Company justification for requested change

According to the company's filing, the following components make up its rate request:

"In general, the factors that drove the proposed 7.80% rate change has been in large part the utilization and cost trend of this block of business which was determined to be 8.64% of allowed claims overall annually. Also, the actual experience for 2016 came in higher than what was expected. We had projected a loss ratio for 2016 of 83.34%, whereas actual experience resulted in a loss ratio of 96.62%. This worse-than-expected experience lead to higher projected claims for 2017 and 2018."
