CARE IMPROVEMENT PLUS SOUTH CENTRAL INSURANCE COMPANY

NOTES TO STATUTORY BASIS FINANCIAL STATEMENTS
AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GOING CONCERN

Organization and Operation

Care Improvement Plus South Central Insurance Company (the "Company"), licensed as an accident and health insurer (limited to Medicare only products), offers its enrollees a variety of managed care programs and products through contractual arrangements with health care providers. The Company is a wholly owned subsidiary of XLHealth Corporation ("XLHealth"). XLHealth is a wholly owned subsidiary of United HealthCare Services, Inc. ("UHS"), a health maintenance organization ("HMO") management corporation that provides services to the Company under the terms of a management agreement. UHS is a wholly owned subsidiary of UnitedHealth Group Incorporated ("UnitedHealth Group"). UnitedHealth Group is a publicly held company trading on the New York Stock Exchange.

The Company was incorporated on January 13, 2006, as an accident and health insurer (limited to Medicare only products) in Arkansas and operations commenced in January 2007. The Company is certified as an accident and health insurer in 25 states, several certificates limiting the Company to health or Medicare business only. The Company has entered into contracts with physicians, hospitals, and other health care provider organizations to deliver health care services for all enrollees.

The Company serves as a plan sponsor offering Medicare Advantage and Medicare Part D prescription drug insurance coverage ("Medicare Part D program") under a contract with the Centers for Medicare and Medicaid Services ("CMS"). Under the Medicare Part D program, there are seven separate elements of payment received by the Company either during the year or at settlement in the subsequent year. These payment elements are CMS premium, member premium, CMS low-income premium subsidy, CMS catastrophic reinsurance subsidy, CMS low-income member cost-sharing subsidy, CMS risk share, and the CMS coverage gap discount program ("CGDP"). Each component of the Medicare Part D program is further defined throughout Note 1.

Effective December 2014, the Company began offering accident indemnity insurance policies in the state of Georgia.

A. Accounting Practices

The statutory basis financial statements of the Company are presented on the basis of accounting practices prescribed and permitted by the Arkansas Insurance Department (the "Department").

The Department recognizes only statutory accounting practices, prescribed and permitted by the State of Arkansas, for determining and reporting the financial condition and results of operations of a life, accident, and health insurer, for determining its solvency under Arkansas Insurance Law. The state prescribes the use of the National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures manual ("NAIC SAP") in effect for the accounting periods covered in the statutory basis financial statements.

No significant differences exist between the practices prescribed and permitted by the State of Arkansas and those prescribed and permitted by the NAIC SAP which materially affect the statutory basis net income and capital and surplus, as illustrated in the table below:

	State of Domicile	2015	2014
Net Income			
(1) Company state basis	Arkansas	\$ 35,337,296	\$ 77,967,046
(2) State prescribed practices that increase/(decrease) NAIC SAP: None	Arkansas	-	-
(3) State permitted practices that increase/(decrease) NAIC SAP: None	Arkansas	-	-
(4) NAIC SAP (1 - 2 - 3 = 4)	Arkansas	\$ 35,337,296	\$ 77,967,046
Capital and Surplus			
(5) Company state basis	Arkansas	\$ 315,151,737	\$ 348,584,843
(6) State prescribed practices that increase/(decrease) NAIC SAP: None	Arkansas	-	-
(7) State permitted practices that increase/(decrease) NAIC SAP: None	Arkansas	-	-
(8) NAIC SAP (5 - 6 - 7 = 8)	Arkansas	\$ 315,151,737	\$ 348,584,843

B. Use of Estimates in the Preparation of the Statutory Basis Financial Statements

The preparation of these statutory basis financial statements in conformity with the NAIC Annual Statement Instructions and the NAIC SAP include certain amounts that are based on the Company's estimates and judgments. These estimates require the Company to apply complex assumptions and judgments, often because the Company must make estimates about the effects of matters that are inherently uncertain and will change in subsequent periods. The most significant estimates relate to hospital and medical benefits, claims unpaid, and aggregate health policy reserves and aggregate health claim reserves (collectively known as "aggregate health reserves"). The Company adjusts these estimates each period as more current information becomes available. The impact of any changes in estimates is included in the determination of net income in the period in which the estimate is adjusted.

C. Accounting Policy

Basis of Presentation — The Company prepares its statutory basis financial statements on the basis of accounting practices prescribed and permitted by the Department. These statutory practices differ from accounting principles generally accepted in the United States of America ("GAAP").

Accounting policy disclosures that are required by the NAIC Annual Statement instructions are as follows:

- (1–2) Bonds and short-term investments are stated at amortized cost if they meet NAIC designation of one or two and stated at the lower of amortized cost or fair value if they meet an NAIC designation of three or higher. Amortization of bond premium or accretion of discount is calculated using the constant-yield interest method. Bonds and short-term investments are valued and reported using market prices published by the Securities Valuation Office of the NAIC ("SVO") in accordance with the NAIC Valuations of Securities manual prepared by the SVO or an external pricing service;
- (3–4) The Company holds no common or preferred stock;
- (5) The Company holds no mortgage loans on real estate;
- (6) U.S. government and agency securities and corporate debt securities include loan-backed securities (mortgage-backed securities and asset-backed securities), which are valued using the retrospective adjustment methodology. Prepayment assumptions for the determination of the amortized cost of loan-backed securities are based on a three-month constant prepayment rate history obtained from external data source vendors. The Company's investment policy limits investments in nonagency residential mortgage-backed securities, including home equity and sub-prime mortgages, to 10% of total cash and invested assets. Total combined investments in mortgage-backed securities or asset-backed securities cannot exceed more than 30% of total cash and invested assets;
- (7) The Company holds no investments in subsidiaries, controlled, or affiliated entities;
- (8) The Company has no investment interests with respect to joint ventures, partnerships, or limited liability companies;
- (9) The Company holds no derivatives;
- (10) Premium deficiency reserves and the related expenses are recognized when it is probable that expected future health care expenses, claims adjustment expenses ("CAE"), direct administration costs, and an allocation of indirect administration costs under a group of existing contracts will exceed anticipated future premiums and reinsurance recoveries considered over the remaining lives of the contracts, and are recorded as aggregate health policy reserves in the statutory basis statements of admitted assets, liabilities, and capital and surplus. Indirect administration costs arise from activities that are not specifically identifiable to a specific group of existing contracts, and therefore, those costs are fully allocated among the various contract groupings. The allocation of indirect administration costs to each contract grouping is made proportionately to the expected margins remaining in the premiums after future health care expenses, CAE, and direct administration costs are considered. The methods for making such estimates and for establishing the resulting reserves are periodically reviewed and updated, and any adjustments are reflected as an increase or decrease in reserves for accident and health contracts in the statutory basis statements of operations in the period in which the change in estimate is identified. The Company anticipates investment income as a factor in the premium deficiency calculation (see Note 30);

