## Binding Authority

All applications are to be submitted within five days of the effective date on the application. There are certain situations that pose such significant risk that binding authority is immediately suspended. These situations include, but are not limited to, the following.

### Earthquake

In the event of an earthquake in excess of 6.0 on the Richter scale, no coverage may be bound on new business or by endorsement to in-force policies for 10 days following the initial shock. A formal written notice will be issued if the moratorium is lifted sooner than or extended beyond 10 days due to continued aftershocks.

### Severe Weather

No coverage may be bound if the National Weather Service has issued a severe weather warning for the area for the duration of the warning. This includes, but is not necessarily limited to, warnings for rain, wind, flood, snow, ice, tornado or hurricane.

### Other Catastrophes

In the event of a natural or man-made catastrophe, no coverage may be bound on new business or by endorsement to in-force policies for five days. This includes, but is not necessarily limited to, such events as fire, windstorm, hail storm, flooding or hurricane.

In addition, we reserve the right to suspend binding authority as we deem appropriate. You will be notified in writing when this has occurred.

## Tier Placement

New Business customers placed in auto's preferred and standard tiers maybe written in our RV (Recreational Vehicles) program.

### New Business

Our rating system determines the best possible tier placement for your customer using available information, including the application, financial responsibility, driving record and loss history.

We do not accept nonstandard risks as new business.

### Renewal Business

Upon renewal, we may review your customer's policy for pricing adequacy. In some rare situations this may result in a premium increase. More commonly, your customer's policy will be reviewed for possible promotion to a better price.

### Credit Scoring

Credit scoring is confirmed for all new business policies where the named insured is 21 years of age or older.

Credit scoring is not confirmed for named insureds under 21 years of age.

In compliance with NCOIL regulations, where state law mandates it, we will automatically re-order the IBS score every three years.

The "Financial Responsibility Score" will be obtained from ChoicePoint.

## RV Types

## RV Program Rules

This section details the types of vehicles permitted in the RV program and the rules for writing these vehicles.

RV includes motor homes, travel trailers, sport travel trailers (includes horse trailers with living/sleeping quarters), fifth wheel trailers, folding camping trailers, truck mounted campers, and utility and horse trailers.

RVs are intended for personal use. Business and commercial activities are not permitted.

RV is written on our Oregon personal auto policy with a six-month term, and may be written without supporting auto or homeowners business.

### Motor Homes

We consider “motor homes” to be self-propelled mobile homes (including pickups or vans with permanently attached living quarters and used for recreational purposes) and provide temporary living quarters.

“Permanently attached living quarters” means: cooking, refrigerator, bathroom with plumbing, self contained

heating and/or cooling, 110-125 electric supply and drinkable water supply.

Motor homes are not eligible for, and do not make other vehicles eligible for, account discount, distant student discount or good student discount. Motor homes that carry liability coverage are not eligible for, but do extend, the multi-car discount to a private passenger auto.

### Damage to Your Covered Vehicle

Comprehensive and collision coverages are rated on the basis of actual cash value/current market value.

### Travel Trailers and Camping Trailers

We consider “trailers” to be non-motorized vehicles that are intended to be towed and used for recreational purposes and are equipped with a living quarters, with the exception of horse and utility trailers.

Only physical damage coverage (comprehensive, collision or both) is available for trailers.

### **Liability Coverages**

When private passenger autos, pickups and vans are insured for liability coverages, these coverages automatically extend to any trailer designed for use with such vehicles.

Travel trailers can be written with us when the towing vehicle is written with a different insurance carrier.

### **Damage to Your Covered Vehicle**

Comprehensive and collision coverages are rated on the basis of actual cash value/current market value.

## **Truck Campers**

We consider “campers” to be slide-in camper bodies transported by a pickup truck and equipped with sleeping or living quarters. Use of campers are intended for recreational purposes only.

Slide-in (portable) campers equipped with sleeping or living quarters must be rated separately as a “camper” body style. Entering the vehicle identification number (VIN), “other” as the make and “slide-in camper” as the model correctly identifies the camper for the

declarations. Comprehensive and collision coverages are rated on the basis of the campers’ original cost new.

Pickup trucks used to transport a slide-in camper are rated separately as a private passenger auto. Please refer to our auto product guide for details.

### **Damage to Your Covered Vehicle**

Comprehensive and collision coverages are rated on the basis of actual cash value/current market value.

