,000 pounds. Such vehicles must be rented or leased for use in the insured's business. The physical damage coverage provided is subject to a \$250 deductible and a limit of \$30,000. Coverage is available on a cost-of-hire basis, in accordance with the provisions set forth in Rule 504—Hired Cars.

See Rate Section for the premiums for these endorsements.

601. MEDICAL PAYMENTS COVERAGE

Unless specifically prohibited by other rules medical payments coverage may be written under a policy that provides bodily injury and property damage liability insurance.

When medical payments coverage is written on a policy insuring

1. an individual named insured or husband and wife resident in the same household, or multiple individuals, or
2. a partnership, company, corporation, association, etc., and one individual is designated as the named insured with respect to medical payments coverages

and such individual named insured or designated individual also is named in a broad form use of non-owned automobiles endorsement, the broad form use of non-owned automobiles medical payments premium also applies.

Additional Persons—Private Passenger and Class 1 Commercial Classes Only

Medical payments coverage is required as respects additional persons named in a use of non-owned automobiles endorsement attached to a policy that includes medical payments coverage.

The full medical payments premium applies to each such additional person who is

1. not a resident in the same household as the individual named insured or designated individual, or
2. a resident in the same household but not a relative of the individual named insured or designated individual.

The use of non-owned automobiles medical payments premium applies to each additional person who is a relative of, and who is a resident in the same household as the individual named insured or designated individual.

Refer to the Rate Section for available limits of liability and rates for all forms of medical payments coverage.

(version AR1.1)

602. UNINSURED MOTOR VEHICLE COVERAGE AND UNDERINSURED MOTOR VEHICLE COVERAGE

Bodily Injury (Coverage U and W)—Unless rejected, each policy providing liability coverage on motor vehicles licensed for highway use must include uninsured (U) and underinsured (W) motor vehicle coverage for bodily injury with limits equal to the financial responsibility limits. Increased limits up to, but not to exceed, the bodily injury liability limits of the policy are available at the option of the policyholder. The insured may choose to reject both U and W, or just W. The insured may not reject just U. If both U and W are purchased, their limits must be the same.

Property Damage (Coverage U1)—Each policy providing Coverage U shall include uninsured motor vehicle coverage for property damage liability with limits equal to the financial responsibility limits unless rejected by the named insured in writing.

Increased limits up to the property damage liability limits of the policy are available at the option of the policyholder.

Only damage to the insured vehicle is covered. A \$200 deductible shall apply unless (1) at the time of the loss the same insurer provides collision, and; (2) the operator of the other vehicle has been positively identified and is solely at fault.

The phrase "uninsured motor vehicle coverage" in other rules of this manual may include the underinsured motor vehicle coverage as described above.

See the Rate Section for the available limits of coverage and premiums.

(version AR.1)

603. CAR RENTAL AND TRAVEL EXPENSES—Coverage R1

Coverage R1 may be provided if the policy insures a private passenger car, as defined in Rule 201—Private Passenger Automobile Defined, for comprehensive and/or collision coverage.

Subject to the provisions of the coverage, Car Rental and Travel Expense, Coverage R1 reimburses the named insured for:

- a. Rental charges of not more than the selected limit per day, subject to the maximum limit of liability per occurrence, for a substitute automobile rented from a car rental agency or a garage as a result of a loss as defined.
See Rate Section for the per day/maximum per occurrence limits available.
- b. Any deductible amount for which the insured is legally liable that applies to the comprehensive and collision coverages in effect on a rented car, subject to a \$500 limit of liability per occurrence.
- c. If the loss occurs more than 50 miles from the named insured's residence, commercial transportation, meals, and lodging expenses as specified in the coverage, subject to a \$500 limit of liability per occurrence.

(version CW1P)

604. EMERGENCY ROAD SERVICE COVERAGE

Emergency road service coverage may be included in a policy which affords bodily injury and property damage liability or physical damage coverages on

- a. an automobile which is within the manual definition of a private passenger automobile, or
- b. an automobile designed as an auto home, or
- c. a class 1 farm truck.

A trailer designed for use with a private passenger automobile may be insured for emergency road service provided the policy describing the trailer also affords either comprehensive or collision coverage on such trailer.

The emergency road service premiums for private passenger vehicles in the Rate Section shall apply to an automobile designed as an auto home and to a trailer designed for use with a private passenger automobile.

Note—See policy for the extension of emergency road service coverage written on private passenger or utility type automobiles to non-owned trailers.

651. NO-FAULT COVERAGES

All automobile liability insurance policies written on a private passenger motor vehicle, as defined below, issued or renewed on or after July 1, 1974,* must provide the following minimum coverages:

- a. Medical payments coverage \$5,000 minimum per person.
- b. No-fault total disability coverage—Up to \$140 per week.
- c. No-fault death indemnity, dismemberment, and loss of sight coverage—\$5,000 per person.

Any or all of these coverages may be rejected at the option of the named insured. Premiums for the no-fault coverages are shown in the Rate Section.

This rule applies when an automobile liability insurance policy is written on:

- a. Motor vehicles of the private passenger type licensed for use on public highways including utility, amphibious, dune buggy, jeep types and antique or classic automobiles used as private passenger automobiles.
- b. A motor home and, if subject to motor home or private passenger classification, a truck/van camper.
- c. Motorcycles and motorscooters rated as private passenger vehicles when licensed for use on public highways.

703. OVERSIZE OR OVERWEIGHT VEHICLES—Bodily Injury and Property Damage Liability

As respects a vehicle which exceeds the limitations on width, length, height or weight specified by law and as a result of which the owner or operator must secure a special permit and possibly file a certificate of insurance, the applicable bodily injury and property damage liability premium shall be increased in accordance with the following:

A. Single Trip Permit—

If the permit is issued for and limited to a single trip a separate charge applies for each trip. The required premium together with a notice of intent to make such trip must be received by the Company prior to the date it is actually made. Such notice shall specify the date of the trip and describe the kind of load, dimensions and weight which make the permit mandatory. Refer to the Company for the additional charge.