- (11) CAE are those costs expected to be incurred in connection with the adjustment and recording of accident and health claims. Pursuant to the terms of the management agreement (see Note 10), the Company pays a management fee to its affiliate, UHS, in exchange for administrative and management services. A detailed review of the administrative expenses of the Company and the service providers is performed to determine the allocation between claims adjustment expenses and general administrative expenses to be reported in the statutory basis statement of operations. It is the responsibility of UHS to pay CAE in the event the Company ceases operations. The Company has recorded an estimate of unpaid claims adjustment expenses associated with incurred but unpaid claims, which is included in unpaid claims adjustment expenses in the statutory basis statements of admitted assets, liabilities, and capital and surplus. Management believes the amount of the liability for unpaid claims adjustment expenses as of December 31, 2015 is adequate to cover the Company's cost for the adjustment and recording of unpaid claims; however, actual expenses may differ from those established estimates. Adjustments to the estimates for unpaid claims adjustment expenses are reflected in operating results in the period in which the change in estimate is identified;
- (12) The Company does not carry any fixed assets on the statutory basis financial statements;
- (13) Health care receivable consists of pharmacy rebates receivable estimated based on the most currently available data from the Company's claims processing systems and from data provided by the Company's affiliated pharmaceutical benefit manager, OptumRx, Inc. ("OptumRx"). Health care receivables also includes provider recoveries. Provider recoveries consist of claim overpayments to providers which are due back Company. Health care receivable are considered nonadmitted assets under NAIC SAP if they do not meet admissibility requirements. Accordingly, the Company has excluded receivables that do not meet the admissibility criteria from the statutory basis statements of admitted assets, liabilities, and capital and surplus (see Note 28).

The Company has also deemed the following to be significant accounting policies and/or differences between statutory practices and GAAP:

ASSETS

Cash and Invested Assets

- Bonds include U.S. government and agency securities, state and agency municipal securities, city and county municipal securities, and corporate debt securities, with a maturity of greater than one year at the time of purchase;
- Certain debt investments categorized as available-for-sale or held-to-maturity under GAAP are presented at the lower of amortized cost or fair value in accordance with the NAIC in the statutory basis financial statements, whereas under GAAP, these investments are shown at fair value or amortized cost, respectively;
- Cash, cash overdrafts and short-term investments in the statutory basis financial statements represent cash balances and investments with original maturities of one year or less from the time of acquisition, whereas under GAAP, the corresponding caption of cash, cash equivalents, and short-term investments includes cash balances and investments that will mature in one year or less from the balance sheet date;
- Cash represents cash held by the Company in disbursement accounts. Claims and other payments are made from the disbursement accounts daily. Cash overdrafts are a result of timing differences in funding disbursement accounts for claims payments;
- Outstanding checks are required to be netted against cash balances or presented as cash overdrafts if in excess of cash balances in the statutory basis statements of admitted assets, liabilities, and capital and surplus as opposed to being presented as other liabilities under GAAP;
- Short-term investments represent money-market funds, with a maturity of greater than three months but less than one year at the time of purchase;
- Realized capital gains and losses on sales of investments are calculated based upon specific identification of the investments sold. These gains and losses are reported as net realized capital gains less capital gains tax in the statutory basis statements of operations;

- The Company continually monitors the difference between amortized cost and estimated fair value of its investments. If any of the Company's investments experience a decline in value that the Company has determined is other-than-temporary, or if the Company has determined it will sell a security that is in an impaired status, the Company will record a realized loss in net realized capital gains less capital gains tax in the statutory basis statements of operations. The new cost basis is not changed for subsequent recoveries in fair value. The prospective adjustment method is utilized for loan-backed securities for periods subsequent to the loss recognition. The Company recognized an other-than-temporary impairment ("OTTI") of \$321,495 and \$0 for the years ended December 31, 2015 and 2014, respectively;
- The statutory basis statements of cash flows reconcile cash, cash overdrafts and short-term investments with original maturities of one year or less from the time of acquisition; whereas under GAAP, the statements of cash flows reconcile the corresponding captions of cash and cash equivalents with maturities of three months or less. Short-term investments with a final maturity of one year or less from the balance sheet date are not included in the reconciliation of GAAP cash flows. The statutory basis statements of cash flow are prepared in accordance with the NAIC Annual Statement Instructions.

Other Assets

- **Investment Income Due and Accrued** — Investment income earned and due as of the reporting date, in addition to investment income earned but not paid or collected until subsequent periods, is reported as investment income due and accrued in the statutory basis statements of admitted assets, liabilities, and capital and surplus. The Company evaluates the collectability of the amounts due and amounts determined to be uncollectible are written off in the period in which the determination is made.
- **Premiums and Considerations** — The Company reports uncollected premium balances from its insured members as premiums and considerations in the statutory basis statements of admitted assets, liabilities, and capital and surplus. Uncollected premium balances that are over 90 days past due, with the exception of amounts due from government insured plans, are considered nonadmitted assets. In addition to those balances, current balances are also considered nonadmitted if the corresponding balance greater than 90 days past due is deemed more than inconsequential. Premiums and considerations also include CMS risk adjustment receivables. The risk adjustment model apportions premiums paid to all health plans according to the health severity and certain demographic factors of its enrollees. The CMS risk adjustment model pays more for members whose medical history indicates they have certain medical conditions. Under this risk adjustment methodology, CMS calculates the risk-adjusted premium payment using diagnosis data from hospital inpatient, hospital outpatient, and physician treatment settings. The Company and health care providers collect, capture, and submit the necessary and available diagnosis data to CMS within prescribed deadlines. The Company estimates risk adjustment revenues based upon the diagnosis data submitted and expected to be submitted to CMS. The Company recognizes such changes when the amounts become determinable and supportable and collectability is reasonably assured. Premium adjustments for the CMS risk adjustment program are accounted for as premium adjustments subject to redetermination (see Note 24).
- **Amounts Receivable Relating to Uninsured Plans** — Receivables for amounts held under uninsured plans represents the costs incurred in excess of the cost reimbursement under the Medicare Part D program for the catastrophic reinsurance subsidy and the low-income member cost-sharing subsidy for the individual members. The Company is fully reimbursed by CMS for costs incurred for these contract elements, and accordingly, there is no insurance risk to the Company. Amounts received for these subsidies are received monthly and are not reflected as net premium income, but rather are accounted for as deposits. If the Company incurs costs in excess of these subsidies, a corresponding receivable is recorded in amounts receivable relating to uninsured plans in the statutory basis statements of admitted assets, liabilities, and capital and surplus. Related cash flows are presented within operating expenses paid within cash provided by (used in) operations in the statutory basis statements of cash flows. The Patient Protection and Affordable Care Act and its related legislation ("ACA") mandates consumer discounts of 50% on brand name prescription drugs for Part D plan participants in the CGDP. These discounts are pre-funded for the individual members by CMS, and ultimately reimbursed by pharmaceutical manufacturers. If the Company incurs costs in excess of the pre-funded amount, a corresponding receivable is recorded in amounts receivable relating to uninsured plans in the statutory basis statements of admitted assets, liabilities, and capital and surplus. Related cash flows are presented within operating expenses paid within cash provided by (used in) operations in the statutory basis statements of cash flows. The Company solely administers the application of these funds and has no insurance risk.

- **Net Deferred Tax Asset** — NAIC SAP provides for an amount to be recorded for deferred taxes on temporary differences between the financial reporting and tax bases of assets, subject to a valuation allowance and admissibility limitations on deferred tax assets (see Note 9). In addition, under NAIC SAP, the change in deferred tax assets is recorded directly to unassigned surplus in the statutory basis financial statements, whereas under GAAP, the change in deferred tax assets is recorded as a component of the income tax provision within the income statement and is based on the ultimate recoverability of the deferred tax assets. Based on the admissibility criteria under NAIC SAP, any deferred tax assets determined to be nonadmitted are charged directly to surplus and excluded from the statutory basis financial statements, whereas under GAAP, such assets are included in the balance sheet.