## **Horse and Utility Trailers**

We consider “horse and utility trailers” to be non-motorized vehicles that are intended to be towed and used to carry horses or personal belongings.

Horse and utility trailers with a living quarters must be written as a sport travel trailer.

### **Damage to Your Covered Vehicle**

Comprehensive and collision coverages are rated on the basis of actual cash value/current market value.

## Verification

Verification of prior insurance and home ownership are required.

When a policy has been selected for verification, you will receive a screen message instructing you to print the fax verification sheet as part of the print package. Complete the form and **fax** it to us (Safeco) along with any requested documents.

Please **fax** these items immediately whenever possible. If verification is not received within 20 calendar days of the request or 42 days after policy inception, whichever is sooner, we will re-rate the policy accordingly.

### Prior Insurance Coverage and Limits

Our rating system will prompt you for the carrier name and liability limits of the named insured's prior auto insurance policy. This information is required and will be verified at random.

### Prior Auto Insurance Proof

Acceptable verification documents include a declarations page, a cancel/nonrenewal notice, a printout from an agency management system, or an Identification (ID) Card.

Any of these items must include the named insured and most recent term with expiration date and previous liability limits. The named insured on the new Safeco policy must be the named insured or a listed driver on the prior policy. ID cards will be considered at minimum limits if the liability limits are not displayed. Any proof not showing the named insured, a 6-month policy term and liability limits may cause the policy to be re-rated. Documentation of an acceptable reason for not having prior insurance may also be considered on an exception basis.

## Home Ownership

Our rating system will prompt you for the residence type of the named insured. This information is required and will be verified at random.

Acceptable verification documents include:

- Active Safeco homeowners policy number
- Company-issued homeowners declaration page
- Printouts of homeowners coverage from an agency management system
- Deed
- Mortgage coupon
- Property tax record

Any of these items must include the named insured.

## File Maintenance and Audit Requirements

You are required to maintain relevant documentation for a period of seven years after policy expiration.

These documents include, but are not limited to:

- Original signed application
- SR-22 filings
- Signed electronic funds transfer (EFT) forms
- Signed credit card authorization
- Proof of special equipment
- Signed exclusion form listing all persons excluded from coverage
- Signed uninsured motorists selection/rejection form
- Proof of not-at-fault accidents
- Proof of home ownership
- Verification of accident prevention course
- Pre-insurance inspection and accompanying documents including any required photos
- Signed personal injury protection selection/rejection form

## Vehicle Eligibility

### Garaging Address

Entering the address where the RV is principally garaged will allow the system to automatically assign the proper territory and rating factor.

### Inspections

Vehicle inspections should take place for all vehicles when physical damage coverage is added to the policy. Any pre-existing damage should be noted and kept with the application information.

Additional inspections may be requested at our discretion.

### Photographs and Valuation

#### Photographs

Good quality, recent photographs should be taken of any RV with physical damage coverage. If special equipment is listed, photos of the item(s) should be taken as well. Agents will keep the required photos in their customer's file for submission to us (Safeco) upon request.

#### Valuation

In the Cost New/ACV field of Quote & Issue, enter the current market value of the vehicle. If the vehicle is current model year, enter the cost new value.

Proper value documentation should be collected on all motor homes with a cost new valued at more than \$250,000 and trailer types with a cost new valued at more than \$75,000. Safeco reserves the right to request qualified appraisals on any vehicle written in the RV program.

Agents will keep the required appraisals in their customer's file for submission to us (Safeco) upon request.

#### Model Year

The model year is determined by the vehicle's original manufacturer. If the vehicle is rebuilt or structurally altered, the model year of the chassis/frame determines the model year of the vehicle.