B. Permits not Limited to Single Trips—

If the permit does not limit operations to a single trip, the required additional semiannual charge together with a general description of the kind of loads, dimensions and weight which make the permit mandatory must be received by the Company. Refer to the Company for the additional charge.

Note—Coverage will be afforded on a “per occurrence” basis when the statute governing overweight and oversize vehicles so requires. Vehicles insured hereunder shall not be subject to a charge for “per occurrence” coverage specified by any other manual rule.
(version CW1)

704. MOTOR CARRIER CERTIFICATE FILING

Risks which require the filing of (1) a Federal Highway Administration (formerly Interstate Commerce Commission) certificate, or (2) a public utility commission or state commerce commission certificate which binds the Company on all vehicles owned, operated, or hired by the insured and used under the insured’s permit, shall be subject to the following provisions:

1. All owned, rented or leased vehicles must be insured for bodily injury and property damage liability by this Company. A policy on which a prescribed certificate is filed cannot be cancelled prior to the effective date of the cancellation of the certificate.
2. **Employers’ Non-Owned Car Liability and Hired Car Coverage:** The policy shall be endorsed to provide employer’s non-owned car liability and hired car coverages, subject to the following rating provisions:
 - a. If the insured expects to hire vehicles or to have employees use non-owned vehicles in the operation of the insured’s business, the premium charge shall be determined in accord with Rule 503—Employers’ Non-Owned Car Liability and Rule 504—Hired Cars.
 - b. If the insured does not anticipate hiring vehicles or having employees use non-owned vehicles in the operation of the insured’s business, the bodily injury and property damage liability premium charge is \$10.00.

(version CW1P)

705. TRANSPORTATION OF SCHOOL CHILDREN, CHURCH GROUPS, FRIENDS, NEIGHBORS OR FELLOW EMPLOYEES—Private Passenger Automobiles

A private passenger type automobile used to transport

- school children, or
- persons to and from church services or other activities incidental to church functions, or
- friends, neighbors or fellow employees

for a consideration, in addition to use for personal pleasure, family and business shall be classified in accordance with Rule 205—Classification of Private Passenger Type Automobiles.

Private passenger premium determination procedures for the appropriate classification shall apply for all coverages except the base premiums for the bodily injury and property damage liability and medical payments coverages shall be increased:

- 20% if the number of passengers transported, excluding the driver, is 8 or less;
- 50% if the number of passengers transported, excluding the driver, is greater than 8.

Note—Coverage for such use on a share-expense basis in a private passenger or station wagon type vehicle is provided under the policy contract at no additional charge.
(version CW1)

706. TRANSPORTATION OF PERSONS INCIDENTAL TO OCCUPATIONAL DUTIES

A private passenger automobile used to transport persons as an incidental part of the occupational duties of an insured is classified as a private passenger automobile. The regular private passenger premium determination procedures for the applicable classification shall apply to all coverages except where the insured’s compensation for transporting persons exceeds the local area standard for non-profit reimbursement for automobile operational costs, in which event the bodily injury and property damage liability base premium shall be 120% of that otherwise applicable.

If the compensation for transporting persons exceeds the local area standards for non-profit reimbursement for automobile operational costs, the application must be accompanied by a statement of the complete facts relative to the transportation of passengers and the form, basis and rate of compensation.

Under no circumstance does this rule extend to the insuring of any automobile which is used for public livery or private livery purposes.

(version CW1)

707. NO RULE

708. FEDERAL GOVERNMENT EMPLOYEE—Use of Private Passenger Automobile

A private passenger automobile used by an insured in performance of duties as a federal government employee shall be written at the 1H classification premium applicable to all coverages except that the bodily injury and property damage liability base premium shall be 60% of that otherwise applicable when a certificate of financial responsibility filing is not required; otherwise, the full bodily injury and property damage liability base premium is applicable.

709. AUTOMOBILES LEASED TO UNITED STATES GOVERNMENT AGENCIES—Owner's Interest

Automobiles which are leased or rented out for full-time use by a United States government agency for use in the performance of governmental functions may be written for insurance covering only the owner's interest in such automobiles. Coverage will also apply as respects the operation of the described automobiles by the named insured or by employees of the named insured for the purpose of testing and servicing and for delivering such automobiles to the lessee and for returning them to the regular storage location.

Automobiles classified as private passenger shall be written at the private passenger 1H classification for all coverages except the bodily injury and property damage liability base premium shall be 25% of that otherwise applicable. In the State Farm Fire and Casualty Company, Ineligible for STAR Plan Rates apply.

Except for Passive Restraint Discount, Vehicle Safety Discount, and Liability Rating Group, Rate Section Rules do not apply. Age Adjustment Factors do not apply (Rule 210—Age Adjustment Factors For Private Passenger Type Automobiles).

Automobiles classified as commercial shall be written at the commercial class 5 classification for all coverages except the bodily injury and property damage liability premium shall be 25% of that otherwise applicable.

801. FLEET RATING PLAN

Note—Vehicles rated under the provisions of this rule shall be insured in the State Farm Mutual Automobile Insurance Company.

A. Fleet Defined

A fleet is defined as five or more self-propelled vehicles owned by or under the direct control of one insured or management and covered under one policy with a single expiration date applying to all vehicles.

Notes—

1. Vehicles of any type rented or leased by the insured and operated as though owned by the insured shall be considered as owned vehicles for the purpose of this rule.
2. Motorcycles, motorscooters, motorized bicycles, golfmobiles, snowmobiles, trailers and semitrailers, and limited use antique and classic automobiles may be included in a fleet policy but shall not be counted as self-propelled vehicles for the purpose of determining fleet eligibility.
3. If a company is solely owned by an individual and part of the vehicles are titled in the name of the company and the balance in the name of the sole owner, all may be insured on the same fleet policy.
4. Vehicles owned by employees of the insured (including salespeople), by partners, or by officers of the corporation, whether or not used in the insured's business, shall not be included in a fleet policy.
5. As respects non-farm business use private passenger automobiles insured under the provisions of this rule, class 1H rates (or class 1L if a utility rated vehicle) shall apply regardless of the actual ages of the operators or the total annual miles driven. Age Adjustment Factors do not apply (Rule 210—Age Adjustment Factors For Private Passenger Type Automobiles). As respects all other vehicles, regular rating classifications pertaining to such vehicles apply.
6. A fleet of 25 or more self-propelled vehicles is subject to Rule 851—Experience Rating Plan. A fleet of less than 25 self-propelled vehicles will be rated under the Experience Rating Plan provided the applicable annual premium prior to experience rating is \$3,000 or more.