LIABILITIES

- **Claims Unpaid and Aggregate Health Reserves** — Claims unpaid and aggregate health reserves include claims processed but not yet paid, estimates for claims received but not yet processed, estimates for the costs of health care services enrollees have received but for which claims have not yet been submitted, and payments and liabilities for physician, hospital, and other medical costs disputes.

The estimates for incurred but not yet reported claims are developed using an actuarial process that is consistently applied, centrally controlled, and automated. The actuarial models consider factors such as historical submission and payment data, cost trends, customer and product mix, seasonality, utilization of health care services, contracted service rates, and other relevant factors. The Company estimates such liabilities for physician, hospital, and other medical cost disputes based upon an analysis of potential outcomes, assuming a combination of litigation and settlement strategies. These estimates may change as actuarial methods change or as underlying facts upon which estimates are based change. The Company did not change actuarial methods during 2015 and 2014. Management believes the amount of claims unpaid and aggregate health reserves is a best estimate of the Company's liability for unpaid claims and aggregate health reserves as of December 31, 2015; however, actual payments may differ from those established estimates.

The Company contracts with hospitals, physicians, and other providers of health care under capitated or discounted fee for service arrangements, including a hospital per diem to provide medical care services to enrollees. Some of these contracts are with related parties (see Note 10). Capitated providers are at risk for the cost of medical care services provided to the Company's enrollees; however, the Company is ultimately responsible for the provision of services to its enrollees should the capitated provider be unable to provide the contracted services.

- **Dental Risk Sharing** — The Company had an agreement with a third party administrator ("TPA") to provide dental and vision services to its members on a capitated basis which terminated on December 31, 2014. The agreement contains a dental risk share arrangement whereby the Company agrees to pay additional capitation to the TPA if the actual medical loss ratio ("MLR") exceeds an agreed upon targeted MLR. The TPA agrees to pay the Company excess capitation should the actual MLR fall below the targeted MLR. If the risk share results in a liability it is included in accrued medical incentive pool and bonus amounts in the statutory basis statements of admitted assets, liabilities, and capital and surplus, and the corresponding expense is included in incentive pool, withhold adjustments, and bonus amounts in the statutory basis statements of operations. If the risk share results in a receivable it is included in health care receivable in the statutory basis statements of admitted assets, liabilities, and capital and surplus, and the corresponding reduction to expense is included in other professional services in the statutory basis statements of operations.
- **Incentive Pool** — The Company has agreements with certain independent physicians and physician network organizations that provide for the establishment of a fund into which the Company places monthly premiums payable for members assigned to the physician. The Company manages the disbursement of funds from this account as well as reviews the utilization of nonprimary care medical services of members assigned to the physicians. Any surpluses in the fund are shared by the Company and the physician based upon predetermined risk-sharing percentage and the liability is included in accrued medical incentive pool and bonus amounts in the statutory basis statements of admitted assets, liabilities, and capital and surplus.
- **Reserve for Experience Rated Refunds** — The Company establishes a liability for estimated premium refunds on experience rated contracts based on actuarial methods and assumptions and minimum loss ratio requirements (see Note 24). Effective for 2014 and subsequent periods, the liability includes the estimated rebates payable on the Medicare products, if the medical loss ratios on fully insured products, as calculated under the definitions of the ACA (see Note 14) and implementing regulations, fall below certain targets. The Company is required to rebate the ratable portions of the premiums annually.

- **Medical Risk Corridor — Medicare Part D/Medicare Risk Adjustment Factor Estimate** —The Company has settlements with CMS based on whether the ultimate per member per month (“PMPM”) benefit costs of any Medicare Part D program plan varies more than 5% below the level estimated in the original bid submitted by the Company and approved by CMS in 2015 and 2014. The estimated risk corridor adjustment is recorded in aggregate health policy reserves in the statutory basis statements of admitted assets, liabilities, and capital and surplus. The Company has also established a payable for Medicare risk adjustment factor estimates according to the health severity and certain demographic factors of its enrollees which is included in aggregate health policy reserves and aggregate write-ins for other liabilities in 2015 and 2014, respectively, in the statutory basis statements of admitted assets, liabilities, and capital and surplus.
- **Premiums Received in Advance** — Premiums received in full during the current period that are not due until future periods are recorded as premiums received in advance in the statutory basis statements of admitted assets, liabilities, and capital and surplus.
- **General Expenses Due or Accrued** — General expenses that are due as of the reporting date in addition to general expenses that have been incurred but are not due until a subsequent period are reported as general expenses due or accrued in the statutory basis statements of admitted assets, liabilities, and capital and surplus.
- **Remittances and Items Not Allocated** — Remittances and items not allocated generally represent monies received from providers voluntarily returned for medical claim billings that have not been entered into the billing system.
- **Amounts Due to Parent, Subsidiaries, and Affiliates, Net** — In the normal course of business, the Company has various transactions with related parties (see Note 10). The Company reports any unsettled amounts owed as amounts due to parent, subsidiaries, and affiliates, net, in the statutory basis statements of admitted assets, liabilities, and capital and surplus.
- **Liability for Amounts Held under Uninsured Plans** —The ACA mandates consumer discounts of 50% on brand name prescription drugs for Part D plan participants in the CGDP. These discounts are pre-funded for the individual members by CMS, and ultimately reimbursed by pharmaceutical manufacturers. If the Company incurs costs less than the pre-funded amount, a corresponding liability is recorded in liability for amounts held under uninsured plans in the statutory basis statements of admitted assets, liabilities, and capital and surplus. Related cash flows are presented within operating expenses paid within cash provided by (used in) operations in the statutory basis statements of cash flows. The Company solely administers the application of these funds and has no insurance risk.

CAPITAL AND SURPLUS AND MINIMUM STATUTORY REQUIREMENTS

- **Nonadmitted Assets** — Certain assets, including certain aged premium receivables, certain amounts receivable relating to uninsured plans, certain health care receivables and certain components of the deferred tax assets are considered nonadmitted assets under NAIC SAP and are excluded from the statutory basis statements of admitted assets, liabilities, and capital and surplus and charged directly to unassigned surplus. Under GAAP, such assets are included in the balance sheet.
- **Restricted Cash Reserves** — The Company held regulatory deposits in the amount of \$4,222,981 and \$4,331,190 as of December 31, 2015 and 2014, respectively, in compliance with the various states requirements for qualification purposes as a domestic and foreign insurer. These restricted cash reserves consist principally of government obligations and are stated at amortized cost, which approximates fair value. These restricted deposits are included in bonds and short-term investments in the statutory basis statements of admitted assets, liabilities, and capital and surplus. Interest earned on these deposits accrues to the Company.
- **Minimum Capital and Surplus** — Under the laws of the State of Arkansas, the Department requires the Company to maintain a minimum capital and surplus equal to the greater of \$100,000 for the benefit of all policyholders and creditors in Arkansas or the company action level Risk-Based Capital (“RBC”) per the NAIC’s RBC calculation. The minimum capital and surplus requirement was \$196,204,818 and \$183,907,454, for December 31, 2015 and 2014, respectively, which was based on RBC, as that produced the highest minimum requirement. The Company is in compliance with the required amount.