## Ineligible Vehicles

The following is a list of ineligible vehicles:

- Motor homes with a rating base in excess of \$750,000
- Travel trailers with a rating base in excess of \$300,000
- Vehicles principally garaged or stored in Delaware, Hawaii, Maine, Massachusetts, New Jersey, Rhode Island, District of Columbia, Canada, Mexico or Puerto Rico (“principally garaged” is defined as at least six months in a given state or location)
- Converted school buses
- RVs that have previously been in an accident and have not been repaired, and RVs that have previously been deemed to be a total loss.
- Mobile homes, park models or RVs that are tied down or stationary, RVs on blocks or RVs with permanently attached utility connections or other structures.
- Vehicles used for:
  - Racing or speed tests
  - Pick-up or delivery of goods
  - Limousine or taxi service
  - Emergency services
- Motor homes that are the only vehicle in the household
- RVs used as a primary residence (more than 150 days annually)
- RVs driven or towed to and from work or work locations (including touring entertainers, construction workers, race car drivers, etc.)
- New business physical damage only coverage on motor homes
- RVs leased or rented to others
- Any vehicle on a consignment lot
- RVs with more than two owners

- RVs that are parked on commercial sites including construction areas
- RVs with permanently attached external cooking or grilling structures
- RVs used for any business or commercial use including incidental activities

## Driver Eligibility

### Driver Classification

Drivers are classified by age, sex and marital status.

Age means the age of the driver as of the term effective date.

#### Driver Marital Status

Single means an operator who is not legally married, including single, widowed, separated, divorced or in a domestic partner relationship.

Married means an operator who meets the local statutory definition of married.

### Driver-Vehicle Assignment

The driver that principally operates the recreational vehicle should be assigned to that vehicle within our rating system. Rates for these vehicles will be calculated independently of any vehicles on the policy and the average driver factor will not apply to recreational vehicles.

### Household Members

#### Monoline Business

If you write a RV monoline/stand alone, list only those drivers of the vehicle. Household members who do not drive the vehicle do not need to be listed. You may enter their names and ages in the “Remarks” section of the application. If you write a regular use, private passenger auto policy and cross-reference a monoline RV policy, list only those drivers on the RV policy who drive the RV, not all the household drivers.

#### Account Business

If you write a RV on the same policy as a regular use, private passenger auto, you must list all drivers of the household. This is a requirement when writing a private passenger auto. You may avoid listing all household drivers for a RV by writing this vehicle on its own policy and cross-referencing it.

## Driver Exclusions

The named insured may not be excluded on a policy for a RV.

No more than two driver exclusions are permitted per policy.

Drivers excluded on a private passenger auto will also be excluded on a RV when written on the same policy.

Drivers excluded on a private passenger auto policy, must also be excluded on a monoline RV policy.

Safeco may require a driver exclusion for an unacceptable driver risk in order for the RV to be written with the company.

Exclusions must be signed by a named insured, 18 years of age or older.

Driver exclusion forms are available in the [Policy Forms Viewer](#) on our Web site.

## Ineligible Drivers

The following drivers are ineligible for insurance:

- Drivers without a current, valid U.S. driver's license
- Drivers without a specific, in-state garaging address
- Drivers who are not permanent residents (10-month intended stay) of the rating state
- Drivers with permanently suspended or revoked licenses
- Drivers who have been convicted of insurance fraud
- Risks requiring any financial responsibility filing
- Persons employed in illegal enterprises and occupations
- Persons employed in occupations involving the use of an insured vehicle by nonresident non dependent operators
- Drivers who have had a policy canceled by us for loss experience or misrepresentation

- Drivers without a means of daily transportation other than vehicles we insure in Safeco's Recreational Vehicle Program
- Principle owners and operators with less than 10 years driving experience

## Driving History

Drivers not meeting the driving history shown below are not eligible for the RV program.

## Driving Record

### Accidents, Convictions and Claims

When determining the appropriate market tier for your customer's policy, we will consider driving and claims activity up to five years as stipulated below. After determining the appropriate market tier, the experience period for charging convictions or at-fault-accident points is three years prior to the effective date of the policy.

Please stress the importance of full disclosure to avoid additional premium or policy cancellation. Any unrevealed driving activity will be added to the driving record and the policy will be re-rated accordingly.

The following driving record and claims activity must be shown on the application:

- Minor convictions which have occurred in the past three years
- Major convictions which have occurred in the past five years which include, but are not limited to:
  - Driving under the influence
  - Open container violation
  - Vehicle theft or felony of a vehicle
  - Careless or improper operation of a vehicle
  - Drag racing
  - Driving under suspension; excludes suspensions which are not related to owning or operating a motor vehicle such as failure to appear, failure to pay:
    - Fine

    - Child support
    - Taxes
    - Real estate license
    - Hunting license

- Fleeing from police

  - Include at-fault accidents, not-at-fault accidents and comprehensive losses
  - Exclude towing losses
  - Exclude not-at-fault losses where the only payment was for personal injury protection or medical payment losses for the vehicle owner or other operator residing in the same household

All driving record and claims activity listed above must be shown on the application. Comprehensive Loss Underwriting Exchange (CLUE) reports and motor vehicle records (MVRs) will be utilized to verify the information provided. Point charges are based on the conviction date and, when multiple points are applicable

to one occurrence, only the accident or conviction with the highest points will receive a merit surcharge.