B. Application of Manual Rules and Rates

A fleet is subject to other manual rules and rates to the extent such rules and rates are not precluded from applying to fleets.

Notes—

1. A multiple vehicle risk already insured with the Company on separate policies may, at the election of the insured and with the consent of the Company, be insured as a fleet under this rule at a subsequent renewal date.
2. A fleet insured under the provisions of this rule may not be moved from under the rating provisions of this rule except with the approval of the Company.

C. Policy Term

A fleet policy of six or twelve months term may be issued except that a fleet subject to Experience Rating must be insured on an annual term policy. A fleet may not change policy term options without the consent of the Company.

Note—Premiums for a twelve month policy term shall be twice the premiums applying for a six month policy term when twelve month policy term premiums for vehicles being insured with a policy term of twelve months are not designated in the manual.

D. Uniform Limits

Limits applying to bodily injury and property damage liability, uninsured motor vehicle and underinsured motor vehicle (where available) coverages shall be the same for each vehicle insured for such coverage. Limits for medical payments or personal injury protection coverages (where available) shall be the same for each vehicle insured for such coverage unless a variation, for reasons submitted, is approved by the Company.

Exception—If certain vehicles because of governmental authority require higher limits than are desired on other vehicles variation will be permitted.

E. Accident or Occurrence Basis for Liability Coverage

The bodily injury and property damage liability coverage provided by the policy is on a "per accident" basis. Bodily injury and property damage liability coverage on a "per occurrence" basis is available by endorsement at a 1% increase in the otherwise applicable bodily injury and property damage liability premium. This adjustment shall be treated as a limits adjustment for purposes of determining the premium.

F. Automatic Coverage

1. At the request of the insured, an automatic coverage endorsement may be issued if all owned, rented or leased vehicles are insured by this Company. If all vehicles are not insured by this Company, it may be made applicable if all vehicles of a given class are insured by this Company.
 - a. This endorsement supersedes the automatic insurance provision of the policy. It applies to the coverages in force on all private passenger automobiles and all other vehicles separately on the date that a vehicle is purchased, rented or leased by the insured. The most restricted coverage shall apply separately for private passenger automobiles and all other vehicles. The status of the policy in force at the time a vehicle is added shall determine the coverage(s) to which the endorsement applies.
 - b. If the automatic coverage endorsement is not issued, the automatic coverage provision of the policy applies.
2. The insured shall maintain for each location a record of vehicles showing:
 - a. A description of each vehicle purchased, the date of purchase, the cost and other data necessary for the rating thereof.
 - b. A description of each vehicle disposed of and date of disposition.This record shall be available to this Company upon request.
3. Proper notice to this Company is required to add coverages not provided for by the automatic coverage endorsement.

G. Audit

The Company shall have the right to audit the insured's records, at any time during the policy period and within three years after the termination of the policy, with respect to the premium basis or the subject matter of the policy.

H. Deposit Premium

At the option of the Company a premium deposit may be required.

851. EXPERIENCE RATING PLAN

Note—Vehicles rated under the provisions of this rule are subject to Rule 801—Fleet Rating Plan.

- A. The experience rating provisions of this rule shall apply to a fleet, as defined in Rule 801—Fleet Rating Plan, provided it consists of 25 or more self-propelled vehicles. Experience rating shall also apply on a fleet which was experience rated for the term just expiring, but temporarily has fewer than 25 vehicles, and it is anticipated that there will again be 25 or more self-propelled vehicles within the coming year. A fleet of less than 25 self-propelled vehicles will be rated under the provisions of this rule provided the applicable annual premium prior to experience rating is \$3,000 or more.

Note—Motorcycles, motorscooters, motorized bicycles, golfmobiles, snowmobiles, trailers and semitrailers, and limited use antique and classic automobiles shall not be counted in determining a fleet's eligibility for experience rating. However, if these vehicles are self-propelled, they will be used to determine the number of car years in the experience period.

- B. This plan provides for the modification of the total policy premium by the application of a premium modification factor.
 C. The premium modification factor is determined from experience incurred by the fleet during the past five years ending with the initial effective date of the policy or the three months preceding the renewal of the policy. If five years experience is not available, such experience as is available shall be used subject to a minimum experience period of one year ending as specified above. If less than one year's experience is available the premium modification factor shall be 1.00 for the upcoming policy term.

If the fleet has been insured with a company from which experience is not obtainable, experience may be used that is submitted to the Company in the form of a statement signed by the insured. Experience in such form shall be given credence in accordance with its apparent credibility.

- D. The premium modification factor shall be determined and applied as follows:
1. Determine the number of car years in the experience period represented by the self-propelled vehicles of the fleet.
Note—A single self-propelled vehicle develops five car years of experience for a five year experience period.
 2. Determine the total fleet incurred losses (paid losses plus reserves on pending claims) for the experience period after:
 - a. Multiplying individual coverage incurred losses by the indicated factor below to provide for the inclusion of allocated claim adjustment expense in the loss amount, and
 - b. Limiting the amount of loss resulting from any single accident (after providing for allocated claim adjustment expense in the amount) to the "maximum single loss" amount specified in the Table of Experience Rating Premium Modification Factors.