RBC is a regulatory tool for measuring the minimum amount of capital appropriate for a managed care organization to support its overall business operations in consideration of its size and risk profile. The Department requires the Company to maintain minimum capital and surplus equal to the greater of the state statute as outlined above or the company action level as calculated by the RBC formula or the level needed to avoid action pursuant to the trend test in the RBC formula. The Company is in compliance with the required amount.

- **Aggregate Write-Ins for Special Surplus Funds** — The Company is subject to the Section 9010 ACA subsequent fee year assessment. Under NAIC SAP, an amount equal to the estimated subsequent year fee must be apportioned out of unassigned surplus and reported as aggregate write-ins for special surplus funds, in the statutory basis statements of admitted assets, liabilities, and capital and surplus, whereas under GAAP, no such special surplus designation is required.

STATEMENTS OF OPERATIONS

- **Net Premium Income and Change in Unearned Premium Reserves and Reserve for Rate Credits** — Revenues consist of net premium income that is recognized in the period in which enrollees are entitled to receive health care services. Net premium income is shown net of reinsurance premiums paid and incurred. The corresponding change in unearned premium from year to year is reflected as a change in unearned premium reserves and reserve for rate credits in the statutory basis statements of operations. Under GAAP, the change in unearned premium from year to year is reported through premium income.

Net premium income includes premium under the Medicare Advantage program which includes CMS premium and member premium. It also includes premium under the Medicare Part D program, which includes, CMS premium, member premium, and low-income premium subsidy for the Company's insurance risk coverage. Net premium income is recognized ratably over the period in which eligible individuals are entitled to receive health care services and prescription drug benefits.

Net premium income also includes amounts pursuant to the CMS risk adjustment program. The Company recognized \$8,934,922 and \$506,133 for changes in prior year Medicare risk factor estimates during the years ended December 31, 2015 and 2014, respectively, which is recorded as net premium income in the statutory basis statements of operations.

The Company also records estimates related to the CMS risk corridor program. Changes to these estimates are reflected as change in unearned premium reserves and reserve for rate credits in the statutory basis statements of operations.

Effective in 2014, Medicare Advantage plans and Part D prescription drug plans became subject to MLR requirements under the ACA. Plans with medical loss ratios that fall below certain targets are required to rebate ratable portions of premiums annually. The Company classifies its estimated rebates as change in unearned premium reserves and reserve for rate credits in the statutory basis statements of operations.

- **Total Hospital and Medical Expenses** — Total hospital and medical expenses include claims paid, claims processed but not yet paid, estimates for claims received but not yet processed, estimates for the costs of health care services enrollees have received but for which claims have not yet been submitted, and payments and liabilities for physician, hospital, and other medical costs disputes.

Total hospital and medical expenses also include amounts incurred for incentive pool, withhold adjustments, and bonus amounts that are based on the underlying contractual provisions with the respective providers. In addition, adjustments to claims unpaid estimates are reflected in the period once the change in estimate is identified and included in total hospital and medical expenses in the statutory basis statements of operations. For the year ending December 31, 2014, total hospital and medical expenses also include amounts incurred for other professional services for dental risk sharing that are based on the underlying contractual provisions.

- **General Administrative Expenses** — Pursuant to the terms of the management agreement (see Note 10), the Company pays a management fee to UHS in exchange for administrative and management services. Costs for items not included within the scope of the management agreement are directly expensed as incurred. State income taxes and premium taxes are also components of general administrative expenses. A detailed review of the administrative expenses of the Company and UHS is performed to determine the allocation between claims adjustment expenses and general administrative expenses to be reported in the statutory basis statements of operations.

The Company is subject to an annual fee under Section 9010 of the ACA. A health insurance entity's annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1, 2014. Under NAIC SAP, the entire amount of the estimated annual fee expense is recognized on January 1 of the fee year in general administrative expenses in the statutory basis statements of operations, whereas under GAAP, a deferred asset is created on January 1 of the fee year which is amortized to expense on a straight-line basis throughout the year.

- **Net Investment Income Earned** — Net investment income earned includes investment income collected during the period, as well as the change in investment income due and accrued on the Company's holdings. Amortization of premium or discount on bonds and certain external investment management costs are also included in net investment income earned (see Note 7).
- **Federal Income Taxes Incurred** — The provision for federal income taxes incurred is different from that which would be obtained by applying the statutory federal income tax rate of 35% to net income after capital gains and before all other federal income taxes primarily as a result of the annual health insurer fee under Section 9010 of the ACA that requires the Company to expense 100% of the estimated annual fee on January 1, of the fee year which is nondeductible for tax purposes.
- Comprehensive income and its components are not separately presented in the statutory basis financial statements, whereas under GAAP, it is a requirement to present comprehensive income and its components in the financial statements.

REINSURANCE

- **Reinsurance Ceded** — In the normal course of business, the Company seeks to limit its exposure to loss and to recover a portion of the benefits paid by ceding premium to other insurance enterprises under specific transfer of risk agreements. Effective September 1, 2015, the Company entered into a reinsurance agreement with Unimerica Insurance Company ("Unimerica"), an affiliate, through which a contractual PMPM rate of earned Medicare and Medicaid member premiums and 100% of obligations relating to human organ and bone marrow transplants and related services, infertility treatments and services, mental health and substance abuse treatments and services and chiropractic, physical and occupational therapy treatments and services for musculoskeletal conditions is ceded to the reinsurer (see Note 10). The Company remains primarily liable as the direct insurer on the risks reinsured. Reinsurance premiums are deducted from net premium income in the statutory basis financial statements. Pursuant to the reinsurance agreement, any amounts recoverable from the reinsurer for claims paid or estimates of claims incurred but not yet paid are recorded as amounts recoverable from reinsurers and as a reduction to claims unpaid, respectively, in the statutory basis statements of admitted assets, liabilities, and capital and surplus and as net reinsurance recoveries in the statutory basis statements of operations.
- **Ceded Reinsurance Premiums Payable** — The ceded reinsurance premiums payable balance represents amounts due to the reinsurer for coverage for mental health and substance abuse services, chiropractic, and physical and occupational therapy treatments, which will be paid based on the contract terms.

OTHER

- **Vulnerability Due to Certain Concentrations** — The Company is subject to substantial federal and state government regulation, including licensing and other requirements relating to the offering of the Company's existing products in new markets and offerings of new products, both of which may restrict the Company's ability to expand its business.

Direct premiums written and uncollected premiums, including risk adjustment factor receivables, from members and CMS related to Medicare Advantage and the Medicare Part D program as a percentage of total direct premiums written and total uncollected premiums, including risk adjustment factor receivables, are 100% as of December 31, 2015 and 2014, respectively.

Recently Issued Accounting Standards — The Company reviewed all recently issued guidance in 2014 and 2015 that has been adopted for 2015 or subsequent years' implementation and has determined that none of the items would have a significant impact to the statutory basis financial statements.

D. Going Concern

The Company has the ability to continue as a going concern and will continue to operate for a period of time sufficient to carry out its commitments, obligations and business objectives.