### **At-Fault Accidents**

At-Fault accidents which result in property damage totaling \$750 or more or any bodily injury result in a chargeable incident. At-fault accidents beneath these thresholds are not charged as an incident.

- The vehicle was lawfully parked at the time of the accident

## Policy Changes

### Endorsements/Changes on Policies

Additional coverage will be afforded by endorsement and will run concurrently with the policy term. The addition of coverage will not alter the premium due date of the term during which the additional coverage is attached or affect the premium due date of the policy term.

When additional coverage is added the rate for the added coverage will be prorated for the number of days the added coverage is to run from its effective date to the next ensuing premium due date.

If the policy has already been billed for the next term when the endorsement is processed the charge for the additional coverage will be computed from the effective date of the change to the end of the next term.

The policy coverage as written is automatically renewable on the premium due date for successive periods by payment of required premiums.

### Fifth-vehicle Policies

Fifth-vehicle policies are input by a company operator. Please contact **customer care** for assistance.

### Split Policies

A policy will need to be “split” when one of the insureds on a policy needs to be written on their own separate policy. The newly written policy should be input by you into the quote and issue system. Our system will automatically determine the appropriate customer since date for your customer on the newly written policy.

## Cancellation and Continuing with a Lapse

### Cancellation

All cancellations, regardless of whether they are initiated by us or your customer, are calculated on a pro rata basis.

### Continuing with a Lapse

If a payment is postmarked or is received by us within 60 days of the cancellation, a policy may be eligible to continue with a lapse in coverage.

The new term begin date will be effective the time and day you receive the money and bind the coverage or the day after the postmark, whichever is earlier.

### Waiver of Returned Premium

We will compute any additional or return premium pro rata. Additional or return premium of \$3 or less will be waived.

If additional premium is due, we will bill your customer with instructions to pay the additional premium directly to us. Return premium checks will be issued by us and sent to your customer.

### Policy Term

Policies are issued with a six-month term.

No coverage may be bound if the National Weather Service has issued a severe weather warning for the area for the duration of the warning. This includes, but is not necessarily limited to, warnings for rain, wind, flood, snow, ice, tornado or hurricane.

### Other Catastrophes

In the event of a natural or man-made catastrophe, no coverage may be bound on new business or by endorsement to in-force policies for five days. This includes, but is not necessarily limited to, such events as fire, windstorm, hail storm, flooding or hurricane.

In addition, we reserve the right to suspend binding authority as we deem appropriate. You will be notified in writing when this has occurred.

## ~~Tier Placement~~

~~Customers placed in our preferred and standard tiers may be written in our recreational vehicle program.~~

## **New Business**

Our rating system determines the best possible tier placement for your customer using available information, including the application, ~~financial responsibility, driving record and loss history.~~

## ~~Renewal Business~~

~~(Effective ND: 08/03/06 RB: 09/07/06)~~

~~Upon renewal, we may review your customer's policy for pricing adequacy. In some rare situations this may result in a premium increase. More commonly, your customer's policy will be reviewed for possible promotion to a better price.~~

### **Standard**

~~Standard product customers may receive a lower rate at each renewal period if they remain free of additional chargeable accidents and violations.~~

## Tier Placement

Our Classic Car program is open to preferred and standard new business customers.

Nonstandard business is not permitted in the Classic Car program.

## **New Business**

Our rating system determines the best possible tier placement for your customer using available information, including the application, driving record and loss history.

## Renewal Business

Upon renewal, we will review your customer's policy for pricing adequacy. In some rare situations this may result in a premium increase. More commonly, your customer's policy will be reviewed for possible promotion to a better price.

## **Credit Scoring**

Credit scoring is confirmed for all new business policies where the named insured is 21 years of age or older. Credit scoring is not confirmed for named insureds under 21 years of age.

In compliance with NCOIL regulations, where state law mandates it, we will automatically re-order the IBS score every three years.

The "Financial Responsibility Score" will be obtained from ChoicePoint.