Allocated Adjustment Expense Factors	
Bodily Injury Liability	1.10
Uninsured Motor Vehicle Coverage and Underinsured Motor Vehicle Coverage	1.06
Personal Injury Protection	1.03
Medical Payments	1.01
All Other Coverages	1.00

3. Determine the total fleet premium collected by the Company for the experience period adjusted to eliminate the effect of any fleet rating modification. If the fleet was insured with another company during any part of the experience period, use the applicable premiums charged by that company. To the extent the applicable premium information for any policy periods is not available from the other company, do not use those policy periods for experience rating.
4. Develop an Actual Limited Loss Ratio by dividing the results of step 2 by the results of step 3.
5. Refer to the Table of Experience Rating Premium Modification Factors and select the premium modification factor which corresponds to the developed Actual Limited Loss Ratio and the number of car years in the experience period.
6. If the premium modification factor (PMF) indicated in step 5 is greater than 1.25 times the PMF for the prior renewal, use 1.25 times the PMF for the prior renewal. If the PMF indicated in step 5 is less than 0.75 times the PMF for the prior renewal, use 0.75 times the PMF for the prior renewal. If the fleet was not experience rated at the prior renewal, limit the PMF calculated in step 5 to no greater than 1.25 and no less than 0.75. Otherwise, use the PMF determined in step 5. This applies for experience rating prior to September 29, 2008.
7. Adjust the total premium applicable to the fleet for the upcoming policy term by the premium modification factor determined above.

901. RECREATIONAL VEHICLES

Note—Vehicles rated under the provisions of this rule shall be insured in the State Farm Mutual Automobile Insurance Company. Motor homes and truck or van campers are not subject to the provisions of this rule. See Rule 401—Motor Homes, Truck or Van Campers.

A. Recreational Vehicles Defined

1. Off-Road Vehicles

All-Terrain Vehicle—A self-propelled vehicle, equipped with balloon tires or crawler tracks, capable of traveling over rugged terrain (some are also amphibious) and used principally off public roads.

Dune Buggy—A four-wheeled, self-propelled vehicle used principally off public roads.

Golfmobile—A self-propelled vehicle used principally to afford transportation on a golf course or private premises.

Minibike—A small motorcycle, motorscooter, or other small motorized vehicle not otherwise defined in this rule used principally off public roads.

Snowmobile—A self-propelled vehicle, equipped with crawler tracks and skis, capable of traveling over ice and snow and used principally off public roads.

Trail Bike—A motorcycle capable of traveling over rugged terrain and used principally off public roads.

Note—Vehicles of the above types which are licensed/registered for use on public roads are not subject to the provisions of this rule. See Rule 403—Amphibious, Dune Buggy and Related Self-Propelled Vehicles or Rule 404—Motorcycles, Motorscooters, and Motorized Bicycles.

Refer to Section D of this rule for the rating of Off-Road Vehicles.

2. Travel and Camping Trailers

Travel Trailer—A trailer designed for use with a private passenger automobile and permanently equipped as living quarters.

Camping Trailer—A trailer designed for use with a private passenger automobile which expands into temporary living quarters.

These differ from travel trailers in their collapsed, low-profile towing position. It also includes a trailer which is not equipped as living quarters, but which is used solely for camping and similar recreational purposes.

Refer to Section E of this rule for the rating of Travel and Camping Trailers.

B. Coverage and Policy Term

Except as indicated below, factory-built recreational vehicles as defined in this rule, which are owned by individuals, may be insured under the Company's recreational vehicle policy for bodily injury and property damage liability, medical payments, and physical damage (comprehensive and collision combined) coverages.

A recreational vehicle policy shall be written for a twelve months' term. It may be renewed for succeeding twelve months' terms provided the premium for each subsequent term is paid on or before the expiration of the current policy term.

C. Suspension, Changes and Cancellation

Snowmobiles and Travel or Camping Trailers

Any suspension, change or cancellation of coverage shall be subject to an earned premium calculated in accord with the following table. The earned premium will be based on the sum of the premium earned percentages, or the pro-rata portion thereof, for those months in which coverage was provided.

PREMIUM EARNED PERCENTAGES					
Month	Snowmobiles*	Travel/Camping Trailers	Month	Snowmobiles*	Travel/Camping Trailers
Jan.	25%	2%	July	2%	16%
Feb.	20%	2%	Aug.	2%	16%
Mar.	8%	4%	Sept.	2%	12%
Apr.	8%	8%	Oct.	6%	8%
May	2%	12%	Nov.	8%	2%
June	2%	16%	Dec.	15%	2%

*Applicable also to trailers used for transporting snowmobiles.

Other Recreational Vehicles

Pro rata premium credit will be allowed for any suspension, change or cancellation of coverage.

Policy cancellations at the request of the insured are subject to a minimum retained premium of \$5.00.

D. Rating of Off-Road Recreational Vehicles

1. Off-road vehicles insured under this rule are not subject to the Rate Section Rules, nor shall the rules applicable to private passenger automobiles apply.

2. **Bodily injury and property damage liability, medical payments, and physical damage coverages**—Refer to the Rate Section for the annual premiums.

3. Miscellaneous Provisions—

a. **Uninsured motor vehicle coverage**—Uninsured motor vehicle coverage for bodily injury may be written with limits up to \$250,000/\$500,000 or the bodily injury liability limits of the policy, whichever are less.

Refer to the "Off-Road Vehicles" Rate Section for the premium determination.

b. **Towed cutters and sleds**—The physical damage coverage afforded on the insured off-road vehicle may be extended to an owned, factory-built trailer, sled, or cutter designed for towing behind the vehicle. Its MSRP (See Rule 111) will be included with that of the recreational vehicle for the purpose of determining the premium for the physical damage coverage on the entire unit. The liability and medical payments coverages afforded on the insured off-road vehicle are included on the towed vehicle without additional charge.

c. **Trailers used for transporting off-road vehicles**—The physical damage coverage afforded on the insured off-road vehicle may be extended to an owned, factory-built trailer designed for use with a private passenger automobile and used for transporting the vehicle. Refer to the Rate Section for the additional premium for the extension of physical damage coverage. This extension includes emergency road service coverage on the trailer. The liability and medical payments coverages afforded on the owned private passenger automobile are included on the trailer without additional charge.