2. ACCOUNTING CHANGES AND CORRECTION OF ERRORS

No changes in accounting principles or correction of errors have been recorded during the years ended December 31, 2015 and 2014.

3. BUSINESS COMBINATIONS AND GOODWILL

A–D. The Company was not party to a business combination during the years ended December 31, 2015 and 2014, and does not carry goodwill in its statutory basis statements of admitted assets, liabilities, and capital and surplus.

4. DISCONTINUED OPERATIONS

A. Discontinued Operation Disposed of or Classified as Held for Sale

(1–5) The Company did not have any discontinued operations disposed of or classified as held for sale during 2015 and 2014.

B. Change in Plan of Sale of Discontinued Operation — Not applicable.

C. Nature of any Significant Continuing Involvement with Discontinued Operations after Disposal — Not applicable.

D. Equity Interest Retained in the Discontinued Operation after Disposal — Not applicable.

5. INVESTMENTS AND OTHER INVESTED ASSETS

For purposes of calculating gross realized gains and losses on sales of investments, the amortized cost of each investment sold is used. The gross realized gains and losses on sales of long-term investments were \$3,267,530 and \$65,391, respectively, for 2015 and \$1,757,573 and \$424,969, respectively, for 2014. The Company did not have any gross realized gains and losses on sales of short-term investments for 2015 and 2014. The net realized gain is included in net realized capital gains less capital gains tax in the statutory basis statements of operations. Total proceeds on the sale of long-term investments were \$220,058,493 and \$318,666,034 and for short-term investments were \$198,912,583 and \$562,007,048 in 2015 and 2014, respectively.

For the years to maturity table above, these securities have been presented in the maturity group based on the securities' final maturity date and at an amortized cost of \$62,605,604 and fair value of \$62,876,041.

The following table illustrates the fair value and gross unrealized holding losses, aggregated by investment category and length of time that the individual securities have been in a continuous unrealized loss position as of December 31, 2015 and 2014:

The unrealized losses on investments in U.S. government and agency securities, state and agency municipal securities, city and county municipal securities, and corporate debt securities at December 31, 2015 and 2014, were mainly caused by interest rate increases and not by unfavorable changes in the credit ratings associated with these securities. The Company evaluates impairment at each reporting period for each of the securities whereby the fair value of the investment is less than its amortized cost. The contractual cash flows of the U.S. government and agency obligations are guaranteed either by the U.S. government or an agency of the U.S. government. It is expected that the securities would not be settled at a price less than the cost of the investment, and the Company does not intend to sell the investment until the unrealized loss is fully recovered. The Company evaluated the credit ratings of the municipalities and local agency obligations and corporate obligations, noting whether a significant deterioration since purchase or other factors that may indicate an OTTI such as the length of time and extent to which fair value has been less than cost, the financial condition, and near-term prospects of the issuer as well as specific events or circumstances that may influence the operations of the issuer and the Company's intent to sell the investment. Additionally, the Company evaluated its intent and ability to retain loan-backed securities for a period of time sufficient to recover the amortized cost. As a result of these reviews, the Company recorded OTTI of \$321,495 and \$0 as of December 31, 2015 and 2014, respectively, which are included in net realized capital gains less capital gains tax in the statutory basis statements of operations.

A–C. The Company has no mortgage loans, real estate loans, restructured debt, or reverse mortgages. The Company also has no real estate property occupied by the Company, real estate property held for the production of income, or real estate property held for sale.

D. Loan-Backed Securities

- (1) U.S. government and agency securities and corporate debt securities include loan-backed securities, which are valued using the retrospective adjustment methodology. Prepayment assumptions for the determination of the amortized cost of loan-backed securities are based on a three-month constant prepayment rate history obtained from external data source vendors.
- (2) The Company did not recognize any OTTI on loan-backed securities as of December 31, 2015 and 2014.
- (3) The Company did not have any loan-backed securities with an OTTI to report by CUSIP as of December 31, 2015 or 2014.

For these losses, the Company receives a benefit at the federal rate in the current year for current taxable losses incurred in that year to the extent losses can be utilized in the consolidated federal income tax return of UnitedHealth Group. The IRS has completed exams on UnitedHealth Group's consolidated income tax returns for fiscal years 2014 and prior. UnitedHealth Group's 2015 tax return is under advance review by the IRS under its Compliance Assurance Program. With the exception of a few states, UnitedHealth Group is no longer subject to income tax examinations prior to 2008 in major state and foreign jurisdictions. For taxable periods ending on or prior to February 8, 2012, the Company's federal taxable income was included in a federal consolidated tax return with XLHealth and its eligible subsidiaries. The Company does not believe any adjustments that may result from these examinations will be material to the Company.

A–I. The Company has no defined benefit plans, defined contribution plans, multiemployer plans, consolidated/holding company plans, postemployment benefits, or compensated absences plans and is not impacted by the Medicare Modernization Act on postretirement benefits, since all personnel are employees of UHS, which provides services to the Company under the terms of the Agreement (see Note 10).

- (5) The amount of ordinary dividends that may be paid out during any given period is subject to certain restrictions as specified by state statute.
- (6) There are no restrictions placed on the Company's unassigned surplus.
- (7) The Company is not a mutual reciprocal or a similarly organized entity and does not have advances to surplus not repaid.
- (8) The Company does not hold any stock, including stock of affiliated companies for special purposes, such as conversion of preferred stock, employee stock options, or stock purchase warrants.

- (11–13) The Company does not have any outstanding surplus notes and has never been a party to a quasi-reorganization.

14. LIABILITIES, CONTINGENCIES AND ASSESSMENTS

A. Contingent Commitments

The Company has no contingent commitments.

B. Assessments

The Company is not aware of any guarantee fund assessments or premium tax offsets, potential or accrued, that could have a material financial effect on the operations of the entity.

C. Gain Contingencies

The Company is not aware of any gain contingencies that should be disclosed in the statutory basis financial statements.

D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming from Lawsuits — Not applicable.

E. Joint and Several Liabilities — Not applicable.

F. All Other Contingences

Because of the nature of its businesses, the Company is frequently made party to a variety of legal actions and regulatory inquiries, including class actions and suits brought by members, care providers, consumer advocacy organizations, customers and regulators, relating to the Company's businesses, including management and administration of health benefit plans and other services.

The Company records liabilities for its estimates of probable costs resulting from these matters where appropriate. Estimates of costs resulting from legal and regulatory matters involving the Company are inherently difficult to predict, particularly where the matters: involve indeterminate claims for monetary damages or may involve fines, penalties or punitive damages; present novel legal theories or represent a shift in regulatory policy; involve a large number of claimants or regulatory bodies; are in the early stages of the proceedings; or could result in a change in business practices. Accordingly, the Company is often unable to estimate the losses or ranges of losses for those matters where there is a reasonable possibility or it is probable that a loss may be incurred. Although the outcomes of any such legal actions cannot be predicted, in the opinion of management, the resolution of any currently pending or threatened actions will not have a material adverse effect on the statutory basis statements of admitted assets, liabilities, and capital and surplus or statutory basis statements of operations of the Company.

The Company's business is regulated at the federal, state, and local levels. The laws and rules governing the Company's business and interpretations of those laws and rules are subject to frequent change. Broad latitude is given to the agencies administering those regulations. Further, the Company must obtain and maintain regulatory approvals to market and sell many of its products.