## Recreational Vehicles

This section defines the various kinds of recreational vehicles and the insurance restrictions for each.

Recreational vehicles, including motor homes, travel trailers, antique autos and classic cars, are accepted for coverage without supporting auto or homeowners business. All vehicles are written on our Arkansas personal auto policy with a six-month term.

### Motor Homes

We consider "motor homes" to be self-propelled mobile homes (including pickups or vans with permanently attached living quarters) not used in the occupation, profession or business of your customer.

#### Damage to Your Covered Vehicle

Comprehensive and collision coverages are rated on the basis of the original cost new.

Motor homes are not eligible for, and do not make other vehicles eligible for, account discount, distant student discount or good student discount. Motor homes that carry liability coverage are not eligible for, but do

extend, the multi-car discount to a private passenger auto.

### Travel Trailers and Camping Trailers

We consider "trailers" to be travel trailers and camping trailers equipped as living quarters as well as horse trailers and utility trailers.

Only physical damage coverage (comprehensive, collision or both) is available for trailers.

#### Liability Coverages

When private passenger autos, pickups and vans are insured for liability coverages, these coverages automatically extend to any trailer designed for use with such vehicles.

Travel trailers can be written with us when the towing vehicle is written with a different insurance carrier.

## Program Rules

Classic car means antiques, classic cars (restricted and regular use), modified collector cars, modern classics, replicas and restoration vehicles.

The age of antique and classic cars is determined by subtracting the model year from the current year.

Supporting auto or home is not required to write a vehicle in the Classic Car program.

Physical damage coverage is required in this program and it is written on an agreed value basis. A minimum of Comprehensive coverage is required.

Vehicles rated as Antique and Restricted Use are typically driven about 2,500 miles annually or 2 to 3 days per week. Owners of these vehicles will have another vehicle for regular, daily use.

Because the value of a classic car (does not include vehicles written as an antique) probably will increase, the agreed value is automatically increased 2.5 percent at each six-month renewal date. It is your customer's

responsibility to adjust (up or down) the agreed value to accurately reflect changes to it's value. This automatic adjustment does not apply to antique autos.

Classic Car liability limits must equal the regular use personal auto liability limits for all vehicles insured with Safeco, regardless if they are written on separate policies. If the personal auto is written with a carrier other Safeco, the classic car liability limits may equal or be less than the other carrier's limits.

The Classic Car program is written on our Oregon personal auto policy with a six-month term.

Agents writing a Classic Car collection should contact Safeco Underwriting for assistance.

## Stock or Modified

### Stock Vehicle

This vehicle is not altered or modified in any way that substantially changes its original production performance or appearance. A vehicle restored to its

~~**Damage to Your Covered Vehicle**~~~~Comprehensive and collision coverages are rated on the basis of the original cost new.~~~~**Classic Cars**~~~~**Definitions**~~~~For rating purposes, classic cars are of two kinds: restricted use and regular use.~~~~**Modified Collector Vehicles**~~~~A modified collector vehicle is defined as any vehicle that has been altered to significantly enhance performance, increase the value or change the appearance of the original stock vehicle. Examples of modifications include but are not limited to:~~

- ~~• Raised suspension~~
- ~~• Chopped top~~
- ~~• Different engine~~
- ~~• Custom paint job~~
- ~~• Lift kit~~

- ~~• Roll bar~~
- ~~• Custom upholstery~~
- ~~• Different interior~~

~~Modified collector vehicles must be classified as either a restricted or regular use classic car. These vehicles must comply with the classic car usage and photo/appraisal sections as well as complying with the vehicle and driver eligibility sections in this product guide.~~~~**Restricted Use**~~~~Premiums for restricted use classic cars are highly discounted and are based on the vehicle's age, its very limited use and other characteristics according to all of the following restrictions:~~

- ~~• Aged 10 years old or older~~
- ~~• Driven 2,500 miles or less per year~~
- ~~• Not used, except infrequently, for purposes other than exhibition, collections, club activities, parades or other functions of public interest such activities or functions do not include any activities or functions excluded in the following two provisions~~

original design is considered a stock vehicle. Updates to brakes, suspension, battery/electrical system, etc. are permitted as long as they do not significantly alter the original design.