Arkansas
State Farm Mutual Automobile Insurance Co., State Farm Fire and Casualty Co.

E. Rating of Travel and Camping Trailers

1. Travel and camping trailers insured under this rule are not subject to the Rate Section Rules, nor shall the rules applicable to private passenger automobiles apply.
2. **Bodily injury and property damage liability and medical payments coverages**—The bodily injury and property damage liability and medical payments coverages afforded on the owned private passenger automobile are extended to the trailer without additional charge.
3. **Physical damage coverage including emergency road service**—Refer to the Rate Section for the annual premiums.

F. Rental Provisions

1. Coverage on rented recreational travel and camping trailers used by the insured—See Rule 505—Use of Non-Owned Recreational Travel and Camping Vehicles and Trailers.
2. Coverage on owned recreational travel and camping trailers rented to others—The physical damage coverage on an insured travel or camping trailer may be extended by endorsement to apply while it is rented to others at the rate of \$1.00 for each day of rental coverage desired, subject to a minimum premium of \$5.00 for each rental period.

IDENTIFICATION OF CLASS BY CODE

A two-position code system is used to identify the private passenger classification characteristics associated with a risk. The code is significant in identifying the classification of the risk and in developing the rates for that risk.

The numerical first position of the class code is the primary identification for the age, sex, and marital status of the risk.

For youthful drivers (first position of class 4, 5, 7, 8, or 9), the alphabetic second position of the code indicates the age of the owner or operator who was responsible for the first position of the class code.

For students away at school (first position of class 4 or 8), the numeric second position of the code indicates the age of the operator and whether or not the car qualifies as a farm automobile.

For drivers 75 years of age and older (first position of class 2), a numeric second position of the code indicates the age of the owner or operator responsible for the first position of the class code for a non-farm automobile. It also indicates the estimated annual mileage driven. An alphabetical second position indicates the same for a farm automobile.

For other classes, the alphabetic second position of the code indicates the estimated annual mileage driven and whether the automobile is used:

1. for pleasure,
2. for commuting and if so, whether it is driven an average of over or under 100 miles per week for this purpose,
3. in business, or
4. qualifies as a farm automobile.

For example, code 9B identifies a risk with the following rating characteristics:

1. Age, sex, and marital status—Operator is an unmarried male between 19 and 20.
2. Use and annual mileage—Not an occasional operator; not a farm automobile.

The following words and phrases affecting classification are defined in Rule 204—Definitions and Interpretations:

Age
Driving to and from work
Estimated annual mileage
Farm automobile
Married
Military service
Occasional operator
Principal operator
Student away at school
Used for business

21.	Filing Description [This area can be used in lieu of a cover letter or filing memorandum and is free-form text]
------------	--

We respectfully submit a revision to our independent Private Passenger Auto program, which results in a rate level increase 1.7%. The details of and support for the change are outlined in the attached Filing Memorandum and supporting exhibits.

The rate level changes contained in this filing specifically consider the expected effect that any prior changes in policy language will have on our future underwriting experience. The changes detailed in this filing reflect our best efforts to recognize our actuarially suggested income needs and have premiums that are as competitive as possible.

We do not rely solely on rate activity to achieve our objective of continued financial stability. We also concentrate on continued improvements in the way we service the business we write. These improvements range from internal expense controls to ongoing enhancements in the loss settlement process. We also invest and participate in many loss prevention and control activities. Attached is an exhibit that outlines some of these activities.

STATE FARM MUTUAL AUTOMOBILE INSURANCE COMPANY
ARKANSAS AUTO INSURANCE PROGRAM
 Filing Memorandum

We are implementing an increase of 1.7% to our premium income level. The changes by coverage are summarized in the table below:

Coverage	Type of Vehicle	% Change
BIPD Liability	Private Passenger	4.4%
Medical Payments	Private Passenger	7.5
Comprehensive	Private Passenger	1.2
Collision	Private Passenger	- 2.8
Uninsured Motor Vehicle	Private Passenger	19.7
Underinsured Motor Vehicle	Private Passenger	- 5.3
Rental Reimbursement	Private Passenger	-10.0
All Coverages	Private Passenger	1.7
	Miscellaneous	4.0
	All Types	1.7%

INDICATED RATE LEVEL CHANGES

The enclosed Exhibits 1-10 set forth the actuarial calculation of the indicated private passenger rate level change for each of the major coverages, as well as for all coverages, all types of vehicles combined. As shown in Exhibit 10, the data for voluntary risks indicates the need for an overall increase of 4.1%.

The indicated rate changes in this filing are based upon the projected experience for the year centered around January 7, 2009. To develop the projected underwriting experience, we used the 2004 through 2007 third quarter underwriting experience as a database. The loss levels are projected based upon evaluations of the future claim costs and claim frequency levels.

For bodily injury liability, property damage liability, and collision coverages, we are projecting annual changes in the average claim costs that are equivalent to the historical Arkansas annual rate of change, credibility weighted with the corresponding companywide trend. For medical payments coverage, we are projecting changes equivalent to the 5-year linear average paid claim cost trend for Arkansas.

With respect to claim frequency, we are projecting no change for bodily injury and property damage liability, medical payments, and collision coverages.

For comprehensive coverage, we are projecting annual changes in the average pure premium trend that are equivalent to the historical Arkansas annual rate of change.

The frequency projections, combined with the claim cost projections, produce a pure premium projection of 1.7%.

The expenses have been projected to their anticipated levels. We project a 1.0% annual increase, which reflects the rising costs of doing business.

The actual, adjusted, and projected experience for uninsured motorist coverage, underinsured motorist coverage, and rental reimbursement coverage is shown in Exhibit 11.

In calculating the 0% provision for underwriting profit and contingencies, we have reflected our anticipated investment income from all sources. Exhibit 12 provides a detailed explanation of this provision.

PRIVATE PASSENGER RATES AND RATING RELATIVITIES

We are revising private passenger base rates and rating relativities. The effects of these changes are included in the income effects as shown above for the applicable coverages.