The Company has been, or is currently involved in various governmental investigations, audits and reviews. These include routine, regular and special investigations, audits and reviews by CMS, state insurance and health and welfare departments and other governmental authorities. Certain of the Company's businesses have been reviewed or are currently under review, for reasons including compliance with coding and other requirements under the Medicare risk-adjustment model.

Risk Adjustment Data Validation ("RADV") Audit — CMS adjusts capitation payments to Medicare Advantage plans and Medicare Part D plans according to the predicted health status of each beneficiary as supported by data from health care providers. The Company collects claim and encounter data from providers who the Company generally relies on to appropriately code their claim submissions and document their medical records. CMS then determines the risk score and payment amount for each enrolled member based on the health care data submitted and member demographic information.

CMS and the Office of Inspector General for Health and Human Services periodically perform RADV audits of selected Medicare health plans to validate the coding practices of and supporting documentation maintained by health care providers. Such audits have in the past resulted in, and in the future could result in, retrospective adjustments to payments made to the Company, fines, corrective action plans or other adverse action by CMS.

In February 2012, CMS announced a final RADV and payment adjustment methodology audit. It will conduct the RADV audits beginning with the 2011 payment year. These audits involve a review of medical records maintained by care providers and may result in retrospective adjustments to payments made to health plans. CMS has not communicated how the final payment adjustment under its methodology will be implemented.

The ACA and the related federal and state regulations will continue to impact how the Company does business and could restrict revenue and enrollment growth in certain products and market segments, restrict premium growth rates for certain products and market segments, increase the Company's medical and administrative costs, expose the Company to an increased risk of liability (including increasing the Company's liability in federal and state courts for coverage determinations and contract interpretation), or put the Company at risk for loss of business. In addition, the Company's statutory basis results of operations, financial condition, and cash flows could be materially adversely affected by such changes. The ACA may create new or expand existing opportunities for business growth, but due to its complexity, the long term impact of the ACA remains difficult to predict and is not yet fully known.

The Company routinely evaluates the collectability of all receivable amounts included within the statutory basis statements of admitted assets, liabilities, and capital and surplus. Impairment reserves are established for those amounts where collectability is uncertain. Based on the Company's past experience, exposure related to uncollectible balances and the potential of loss for those balances not currently reserved for is not material to the Company's statutory basis financial condition.

There are no assets that the Company considers to be impaired at December 31, 2015 and 2014, except as disclosed in Note 5.

15. LEASES

A–B. According to the management agreement between the Company and UHS (see Note 10), operating leases for the rental of office facilities and equipment are the responsibility of UHS. Fees associated with the lease agreements are included as a component of the Company's management fee.

16. INFORMATION ABOUT FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK AND FINANCIAL INSTRUMENTS WITH CONCENTRATIONS OF CREDIT RISK

(1–4) The Company does not hold any financial instruments with off-balance-sheet risk or concentrations of credit risk.

17. SALE, TRANSFER, AND SERVICING OF FINANCIAL ASSETS AND EXTINGUISHMENTS OF LIABILITIES

A–C. The Company did not participate in any transfer of receivables, financial assets, or wash sales.

18. GAIN OR LOSS TO THE REPORTING ENTITY FROM UNINSURED PLANS AND THE UNINSURED PORTION OF PARTIALLY INSURED PLANS

A–B. The Company has no operations from Administrative Services Only Contracts or Administrative Services Contracts in 2015 and 2014.

C. Medicare or Other Similarly Structured Cost Based Reimbursement Contract

The Medicare Part D program is a partially insured plan. The Company recorded a receivable of \$101,717,299 and \$58,009,718 at December 31, 2015 and 2014, respectively, for cost reimbursements under the Medicare Part D program for the catastrophic reinsurance and low-income member cost-sharing subsidies as described in Note 1, *Amounts Receivable Relating to Uninsured Plans and Liability for Amounts Held Under Uninsured Plans*. The Company also recorded a receivable of \$4,747,084 and \$7,790,153 and also a payable of \$148,080 and \$5,641,198 at December 31, 2015 and 2014, respectively, for the Medicare Part D Coverage Gap Discount Program as described in Note 1, *Amounts Receivable Relating to Uninsured Plans and Liability for Amounts Held Under Uninsured Plans*.

19. DIRECT PREMIUM WRITTEN/PRODUCED BY MANAGING GENERAL AGENTS/THIRD-PARTY ADMINISTRATORS

The Company did not have any direct premiums written or produced by managing general agents or third-party administrators in 2015 and 2014.

20. FAIR VALUE MEASUREMENT

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1—Quoted (unadjusted) prices for identical assets in active markets.

Level 2—Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.);
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.);
- Inputs that are derived principally from or corroborated by other observable market data.

Level 3—Unobservable inputs that cannot be corroborated by observable market data.

The estimated fair values of bonds and short-term investments are based on quoted market prices, where available. The Company obtains one price for each security primarily from a third-party pricing service ("pricing service"), which generally uses quoted prices or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, making adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, non-binding broker quotes, benchmark yields, credit spreads, default rates, and prepayment speeds. As the Company is responsible for the determination of fair value, it performs quarterly analyses on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source, prices reported by its custodian, its investment consultant, and third-party investment advisors. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to test the reasonableness of the reported prices. The Company's internal price verification procedures and review of fair value methodology documentation provided by independent pricing services have not historically resulted in an adjustment in the prices obtained from the pricing service.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest-level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

A. Fair Value

(1) Fair Value Measurements at Reporting Date

The Company does not have financial assets measured and reported at fair value at December 31, 2014. The following table presents information about the Company's financial assets that are measured and reported at fair value at December 31, 2015 in the statutory basis statements of admitted assets, liabilities, and capital and surplus according to the valuation techniques the Company used to determine their fair values:

There were no transfers between Levels 1 and 2 during the years ended December 31, 2015 and 2014.

- (2) The Company does not have any financial assets with a fair value hierarchy of Level 3 that were measured and reported at fair value.
- (3) Transfers between fair value hierarchy levels, if any, are recorded as of the beginning of the reporting period in which the transfer occurs. There were no transfers between Levels 1, 2 or 3 of any financial assets or liabilities during the years ended December 31, 2015 or 2014.
- (4) **Investments** — Fair values of debt securities are based on quoted market prices, where available. The Company obtains one price for each security primarily from a third-party pricing service (“pricing service”), which generally uses quoted prices or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, and, if necessary, makes adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, benchmark yields, credit spreads, default rates, prepayment speeds and non-binding broker quotes. As the Company is responsible for the determination of fair value, it performs quarterly analyses on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to prices reported by a secondary pricing source, such as its custodian, its investment consultant and third-party investment advisors. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to test the reasonableness of the reported prices. The Company’s internal price verification procedures and reviews of fair value methodology documentation provided by independent pricing services have not historically resulted in adjustment in the prices obtained from the pricing service.
- (5) The Company has no derivative assets and liabilities to disclose.

