**Description of filing:**

The attached filing revises the credit-based Insurance Scoring rating procedures currently used in Allstate Insurance Company for Arkansas Homeowners business. Effective for credit reports ordered on or after March 10, 2008, a new credit-scoring model (entitled ISM 7) will be utilized. This model computes an Insurance Score based on information contained in a credit report.

Therefore, Insurance Score Group cut-off scores and No-Hit scores are being updated to reflect the use of this new model. Also with this filing, there will be a one-time reorder of credit reports at renewal for all policies written prior to March 10, 2008. We are targeting an overall rate level change of 0.0%.

We are targeting an effective date of March 10, 2008, for new business written and renewals processed on or after this date, with renewals effective on or after April 24, 2008.

If you have any questions or concerns regarding this filing, please contact Marilyn Caldwell at (847) 402-2336.

**RE: Arkansas Allstate Insurance Company  
Homeowners (Renters, Condos)  
Company Filing #R19127**

This response addresses the inquiries below concerning the above-captioned filing.

**1. No hits/thin files must be treated as credit neutral. Please identify your neutral rating group.**

Allstate is submitting this information to demonstrate the risk related to insuring consumers who either have no credit information or for which there is insufficient information from which to calculate a score and to support the proposed treatment of customers. We are requesting approval for our proposed treatment of no-hits/thin files consistent with Arkansas statute 23-67-405 section (5) (A).

No hit/no score risks are assigned a specific score which is based upon the loss experience of no hit/no score policies. In other words, the fact that a person does not have a credit report (or has a credit report, but with insufficient information from which to generate a score) provides information about the risk that person represents. Our no hit scores are selected to be commensurate with the risk that these groups present. The updated score and corresponding rating factor reflects the usage of the new ISM7 model. Please see the attached **Exhibit A** for the "no hit" score support.

**2. Pursuant to ACA 23-67-409, the credit scoring model and supporting experience justifying the factors must be filed.**

The ISM7 credit scoring model was filed with filing R16119 (DOI #AR-PC-05-015604, SERFF #SPIN-66IACGIGP/00) on 6/30/2005. No change is being proposed to the current Rating Group factors.

If you have any questions or need additional information, please contact me at (847) 402-XXXX.

Company Filing #R19127**

This response addresses the inquiry below concerning the above-captioned filing.

**You must identify your neutral score in order for us to determine whether the thin file/no hit score is acceptable.**  
The neutral score for Arkansas Allstate Insurance Company is 426 for Renters and 403 for Condo. We define a "neutral" Insurance Score as a score that would rate all risks at their appropriate rate level if we no longer took credit history into account (on our book of business).