1. Class Plan and Class Rating Factors – As shown in Exhibit 13, we are revising many class and age factors.
2. Deductible Relativities – We are revising the rate relationship between the various deductibles for comprehensive and collision coverages, as shown in Exhibit 14.
3. Insurance Rating Group (IRG) Relativities – We are adjusting the IRG relativities for comprehensive and collision coverage toward the indicated relativities. These changes are shown in Exhibit 15.
4. Model Year Rating Factors – We are making changes to the model year relativities for comprehensive and collision coverages as shown in Exhibit 16.
5. Territory Changes – We are revising a number of our territory definitions. The indicated changes for some territories are significant. With this change, we are moving toward, but not always to, the indicated territory factors. Additional interim territories have been established to help transition to the indicated territory factors. Further movement to the indicated territorial factors will occur with future rate changes. The revised definitions are included on rate manual pages TD.1 to TD.2. Changes to our territory rating factors are shown in Exhibit 17. The territory factors are based upon a study of our pure premium indications and reflect a flattening of certain expenses.
6. Statewide Average Base Rates – We are making changes to our statewide average base rate levels as shown in Exhibit 18.
7. Limits Relativities – We are eliminating the following medical payments limits with this revision: \$500, \$1,000, \$2,000, and \$3,000. Policyholders currently with these limits will have the option of selecting a different limit.

MISCELLANEOUS VEHICLES

We propose the following income level changes for a number of miscellaneous types of vehicles:

Antiques	5.7%
Classics	4.7%
Motor Homes	5.5%
Motorcycles	3.6%

CALCULATION OF PROJECTED VOLUNTARY UNDERWRITING EXPENSE RATIOS

WHILE OUR RATING FORMULA UTILIZES THE FAMILIAR LOSS RATIO TEST, IT IS NECESSARY TO MODIFY SUCH TEST FOR OUR PURPOSES SINCE THE UNDERWRITING EXPENSES INCLUDE ITEMS WHICH DO NOT VARY DIRECTLY WITH PREMIUMS. "FORMULA EXPENSE RATIOS" ARE DEFINED AS THE EXPENSE RATIOS THAT WOULD EXIST IF THE RATE LEVELS WERE EXACTLY ADEQUATE AND ARE DEVELOPED AS FOLLOWS:

1. THE ALL COVERAGES INDICATED RATE CHANGE IS DERIVED BY SOLVING THE FOLLOWING EQUATION:

$$(1.000 - .136) \times I.C. + G' = G \times (1.000 + I.C.)$$

WHERE, I.C. = INDICATED RATE LEVEL CHANGE

G' = PROJECTED UNDERWRITING GAIN OR LOSS RATIO

G = ALLOWANCE FOR UNDERWRITING GAIN AND CONTINGENCIES

1.000 INDICATES EARNED PREMIUM

.136 INDICATES THAT 13.6% OF THE RATE CHANGE IS ALLOCATED TO EXPENSES

THIS EQUATION REDUCES TO: $I.C. = \frac{G - G'}{.864 - G}$

2. THE ALL COVERAGES FORMULA EXPENSE RATIO IS: $F.E.R. = \frac{E + (I.C. \times .136)}{1.000 + I.C.}$

WHERE F.E.R. = FORMULA EXPENSE RATIO

E = PROJECTED UNDERWRITING EXPENSE RATIO

SUBSTITUTING $\frac{G - G'}{.864 - G}$ FOR I.C., THIS EQUATION REDUCES TO: $F.E.R. = E - \frac{(G - G') \times (E - .136)}{.864 - G'}$

3. THE ALL COVERAGES PROJECTED EXPERIENCE IS:

CALCULATION OF VOLUNTARY RATE CHANGE INDICATIONS

1. THE INDICATED RATE CHANGES ARE DERIVED BY SOLVING THE FOLLOWING EQUATIONS (LOSS RATIO TEST):

$$1.000 + I.C. = \frac{A.L.R.}{P.L.R.}, \quad \text{AND} \quad P.L.R. = 1.000 - F.E.R. - G$$

WHERE, I.C. = INDICATED RATE LEVEL CHANGE (LOSS RATIO TEST)
 A.L.R. = PROJECTED LOSS RATIO (EXHIBIT 9)
 P.L.R. = PERMISSIBLE LOSS RATIO
 F.E.R. = FORMULA EXPENSE RATIO (EXHIBIT 9)
 G = ALLOWANCE FOR UNDERWRITING GAIN AND CONTINGENCIES

SOLVING THESE EQUATIONS YIELDS: $I.C. = \frac{A.L.R.}{1.000 - F.E.R. - G} - 1.000$

2. THIS FORMULA WHEN APPLIED TO THE DATA PROVIDED IN EXHIBIT 9, PRODUCES THE FOLLOWING INDICATED RATE LEVEL CHANGES:

BODILY INJURY AND PROPERTY DAMAGE LIABILITY:

$$\frac{70.1}{100.0 - 34.6 - 0.0} - 1.000 = \frac{70.1}{65.4} - 1.000 = 0.072, \text{ OR } +7.2\% \text{ INDICATED}$$

MEDICAL PAYMENTS COVERAGE:

STATE FARM MUTUAL AUTOMOBILE INSURANCE COMPANY

PROVISION FOR UNDERWRITING PROFIT AND CONTINGENCIES

AUTOMOBILE INSURANCE OPERATIONS

The following analysis demonstrates that the use of a 0% combined provision for underwriting profit and contingencies, together with expected investment income, will produce an expected total return after tax for State Farm which is reasonable when compared to that earned by other industries. This will enable the company to serve the insurance needs of its policyholders and meet its obligations in a growing market. These earnings provide the only source of funds for its Policyholder Protection Fund (Surplus), which is essential to State Farm's continued growth and financial strength.