### Modified/Altered Vehicles

This is a vehicle that has been modified/alterd in ways that increases its performance or substantially changes its appearance from its original production design. Examples are: increase in engine horsepower, extensive interior/exterior/suspension modifications, roll cage, etc.

### Antique Autos

An antique auto means a private passenger or truck type vehicle that is considered stock and is at least 25 years old.

The following rules apply to antique autos:

- Antique autos that have been modified are considered modified collector and should be written in the classic restricted use program.

- Vehicles rated as Antique are for limited use only. See Program Rules.
- Not used for any delivery, business or commercial use, including incidental activities
- Not driven to or from work or school more than one day per week
- Not driven in races, rallies or in similar activities, or in any kind of speed or timed test
- Must be stored in an enclosed, locking garage or storage facility
- May not be the only or primary vehicle in the household or a substitute vehicle for the household

Antique autos are classified AA for all coverages. They are not eligible for, and do not make other vehicles eligible for, any discounts not state mandated.

### Classic Restricted Use

A restricted use classic car means a private passenger or truck type vehicle that has not been mechanically or cosmetically altered from the original production model and is 10 to 24 years old.

- Not driven to or from work or school or in business
- Not driven in races, rallies or in similar activities or in any kind of speed or timed contest

Vehicles meeting the above criteria typically will be in the following or similar categories: classic, "vintage," special interest and "collectible" cars; hot rods, street rods or customs; cars primarily used in parades, exhibits and similar activities; replica cars; cars being restored or renovated; cars in storage (not driven or driven infrequently).

Restricted use classic cars are not classification rated, are not subject to any surcharges and are not eligible for, and do not make other vehicles eligible for, any discounts.

### Regular Use

A regular use classic car must meet the following restrictions:

- Aged 10 years old or older
- Not used for any business or commercial use, including incidental activities

- Not driven in races, rallies or in similar activities or in any kind of speed or timed contest

Vehicles meeting the above criteria typically will be in the following similar categories: classic, "vintage," special interest and "collectible" cars; hot rods, street rods or customs; cars primarily used in parades, exhibits and similar activities; replica cars; cars being restored or renovated; cars in storage (not driven or driven infrequently).

### Comprehensive and Collision Coverages

As used in relation to the determination of comprehensive and collision premiums, "current model year" means this year if coverage is bound between January 1 and September 30, and next year if coverage is bound between October 1 and December 31.

Comprehensive and collision coverages are written using an agreed value only. The agreed value amount, rather than a rating symbol, will appear in the declarations. Any depreciation of the value due to unavailability of any part of the vehicle does not constitute loss.

For purposes of rating, modified antique autos and modified collector cars must be rated as classic restricted use if not a classic regular use vehicle.

The following rules apply to restricted use classic cars:

- Vehicles rated as Antique are for limited use only. See Program Rules.
- Maintained primarily for limited pleasure use and only rarely driven to work or school
- Primarily used in parades, exhibits and similar activities
- Not used for any delivery, business or commercial use, including incidental activities
- Must be stored in an enclosed, locking garage or storage facility
- Not driven in races, rallies or in similar activities or in any kind of speed or timed contest
- May not be the only vehicle, a primary vehicle, or a substitute vehicle for the household

Classic restricted use vehicles are not classification rated, are not subject to any surcharges and are not eligible for, and do not make other vehicles eligible for, any discounts.

## Modified Collector Cars

A modified collector car means restricted use classic car or antique auto that has been mechanically or cosmetically altered from the original production model and is at least 10 years old.

The following rules apply to vehicles rated as modified collector car:

- Vehicles rated as Antique are for limited use only. See Program Rules.
- Maintained primarily for pleasure use and primarily used in parades, exhibits and similar activities
- Must be stored in an enclosed, locking garage or storage facility
- Not used for any delivery, business or commercial use, including incidental activities

~~Because the value of a classic car probably will increase, the agreed value will automatically be increased 2.5 percent at each six-month renewal date. It is your customer's responsibility to adjust (up or down) the agreed value to accurately reflect changes to its value.~~

~~On those policy renewal dates first falling after September 30 of each year, comprehensive and collision rates will change automatically to those of the current model year, regardless of the vehicle's actual model year.~~

### ~~Antique Autos~~

~~A private passenger auto, 25 years old or older, is eligible to be written as an antique auto if it meets all of the following criteria:~~

- ~~• Maintained primarily for use in exhibitions, club activities, parades or other functions of public interest and only occasionally used for pleasure~~
- ~~• Not used for any business or commercial use, including incidental activities~~