B. Fair Value Combination — Not applicable.

D. Not Practicable to Estimate Fair Value — Not applicable.

21. OTHER ITEMS

On June 30, 2015, the NAIC provided clarifying guidance for the reporting of contracts subject to redetermination. The NAIC has concluded that contracts subject to redetermination should be reported as a component of premiums and considerations if in a receivable position and as a component of aggregate health policy reserves if in a payable position, in the statutory basis statements of admitted assets, liabilities, and capital and surplus. This change in presentation is effective for year end 2015 and subsequent reporting periods. The prior year balances were not restated to conform to the current year presentation. Prior year balances for Medicare risk adjustment receivables were presented as a component of uncollected premiums in the statutory basis statements of admitted assets, liabilities, and capital and surplus.

- A. The Company did not encounter any unusual or infrequent items for the years ended December 31, 2015 or 2014.
- B. The Company has no troubled debt restructurings as of December 31, 2015 or 2014.
- C. The Company does not have any amounts not recorded in the statutory basis financial statements that represent segregated funds held for others. The Company also does not have any exposures related to forward commitments that are not derivative instruments.
- D. The Company has not received any business interruption insurance recoveries during 2015 and 2014.
- E. The Company has no transferrable or non-transferable state tax credits.
- F. **Sub-Prime Mortgage-Related Risk Exposure**
 - (1) The investment policy for the Company limits investments in loan-backed securities, which includes sub-prime issuers. Further, the policy limits investments in private-issuer mortgage securities to 10% of the portfolio, which also includes sub-prime issuers. The exposure to unrealized losses on sub-prime issuers is due to changes in market prices. There are no realized losses due to not receiving anticipated cash flows. The investments covered are rated NAIC rating of 1 or 2.
 - (2) The Company has no direct exposure through investments in sub-prime mortgage loans.
 - (3) The Company has no direct exposure through other investments.
 - (4) The Company has no underwriting exposure to sub-prime mortgage risk through mortgage guaranty or financial guaranty insurance coverage.
- G. The Company does not have any retained asset accounts for beneficiaries.
- H. As of December 31, 2015, the Company is not aware of any possible proceeds of insurance-linked securities.

22. EVENTS SUBSEQUENT

Subsequent events have been evaluated through February 29, 2016, which is the date these statutory basis financial statements were available for issuance.

TYPE I — Recognized Subsequent Events

There are no events subsequent to December 31, 2015, that require recognition and disclosure.

TYPE II — Non-Recognized Subsequent Events

The Company is subject to the annual fee under Section 9010 of the ACA. This annual fee is allocated to individual health insurers based on the ratio of the amount of the entity's net premiums written during the preceding calendar year to the amount of the health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity's portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1, of the year the fee is due. As of December 31, 2015, the Company has written health insurance subject to the ACA assessment, expects to conduct health insurance business in 2016, and estimates its portion of the annual health insurance industry fee payable on September 30, 2016 to be \$59,091,827. This amount is reflected in aggregate write-ins for special surplus funds. The Company's Authorized Control Level RBC ("ACL RBC") ratio was 321% as of December 31, 2015. Reporting the ACA assessment as a liability as of December 31, 2015 would not have triggered an RBC action level.

	Current Year	Prior Year
A. Did the reporting entity write accident and health insurance premium that is subject to Section 9010 of the Federal Affordable Care Act (YES/NO)?	<u>Yes</u>	
B. ACA fee assessment payable for the upcoming year	\$ 59,091,827	\$ 57,667,079
C. ACA fee assessment paid	57,607,559	36,705,819
D. Premium written subject to ACA 9010 assessment	3,323,004,592	3,010,608,735
E. Total Adjusted Capital before surplus adjustment (Five-Year Historical Line 14)	315,151,737	
F. Total Adjusted Capital after surplus adjustment (Five-Year Historical Line 14 minus 22B above)	256,059,910	
G. Authorized Control Level (Five-Year Historical Line 15)	98,102,409	
H. Would reporting the ACA assessment as of December 31, 2015, have triggered an RBC action level (YES/NO)?	<u>No</u>	

The Company has entered into a home infusion therapy service agreement with an affiliated entity, AxelaCare Intermediate Holdings, LLC, with services commenced effective February 1, 2016. This agreement has been approved by the Department. The Company does not anticipate this change will have a significant impact on the statutory basis financial statements.

There are no other events subsequent to December 31, 2015 that require disclosure.

23. REINSURANCE

The Company does not have any unaffiliated reinsurance agreements in place as of December 31, 2015 or 2014.

Reinsurance Agreements — In the normal course of business, the Company seeks to reduce potential losses that may arise from catastrophic events that cause unfavorable underwriting results by reinsuring certain levels of such risk with affiliated (see Note 10) reinsurers. The Company remains primarily liable as the direct insurer on all risks reinsured.

A. Ceded Reinsurance Report

Section 1 — General Interrogatories

- (1) Are any of the reinsurers, listed in Schedule S as non-affiliated, owned in excess of 10% or controlled, either directly or indirectly, by the Company or by any representative, officer, trustee, or director of the Company?

Yes () No (X)

- (2) Have any policies issued by the Company been reinsured with a company chartered in a country other than the United States (excluding U.S. branches of such companies) that is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor, or any other person not primarily engaged in the insurance business?

Yes () No (X)

Section 2 — Ceded Reinsurance Report — Part A

- (1) Does the Company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credit?

Yes () No (X)

- (2) Does the reporting entity have any reinsurance agreements in effect that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies?

Yes () No (X)

Section 3 — Ceded Reinsurance Report — Part B

- (1) What is the estimated amount of the aggregate reduction in surplus (for agreements other than those under which the reinsurer may unilaterally cancel for reasons other than for nonpayment of premium or other similar credits that are reflected in Section 2 above) of termination of all reinsurance agreements, by either party, as of the date of this statement? Where necessary, the Company may consider the current or anticipated experience of the business reinsured in making this estimate.

The Company estimates there should be no aggregate reduction in surplus for termination of all reinsurance agreements as of December 31, 2015.

- (2) Have any new agreements been executed or existing agreements amended, since January 1 of the year of this statement, to include policies or contracts that were in force or which had existing reserves established by the Company as of the effective date of the agreement?

Yes () No (X)

B. Uncollectible Reinsurance — During 2015 and 2014, there were no uncollectible reinsurance recoverables.

C. Commutation of Ceded Reinsurance — There was no commutation of reinsurance in 2015 or 2014.

D. Certified Reinsurer Rating Downgraded or Status Subject to Revocation — Not applicable.

24. RETROSPECTIVELY RATED CONTRACTS AND CONTRACTS SUBJECT TO REDETERMINATION

- A.** The Company estimates accrued retrospective premium adjustments for its group health insurance business based on mathematical calculations in accordance with contractual terms.
- B.** Estimated accrued retrospective premiums due to (from) the Company are recorded in aggregate health policy reserves in the statutory basis statements of admitted assets, liabilities, and capital and surplus and as an adjustment to change in unearned premium reserves and reserve for rate credits in the statutory basis statements of operations.
- C.** The Company has Medicare Part D risk-corridor amounts from CMS which are subject to a retrospectively rated feature related to Part D premiums. The Company has estimated accrued retrospective premiums related to certain Part D premiums based on guidelines determined by CMS. The formula is tiered and based on the bid MLR. The amount of Medicare Part D direct premiums written subject to this retrospectively rated feature was \$229,055,999 and \$240,615,894 representing, 100% and 100% of total direct premiums written for 2015 and 2014, respectively.