Total Financial Needs Analysis

- A. Auto insurance rates traditionally include provisions for expected losses and expenses (including an estimate of expected catastrophe losses) and a combined provision for underwriting profit and contingencies. The contingency provision reflects an allowance in the rates for losses and expenses arising from events which cannot be reasonably foreseen or predicted. It thus represents an allowance for adverse fluctuations from the otherwise expected results. The underwriting profit provision reflects the expected difference between earned premiums and incurred losses, expenses and contingencies. The need for a contingency element in the rates is generally accepted actuarially and recognized in nearly all rating laws. Over the long-term, the contingency provision will not be actually realized as an underwriting profit, but will be offset by unanticipated losses and expenses.

State Farm's underwriting profit from automobile operations, before federal taxes, has averaged -5.6% (see Page 4, Column 2) during the last 12 years. These results were generated during a period when the filed rates generally included a combined provision averaging 0.2% for underwriting profit and contingencies. Thus the contingency element has been averaging in excess of 2.0% of earned premium.

It is therefore reasonable to expect that a 0% combined provision for underwriting profit and contingencies will produce an actual underwriting loss of approximately 2%.

- B. As a percent of mean invested assets, net investment income (interest, dividends and real estate income) averaged 4.2% over the past 12 years and 3.9% over the past 6 years (Page 5, Column 1). Based on the analysis of these results, it is reasonable to expect a return of 4.0% on invested assets during the time the rates will be in effect.

Capital gains have fluctuated between -9.9% and 9.9% of mean invested assets over the past 12 years (Page 5, Column 2). The latest 12-year average is 2.9%, the prior 12-year average is 2.9%, and the 24-year average is 2.9%. The expected contribution of capital gains during the period rates will be in effect is 3.0% of invested assets.

STATE FARM MUTUAL AUTOMOBILE INSURANCE COMPANY
(Continued)

The sum of the net investment income and capital gains as a percent of mean invested assets is expected to be 7.0% during the time the rates will be in effect.

- C. Other income, largely service charges for premium installment plans, has averaged 0.4% of earned premium during the past 12 years (Page 4, Column 3). These charges were increased in 2003, and as a result the expected income during that time the rates will be in effect is 0.6% (as earned in 2006).
- D. All of these income sources combine to yield an expected insurance operating profit of 3.6%, before tax, on earned premiums, as summarized in the table on the following page. This includes the expected investment income attributable to the unearned and advance premiums, loss, and loss adjustment expense reserves, as well as the expected underwriting results.
- E. In order to demonstrate that this profit provision is reasonable in comparison to the total after-tax return for other industries, a 2:1 premium-to-surplus ratio is used for this ratemaking analysis. A 2:1 ratio is a general measure of minimum necessary surplus that is often used for automobile insurers, without taking into account the specific risks and needs of a particular insurer. It is also generally recognized that it is prudent to maintain a larger level of surplus and that surplus needs vary from insurer to insurer. The 2:1 ratio is used in this ratemaking analysis to illustrate that even at this low level of capitalization, the rate of return is reasonable in comparison to other industries. Although we are using a 2:1 ratio in this ratemaking analysis, considering the multiplicity, nature and magnitude of risks and needs that we face, State Farm's surplus is and should be significantly larger to provide the financial strength that is adequate and appropriate for our policyholders today and in the future.

At a 2:1 premium-to-surplus ratio, the 3.6% operating profit would produce an expected total return, after tax, of 11.2%, as a percent of surplus as demonstrated in the following table.

Taking into account the equity in the unearned and advance premium reserve, the expected total return is approximately 9.2% on a GAAP adjusted basis. An expected total return in the 8% to 18% range is reasonable in comparison to the current returns of other industries. Recent returns reported in Business Week and Fortune magazines are in this range, with an average of about 13%, on a GAAP adjusted basis.

Based on the foregoing, we conclude that a 0.0% combined provision for underwriting profit and contingencies can be expected to produce a reasonable total return during the time the projected rates are to be in effect. If the contingency provision is actually realized as a profit in any year, the expected total return increases to 11.1%. Such a result would still be reasonable and not excessive. If our actual premium-to-surplus ratio were used in this calculation, a lower total rate of return would result.

(1) Annual Statement, Page 12 for years 2004-2006.

(2) Under the Tax Laws, 15% of formerly tax-exempt income from securities purchased after August 7, 1986 is now taxable. Thirty percent of stock dividends are taxed at 35% and seventy percent are taxed at 15% of 35%. Thus, the estimated tax rates are:

Ordinary Income	35.0%
Tax Exempt Bonds	5.3% = .15 x 35%
Stock Dividends	14.2% = (.30 + (.70 x .15)) x 35%

(3) Under the Alternative Minimum Tax (AMT), a rate of 20% applies to the sum of regular taxable income and 75% of tax exempt income. The estimated effective AMT rates are:

Ordinary Income	20.0%
Tax Exempt Bonds	15.8% = (.15 + (.85 x .75)) x 20%
Stock Dividends	17.0% = (.30 + .70 x (.15 + (.85 x .75))) x 20%

Regulation 23, Section 7

Answers to the several enumerated items of Regulation 23, Section 7(A)(2) are as follows:

- (a) The Rate Filing Abstract (Form RF-1), Private Passenger Automobile Abstract (Form A-1) and the Automobile Premium Comparison Survey (Form APCS) are included with this filing as Exhibits 23, 24, and 25.
- (b) Calendar year loss information is used. See Exhibits 1-11.

Exhibit 3, page 1, sets forth the adjustments made to calendar year losses to eliminate the effects of changes in prior accident year incurred losses and allocated loss adjustment expenses.

Exhibit 21 provides a listing of calendar year IBNR reserves for Arkansas by coverage and by year. Also shown is the change in IBNR reserve by calendar year.

- (c) This filing includes no changes in rate making methodology from our last submission. The methodology used in Arkansas follows our standard countrywide procedure.
- (d) The treatment of catastrophe losses is covered in Exhibit 3, page 2.
- (e) Investment income on net unearned premiums and loss reserves is shown in Exhibit 12, pages 6 and 7.
- (f) The calculation of our 0% provision for underwriting profit and contingencies is shown in Exhibit 12.
- (g) Arkansas underwriting expenses by Annual Statement expense category are shown in Exhibit 20 of the State Farm Mutual filing.