- ~~• Not driven to or from work or school, or in business~~
- ~~• Not driven in races, rallies or in similar activities, or in any kind of speed or timed test~~
- ~~• Not altered or modified, that is, no hot rods, street rods, "funny" cars, customized show cars or similar vehicles, unless prior authorization is obtained from us~~

### ~~*Comprehensive and Collision Coverages*~~

~~Comprehensive and collision coverages are written on an agreed value basis. This amount should be the full actual cash value of the vehicle at the time insurance is purchased. When the value of the vehicle changes, the policy limits should be adjusted accordingly.~~

~~Antique autos are classified AA for all coverages. They are not eligible for, and do not make other vehicles eligible for, any discounts not state mandated.~~

~~An antique auto is 25 years old when the year in which the policy is being written minus the model year of the vehicle equals 25 or more.~~

- May not be the only vehicle, a primary vehicle, or a substitute vehicle for the household
- May be occasionally driven to work or school. Occasional means one or two days per week

Modified collector cars must be rated as classic restricted use unless the vehicle is used on a regular basis. If the vehicle is a regular use modified collector car, the vehicle must be rated as regular use classic car.

## Restoration Vehicles (Active)

Vehicles under active restoration may be written in the Classic Car program.

Vehicles must meet the eligibility rules as outlined in the Antique or Classic Restricted sections.

Vehicles must be about 50 percent restored to be eligible.

The insured value should reflect the current restored condition, not the future value of the fully restored vehicle.

All vehicles under active restoration must be rated as Classic Restricted. Once the vehicle is restored, it should be rated as the proper vehicle type in the Classic Car program.

## Replicas

A replica is reproduction of an automaker's vehicle that is no longer in production.

All replicas must be professionally manufactured or assembled. Home-built Kit cars do not qualify as a replica type vehicle.

Replicas are considered modified and must be rated as classic restricted use.

Restricted use classic car rules apply to all replicas. See Classic Restricted Use for details.

## Classic Regular Use

A regular use classic car means a private passenger or truck type vehicle, driven on a regular basis and is 10 to 24 years old.

## ~~Campers~~

~~(Amended: 10/06/05)~~

~~We consider “campers” to be slide-in camper bodies transported by a pickup truck and equipped with sleeping or living quarters.~~

~~Slide-in (portable) campers equipped with sleeping or living quarters must be rated separately as a “camper” body style. Entering the vehicle identification number (VIN), “other” as the make and “slide-in camper” as the model correctly identifies the camper for the declarations. Comprehensive and collision coverages are rated on the basis of the campers’ original cost new.~~

~~Pickup trucks used to transport a slide-in camper are rated separately as a private passenger auto. Please refer to our auto product guide for details.~~

The following rules apply to regular use classic cars:

- Not used for any delivery, business or commercial use, including incidental activities
- Not driven in races, rallies or in similar activities or in any kind of speed or timed contest
- Must be stored in an enclosed, locking garage or storage facility

Vehicles meeting the above criteria typically will be in the following similar categories: classic, “vintage,” special interest and “collectible” cars; hot rods, street rods or customized vehicles.

Physical damage coverage is written using agreed value. The agreed value amount, rather than a rating symbol, will appear in the declarations. Any depreciation of the value due to unavailability of any part of the vehicle does not constitute loss.

## Policy Changes

### Endorsements/Changes on Policies

Additional coverage will be afforded by endorsement and will run concurrently with the policy term. The addition of coverage will not alter the premium due date of the term during which the additional coverage is attached or affect the premium due date of the policy term.

When additional coverage is added the rate for the added coverage will be prorated for the number of days the added coverage is to run from its effective date to the next ensuing premium due date.

If the policy has already been billed for the next term when the endorsement is processed the charge for the additional coverage will be computed from the effective date of the change to the end of the next term.

The policy coverage as written is automatically renewable on the premium due date for successive periods by payment of required premiums.

### Fifth-vehicle Policies

Fifth-vehicle policies are input by a company operator. Please contact [customer care](#) for assistance.

### Split Policies

A policy will need to be “split” when one of the insureds on a policy needs to be written on their own separate policy. The newly written policy should be input by you into the quote and issue system. Our system will automatically determine the appropriate customer since date for your customer on the newly written policy.