The Company has risk-adjustment amounts from CMS which are subject to a redetermination feature related to Medicare premiums. The Company has estimated premium adjustments for changes to each member's health scores based on guidelines determined by CMS. The total amount of Medicare direct premiums written for which a portion is subject to redetermination features were \$3,311,012,114 and \$2,978,264,143 representing, 100% of total direct premiums written for 2015 and 2014, respectively.

- D.** The Company does not have comprehensive commercial business subject to specific minimum loss ratio requirements as of December 31, 2015 and 2014. The Company is required to maintain a specific minimum loss ratio on the Medicare line of business. The Company's actual loss ratio on the Medicare line of business was in excess of the minimum requirements and as a result, no minimum MLR rebate liability was required to be established at December 31, 2015 and 2014.

E. Risk-Sharing Provisions of the Affordable Care Act

- (1–3) The Company did not write accident and health premiums in 2015 and 2014 subject to the risk-sharing provisions of the ACA

25. CHANGE IN INCURRED CLAIMS AND CLAIMS ADJUSTMENT EXPENSES

Changes in estimates related to the prior year incurred claims are included in total hospital and medical expenses in the current year in the statutory basis statements of operations. The following tables disclose paid claims, incurred claims, and the balance in the claims unpaid, accrued medical incentive pool and bonus amounts, aggregate health claim reserves, and health care receivable for the years ended December 31, 2015 and 2014:

	2015

The liability for claims unpaid, accrued medical incentive pool and bonus amounts, aggregate health claim reserves, net of health care receivable as of December 31, 2014 was \$92,176,407. As of December 31, 2015 \$155,403,668 has been paid for incurred claims attributable to insured events of prior years. Reserves remaining for prior years, net of health care receivable are now (\$15,485,512), as a result of re-estimation of unpaid claims. Therefore, there has been (\$47,741,749) unfavorable prior year development since December 31, 2014 to December 31, 2015. The primary drivers consist of unfavorable development of (\$55,784,236) in retroactivity for inpatient, outpatient, physician, and pharmacy claims offset by favorable development as a result of a change in the provision for adverse deviations in experience of \$11,374,499. The unfavorable development was materially impacted by a higher than anticipated decline in the amount of actual and estimated retracted claims. At December 31, 2014, the Company recorded \$11,244,396 of favorable development related to favorable development as a result of a change in the provision for adverse deviations in experience of \$9,985,206, favorable development of pharmacy rebates, net of Part D, of \$5,798,619, and favorable development from provider settlements of \$2,937,011, offset by unfavorable development of (\$6,747,733) in retroactivity for inpatient, outpatient, physician, and pharmacy claims. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. Included in this (unfavorable) favorable development is the impact related to retrospectively rated policies. As a result of the prior year effects, on a regular basis, the Company adjusts revenue and the corresponding liability and/or receivable related to retrospectively rated policies and the impact of the change is included as a component of change in unearned premium reserves and reserve for rate credits in the statutory basis statements of operations.

The Company incurred claims adjustment expenses of \$142,305,460 and \$120,377,102 in 2015 and 2014, respectively. These costs are included in the management service fees paid by the Company to UHS as a part of its management agreement (see Note 10). The following tables disclose paid CAE, incurred CAE, and the balance in the unpaid claim adjustment expenses reserve for 2015 and 2014:

	2015	2014
Total claims adjustment expenses	\$ 142,305,460	\$ 120,377,102
Less current year unpaid claims adjustment expenses	(3,555,613)	(1,900,801)
Add prior year unpaid claims adjustment expenses	<u>1,900,801</u>	<u>3,277,977</u>
Total claims adjustment expenses paid	<u>\$ 140,650,648</u>	<u>\$ 121,754,278</u>

In 2014 the amount of CAE incurred was overstated by \$18,092,816 as a result of mis-identification of expenses as CAE. The offset was to general administrative expenses and there was no impact to net underwriting gains as a result of the overstatement. As a result, no correction of error was recorded in 2015, and the amounts were not reclassified on the annual statement prior year column.

26. INTERCOMPANY POOLING ARRANGEMENTS

A–G. The Company did not have any intercompany pooling arrangements in 2015 or 2014.

27. STRUCTURED SETTLEMENTS

A–B. The Company did not have structured settlements in 2015 or 2014.

28. HEALTH CARE AND OTHER AMOUNTS RECEIVABLE

A. Pharmacy rebates receivable are recorded when reasonably estimated or billed by the affiliated pharmaceutical benefit manager in accordance with pharmaceutical rebate contract provisions. Information used to support rebates billed to the manufacturer is based on utilization information gathered by the pharmaceutical benefit manager and adjusted for significant changes in pharmaceutical contract provisions.

The Company evaluates admissibility of all pharmacy rebates receivable based on the administration of each underlying pharmaceutical benefit management agreement. The Company has nonadmitted all pharmacy rebates receivable that do not meet the admissibility criteria of SSAP No. 84, *Certain Health Care Receivables and Receivables under Government Insured Plans* (“SSAP No. 84”) from the statutory basis statements of admitted assets, liabilities, and capital and surplus.

For each pharmaceutical management agreement for which a portion of the total pharmacy rebates receivable can be admitted based on the admissibility criteria of SSAP No. 84, the transaction of pharmacy rebate history is summarized as follows:

Quarter	Estimated Pharmacy Rebates as Reported on Financial Statements	Pharmacy Rebates as Billed or Otherwise Confirmed	Actual Rebates Received within 90 Days of Billing	Actual Rebates Received within 91 to 180 Days of Billing	Actual Rebates Received More than 180 Days after Billing

3/31/2014	38,189,497	38,032,673	30,964,830	6,133,201	739,364
12/31/2013	19,404,499	24,948,821	26,030,560	-	-
9/30/2013	19,094,866	11,859,407	11,859,407	-	12,850,204
6/30/2013	18,205,256	9,385,577	9,385,577	-	8,706,895
3/31/2013	9,759,802	9,763,314	9,763,314	-	5,491,391

Of the amount reported as health care receivable, \$103,719,598 and \$69,803,020 relates to pharmacy rebates receivable as of December 31, 2015 and 2014, respectively. This increase is primarily due to increased membership along with the change in generic/name brand mix.

B. The Company estimates risk-sharing receivables based on the contractual terms.

The following table summarizes the collection history of risk-sharing receivables that meet the admissibility criteria of SSAP No. 84:

Calendar Year	Evaluation Period Year Ending	Risk Sharing Receivable as Estimated in the Prior Year	Risk Sharing Receivable as Estimated in the Current Year	Risk Sharing Receivable Billed	Risk Sharing Receivable Not Yet Billed	Actual Risk Sharing Amounts Received in Year Billed	Actual Risk Sharing Amounts Received First Year Subsequent	Actual Risk Sharing Amounts Received Second Year Subsequent	Actual Risk Sharing Amounts Received—All Other
2015	2015 2016	\$ - XXX	\$ - -	\$ - XXX	\$ - XXX	\$ - XXX	\$ - XXX	\$ - -	\$ - -
2014	2014 2015	1,770,164 XXX	- -	1,823,815 XXX	- XXX	1,823,815 XXX	- XXX	- XXX	- XXX

The Company also admitted \$1,197,138 and \$1,652,293 for claim overpayment receivables due from providers in 2015 and 2014, respectively, which are included in health care receivable in the statutory basis statements of admitted assets, liabilities, and capital and surplus.