In developing our indicated rate change, the actual 2004 through 2007 3rd quarter underwriting expenses for Arkansas, shown in Exhibit 1, were adjusted to remove the non-recurring expenses, as shown in Exhibits 3 and 4. When the premium is adjusted to the current rate level, the expenses are also adjusted since a portion of the underwriting expenses (i.e., agents' service compensation and premium taxes) varies directly with premiums, as shown in Exhibit 5, page 2. Since some of the expenses do not vary directly with premium, the projected expense ratio cannot be used in the familiar loss ratio test. The formula to recognize the distinction between expenses that vary directly with premium and those that do not vary is detailed in Exhibit 8.

- (h) State Farm continues to support extensive initiatives that encourage safer vehicles and roads, fight crime and fraud, assure quality and cost-effective health care and vehicle repairs, and maintain efficiency and appropriate internal expense controls while providing quality service. The following lists a few of these efforts:

1. Supporting the Insurance Institute for Highway Safety, a scientific organization devoted to reducing human and economic loss from vehicle crashes.

2. Researching factors that contribute to child injuries in crashes through support of a seven-year project with the Children's Hospital of Philadelphia and sponsoring Child Safety Seat check-ups.
3. Providing grants for a new program, Project Ignition '05, in partnership with the National Youth Leadership Council (NYLC). High school students and teachers submit ideas for a school or community public awareness campaign on the subject of Teen Driver Safety. Selected ideas receive a grant to implement the projects.
4. Advising the National Highway Traffic Safety Administration on such issues as passive restraints and seat belts, bumper standards, highway design, speed limits, large truck safety and drunk driving.
5. Supporting the Inter-Industry Conference on Auto Collision Repairs, a non-profit, educational organization of auto manufacturers, collision repair shops, insurance companies and others dedicated to improving the quality, safety and efficiency of auto collision repairs.
6. Partnering with the Advocates for Highway and Auto Safety, the National Safety Council and others to promote primary seatbelt legislation and booster seat legislation on federal and state levels as well as supporting laws to control chemically-impaired driving.
7. Partnering with Meharry Medical College, a Historically Black College and University (HBCU) to address the disparity of seat belt usage in the African American community.
8. Supporting the Insurance Research Council (IRC), an organization that conducts research on a broad range of insurance topics.
9. Supporting the National Insurance Crime Bureau (NICB), an organization that fights insurance fraud and vehicle theft. NICB looks for patterns of fraud and theft and assists insurance companies and law enforcement in solving insurance crimes and eliminating fraudulent claims.
10. Training State Farm claim representatives to use a computer application called "frequency tracking" that detects patterns symptomatic of fraud.
11. Supporting state and federal legislation to combat auto theft and fraud, including support for state anti-fraud bureaus.
12. Helping State Farm claims representatives determine crash damage due to defective auto parts. Claims Research Auto Support Hotline (CRASH) provides a method for tracking auto trends that may influence automakers to take action on defective parts and issue automobile recalls. This also leads to increased subrogation.
13. Encouraging auto manufacturers to design cars that are more damage- and theft-resistant and easier and less costly to repair.
14. Using alternative dispute resolution whenever possible as a more efficient and timesaving alternative to lawsuits in disputed claims.

15. Establishing internal programs that promote efficient claims handling. For example, expenses are reduced when agents can service certain claims directly.
 16. Effectively managing expenses by efficiently using the services State Farm purchases and by regularly auditing telephone bills.
 17. Effectively managing expenses by purchasing data processing and office equipment through a competitive bidding process.
 18. Reviewing and reorganizing departments and areas in regional offices and at Corporate Headquarters in the ongoing effort to streamline processes, eliminate duplication and provide continued quality service.
 19. Providing convenient, cost effective, 24 hour service 365 days a year through our Customer Response Centers.
 20. Using the Internet to efficiently communicate with both current and prospective policyholders.
- (i) The trending components of this filing are described in the State Farm Mutual filing letter on page 1.
- (j) With approximately 457,000 automobile insurance policies in force, we believe that our underwriting experience for the state is fully credible. In reviewing the historical claim cost and frequency trends for Arkansas, we have credibility weighted the Arkansas trends with the corresponding companywide trends when the number of claims were less than 10,000 claims (36,000 claims for comprehensive), using the typical square root credibility formula.
- (k) No classes are grouped together for ratemaking purposes.

Response to Item 3

There is not a requirement linked to age. This is a requirement for an applicant licensed less than 3 years to be submitted with collateral business.

Response to Item 5a

1. Most class factors for drivers age 50-74 (first position of Class Code 6) are lower than the comparable adult classes (first position of Class Code 1). The amount of discount varies by age of operator and use of the vehicle.
2. There is an additional 5% discount for drivers over age 55 who have completed a Defensive Driving Course within the last three years.

Response to Item 5c

The Multi-Car Discount is:

20 points (percentage varies by class) on BIPD, MPC, Comprehensive, & Collision coverages
10% on Uninsured and Underinsured Motor Vehicle coverages

Response to Item 5d

The base premiums for bodily injury and property damage liability, medical payments, and collision coverages are reduced if the policy has been in force without any chargeable accidents as follows:

- 15% - for policy in force 3 years without a chargeable accident
- 20% - for policy in force 6 years without a chargeable accident
- 25% - for policy in force 10 years without a chargeable accident

Response to Item 5f

The Multiple Line Discount is the following percent for the following qualifying State Farm policies:

- 5% - on life policies
- 5% - on health policies
- 10% - on manufactured home policies
- 10% - on renter's policies
- 15% - on manufactured home and PLUP policies
- 15% - on renter's and PLUP policies
- 17% - on condominium policies
- 17% - on homeowners or farm/ranch policies
- 22% - on homeowners or farm/ranch and PLUP policies
- 22% - on condominium and PLUP policies

The minimum face value of a life insurance policy that can qualify for this discount is \$5,000.
